CITY OF BOSTON PRINTING DEPARTMENT

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JANUARY 6, 1934. NO. 1

HON. FREDERICK W. MANSFIELD TAKES OFFICE AS BOSTON'S FORTIETH MAYOR AMID SCENES THAT CHEER BOSTON AND FILL HER CITIZENS WITH HOPE FOR FUTURE—OUTLINES HIS PROGRAM FOR RESTORING CITY TO PROSPERITY AND HAPPINESS IN ADDRESS THAT WARMS HEARTS OF ALL WHO HEAR HIM—SQUARE DEAL IN NEW DEAL IS KEYNOTE SOUNDED AS HE ASKS FOR COOPERATION FROM ALL CITIZENS OF THE GREAT METROPOLIS.

The Inaugural address of Hon. Frederick W. Mansfield at the Symphony Hall exercises was as follows:

It is with a very grave realization of the responsibilities resting upon the chief magistrate of our beloved city that I approach the duties which the people of Boston have placed upon me in electing me to be their Mayor. Even in times of apparently assured prosperity and of lavish expenditure those responsibilities are always great. But in such times as we are passing through at the moment, the burdens resting upon the mayor of any large city are many times multiplied.

It is unnecessary for me to call attention to the troubled state of affairs not only in Boston and in our nation, but throughout the entire world. All civilized nations are wrestling with problems of government. Never in the long history of Boston has the prospect seemed more gloomy nor the outcome more doubtful.

Aside from those conditions which are general throughout the country, the citizens of Boston know well that there are local conditions which are peculiar to Boston but not of their own making. The new administration must take over these conditions, — a heritage from my predecessors — resulting from long years of extravagance and lavish expenditure and from an apparent assumption that the ordinary rules of prudence in conducting business affairs of importance did not apply to the City of Boston.

THE FINANCIAL CONDITION OF THE CITY.

Almost every mayor who has been inaugurated within recent years has referred to the financial condition of Boston. A perusal of their inaugural speeches shows that the apparently always alarming condition of Boston's finances has been a favorite theme of incoming mayors. But when the financial condition of the city in those other years is compared to that which exists today as I assume the burdens of this great office, it is evident that most of those former references were more rhetorical than real, and that the incoming administration will be faced with more trying and difficult problems than any other in Boston's history.

THE CASH DEFICIT.

The new administration assumes office under extremely critical conditions. As of the end of 1933, Boston's cash deficit or the shortage in the cash operations of the city, will probably be found to be in the vicinity of $15,000,000, an all-time peak in the history of the city. Uncollected taxes may amount to about $25,000,000, which is also far in excess of any previous year.

While these uncollected taxes exceed the cash deficit, there is small consolation in this fact. In recent years the cash deficit and uncollected taxes have been increasing, and they have created progressively greater difficulty in financing the city's requirements. (*Continued on page 4.*)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

HON. FREDERICK W. MANSFIELD INDUCTED INTO OFFICE AS BOSTON'S FORTIETH MAYOR WITH SIMPLE BUT IMPRESSIVE SERVICES AT SYMPHONY HALL ON NEW YEAR'S DAY. HOSTS OF HIS FRIENDS GATHER TO WITNESS CEREMONIES AND TO WISH HIS ADMINISTRATION SUCCESS AS WELL AS PLEDGE COOPERATION.

Simple, and in keeping with the custom, Hon. Frederick W. Mansfield, on Monday morning, January 1' was inducted into office as Boston's fortieth Mayor. The ceremonies were witnessed by a host of friends who jammed Symphony Hall for the exercises.

Distinguished citizens, including Boston's former Mayors, and citizens in the ordinary walks of life joined with the new Mayor's family in making the occasion one of pleasure to be remembered, each one happy to wish the new administration well and manifesting by their presence and applause that they were ready and willing to cooperate to the fullest in making Mayor Mansfield's administration one to be remembered as long as the city existed.

Music was furnished by John A. O'Shea at the organ, by members of the People's Symphony orchestra directed by Fabien Sevitzky, and Maria Koussevitzky, soloist, in private life Mrs. Sevitzky.

Participants in the inaugural exercises were the Rev. Fr. John E. O'Connell, pastor of St. John's and St. Hugh's Churches, Roxbury, where the Mayor worships; Chief Justice Arthur P. Rugg of the Supreme Judicial Court, who administered the oath of office to the Mayor, and City Clerk Wilfred J. Doyle, who read the certificates of election of the Mayor and councilors. The new Mayor swore in the twenty-two councilors.

Members of the City Council attending and sworn in were: Henry Selvitella, Ward 1; Thomas H. Green, Ward 2; John I. Fitzgerald, Ward 3; George W. Roberts, Ward 4; Henry L. Shattuck, Ward 5; George P. Donovan, Ward 6; John E. Kerrigan, Ward 7; John F. Dowd, Ward 8; Richard D. Gleason, Ward 9; John J. Doherty, Ward 10; Edward L. Englert, Ward 11; David M. Brackman, Ward 12; Joseph McGrath, Ward 13; Maurice M. Goldman, Ward 14; Martin H. Tobin, Ward 15; Albert L. Fish, Ward 16; Robert G. Wilson, Jr., Ward 17; Clement A. Norton, Ward 18; Peter A. Murray, Ward 19; James F. Finley, Ward 20; James E. Agnew, Ward 21; Edward M. Gallagher, Ward 22.

Voted, That the order of the Street Commissioners and Mayor of June 2. 1933, determining damages caused by the making of the public improvement, consisting of the laying out of Perthshire road, be, and the same hereby is, amended, by striking from said order the amount $500 awarded to Florence Crittenton League of Compassion in said order and inserting in place thereof the amount $1,750; that the amount $1,750 be, and the same hereby is, awarded to Florence Crittenton League of Compassion for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of February 3, 1931, determining damages caused by the making of the public improvement, consisting of the widening and relocation of Preble street, be, and the same hereby is, amended, by striking from said order the amount $6,000 awarded to Fred Krawec in said order and inserting in place thereof the amount $7,000; that the amount $7,000 be, and the same hereby is, awarded to Fred Krawec for the damages so sustained.

EXECUTIVE ORDER.

CITY OF BOSTON,
MAYOR'S OFFICE, January 2, 1934.

By virtue of the authority granted to me by the provisions of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three, I, as Mayor of the City of Boston, do hereby order and direct that the reductions in the salary of every office and position, the salary of which is paid from the treasury of the City of Boston in whole or in part, made pursuant to the provisions of section three of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three, be, and hereby are, continued in effect for the calendar year nineteen hundred and thirty-four.

By order of

FREDERICK W. MANSFIELD,
Mayor.

MAYOR'S INAUGURAL ADDRESS.

(*Continued from page 1.*)

The immediate problem facing the new administration is to maintain the solvency of the city and to guard against defaults on any of its obligations, both to city employees and to private creditors. In order to finance the city's requirements until 1934 taxes are paid next fall, it will be necessary to negotiate tax anticipation loans of many millions of dollars, under money market conditions which are far from auspicious. Whether we like this situation or not, it is a condition which we must face. We must act quickly and decisively to make certain that these loans can be negotiated and paid at maturity. We must put our financial house in order, keep our current expenditures within reasonably expected income, and reduce tax delinquency by every proper method.

THE TAX RATE.

In 1932, the tax rate was $35.50. A reduction to $32.80 was effected in 1933, but this figure did not represent the true state of affairs. The reduction of $2.70 was far more than accounted for by two loans and a grant,— a municipal relief loan of $3,500,000, a welfare department loan of $3,800,000, and a federal welfare grant of $1,994,000, or a total of $9,292,000. By means of these special financing methods, a temporary tax rate reduction was obtained. Without them the 1933 tax rate would have been higher than the rate for 1932.

A number of factors, beyond the control of the incoming administration, darken the tax rate picture in 1934. There is no assurance or promise of federal grants in 1934, and no one can now prophesy what the future policy of the Legislature will be with reference to further loans. Without further grants or loans, the tax rate will be increased substantially. In addition, the city must now commence the five-year task of meeting the interest and principal of 1933 loans. There is also a probability of an increase in the state tax assessed on municipalities and of an increase in the requirements for purchases and contracts, due to advanced prices.

Of course, it is impossible to forecast at the present moment with any accuracy what the tax rate for 1934 will be, but weighing the favorable and unfavorable factors as they are now apparent, the result points to an increase of not less than three to four dollars over the 1933 rate of $32.80. The increase may be even greater, because of factors which the incoming administration will be helpless to prevent, and powerless to avoid.

It is not my intention to accept a tax rate increase without great effort to prevent it. I shall undertake every proper method at the city's disposal to keep the tax rate at the lowest possible figure. Non-welfare expenditures can be cut down; this will be done.

Welfare expenditures are, of course, too definitely bound up with economic trends all over the nation to permit any definite promise.

I want to practice broad and reasonable economy. I do not want to cause distress among any groups of our people or, in the absence of controlling necessity, to withdraw from them services to which they have become accustomed and which are helpful to them. The strictest and narrowest economy is not a part of my program, for there is a danger that it will create new liabilities as acute as those now facing us. We must provide at all costs, both adequately and reasonably, for such essential services as education, the preservation of the public health, and police and fire protection. We must accept the liabilities imposed upon us by forces outside our immediate control. On the other hand, these obligations compel us to recognize the imperative need of foregoing all luxury expenditures, of practising sound economies in every detail of municipal government, of inaugurating such changes as will improve services and reduce costs, and, above all else, of observing the most scrupulous honesty in every part of the city's spending.

An additional phase of the tax rate problem is the stern necessity facing this administration of halting the pyramiding of our deficit. In recent years our expenditures have been exceeding our cash income in increasing amounts. This increasing cash deficit has been met by borrowing against delinquent taxes. Such a pyramiding is the chief defect in the city's credit structure.

THE FEVER TO SPEND.

Under conditions as they exist today in Boston and throughout the civilized world, most thoughtful and prudent men will agree that there is only one formula to pursue if municipal credit is to remain unimpaired and if our city is to prosper and to thrive. That formula is one of broad, practical economy. The times call for the safeguarding of all municipal funds, for the elimination of waste, for the reduction of taxes — if that can possibly be accomplished — and for a policy which will eliminate all municipal expenditures which are not necessary.

The chief magistrates of this and of all other cities are between two fires. The necessity for eliminating expense and saving money is fully recognized. But an important part of the policy of the National Government is to spend money liberally and to encourage state and local governments to do likewise. It is argued in support of this policy that government spending must prime the economic pump; that we are confronted with a national emergency akin to war; that the depression has assumed the proportions of a public peril and that extraordinary means must be adopted to meet it,— means that in ordinary times would be considered perilous by men of prudence and of expert knowledge in economics.

Our President has embarked upon a great and breath-taking venture to restore prosperity. It is a valiant attempt to maintain the American standard of living. He himself admits the experimental nature of his program. While misgivings as to parts of that program have been expressed by some, all must applaud the courage and determination of the President and must realize that no constructive alternative has been offered.

So far as municipal governments are concerned, it is their patriotic duty to cooperate in furthering the national program in every reasonable way, but it must be remembered that national recovery will be hindered rather than helped if a municipality spends so freely that its credit is endangered. In the nature of things, the federal treasury can withstand abnormal emergency expenditures without impairing its solvency to a much greater extent than can municipal treasuries which must rely upon prostrated real estate for the

major part of their income. In so far as cooperation with the national program involves the expenditure of the money to be raised from local taxpayers, rules of prudent finance must not be abandoned. The income base of our municipal governments cannot stand an excessive load.

Specifically, I am thoroughly in favor of a rational program of really necessary public works projects, chosen after careful planning, and anticipating future needs. We must be careful to avoid, as far as possible, projects which will impose large increases in maintenance costs.

A number of public works projects has already been authorized. In addition, Boston has been given substantial grants for Civil Works Administration projects which will employ a large number of persons temporarily. Before committing the city to further public works projects, I propose to institute immediately a careful study of the city's needs and resources.

THE TAXPAYERS.

In municipalities the effect of this patriotic duty of upholding the national program of public works projects, as well as the regular expenses of government, will fall most heavily upon the taxpayer who owns tangible property. There is something radically and scientifically wrong in our method of raising money to defray the expenses of government. Not only does too much of the burden fall upon the owner of tangible property, but he must make up for the depression slump in other sources of revenue. More than three fourths of the total income available for meeting the regular expenditures of the city is now obtained from taxes upon real and personal property. It is clear that tangible property cannot continue indefinitely to bear this increasing burden.

Even if all possible economies are effected, it is imperative that additional sources of revenue be found. High property taxes have a definite tendency to discourage home ownership. This tendency is socially objectionable. It is not insignificant that of all of the large cities of the country, Boston has the smallest percentage of home owners. Only a quarter of all of the families living in Boston own their own homes. The high property tax rate in Boston is, of course, not the only cause for this condition, but it is an important factor.

But, even apart from the question of whether or not tangible property can continue to bear the increasing burdens placed upon it, and even apart from the tendency of the present system of taxation to discourage home ownership, a more equitable distribution of the burdens of municipal government should be made. Every person should bear his fair share of the burden. A wealthy man with little or no real estate ought to bear his fair share of the expenses of government. The real estate owner and the modest home owner who cannot conceal his home are compelled under the present conditions to pay far too large a share of the expenses of government. A more determined effort should be made to collect a larger share of the public tax from those persons able to pay so that the burden upon the owner of tangible property may be lessened.

I propose to consider promptly and with great care and to recommend legislation with respect to possible additional sources of revenue which will relieve to some extent the burdens on tangible property and more equitably distribute the cost of government.

SALARY REDUCTIONS.

The restoration of salary levels is within the power of the Mayor. If he does nothing about them, the reductions will automatically be restored on this first day of January. To continue in effect the reductions instituted in April of 1933, the Mayor must act by executive order. A restoration of salaries to their old levels would mean the additional expenditure of approximately $3,400,000 for the year. This sum would represent about $2 additional in the tax rate which has been forecast for 1934.

In order to lessen, as far as possible, an increase in the tax rate for 1934, it will be necessary to keep the salary reductions in effect during the entire period of 1934. But it is better to suffer pay reductions for another year, than, by restoring them, to hazard the chance of so impairing the financial position of the city that city and county employees might have to forego receiving any salary whatever. In other words, there would be danger of payless pay days. It is better to suffer the hardship and inconvenience of the reductions that have already been made and yet to receive reduced salaries, than to restore the original salaries, which would sound well to the ear of the employee, but which might result in terminating all salaries. Therefore, in the best interests of the city and of all of its people, prudence compels me to continue the pay cuts already made for the year 1934.

I am confident that substantial economies may be realized in many departments of the city government during the next four years and even in the year 1934. If it shall appear advisable and the financial position of the city warrants, it is always possible, while the Legislature is in session, to obtain needed legislation to restore pay cuts during 1934.

RESUMPTION OF STEP-RATE INCREASES.

There are certain classes of employees, such as school teachers, policemen and firemen, who have in effect suffered more than a simple reduction in salary. I refer to those who entered the employ of the city at a minimum rate under circumstances leading them to believe that they would receive annual increases in their salaries until the maximum was reached. When the salary reductions became effective in April of 1933, these classes of employees were doubly affected because they lost not only the reduction in their regular salaries but the yearly increase as well, which seemed to me to be so unjust that I made the specific promise to resume these yearly increases.

I am aware that resuming the yearly increases to begin with the present year will add to our tax burden an amount, which, it is estimated, should not exceed $400,000. This represents about twenty cents in the tax rate. As I am persuaded that it is only simple justice to resume these increases, I shall endeavor to keep my promise. To the extent that I may have the power under existing law I shall order the resumption of these yearly increases; but if I have not the power then I shall seek requisite legislation to enable me to do this.

CITY EMPLOYEES.

It is not my desire to remove city employees in large numbers from the city pay roll. But the continuous reports of padded pay rolls cannot be ignored entirely. As to the advisability of removing superfluous employees, two elements are to be considered,—first, the hardship upon the person removed, and second, the hardship on the taxpayers if the person is not removed. The taxpayer must not be overlooked in this situation and his burden must be relieved if that can be accomplished.

Except in flagrant cases of outright padding, I shall try to avoid wholesale discharges. The man or woman giving an honest day's work will be protected. There are ways of economizing without affecting personnel. Consolidation of certain departments would eliminate high salaried officials and effect other economies in operation but would not necessarily mean the separation of the rank and file of valuable and experienced employees from the pay rolls. The policy of not filling vacancies caused by death or retirement will also effect gradual savings, and, so far as practicable, I shall continue that policy. There are numerous opportunities for economy in the everyday conduct of the city's work. In discovering and putting such economies into effect, employees themselves can be of invaluable assistance. May I call to their attention that their cooperation with me in this respect is the most certain guarantee of the security of their own positions.

ACCOUNTING AND BUDGETING.

For many years, Boston's accounting and budgeting systems have been criticized. This criticism has in large part been justified. The accounts of this huge and important corporation are kept on an antiquated cash book basis comparable to that employed by a crossroads country store of one hundred years ago. Any city administration which is unable to give an accurate, prompt, and easily understood statement of its financial condition at regular intervals, or which is careless or inefficient in planning and controlling the appropriation and expenditure of the public money, fails to fulfill the trust imposed upon it by the people.

Immediate steps will be taken to inaugurate a modern accounting system which will give a true picture of the city's finances at all times. This will require encumbering appropriations with all charges against them as soon as the charges are incurred, and setting up the books of the city so that assets and liabilities may be known, and a correct and comprehensive balance sheet may be available.

During the past five years the State Division of Accounts has been at work on the installation of a new system in certain of the city departments. It is time that this work in all departments should be pressed to a conclusion. While continuing friendly cooperation with this state department, I shall take steps to have completed the modernization of the city's accounting system within a reasonable time. In addition, I propose to request an immediate audit by this state department of the city's accounts. It is only fair to the outgoing administration, to the incoming administration, and to the people of Boston that such an audit be made, and I shall help formulate and urge the passage of legislation requiring a compulsory audit of the city's accounts and records at the end of each administration.

Better budget contents, control and procedure are necessary in Boston, particularly in these troubled times. In so far as possible, future budgets will include a complete annual program of the city's receipts from all sources and its expenditures for all purposes. They will also provide a better picture of the purposes for which the expenditures are to be made. They will be supported by comparisons with prior years and the reasons for changes in budget items so as to give a clear understanding to all who are interested. The city's budget calendar will also be improved so that the city will be operated under full budget control as soon as the fiscal year begins. In order that there may be proper control of expenditures to insure adherence to the original budget, thereby eliminating supplementary budgets during the year, I plan to establish a system of quarterly allotments which are based on departmental work programs expressed in units of work. The Auditing and Budget Departments will be instructed to see that such allotments are not exceeded.

As a result of these changes, I hope that public confidence in the city's finances will be improved, public knowledge thereof will be increased, the chances of wasteful expenditure will be minimized, and new opportunities for desirable economies will be uncovered.

It is true that there are certain statutory and other impediments to the complete realization of this program. Informal methods of control are, however, available to the Mayor to achieve substantially the benefits desired until such time as permanent changes can be effected.

CONTRACTS AND PURCHASES.

Contract awards and the purchase of equipment and supplies occupy a prominent place in city administration. In recent years they have involved between $15,000,000 and $20,000,000 annually. This enormous expenditure requires honest, experienced officials in charge of such purchases and the best methods in order to secure the lowest prices.

Whatever the past has been, Boston must receive full value for each dollar expended.

I propose to adhere strictly to a system of contracts and purchases based upon absolutely honest awards to the lowest bids of reliable merchants and contractors. I pledge my administration to the elimination of all favoritism and the splitting of contracts. In line with my recommendations for improved budget prodecure it will be my policy to make volume purchases of supplies needed for relatively long periods. Proper inspection methods will be set up in order that Boston may receive what it pays for. Beyond all of this I hope to make cooperative arrangements with the city and county officials who purchase supplies independently of the Supply Department, to the end that combination of total purchasing requirements may result in lower prices than would otherwise be the case.

FINANCE COMMISSION.

The Finance Commission, if properly constituted, may be of great benefit to the city. I express no opinion as to whether the present policy of a paid chairman and unpaid associate members should be changed to that of a board of paid members. But

I have a very decided opinion that in whatever form it may exist, if it is properly constituted, it is a most valuable asset to the Mayor and an important department of the city. Since the purpose of the Finance Commission is to prevent waste and to serve the city purely in the interest of its citizens and taxpayers, I see no reason whatever for a continuous war between the chief magistrate of Boston and that commission. Such will not be my policy. So long as it is properly constituted and functions fairly and in accordance with its intended purpose, I shall welcome its suggestions and criticisms and shall cooperate in every way to the end that the best results may be obtained for Boston.

PUBLIC WELFARE.

During recent years the Department of Public Welfare has become the largest, in point of expenditures, of all departments under the control of the Mayor. In 1933, about $13,000,000 has been expended, as compared with less than $3,000,000 before the depression. Early in December of 1933, the number of public welfare cases was about 32,700, almost twenty per cent of the total number of families in Boston. Civil works employment has temporarily reduced the load to some extent.

Under my administration the city will give as liberal aid as possible to all worthy welfare recipients. I recognize the obligations of the city and I realize its social importance. Not only must we alleviate privation and sickness and maintain public morale at the present time, but we must look forward to the future, and make certain that our youth, and generations yet unborn, shall not suffer mentally and physically from the insufficiency of aid in these troubled times.

The obligation of the city government to those who meet the tremendous cost of this work, cannot be overlooked. Relentless vigilance must be exercised to eliminate unworthy cases, and to effect an administration of the department that is as efficient as it is humanly possible to achieve. I am apprehensive that, unless the growth of the welfare list is not only checked but welfare costs lowered, the city, by reason of a gradually reduced income resulting in part from lower tax values and failure to collect taxes, will be utterly unable to meet these costs without drastic curtailment of municipal functions whether under the control of the Mayor or other officials. I am not willing to believe that in meeting the city's obligation to welfare recipients the public money must be wasted, inefficiency must be tolerated, or a system which invites fraud must be permitted.

Over a period of more than two years, many studies and investigations of the Public Welfare Department have been made. The Boston Finance Commission, the State Emergency Finance Board, the Police Department, the Budget Commissioner, the Boston Council of Social Agencies, and a number of private organizations have revealed serious defects in the work and have made definite recommendations for improvement. Whether or not all of the criticism has been justified, the fact remains that the department has been deplorably slow in effecting obviously necessary improvements so that its work can be adjusted to the enlarged duties imposed on it by the depression. Conditions are still far from satisfactory. I shall take immediate steps to place the department on the most efficient basis possible. There must be competent executive direction, proper investigation of all new cases, adequate follow-up of cases as long as they are on the welfare rolls, and a modern system of administrative and financial control within the department. I shall not tolerate further delay in these matters.

I recognize that the character of welfare work will change when economic conditions improve. A new type of problem will then appear, that of returning welfare recipients to gainful employment as speedily as possible and preventing any wholesale tendency toward seeking relief in preference to employment. We must prepare for this change.

The problems are many and complicated. They must be worked out cooperatively, and always with proper regard to the city's obligations to welfare recipients and to the taxpayer.

MAYOR'S ADVISORY COMMITTEE.

Many of the present and future problems of the city will be difficult. I shall need, and I shall welcome the aid of all citizens individually and collectively. As a practical method of obtaining that aid, I shall form a committee to be known as the "Mayor's Advisory Committee," and to consist of not more than ten citizens properly representative of labor, business, and general community interests. I shall feel free to submit to this committee problems for investigation, information, advice and guidance, always, of course, with the clear understanding that the reports of the committee shall be advisory only and that the responsibility for final action on any particular problem will rest entirely upon me.

COOPERATION.

Many public agencies having responsibility for the administrative and financial functions of the city are wholly or partly outside the control of the Mayor. The Governor, the Legislature, various state departments, the School Committee, the Police Department and county officers can contribute in large measure to the solution of Boston's problems. I believe that the closest cooperation and a mutual understanding between the Mayor and these officials are indispensable to Boston's welfare. It will be my policy to work in harmony with them. I bespeak their cordial cooperation and I am confident that it will be forthcoming.

Gentlemen of the Council:

The present plight of the city, while grave, is by no means hopeless. The difficulties to which I have referred are not insurmountable. These problems can be solved. I am sure that with the hearty cooperation of your members I can steadily and surely improve the position and the credit of our city. It is my purpose frequently to address the Council personally or by message and the citizens of Boston through the Press and by radio broadcasts, to the end that you and the citizens may be informed of the condition of the city and may understand the exact nature and magnitude of the problems which must be solved. I shall do my best for Boston. I know that is your intention too. But in addition to the hearty cooperation of the Mayor and the City Council, we shall need always in these trying times that Divine Aid which has been so eloquently invoked here today. Fervently let us pray that it may always be with us.

CIRCULAR LETTER NO. 29.

CITY OF BOSTON,
OFFICE OF THE MAYOR, Dec. 29, 1933.

To All Department Heads.

The necessity for an increase in the supervisory or clerical forces of your department, as pointed out some six weeks ago, was today made painfully apparent by the failure of your department to submit its rolls of C. W. A. workers to the City Treasurer.

As a consequence of this failure it was impossible for these men to receive the pay due them and to which they were entitled and wanted for the New Year's holiday. An important matter of this character should not be treated so lightly.

Kindly take the necessary steps to prevent a repetition.

Very truly yours,

JAMES M. CURLEY, *Mayor.*

WEIGHTS AND MEASURES DEPARTMENT.

BOSTON, December 28, 1933.

HON. JAMES M. CURLEY,
Mayor of Boston.

SIR,—I am submitting herewith a contract between the U-Dryvit Auto Rental Corporation and this department for furnishing transportation in automobile service for the year 1934.

As lessee I have signed this contract and respectfully request your approval. I have made this contract without advertising because of the fact that for two years the company has furnished good service; no other company is in a position to furnish the surety bond and the insurance features which form a part of this particular contract.

Trusting this action will meet with your approval, I am,

Respectfully yours,

JAMES A. SWEENEY,
Sealer.

CIRCULAR LETTER NO. 1.

CITY OF BOSTON,
MAYOR'S OFFICE, January 2, 1934.

To All Department Heads, the Police Commissioner, the School Committee, the Board of Commissioners of School Buildings, the City Council, the Licensing Board, the Finance Commission and the Boston Port Authority.

GENTLEMEN,—I beg to advise you that I have, by virtue of the authority granted me by the provisions of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three, issued an Executive Order continuing in effect for the calendar year nineteen hundred and thirty-four the salary reductions made pursuant to the provisions of section three of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three.

Yours very truly,

FREDERICK W. MANSFIELD,
Mayor.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING UNIFORMS TO THE FIRE DEPARTMENT.

The Supply Department of the City of Boston invites proposals for furnishing to the Fire Department, Bristol street, uniforms, as per specifications to be obtained at the Supply Department, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* Delivery to be made as required. The bidder must use the form of proposal to be obtained at said office, and the successful bidder must furnish a bond for one quarter the total amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract, in case the amount of the contract awarded aggregates $2,000 or more. Bids, with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Superintendent of Supplies, Room 801, City Hall Annex, before 12 m., Monday, January 22, 1934, at which time and place the bids will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

PROPOSALS FOR FURNISHING AND INSTALLING INCLINE WALL FINISH, GRANOLITHIC SIDEWALKS, CONDUITS, JUNCTION BOXES, ETC., AND INSTALLING LAMP STANDARDS, TRAFFIC TUNNEL.

The Transit Department of the City of Boston, 1 Beacon street, seventh floor, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States, for furnishing and installing incline wall finish, granolithic sidewalks, canduits, junction boxes, etc., and installing lamp standards, Traffic Tunnel. A bond of an approved surety company will be required for the faithful performance of the contract in a sum of the full amount of the total bid price. Proposals must be filled out and signed by the bidder on forms to be obtained at this office, inclosed in a sealed envelope, indorsed "Incline Wall Finish, etc., Traffic Tunnel," and delivered to the Department, or to its secretary, before 12 o'clock noon on Tuesday, January 16, 1934, at which time and place they will be publicly opened and read. A properly certified check in the sum of five thousand (5,000) dollars, payable to the city, must accompany the proposal. This check shall become the property of the city if the contract is not executed by the bidder within the time prescribed after the date of the notification by the Department of the acceptance of the proposal and the readiness of the contract for signature. Proposals must be made in duplicate. The sealed duplicate, without check, is to be deposited by the bidder with the City Auditor, Room 20, City Hall, previous to the time named for opening the proposals. Plans, proposals, specifications and forms of contract may be obtained at this office on or after Wednesday, January 3, 1934. A deposit of $5, in cash or by certified check, will be required for a set of plans and two sets of the specifications. Mutilation of them will be deemed sufficient cause for the forfeiture of said deposits. The Department reserves the right to reject any or all proposals.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN RANSOM ROAD, FROM GREENFIELD ROAD 295 FEET SOUTHWESTERLY, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Ransom road, from Greenfield road 295 feet southwesterly, Hyde Park. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Ransom Road," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, January 16, 1934, with a certified check for one hundred (100) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a minimum charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROCEEDINGS OF CITY COUNCIL.

Wednesday, December 27, 1933.

Special meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President McGRATH in the chair. Absent, Coun. Gallagher.

The meeting was held pursuant to the following call:

City of Boston,
Office of the Mayor, December 21, 1933.
To the Members of the City Council.

Gentlemen,—You are respectfully requested to assemble in the City Council Chamber, City Hall, on Wednesday, December 27, 1933, at 2 o'clock p. m., for the purpose of taking action on the order for a loan of $300,000 for Public Welfare Department, and on any other business that may be presented for your consideration.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

LOAN FOR WELFARE DEPARTMENT.

President McGRATH—We will now take up the order for $300,000 for relief of the needy and unemployed.

(The order submitted by the Mayor and read once and passed, yeas 19, nays 1, by the Council, on December 11, 1933, is as follows:

Ordered, That under the provisions of chapter 159 of the Acts of 1933 an emergency appropriation of $300,000 be, and hereby is, made, to be expended under the direction of the Overseers of Public Welfare, for relief of the needy and the unemployed, and that to meet such appropriation the City Treasurer be authorized to issue from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limits of indebtedness.)

The question came on the second and final reading and passage of the order.

Coun. CURTIS—Mr. President, I would like to ask that the Mayor's letter originally submitting that order be re-read to us.

The Clerk read the message from the Mayor, under date of December 11, 1933, as follows:

City of Boston,
Office of the Mayor, December 11, 1933.
To the City Council.

Gentlemen,—From present indications it appears as though there will exist at the close of the year in the three relief items of the Public Welfare Department deficits totalling approximately $400,000. It is questionable whether unexpended departmental balances at the close of the current year will exceed $100,000. In order that there will be no necessity for suspending relief payments because of lack of funds, I deem it necessary to submit herewith an order providing that under the provisions of chapter 159 of the Acts of 1933 the sum of $300,000 be authorized to be applied against probable deficits in the relief appropriations of the Public Welfare Department.

In view of the fact that two readings, fourteen days apart, must be given this order, I recommend that a first reading be given this order at today's meeting. Unless this is done, passage of the order will be endangered because of the limited amount of time remaining before the close of the current year. I therefore respectfully recommend immediate consideration and passage by your honorable body of the accompanying order.

Respectfully,
JAMES M. CURLEY, Mayor.

Coun. CURTIS—Mr. President, I should like to move that this matter be referred to the Executive Committee. Personally, I would like to hear what Mr. Carven has to say about it. That letter from the Mayor says that he does not expect that there will be unexpended departmental balances at the close of the year that can be transferred. I would like to know what the result would be if this went over. This is an important matter, and I would like to have it referred to the Executive Committee so that we may get some information upon it.

The order was referred to the Executive Committee.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President McGRATH called up the following appointments by the Mayor of December 18, 1933:

Sidney Cohen, 151 Woodrow avenue, Dorchester, to act as constable and to serve civil process upon the filing of the proper bonds, for the term ending April 30, 1934.

Jeremiah Melia, 250 Stuart street, Boston, and Sally Frank, 31 Wolcott street, Dorchester, to be Weighers of Coal for the term ending April 30, 1934.

The question came on confirmation. Committee, Coun. Burke and Barker. Whole number of ballots, 16; yeas 16, and the appointments were confirmed.

ELECTION OF SCHOOL BUILDINGS COMMISSIONER.

Notice was received from the Board of Commissioners of School Buildings of the election on December 21, 1933, of Francis R. Bangs of 190 Marlborough street, Boston, Mass., to be a Commissioner of School Buildings for the term ending December 1, 1936, to take the place of Stephen W. Sleeper.

Placed on file.

MINORS' LICENSES.

Applications were received for thirty-six newsboys' licenses. The licenses were granted under the usual conditions.

ALCOHOLIC BEVERAGES—ELECTION.

The following was received:

City of Boston,
Office of the City Clerk, December 21, 1933.
To the City Council.

Gentlemen,—I transmit herewith a petition requesting that a special election be called, under the provisions of section 3 of chapter 373 of the Acts of 1933, and section 11A of chapter 376 of the Acts of 1933, to enable a vote to be taken on the questions of granting licenses for the sale of alcoholic beverages, of granting licenses for the sale of wines and malt beverages and of granting licenses for the sales of alcoholic beverages in taverns.

This petition conforms to the provisions of section 38 of chapter 43 of the General Laws and of section 3 of chapter 373 of the Acts of 1933, and is accompanied by a certificate of the Election Commissioners that it is signed by more than one per cent of the whole number of registered voters of the city.

The necessary formalities having been complied with said section 3 requires that a special election be called by the City Council prior to April 15, 1934, for the purpose of submitting these questions to the voters.

Respectfully,
W. J. DOYLE, City Clerk.

Placed on file.

President McGRATH offered the following:

Ordered, That meetings of the citizens of this city qualified to vote for city officers be held at the several polling places designated for the purpose by the Board of Election Commissioners on Tuesday, January 23, 1934, to give in their votes "yes" or "no" in answer to the following questions:

Shall licenses be granted in this city for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages)?

Shall licenses be granted in this city for the sale therein of wines and malt beverages (wine and beer, ale and all other malt beverages)?

Shall licenses be granted in this city for the sale therein of alcoholic beverages in taverns?

The polls at said meeting shall be opened at 10 o'clock a. m. and closed at 8 o'clock p. m.

Ordered, That the City Clerk be directed to give notice of said meetings by publishing the same as required by law.

The order was referred to the Executive Committee.

SOLDIERS' RELIEF.

President McGRATH submitted report of the Committee on Soldiers' Relief recommending passage of the order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of December, 1933.

Report accepted; order passed.

RECESS.

The Council voted at 2.43 p. m., on motion of Coun. ENGLERT, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President McGRATH at 3.25 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. LYNCH, for the Executive Committee, submitted the following:

1. Report on order (referred today) for election on January 23, 1934, to vote on alcoholic beverage question—that the same ought to pass.

Report accepted; said order passed.

2. Report on message of Mayor and order (referred back again today) for an emergency loan and appropriation of $300,000, to be expended under the direction of the Overseers of Public Welfare for relief of needy and unemployed—that the same ought to pass.

Report accepted; said order given its second and final reading and passage, yeas 19, nays—Coun. Curtis—1.

REQUEST THAT GARBAGE CONTRACT BE CANCELED.

Coun. KELLY offered the following:

Ordered, that the Mayor be requested to cancel the contract for the year 1934 for the collection of ashes and garbage for the Dorchester district to Coleman Brothers.

Coun. KELLY—Mr. President, a short time ago the Mayor saw fit to sign the contract for collection of garbage and ashes in favor of the pet contractor of the present administration, for the year 1934. I would not mind if Coleman was the low bidder, and I would not mind, perhaps, if he had given to the citizens of Dorchester the kind of service to which they are entitled under the terms of the contract. But on numerous occasions I have proven conclusively that Coleman Brothers never complied with the terms of their contract, and in 1932 the Council went unanimously on record asking the Mayor of Boston as a result of a public hearing to revoke the contract with Coleman Brothers. I am now asking the Mayor in the closing days of his administration to do an act for which the people of Dorchester will perhaps hold him in high esteem,—to cancel the contract with Coleman Brothers. The amount of that contract is over $20,000 higher than the lowest bid. In fact, Coleman is not even the second lowest bidder, but is the third; and here is a contract that must be paid for by the incoming administration. I feel that the incoming Mayor should have considerable say as to the concern that should have the contract, because his administration will have to pay out the money for it and will have to be responsible for the misdoings or wrongdoings of the concern that is awarded the contract. So I hope the Mayor will reconsider his previous decision giving the contract to Coleman Brothers for 1934, and that by canceling the contract he will save to the city the $20,000 of the Coleman bid in excess of the amount asked by the low bidder.

The order was passed under suspension of the rule.

REWARD IN ZUCKERMAN MURDER.

Coun. BRACKMAN and RUBY offered the following:

Ordered, that the Mayor be requested to offer a reward of $1,000 for the apprehension of the murderer of Ethel Zuckerman.

The order was passed under suspension of the rule.

PREFERENCE TO U. S. CITIZENS IN C. W. A.

Coun. BRACKMAN offered the following:

Ordered, That his Honor the Mayor be requested to instruct those in charge of assigning welfare recipients to C. W. A. positions, that citizens of the United States be given preference.

Coun. BRACKMAN—Mr. President, of course, there is no way by which we can avoid giving welfare aid to noncitizens of the United States, but I do think, inasmuch as the power lies with officials of the Welfare Department to select men to be sent on to the Civil Works program as registrations are made, that preference might at least be given to citizens of the United States. We realize that there is a great number of aliens on the welfare list, and that they are being given a great deal of consideration through being taken off the welfare list and given C. W. A. jobs. I hope the Mayor will intercede in the program and will see that our citizens at least are given preference.

The order was passed under suspension of the rule.

Adjourned, at 3.32 p. m., on motion of Coun. HEIN, to meet on Saturday, December 30, 1933, at 11 a. m.

POLICE DEPARTMENT ORDERS.

General Order No. 367.

A trial board consisting of Captains Mullen, Gleavy and Casey, having heard by reference a complaint made by John McGrath, captain, Division 14, against Joseph Gaspar, patrolman, Division 14, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on December 13, 1933, and for some time prior to that date the said Patrolman Joseph Gaspar had possession of a key to a residence on his route, without the knowledge and consent of his commanding officer, said residence not being his home.

Specification 2: In that on the twelfth day of December, the said Patrolman Joseph Gaspar, while not on duty and his route, with a key he had in his possession and did therein commit an assault and battery on one Theresa M. Rogers.

Specification 3: In that on the night of December 13, 1933, the said Patrolman Joseph Gaspar, while not on duty and not in uniform, was under the influence of intoxicating liquor to such an extent that he would have been unable, had he been called upon to do so, to perform the duties of a police officer; all tending to bring into disrepute and criticism his associates in the Police Department and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence presented, accepts the plea of guilty made by the said Patrolman Joseph Gaspar to Specifications 1 and 3 of said charge, and finds the said Patrolman Joseph Gaspar not guilty of Specification 2 of said charge. In view of the high recommendation given Patrolman Gaspar by his superior officers' his previous good record in the department as an honest, conscientious and sober officer, his explanation of his association with the woman he is alleged to have assaulted, and his promise to abstain from the use of intoxicating liquor in the future, the Board respectfully recommends that the said Patrolman Joseph Gaspar be suspended from duty for a period of twenty days, effective as of December 14, 1933, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Joseph Gaspar be ordered to perform two hundred and ten hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Joseph Gaspar be suspended from duty for a period of twenty days, effective as of December 14, 1933, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Joseph Gaspar perform two hundred and ten hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the commissioner upon good cause, shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 368.

A trial board consisting of Captains McKinnon, Gleavy and Fallon, having heard by reference a complaint made by John J. Mullen, captain, Division 1, against Patrick J. Freeley, sergeant, Division 1, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Conduct unbecoming an officer.

Specification: In that on the 21st day of November, 1933, the said Sergt. Patrick J. Freeley, while not on duty, was under the influence of intoxicating liquor to such an extent that he was unable to properly perform police duty if called upon so to do.

Charge 2: Alleged violation of law.

Specification: In that on the 21st day of November, 1933, at or about 11.45 a. m., the said Sergt. Patrick J. Freeley is alleged to have operated an automobile while under the influence of intoxicating liquor on Centre street, in the Roxbury district, and while operating the said automobile is alleged to have collided with an automobile operated by one Pauline Staskywicz,—

has submitted the following finding and recommendation.

"The Board having heard and carefully considered all the evidence presented, finds the said Sergt. Patrick J. Freeley guilty of Charge 1 and specification thereunder and not guilty on Charge 2 and specification thereunder, this latter finding being in conformity with the finding of the Court where these charges were heard at length and in detail. The Board is mindful of the fact that any conduct unbecoming an officer on the part of an officer of rank is an aggravated attack on the morale of the department, but feels that in this case there are extenuating circumstances which warrant a recommendation of punishment less than the extreme penalty of reduction in rank or dismissal. Sergeant Freeley's previous record shows that he is an exceptional officer, both as a patrolman and as a sergeant. Even during the recent period of relief from duty pending a hearing on these charges, he has shown himself to be instinctively a police officer, as manifested by his going to the assistance of an officer who was being attacked and in danger of being seriously injured by a group of persons intent upon rescuing a prisoner in Division 14. Sergeant Freeley has been the recipient of two commendations in General Orders, his habits and his conduct have been at all times most exemplary, and his commanding officer has recommended him highly as an officer and as a gentleman, and in the strongest terms urged that leniency be shown, particularly as it was pointed out that Sergeant Freeley was in poor physical condition and in distress of mind over news that his father was lying at the point of death at the time of this transgression. The Board therefore respectfully recommends that the said Sergeant Patrick J. Freeley be suspended from duty with loss ot pay for a period of forty-five days, effective as of November 21, 1933, at 5.45 o'clock p. m."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Sergeant Patrick J. Freeley be suspended from duty for a period of forty-five days, effective as of November 21, 1933, at 5.45 o'clock p. m.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 369.

Sergt. Leo C. J. Masuret of Bureau of Criminal Investigation and Patrolman Patrick F. Finnegan of Division 11 are both commended in General Orders and each is granted two days' additional vacation for meritorious police duty performed on December 18, 1933.

While on their way to headquarters in a "Squad" car, and while stopped in a line of traffic, the officers were informed by a citizen of an assault and armed hold-up of a storekeeper on Washington street, and that one of the men ran up Dover street.

The officers turned the car around and taking the informant with them started in pursuit, overtaking the criminal at Dover Street Bridge, where they alighted from the car and placed the man under arrest. He was searched immediately and a quantity of jewelry taken from the storekeeper was found on him, also a fully loaded automatic pistol. Subsequently another of the two was taken into custody.

The commissioner is pleased to recognize the unusual alertness and devotion to duty shown by these officers in the performance of this splendid police duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 370.

Patrolman Thomas F. Londergan of Division 9 is commended in General Orders for effective police duty performed on December 18, 1933, in connection with the capture of two persons who had broken into a school building.

The commissioner is pleased to recognize the keen observation and good judgment shown by Patrolman Londergan in notifying the station to send assistance to prevent the possible escape of the felons.

The |Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

VOL. 26. SATURDAY, JANUARY 13, 1934. NO. 2

MAYOR MANSFIELD MOVES TO RESTORE STEP-RATE INCREASES TO CITY EMPLOYEES — INFORMED BY CORPORATION COUNSEL FOLEY THAT LAW IN PRESENT FORM PREVENTS CARRYING OUT OF INAUGURAL PROMISE, MAYOR ORDERS LEGISLATION PREPARED THAT WILL ENABLE HIM TO FULFILL PLEDGE.

Having been advised that there was some doubt that it was possible legally to put into effect his plan for restoring the step-rate increases for those city employees which formerly came in for that annual benefit, Mayor Mansfield has authorized the Law Department to draft legislation which, when passed, will give him the power to keep the only pledge made to the citizens of Boston during his inaugural address.

Immediately upon taking office Mayor Mansfield began to make plans to put into effect the step-rate increases which had been abandoned under the previous administration. To make sure that he was legally able to do this he sought the opinion of Corporation Counsel Henry E. Foley. After consulting the law in the matter Mr. Foley informed the Mayor in an opinion that there was grave doubt about his power to do what he planned.

When this opinion was handed to the Mayor he immediately ordered legislation prepared that would give him this right to aid the citizens. The opinion, in full, as presented to the Mayor by Mr. Foley was as follows:

MR. FOLEY'S LETTER.

BOSTON, January 8, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—You have asked my opinion as to whether the step-rate increases, formerly in effect but discontinued prior to action under chapter 121 of the Acts of the year 1933, can be reinstated in view of the exercise by you of the authority conferred by section 3 of said chapter.

There are certain classes of employees such as school teachers, policemen and firemen who entered the city employ under circumstances leading them to expect a periodic increase in salary until a certain maximum was reached. These increases are frequently referred to as "step-rate" increases. It is my understanding that these increases were suspended by proper authority some time prior to April 21, 1933. It is my opinion that, while the matter is not free from doubt, these step-rate increases cannot be reinstated while the reductions made pursuant to section 3 are continued in force.

Section 3 provides that the Mayor taking office on January 1, 1934, may continue in force the reductions made pursuant to the provisions of section 3. The grant of authority contained in section 3 is broad and conferred large and unusual powers on the then mayor. While the problem we are now considering may never have occurred to the legislators enacting the statute in question and while the language is susceptible of more than one interpretation, it seems to me that any amelioration in the reductions originally put into effect by the Mayor or other persons pursuant to section 3 was not contemplated and that the authority given to the Mayor taking office on January 1, 1934, is only an authority to continue in effect the salary reductions in effect at the time of his action thereunder, without modification. In view of this it would seem that an attempt to reinstate step-rate increases will invite litigation likely to terminate unfavorably to such increases and might so far as participated in by the Mayor lay open to challenge the entire executive order.

Even apart from section 3 certain step-rate increases are, of course, not within the jurisdiction of the Mayor.

In view of the opinion herein stated I have not considered who would have the power to reinstate step-rate increases if section 3 were not controlling.

I have requested legislative counsel to prepare a petition to the Legislature asking for legislation to enable the reinstatement of step-rate increases and I understand that this petition is now being prepared.

Yours truly,

HENRY E. FOLEY,
Corporation Counsel.

MANUFACTURERS' SALES TAX AS A MORE EQUITABLE MEANS OF RELIEVING BOSTON'S TAX BURDEN HAS WON APPROVAL OF MAYOR MANSFIELD — AFTER STUDYING QUESTION DEEPLY AND THE BILL TO BE PRESENTED TO CONGRESS BY HON. JOHN W. McCORMACK HE ISSUES STATEMENT EMBODYING HIS VIEWS ON QUESTION.

The proposals for a manufacturers' sales tax as a means of relieving the burden that has been placed upon real estate in the City of Boston has been seriously studied by Mayor Frederick W. Mansfield as one of his first efforts to ease the tasks of the citizens. The purpose of the sales tax, as proposed and fostered by some of the most prominent men in Congress, including Congressman John W. McCormack and Senator David I. Walsh, aims at a more equitable distribution of the wealth of the country for tax purposes.

After considering the proposals and the bill that is being presented to Congress, Mayor Mansfield, on January 11, issued the following statement:

It has become very apparent in the last few years that the tax on incomes is not an equitable way to raise money. Recent investigations disclose that wealthy men have resorted to devious sharp practices to avoid the payment of their income taxes. It may be that these devices are within the letter of the law but it is certain that the moral sense of the people of this country has been profoundly shocked by the revelations of the examining committees in Washington. Apparently only the man of moderate income is paying his income tax and the burden upon him seems to be unfair.

A Federal manufacturers' sales tax such as is contemplated by the bill which Congressman John W. McCormack will sponsor and which meets with the approval of Senator David I. Walsh is probably the fairest and most equitable method by which the necessary taxes can be raised. The poor will not suffer under such a tax because the necessities of life are excluded from them and sales of food and clothing are exempt from taxation. The amount charged upon each sale will be so small and the tax distributed so generally that it will not be particularly felt. At any rate it ought to be tried and if it does not work well it can be abandoned. I am in favor of giving it a thorough trial and I think that with the necessaries of life excluded it will prove to be an impartial and very popular and efficient method of raising funds necessary to carry on the projects of the national government.

FIRE DEPARTMENT ORDER.

General Order No. 4.

I. COMMENDATION.

The Fire Commissioner wishes to commend the officers and members of the department who responded to the fire at Fenway Park, Box 2344, five alarms, at 1.10 p. m., Friday, January 5, 1934.

It is quite evident that the fire had developed considerable headway before the alarm was given as it had extended to adjoining buildings before the arrival of the apparatus, and the efficient and capable operation of the department forces undoubtedly prevented a serious conflagration.

The efficient manner in which the members performed their services reflects great credit upon the department, and the commissioner feels that individual credit is due to every member who assisted in the work at this fire.

The commissioner also considers it worthy of note that the response of the apparatus was very prompt under most adverse weather conditions and was accomplished without a single breakdown or accident of any kind.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

CIRCULAR LETTER NO. 2.

CITY OF BOSTON,
MAYOR'S OFFICE, January 4, 1934.

To All Department Heads, the Police Commissioner, the School Committee, the Board of Commissioners of School Buildings, the City Council, the Licensing Board, the Finance Commission, Sealer of Weights and Measures and the Boston Port Authority.

GENTLEMEN,—The financial condition of the city makes it imperative that the budget for the year 1934 be reduced to the lowest possible minimum consistent with adequate maintenance of proper municipal service and standards.

In order to accomplish this result you are requested to re-examine the proposed budget sheets for 1934 and to advise me at the earliest possible moment of items which may be scaled down or eliminated so that there may be a substantial reduction in the budget requirements for 1934. Is it possible to make a 20 per cent reduction in the budgets for 1934? I welcome suggestions from all heads of departments which may result in such a saving and I would be especially pleased if the department heads would indicate to me wherein such reductions could be effected.

Yours very truly,

FREDERICK W. MANSFIELD,
Mayor.

FIRE DEPARTMENT ORDERS.

General Order No. 2.

I. ACTING DISTRICT CHIEF.

Capt. James E. Sheehan of Rescue Company 3 has been designated as acting district chief of District 4, to take effect as of December 18, 1933.

II. EXECUTIVE ORDER.

The following executive order from his Honor Mayor Frederick W. Mansfield, dated January 2, 1934, is hereby published for the information of the department:

By virtue of the authority granted to me by the provisions of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three, I, as Mayor of the City of Boston, do hereby order and direct that the reductions in the salary of every office and position, the salary of which is paid from the treasury of the City of Boston, in whole or in part, made pursuant to the provisions of section three of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three, be, and hereby are, continued in effect for the calendar year nineteen hundred and thirty-four.

By order of

FREDERICK W. MANSFIELD,
Mayor.

III. NEW BOX CIRCUIT.

A new box circuit, No. 87, has just been established. The following changes will be made in the fire alarm circuits as a result:

Circuit No. 87.

2254 out of 52 circuit; 2337 out of 8 circuit; 2351 out of 8 circuit; 12-2352 out of 8 circuit; 12-2429 out of 66 circuit; 246 out of 66 circuit; 2488 out of 42 circuit; 2491 out of 42 circuit; 2492 out of 42 circuit; 2515 out of 72 circuit; 2519 out of 65 circuit; 2562 out of 13 circuit; 2567 out of 13 circuit; 262 out of 85 circuit; 2623 out of 85 circuit; 2625 out of 85 circuit; 2732 out of 75 circuit; 2734 out of 71 circuit; 2742 out of 71 circuit;

Other Changes.

2476 on 65 circuit out of 85; 2615 on 85 circuit out of 65; 2617 on 85 circuit out of 65; 2712 on 85 circuit out of 65; 2721 on 65 circuit out of 85.

IV. REPORTING OF CHIEF OFFICERS.

The attention of men assigned to house patrol is called to the rule that they must immediately report to Fire Alarm when chief officers arrive at quarters and when they leave. This rule must be strictly followed.

V. WINDING OF FIRE ALARM REGISTERS.

The attention of members of the department is called to the necessity of winding fire alarm registers. Members should be careful in the winding of these registers to see that they are not wound too tight and broken. A little care will save considerable expense.

VI. COMMENDATIONS.

The commissioner is pleased to publish the following letter which he has received from Mr. Albert Cocchi, 1 Webster place, East Boston, expressing appreciation of the service rendered by members of this department on December 31, 1933:

January 3, 1934.

FIRE COMMISSIONER MCSWEENEY.

DEAR SIR,—In response to a still alarm on December 31, between 12 a. m. and

1 p. m. at 1 Webster place, East Boston, I wish to praise the members of Engine 40 and Ladder 2 for the heroic work of rescuing my six months' old boy, who was overcome by the fumes from an oil burner. The quick work by these men with a pulmotor saved my child from death. I am very grateful to these members of the department of which you are commissioner for performing such heroic work.

I remain,

Yours truly,

ALBERT COCCHI.

The commissioner is pleased to publish the following letter which he has received from William J. Finn, in which he expresses his appreciation of the services rendered by members of this department during a fire at 36 Maple street, Hyde Park, on Tuesday, December 26, 1933:

DEAR MR. COMMISSIONER,—Yesterday, during the storm, my house caught fire and I wanted to write you a letter to tell you of the wonderful work done by Capt. Fred Adams and his men. Captain Adams came into the house when it was full of smoke, directed his men where to tear out the wall and cautioned them to be careful not to unduly wet up the house. They stopped the fire and we were able to move back to the house last night. We have a family of eleven children and you can realize how much we appreciate the care taken by the captain and his men. The writer felt that you would like to know that the men under your direction are giving the citizens of the City of Boston real service.

Wishing you a very happy New Year, I remain,

Respectfully yours,

WILLIAM J. FINN.

The commissioner is also pleased to publish the following letter which he has received from Mr. C. B. Jones of the Standard Oil Company of New York, expressing his appreciation of the services rendered by the members of Ladder Company 21 when the captain of Standard Oil Barge No. 8 was overcome and rendered unconscious by coal gas fumes on December 16, 1933:

December 28, 1933.

MR. EUGENE M. MCSWEENEY,
Fire Commissioner.

DEAR SIR,—May I take this opportunity to commend most highly the Boston Fire Department for the splendid work they rendered in saving the life of Thomas Neilson, captain of Barge 8. Without your efficient aid, he most surely would have died. I also want to take this opportunity to particularly commend the members of Ladder No. 21 in command of Captain Crowley working under the direction of District Chief William F. Donovan and to extend our appreciation to Ladderman Christopher Dahnke whom we understand was the particular fireman who handled the inhalator for six hours and thirteen minutes.

Mr. John W. Herbert, our superintendent at East Boston, has told us the story of how heroically your men did their duty and stood by in this emergency.

Although Captain Neilson is really an employee of the Standard Vacuum Transportation Company, he is nevertheless a member of our official family and I am sure you will accept my personal thanks and appreciation for a splendid service you so efficiently rendered.

Very truly yours,

C. B. JONES.

The commissioner has received a letter from Chief Henry J. Harrigan of the Dedham Fire Department, in which he expresses his thanks and appreciation to Hoseman Frederick V. Rasch of Engine Company 45 and Hoseman David Burke of Engine Company 49 for the assistance rendered by them at a fire in Dedham on December 22, 1933. Both men were off duty at the time.

Ladderman Joseph P. Shea of Ladder Company 5 is hereby commended for responding to and working at fire, Box 7223, December 19, 1933, while off duty.

Hoseman George A. Cusack of Engine Company 41 is hereby commended for responding to and working at a fire, Box 5266, December 23, 1933, while off duty.

Hosemen Frank A. Fitzgerald, Walter E. Paris and John E. J. Broughton of Engine Company 7 are hereby commended for responding to and working at a fire, still alarm, 191 Summer street, December 28, 1933, while off duty.

Man on Probation Henry F. McDonald of Ladder Company 31 is hereby commended for responding to and working at fire, Box 6168, December 29, 1933, while off duty.

By order of Fire Commissioner EUGENE M. MCSWEENEY.

HENRY A. FOX,
Chief of Department.

General Order No. 4.

I. COMMENDATION.

The Fire Commissioner wishes to commend the officers and members of the department who responded to the fire at Fenway Park, Box 2344, five alarms, at 1.10 p. m., Friday, January 5, 1934.

It is quite evident that the fire had developed considerable headway before the alarm was given as it had extended to adjoining buildings before the arrival of the apparatus, and the efficient and capable operation of the department forces undoubtedly prevented a serious conflagration.

The efficient manner in which the members performed their services reflects great credit upon the department and the commissioner feels that individual credit is due to every member who assisted in the work at this fire.

The commissioner also considers it worthy of note that the response of the apparatus was very prompt under most adverse weather conditions and was accomplished without a single breakdown or accident of any kind.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 371.

Patrolman Edward F. McFeeley of Division 4 is commended in General Orders and granted three days' additional vacation for meritorious police duty performed on November 6, 1933, while off duty.

Patrolman McFeeley, while on his way to the station to report for last half duty in civilian clothes, heard three or four shots and saw three men running on Dover street. Patrolman McFeeley left his automobile, gave chase, and apprehended one of the men. Upon searching the prisoner a 32-caliber, long-barrel, blue-steel revolver was found.

The commissioner is pleased to recognize the alertness and interest shown in department work by Patrolman McFeeley, while off duty, in performing this splendid police duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 372.

PROCEDURE FOR CRUISING CARS.

Certain cruising cars in this department will be equipped with radio receiving sets this p. m. Until further orders, the procedure will be to keep the sets adjusted to receive State Police broadcasting. All orders received by the cars via the radio will be obeyed as though coming from the Superintendent of Police. All cars equipped with radio will carry two men, the driver and the observer. The observer shall make a complete log of all messages sent out by the State Police Broadcasting System. Until printed forms are provided, the log shall consist of a notebook in which the observer shall enter the place where his car is located when he receives the message, the time of the receipt of the message, and the message itself. If the message received applies to the territory in which the car receiving the message is operating, the observer shall promptly notify the headquarters of his division or unit, and on completion of duty in connection with the order, shall include a complete report of the action taken. On completion of tour duty, the log shall be turned in to the officer in command of the division or unit to which the car is attached, who shall forward the same to the superintendent with the morning report.

The receiving sets on the cars shall be open at all times to receive messages, but the regular broadcasts of the State Police occur at the following times:

8 a. m. until approximately 8.30 a. m.;
11 a. m. until approximately 12 noon;
1.15 p. m. until approximately 2.15 p. m.;
7.15 p. m. until approximately 8.15 p. m.;
10.30 p. m. until approximately 11.30 p. m.

PROCEDURE FOR HEADQUARTERS.

During the period that cars of this department are receiving information by radio from the State Police, the officer in charge of headquarters on receipt of information of the commission of serious crimes in this city shall prepare a message to be broadcast at once and send it on the State Teletype, marked "to be broadcast by State Police."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 373.

A trial board consisting of Captains Campbell, McGrath and Daley, having heard by reference a complaint made by Perley S. Skillings, captain, Division 16, against Henry J. Demers, patrolman, Division 16, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 22d day of December, 1933, the said Patrolman Henry J. Demers, while in uniform, and on a paying detail at the Copley-Plaza Hotel, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty if called upon so to do,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented accepts the plea of guilty made by the said Patrolman Henry J. Demers. The Board has considered the fact that this is the second time that the said Patrolman Henry J. Demers has been before a trial board, and the fact that on December 12, 1933, in General Order No. 350, he was ordered to perform 210 hours of punishment duty, of which up to date he has performed only 28 hours.

"However, in view of the strong appeal made by his captain not to inflict the extreme punishment of dismissal, and the fact that the patrolman has submitted a written promise that in the future he will refrain from the use of intoxicating liquor, the Board respectfully recommends that the said Patrolman Henry J. Demers be suspended from duty for a period of sixty days, effective as of December 29, 1933, at 5.45 o'clock p. m."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Henry J. Demers be suspended from duty for sixty days, effective as of December 29, 1933, at 5.45 o'clock p. m.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 374.

The following letter is published for the information of the department:

MAYOR'S OFFICE, January 2, 1934.

EXECUTIVE ORDER.

By virtue of the authority granted to me by the provisions of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three, I, as Mayor of the City of Boston, do hereby order and direct that the reductions in the salary of every office and position, the salary of which is paid from the treasury of the City of Boston in whole or in part, made pursuant to the provisions of section three of chapter one hundred and twenty-one of the Acts of the year nineteen hundred and thirty-three, be and hereby are continued in effect for the calendar year nineteen hundred and thirty-four.

By order of

FREDERICK W. MANSFIELD,
Mayor.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

TRAFFIC COMMISSION RULINGS.

Voted, That the Traffic Regulations are amended as follows, effective January 15, 1934:

Section 40, Part 1, is amended by adding the following:

Forsyth Road.
From Forsyth way to Fenway.

Section 50 is amended by striking out the following:

Winthrop Street, Charlestown.
Common street to Warren street.

Section 50 is amended by adding the following:

Lexington Street, Charlestown.
Bunker Hill street to Monument square.
Monument Square (east side), Charlestown.
Tremont street to Winthrop street.
Winthrop Street, Charlestown.
Monument square to Warren street.

Voted, Under authority granted the chairman on December 4, 1930, and as urgently required by considerations of public safety and convenience, during the period of sewerage construction, estimated to be sixty (60) days, vehicles are excluded from Poplar street, West Roxbury district, between Canterbury street and Metropolitan avenue, effective January 5, 1934.

PROCEEDINGS OF CITY COUNCIL.

Saturday, December 30, 1933.

Final meeting of the City Council of 1933 in the Council Chamber, City Hall, at 11 a. m., President McGRATH in the chair. Absent, Coun. Cox, Fitzgerald, Gallagher, Hein, Murray, Norton.

PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, December 30, 1933.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $2,225.36 from the income of the George F. Parkman Fund to the maintenance and improvement of the Common and parks in existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its immediate passage by your honorable body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, December 30, 1933.
Hon. James M. Curley,
Mayor of Boston.

Dear Sir.—By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $2,225.36 which is the final balance of the year 1933 and is now available to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in existence on January 12, 1887, Maintenance and Improvement of .....$2,225.36.

When the budget estimates were made up for the year 1933, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for

1933, to be transferred as it accrued from time to time during the year to the regular appropriation of the Park Department.

Respectfully yours,
DANIEL J. BYRNE, Secretary.

Ordered, That the sum of $2,225.36 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the maintenance and improvement of the Common and parks in existence on January 12, 1887, as follows:

Common and Parks in existence on January 12, 1887, maintenance and improvement of, $2,225.36.

The order was passed, yeas 16, nays 0.

PETITION FOR APPEARANCE OF MINOR.

Petition of Charles L. Wagner for a permit for a child under fifteen years of age to appear at Symphony Hall, January 31, 1934.

The permit was granted on the usual conditions.

APPROVAL OF WELFARE APPROPRIATION.

Notice was received from Finance Board of State of approval of emergency appropriation of $300,000 for Public Welfare purposes, and borrowing of said sum, loan to run for a period not to exceed five years as certified by Mayor, City Treasurer and City Auditor under date of December 29, 1933.

Placed on file.

REPORT OF COMMITTEE ON CLAIMS.

Coun. RUBY, for the Committee on Claims, submitted the following:

December 30, 1933.

The Committee on Claims respectfully submits the following report showing the disposition of claims during the municipal year 1933:

Claims pending January 1, 1933	2,071
Claims received during 1933	747
Total	2,818
Claims approved during 1933	158
Claims disapproved during 1933	518
Total	676
Amount paid out on approved claims	$11,959 24
Amount of disapproved claims	$15,643 00
Claims pending December 30, 1933,	2,142

For the Committee,
ISRAEL RUBY, Chairman.

Report accepted, and ordered printed.

REPORT OF COMMITTEE ON PRISONS.

Coun. BARKER, for the Committee on Prisons, submitted the following report:

December 30, 1933.

In accordance with the provisions of chapter 126 of the General Laws, the Committee on Inspection of Prisons of the City Council submits herewith its annual report.

Suffolk County Jail.

The usual semiannual inspections of the Suffolk County Jail were made.

Your committee finds that conditions at this institution continue along the same lines of cleanliness and order that have characterized it for the past several years.

A new and more up-to-date system of keeping stock and purchase records has been installed, replacing the old system, which had been in use for many years.

In the matter of purchasing supplies for the jail, the officials of that institution are cooperating with the City of Boston Supply Department in an effort to effect substantial savings to the city.

The need of a new and permanent entrance to the jail from North Grove street has become acute as the condition of the rear wall and temporary gate is such as to be extremely dangerous.

House of Correction.

The customary number of visits were made by your committee to the House of Correction during the year, and conditions at this institution were found very satisfactory.

For the Committee,
WILLIAM H. BARKER, Chairman.

Report accepted and ordered printed.

UNFINISHED BUSINESS BEFORE COMMITTEES.

Coun. DOWD offered the following:

Ordered, That all matters of an unfinished nature pending before the committees of the City Council be referred to the City Council of 1934.

Passed under suspension of the rule.

EMPLOYMENT FOR NURSES.

Coun. KELLY offered the following:

Ordered, That his Honor the Mayor be requested to take the necessary steps to provide employment for 500 nurses under the Civil Works Assistance.

Coun. KELLY—Mr. President, if I may be allowed, I would like to make a motion that the Mayor be requested to do what he can to place 500 nurses at work, through request to the C. W. A. authorities in connection with the City Hospital program. A lot of nurses are out of work, this money is a gift, and I feel for one that this would not only be of benefit to unemployed nurses, having more nurses placed at work in the City Hospital, but would also be a benefit to the sick of our city.

The order was passed under suspension of the rule.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. KELLY, for the Committee on Public Lands, submitted the following:

1. Report on message of Mayor (referred December 18) relating to leasing of old Police Station 4, La Grange street, recommending passage of accompanying order, viz.:

Whereas, The Police Department of the City of Boston has abandoned the premises occupied by it on La Grange street, city proper, and has signified its intention of not further using said premises; and

Whereas, The building upon said land is antiquated and of no practical use to the city; and

Whereas, An offer has been made by Albert S. Wingersky to lease the land either with the structure thereon, or after the removal of said structure, and for the purpose of parking automobiles thereon; and

Whereas, It is advantageous to the said City of Boston to lease said premises;

Now, therefore, it is hereby ordered, That his Honor the Mayor be, and he hereby is, authorized to lease without alteration or improvement the said parcel of land with the building thereon for a period of ten years at a yearly rental of nine hundred dollars, said parcel of land being described as follows:

A certain parcel of land situated on the southwesterly side of La Grange street in Boston, in the County of Suffolk and Commonwealth of Massachusetts, bounded and described as follows: Northeasterly by the southwesterly line of La Grange street, fifty-three feet five inches, more or less; southeasterly by land supposed to belong now or formerly to R. J. Moody, fifty-five feet, more or less; westerly by land supposed to belong now or formerly to Alexander Steinert, four feet one inch, more or less; southeasterly by the said land of Alexander Steinert, fifty-three feet five inches, more or less; southwesterly by land supposed to belong now or formerly to D. T. Albiani, forty-seven and 78-100 feet, more or less; northwesterly by land supposed to belong now or formerly to the Union Institution for Savings, one hundred six and 37-100 feet, more or less; containing 5,150 square feet of land, more or less; being a portion of the premises conveyed to the City of Boston by Elizabeth W. Stevens, by deed dated November 2, 1864, and recorded with Suffolk Deeds, Book 850, page 259, and the said above described premises being formerly known as Police Station No. 4, and

It is hereby further ordered, That his Honor the Mayor be, and he hereby is, authorized to execute and deliver in the name and behalf of the City of Boston, and in form satisfactory to the Law Department of the City of Boston, a written instrument of lease, together with the right in said lessee to remove said structure and improve the land, to Albert S. Wingersky for a period of ten years, at a yearly rental of nine hundred dollars.

Report accepted, order passed, yeas 16, nays 0.

FINAL PROCEEDINGS.

Coun. CURTIS offered the following:

Resolved, That the thanks of the City Council be extended to Councilor Joseph McGrath for the able and impartial manner in which he has presided over the deliberations of the Council during the present municipal year.

The question came on the adoption of the resolution.

Coun. CURTIS—Mr. President, as a retiring member of this body I feel it to be indeed a pleasure and an honor to offer this resolution expressing our appreciation of the fine impartiality and fairness of our President during the year. I feel sure that this resolution expresses the heartfelt sentiment of every member of the body, and I hope that it will be unanimously adopted.

Coun. ROBERTS—Mr. President, I would just like to add my word to Councilor Curtis's, not being a retiring member, but being a member of the opposite political party to the President. I think the finest thing that can be said about the Boston City Council is that it knows no party politics. For the two years that it has been my privilege to be a member of the body I have known of no body in the country of which it could be so truly said as of the City Council of the City of Boston, that its business has been handled in a fair and impartial manner and without regard to politics. I think that you, Mr. President, have done a fine job as President of the Council, that you have been absolutely impartial in all matters, acting regardless of party or sectionalism, and I think the members as a whole feel that your term in office has been an extremely successful one for the city.

Coun. RUBY—Mr. President, as one who was a candidate for the office of president in this last term, I want to voice my approval and commendation of the activities and the impartial treatment of all members by the President of the body during the past year. I know that this has been at least one case where the man who was finally victorious in the election to the office which he sought has during the year treated all of the other twenty-one men in the body fairly and impartially, in the designation of committee appointments and on every other matter that has come up during the year. It is certainly a pleasure to me to voice my heartiest commendation of the wonderful treatment that has been accorded the other twenty-one members of the body by our President, Joseph McGrath. I sincerely trust that the office he now holds will not represent the peak of his political activities, that there will be further and greater honors in store for him, something which he certainly deserves because of his marvelous treatment of his fellow citizens and of his colleagues in this body.

The resolution was adopted by a unanimous rising vote. (Applause.)

President McGRATH—Members of the City Council, I want first to thank you for your splendid demonstration and then to say to you that to my mind this is a sad day, as it means a parting of the ways of men who have worked in harness together for a period of two years. And yet there is something about service in political life that greatly differs from service in any other line of endeavor, in that the friendships are warmer and more lasting. It makes little difference where we may travel in the future on the highway of life, the friendships we have formed and the events that have transpired in this Council will always, I believe, remain the dearest possession of the members of the body. I still dearly cherish the friendships that I formed in the Legislature, and I will cherish perhaps even more dearly the friendships we have formed here. As Councilor Roberts has said, in this body we seem to be closer together, more like a little family, and the office of president would be an extremely hollow one were it not for the cooperation given to the President by all the members of the Council. We have had our differences of opinion, but yet, as the year ends, we all have in our hearts the deepest love and affection for the men with whom we have served. Might I say this to those who criticize this body, that a few years ago there was one of the greatest demonstrations in the history of this city showing how the people of Boston felt about the councilors elected from the twenty-two wards of Boston? On the same day, across the river in Cambridge, the people were overwhelmingly defeating a request there for an increase in the salaries of the councilors, and yet in Boston 77,000 people voted "yes" on the question of increasing the salaries of members of this body as against 40,000 who voted "no." They were voting away their own money, and yet they by that demonstration, and by the size of that vote, gave the only stamp of approval that has ever been asked for by this body. I might call that fact to the attention of those who would change the Boston City Council by legislative act. May I say at this time to the members of the body, from my heart, that no matter how long I stay in political life, no matter how long I live in this great city of ours, the friendship and the affection demonstrated here by my fellow members will remain among my dearest treasures of memory. I thank you. (Applause.)

PROCEEDINGS OF CITY COUNCIL.

Monday, January 1, 1934.

INAUGURAL EXERCISES.

The ceremonies attending the inauguration of Mayor-elect Frederick W. Mansfield and the City Councilors-elect of the City of Boston were held in Symphony Hall at ten o'clock a. m., the Mayor elect and the members-elect of the Council for 1934 all being present.

(The proceedings were interspersed with musical numbers, John O'Shea presiding at the organ, Fabien Sevitzky conducting the People's Symphony Orchestra, and Maria Koussevitzky, soprano, singing.)

City Clerk WILFRED J. DOYLE—Ladies and gentlemen, I have the honor of presenting the Reverend John E. O'Connell, pastor of St. John's and St. Hugh's Churches, Roxbury, who will open these exercises with the invocation. Father O'Connell. (Applause.)

Father O'CONNELL—Almighty and Eternal God, Protector of all, and Inspirer of all the hopes of men, without Whom nothing is holy, nothing is strong, by Whose counsel and by Whose wishes we are sanctified and governed, in sincerity of mind and in humility of heart we acknowledge our dependence upon Thee. In times past Thou hast been to our fathers a beacon of light, calling and leading them always to the things that are highest and best, enlightening their counsels, inspiring their hearts with courage to do battle for the right, at times prospering, at other times chastening, yet ever protecting and preserving. For these Thy many favors, O God, it is but meet, just, right and salutary, that we both praise and glorify Thy blessedness, and if there have been transgressions we turn to Thee now, O Loving Father, with a pledge of better things, that we may with better right and a more chastened spirit approach Thy throne and invoke Thy continued grace upon our city and her people. Do Thou, therefore, O God of infinite wisdom and of everlasting mercy, impart to us, the rank and file of the citizenry, a more intense and more awakened regard for civic virtue, with respect for law, obedience to authority and love of our fellows, that we may the more faithfully fulfill our duties. Impart to those who are to share with our chief magistrate the government of our city Thy spirit of sympathetic understanding, of wholehearted cooperation, of fraternal charity, that, looking above all littleness of mind and all urge of personal interest, they may ever work together as one, for the common good of all. And, O Loving Father, may Thy spirit descend upon him who is to shortly assume the exalted, the high office of Mayor, so that he may at all times manifest a spirit of justice, a spirit of prudence, a spirit of fortitude; and in all trying situations he may be guided by justice, giving to each his due, that with prudence he may ever decide what is proper and right, and that with fortitude he may ever stand for what is right in the government of our city. Give to him, O Lord, we beseech Thee, health of body and strength of soul; and grant, O Loving Father, that his years of administration may mark a golden era of both spiritual and material profit. These things we ask of Thee, O God, in the sweet name of Jesus our Saviour. Amen.

City Clerk DOYLE read a communication from the Board of Election Commissioners certifying the election of Frederick W. Mansfield as Mayor.

The oath of office was administered to Mayor-elect Frederick W. Mansfield by Chief Justice Honorable Arthur Prentice Rugg of the Supreme Judicial Court of Massachusetts.

City Clerk DOYLE read a communication from the Board of Election Commissioners certifying the election of members of the City Council, as follows:

Ward 1, Henry Selvitella; Ward 2, Thomas H. Green; Ward 3, John I. Fitzgerald; Ward 4, George W. Roberts; Ward 5, Henry L. Shattuck; Ward 6, George P. Donovan; Ward 7, John E. Kerrigan, Ward 8, John F. Dowd; Ward 9, Richard D. Gleason; Ward 10, John J. Doherty; Ward 11, Edward L. Englert; Ward 12, David M. Brackman; Ward 13, Joseph McGrath; Ward 14, Maurice M. Goldman; Ward 15, Martin H. Tobin; Ward 16, Albert L. Fish; Ward 17, Robert Gardiner Wilson, Jr; Ward 18, Clement A. Norton; Ward 19, Peter A. Murray; Ward 20, James F. Finley; Ward 21, James E. Agnew; Ward 22, Edward M. Gallagher.

A roll of the members-elect of the City Council was called by City Clerk DOYLE and as the names were read, the members arose, all being present. The oath of office was administered to them by Mayor Mansfield.

INAUGURAL ADDRESS OF HON. FREDERICK W. MANSFIELD.

It is with a very grave realization of the responsibilities resting upon the chief magistrate of our beloved city that I approach the duties which the people of Boston have placed upon me in electing me to be their Mayor. Even in times of apparently assured prosperity and of lavish expenditure those responsibilities are always great. But in such times as we are passing through at the moment, the burdens resting upon the mayor of any large city are many times multiplied.

It is unnecessary for me to call attention to the troubled state of affairs not only in Boston and in our nation, but throughout the entire world. All civilized nations are wrestling with problems of government. Never in the long history of Boston has the prospect seemed more gloomy nor the outcome more doubtful.

Aside from those conditions which are general throughout the country, the citizens of Boston know well that there are local conditions which are peculiar to Boston but not of their own making. The new administration must take over these conditions, — a heritage from my predecessors— resulting from long years of extravagance and lavish expenditure and from an apparent assumption that the ordinary rules of prudence in conducting business affairs of importance did not apply to the City of Boston.

The Financial Condition of the City.

Almost every mayor who has been inaugurated within recent years has referred to the financial condition of Boston. A perusal of their inaugural speeches shows that the apparently always alarming condition of Boston's finances has been a favorite theme of incoming mayors. But when the financial condition of the city in those other years is compared to that which exists today as I assume the burdens of this great office, it is evident that most of those former references were more rhetorical than real, and that the incoming administration will be faced with more trying and difficult problems than any other in Boston's history.

The Cash Deficit.

The new administration assumes office under extremely critical conditions. As of the end of 1933, Boston's cash deficit or the shortage in the cash operations of the city, will probably be found to be in the vicinity of $15,000,000, an all-time peak in the history of the city. Uncollected taxes may amount to about $25,000,000, which is also far in excess of any previous year.

While these uncollected taxes exceed the cash deficit, there is small consolation in this fact. In recent years the cash deficit and uncollected taxes have been increasing, and they have created progressively greater difficulty in financing the city's requirements.

The immediate problem facing the new administration is to maintain the solvency of the city and to guard against defaults on any of its obligations, both to city employees and to private creditors. In order to finance the city's requirements until 1934 taxes are paid next fall, it will be necessary to negotiate tax anticipation loans of many millions of dollars, under money market conditions which are far from auspicious. Whether we like this situation or not, it is a condition which we must face. We must act quickly and decisively to make certain that these loans can be negotiated and paid at maturity. We must put our financial house in order, keep our current expenditures within reasonably expected income, and reduce tax delinquency by every proper method.

The Tax Rate.

In 1932 the tax rate was $35.50. A reduction to $32.80 was effected in 1933, but this figure did not represent the true state of affairs. The reduction of $2.70 was far more than accounted for by two loans and a grant,—a municipal relief loan of $3,500,000, a welfare department loan of $3,800,000 and a federal welfare grant of $1,994,000, or a total of $9,292,000. By means of these special financing methods, a temporary tax rate reduction was obtained. Without them the 1933 tax rate would have been higher than the rate for 1932.

A number of factors, beyond the control of the incoming administration, darken the tax rate picture in 1934. There is no assurance or promise of federal grants in 1934, and no one can now prophesy what the future policy of the Legislature will be with reference to further loans. Without further grants or loans, the tax rate will be increased substantially. In addition, the city must now commence the five-year task of meeting the interest and principal of 1933 loans. There is also a probability of an increase in the state tax assessed on municipalities and of an increase in the requirements for purchases and contracts, due to advanced prices.

Of course, it is impossible to forecast at the present moment with any accuracy what the tax rate for 1934 will be, but weighing the favorable and unfavorable factors as they are now apparent, the result points to an increase of not less than three to four dollars over the 1933 rate of $32.80. The increase may be even greater, because of factors which the incoming administration will be helpless to prevent, and powerless to avoid.

It is not my intention to accept a tax rate increase without great effort to prevent it. I shall undertake every proper method at the city's disposal to keep the tax rate at the lowest possible figure. Non-welfare expenditures can be cut down; this will be done. Welfare expenditures are, of course, too definitely bound up with economic trends all over the nation to permit any definite promise.

I want to practice broad and reasonable economy I do not want to cause distress among any groups of our people or, in the absence of controlling necessity, to withdraw from them services to which they have become accustomed and which are helpful to them. The strictest and narrowest economy is not a part of my program, for there is a danger that it will create new liabilities as acute as those now facing us. We must provide at all costs both adequately and reasonably, for such essential services as education, the preservation of the public health, and police and fire protection. We must accept the liabilities imposed upon us by forces outside our immediate control. On the other hand, these obligations compel us to recognize the imperative need of foregoing all luxury expenditures, of practising sound economies in every detail of municipal government, of inaugurating such changes as will improve services and reduce costs, and above all else, of observing the most scrupulous honesty in every part of the city's spending. (Applause.)

An additional phase of the tax rate problem is the stern necessity facing this administration of halting the pyramiding of our deficit. In recent years our expenditures have been exceeding our cash income in increasing amounts. This increasing cash deficit has been met by borrowing against delinquent taxes. Such a pyramiding is the chief defect in the city's credit structure.

The Fever to Spend.

Under conditions as they exist today in Boston and throughout the civilized world, most thoughtful and prudent men will agree that there is only one formula to pursue if municipal credit is to remain unimpaired and if our city is to prosper and to thrive. That formula is one of broad, practical economy. The times call for the safeguarding of all municipal funds, for the elimination of waste, for the reduction of taxes—if that can possibly be accomplished—and for a policy which will eliminate all municipal expenditures which are not necessary.

The chief magistrates of this and of all other cities are between two fires. The necessity for eliminating expense and saving money is fully recognized. But an important part of the policy of the National Government is to spend money liberally and to encourage state and local governments to do likewise. It is argued in support of this policy that government spending must prime the economic pump; that we are confronted with a national emergency akin to war; that the depression has assumed the proportions of a public peril and that extraordinary means must be adopted to meet it,—means that in ordinary times would be considered perilous by men of prudence and of expert knowledge in economics.

Our President has embarked upon a great and breath-taking venture to restore prosperity. It is a valiant attempt to maintain the American standard of living. He himself admits the experimental nature of his program. While misgivings as to parts of that program have been expressed by some, all must applaud the courage and determination of the President and must realize that no constructive alternative has been offered. (Applause.)

So far as municipal governments are concerned, it is their patriotic duty to cooperate in furthering the national program in every reasonable way, but it must be remembered that national recovery will be hindered rather than helped if a municipality spends so freely that its credit is endangered. In the nature of things, the federal treasury can withstand abnormal emergency expenditures without impairing its solvency to a much greater extent than can municipal treasuries which must rely upon prostrated real estate for the major part of their income. In so far as cooperation with the national program involves the expenditure of the money to be raised from local taxpayers, rules of prudent finance must not be abandoned. The income base of our municipal governments cannot stand an excessive load.

Specifically, I am thoroughly in favor of a rational program of really necessary public works projects, chosen after careful planning, and anticipating future needs. We must be careful to avoid, as far as possible, projects which will impose large increases in maintenance costs.

A number of public works projects has already been authorized. In addition, Boston has been given substantial grants for Civil Works Administration projects which will employ a large number of persons temporarily. Before committing the city to further public works projects, I propose to institute immediately a careful study of the city's needs and resources.

The Taxpayers.

In municipalities the effect of this patriotic duty of upholding the national program of public works projects, as well as the regular expenses of government, will fall most heavily upon the taxpayer who owns tangible property. There is something radically and scientifically wrong in our method of raising money to defray the expenses of government. Not only does too much of the burden fall upon the owner of tangible property, but he must make up for the depression slump in other sources of revenue. More than three fourths of the total income available for meeting the regular expenditures of the city is now obtained from taxes upon real and personal property. It is clear that tangible property cannot continue indefinitely to bear this increasing burden.

Even if all possible economies are effected, it is imperative that additional sources of revenue be found. High property taxes have a definite tendency to discourage home ownership. This tendency is socially objectionable. It is not insignificant that of all of the large cities of the country Boston has the smallest percentage of home owners. Only a quarter of all of the families living in Boston own their own homes. The high property tax rate in Boston is, of course, not the only cause for this condition, but it is an important factor.

But, even apart from the question of whether or not tangible property can continue to bear the increasing burdens placed upon it, and even apart from the tendency of the present system of taxation to discourage home ownership, a more equit-

able distribution of the burdens of municipal government should be made. Every person should bear his fair share of the burden. A wealthy man with little or no real estate ought to bear his fair share of the expenses of government. The real estate owner and the modest home owner who cannot conceal his home are compelled under the present conditions to pay far too large a share of the expenses of government. A more determined effort should be made to collect a larger share of the public tax from those persons able to pay so that the burden upon the owner of tangible property may be lessened.

I propose to consider promptly and with great care and to recommend legislation with respect to possible additional sources of revenue which will relieve to some extent the burdens on tangible property and more equitably distribute the cost of government. (Applause.)

Salary Reductions.

The restoration of salary levels is within the power of the Mayor. If he does nothing about them, the reductions will automatically be restored on this first day of January. (Applause.) To continue in effect the reductions instituted in April of 1933, the Mayor must act by executive order. A restoration of salaries to their old levels would mean the additional expenditure of approximately $3,400,000 for the year. This sum would represent about $2 additional in the tax rate which has been forecast for 1934.

In order to lessen, as far as possible, an increase in the tax rate for 1934, it will be necessary to keep the salary reductions in effect during the entire period of 1934. But it is better to suffer pay reductions for another year, than, by restoring them, to hazard the chance of so impairing the financial position of the city that city and county employees might have to forego receiving any salary whatever. In other words, there would be danger of payless pay days. It is better to suffer the hardship and inconvenience of the reductions that have already been made and yet to receive reduced salaries, than to restore the original salaries, which would sound well to the ear of the employee, but which might result in terminating all salaries. (Applause.) Therefore, in the best interests of the city and of all of its people, prudence compels me to continue the pay cuts already made for the year 1934. (Applause.)

I am confident that substantial economies may be realized in many departments of the city government during the next four years and even in the year 1934. If it shall appear advisable and the financial position of the city warrants, it is always possible, while the Legislature is in session, to obtain needed legislation to restore pay cuts during 1934. (Applause.)

Resumption of Step-Rate Increases.

There are certain classes of employees, such as school teachers, policemen and firemen, who have, in effect, suffered more than a simple reduction in salary. I refer to those who entered the employ of the city at a minimum rate under circumstances leading them to believe that they would receive annual increases in their salaries until the maximum was reached. When the salary reductions became effective in April of 1933, these classes of employees were doubly affected because they lost not only the reduction in their regular salaries but the yearly increase as well, which seemed to me to be so unjust that I made the specific promise to resume these yearly increases.

I am aware that resuming the yearly increases to begin with the present year will add to our tax burden an amount which, it is estimated, should not exceed $400,000. This represents about twenty cents in the tax-rate. As I am persuaded that it is only simple justice to resume these increases, I shall endeavor to keep my promise. To the extent that I may have the power under existing law I shall order the resumption of these yearly increases; but if I have not the power then I shall seek requisite legislation to enable me to do this. (Applause.)

City Employees.

It is not my desire to remove city employees in large numbers from the city pay roll. But the continuous reports of padded pay rolls cannot be ignored entirely. (Applause.) As to the advisability of removing superfluous employees, two elements are to be considered,—first, the hardship upon the person removed, and second, the hardship on the taxpayers if the person is not removed. The taxpayer must not be overlooked in this situation and his burden must be relieved if that can be accomplished.

Except in flagrant cases of outright padding, I shall try to avoid wholesale discharges. The man or woman giving an honest day's work will be protected. (Applause.) There are ways of economizing without affecting personnel. Consolidation of certain departments would eliminate high salaried officials and effect other economies in operation but would not necessarily mean the separation of the rank and file of valuable and experienced employees from the pay rolls. The policy of not filling vacancies caused by death or retirement will also effect gradual savings, and, so far as practicable, I shall continue that policy. (Applause.) There are numerous opportunities for economy in the everyday conduct of the city's work. In discovering and putting such economies into effect, employees themselves can be of invaluable assistance. May I call to their attention that their cooperation with me in this respect is the most certain guarantee of the security of their own positions. (Applause.)

Accounting and Budgeting.

For many years, Boston's accounting and budgeting systems have been criticized. This criticism has in large part been justified. The accounts of this huge and important corporation are kept on an antiquated cash book basis comparable to that employed by a crossroads country store of one hundred years ago. Any city administration which is unable to give an accurate, prompt, and easily understood statement of its financial condition at regular intervals, or which is careless or inefficient in planning and controlling the appropriation and expenditure of the public money, fails to fulfill the trust imposed upon it by the people.

Immediate steps will be taken to inaugurate a modern accounting system which will give a true picture of the city's finances at all times. This will require encumbering appropriations with all charges against them as soon as the charges are incurred, and setting up the books of the city so that assets and liabilities may be known, and a correct and comprehensive balance sheet may be available.

During the past five years the State Division of Accounts has been at work on the installation of a new system in certain of the city departments. It is time that this work in all departments should be pressed to a conclusion. While continuing friendly cooperation with this state department, I shall take steps to have completed the modernization of the city's accounting system within a reasonable time. In addition, I propose to request an immediate audit by this state department of the city's accounts. It is only fair to the outgoing administration, to the incoming administration, and to the people of Boston that such an audit be made, and I shall help formulate and urge the passage of legislation requiring a compulsory audit of the city's accounts and records at the end of each administration. (Applause.)

Better budget contents, control and procedure are necessary in Boston, particularly in these troubled times. In so far as possible, future budgets will include a complete annual program of the city's receipts from all sources and its expenditures for all purposes. They will also provide a better picture of the purposes for which the expenditures are to be made. They will be supported by comparisons with prior years and the reasons for changes in budget items so as to give a clear understanding to all who are interested. The city's budget calendar will also be improved so that the city will be operated under full budget control as soon as the fiscal year begins. In order that there may be proper control of expenditures to insure adherence to the original budget, thereby eliminating supplementary budgets during the year, I plan to establish a system of quarterly allotments which are based on departmental work programs expressed in units of work. The Auditing and Budget Departments will be instructed to see that such allotments are not exceeded.

As a result of these changes, I hope that public confidence in the city's finances will be improved, public knowledge thereof will be increased, the chances of wasteful expenditure will be minimized, and new opportunities for desirable economies will be uncovered.

It is true that there are certain statutory and other impediments to the complete realization of this program. Informal methods of control are, however, available to the Mayor to achieve substantially the benefits desired until such time as permanent changes can be effected.

Contracts and Purchases.

Contract awards and the purchase of equipment and supplies occupy a prominent place in city administration. In recent years they have involved between $15,000,000 and $20,000,000 annually. This enormous expenditure requires honest, esperienced officials in charge of such purchases and the best methods in order to secure the lowest prices.

Whatever the past has been, Boston must receive full value for each dollar expended. (Applause.)

I propose to adhere strictly to a system of contracts and purchases based upon absolutely honest awards to the lowest bids of reliable merchants and contractors. (Applause.) I pledge my administration to the elimination of all favoritism and the splitting of contracts. (Applause.) In line with my recommendations for improved budget procedure it will be my policy to make volume purchases of supplies needed for relatively long periods. Proper inspection methods will be set up in order that Boston may receive what it pays for. (Applause.) Beyond all of this I hope to make cooperative arrangements with the city and county officials who purchase supplies independently of the Supply Department, to the end that combination of total purchasing requirements may result in lower prices than would otherwise be the case.

Finance Commission.

The Finance Commission, if properly constituted, may be of great benefit to the city. I express no opinion as to whether the present policy of a paid chairman and unpaid associate members should be changed to that of a board of paid members. But I have a very decided opinion that in whatever form it may exist, if it is properly constituted, it is a most valuable asset to the Mayor and an important department of the city. Since the purpose of the Finance Commission is to prevent waste and to serve the city purely in the interest of its citizens and taxpayers, I see no reason whatever for a continuous war between the chief magistrate of Boston and that commission. (Applause.) Such will not be my policy. So long as it is properly constituted and functions fairly and in accordance with its intended purpose, I shall welcome its suggestions and criticisms and shall cooperate in every way to the end that the best results may be obtained for Boston. (Applause.)

Public Welfare.

During recent years the Department of Public Welfare has become the largest, in point of expenditures, of all departments under the control of the Mayor. In 1933, about $13,000,000 has been expended, as compared with less than $3,000,000 before the depression. Early in December of 1933, the number of public welfare cases was about 32,700, almost twenty per cent of the total number of families in Boston. Civil works employment has temporarily reduced the load to some extent.

Under my administration the city will give as liberal aid as possible to all worthy welfare recipients. (Applause.) I recognize the obligations of the city and I realize its social importance. Not only must we alleviate privation and sickness and maintain public morale at the present time, but we must look forward to the future, and make certain that our youth, and generations yet unborn, shall not suffer mentally and physically from the insufficiency of aid in these troubled times.

The obligation of the city government to those who meet the tremendous cost of this work cannot be overlooked. Relentless vigilance must be exercised to eliminate unworthy cases, and to effect an administration of the department that is as efficient as it is humanly possible to achieve. I am apprehensive that, unless the growth of the welfare list is not only checked but welfare costs lowered, the city, by reason of a gradually reduced income resulting in part from lower tax values and failure to collect taxes, will be utterly unable to meet these costs without drastic curtailment of municipal functions whether under the control of the Mayor or other officials. I am not willing to believe that in meeting the city's obligation to welfare recipients the public money must be wasted, inefficiency must be tolerated, or a system which invites fraud must be permitted. (Applause.)

Over a period of more than two years, many studies and investigations of the Public Welfare Department have been made. The Boston Finance Commission, the State Emergency Finance Board, the Police Department, the Budget Commissioner, the Boston Council of Social Agencies, and a number of private organizations have revealed serious defects in the work and have made definite recommendations for improvement. Whether or not all of the criticism has been justified, the fact remains that the department has been deplorably slow in effecting obviously necessary improvements so that its work can be adjusted to the enlarged duties imposed on it by the depression. Conditions are still far from satisfactory. I shall take immediate steps to place the department on the most efficient basis possible. There must be competent executive direction, proper investigation of all new cases, adequate follow-up of cases as long as thay are on the welfare rolls, and a modern system of administrative and financial control within the department. I shall not tolerate further delay in these matters. (Applause.)

I recognize that the character of welfare work will change when economic conditions improve. A new type of problem will then appear, that of returning welfare recipients to gainful employment as speedily as possible and preventing any wholesale tendency toward seeking relief in preference to employment. We must prepare for this change.

The problems are many and complicated. They must be worked out cooperatively, and always with proper regard to the city's obligations to welfare recipients and to the taxpayer.

Mayor's Advisory Committee.

Many of the present and future problems of the city will be difficult. I shall need, and I shall welcome the aid of all citizens, individually and collectively. As a practical method of obtaining that aid, I shall form a committee to be known as the "Mayor's Advisory Committee," and to consist of not more than ten citizens properly representative of labor, business, and general community interest. I shall feel free to submit to this committee problems for investigation, information, advice and guidance, always, of course, with the clear understandig that the reports of the committee shall be advisory only and that the responsibility for final action on any particular problem will rest entirely upon me.

Cooperation.

Many public agencies having responsibility for the administrative and financial functions of the city, are wholly or partly outside the control of the Mayor. The Governor, the Legislature, various state departments, the School Committee, the Police Department and county officers can con-

tribute in large measure to the solution of Boston's problems. I believe that the closest cooperation and a mutual understanding between the Mayor and these officials are indispensable to Boston's welfare. It will be my policy to work in harmony with them. I bespeak their cordial cooperation and I am confident that it will be forthcoming.

Gentlemen of the Council:

The present plight of the city, while grave, is by no means hopeless. The difficulties to which I have referred are not insurmountable. These problems can be solved. I am sure that with the hearty cooperation of your members I can steadily and surely improve the position and the credit of out city. It is my purpose frequently to address the Council personally or by message and the citizens of Boston through the Press and by radio broadcasts, to the end that you and the citizens may be informed of the condition of the city and may understand the exact nature and magnitude of the problems which must be solved. I shall do my best for Boston. (Applause.) I know that is your intention too. But in addition to the hearty cooperation of the Mayor and the City Council, we shall need always in these trying times that Divine Aid which has been so eloquently invoked here today. Fervently let us pray that it may always be with us. (Great applause.)

The Mayor began at 10.42 a. m., and ended at 11.35 a. m.

After the singing of the "Star-Spangled Banner" by Maria Koussevitsky, the audience joining in the chorus, the meeting adjourned at 11.42 a. m.

Tuesday, January 2, 1934.

First meeting of the City Council of 1934 in the Council Chamber, City Hall, called to order by Coun. GALLAGHER, Senior Member, at 2 p. m.

Present, all the members.

CALL FOR MEETING.

The Clerk read the call for the meeting, as follows:

City of Boston,
Office of the Mayor, January 1, 1934.

To the Members of the City Council.

Gentlemen,—You are hereby requested to assemble in the City Council Chamber, City Hall, on Tuesday, January 2, 1934, at two o'clock p. m. for the purpose of organizing and to take action on such matters of city business as may be submitted to your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

ELECTION OF PRESIDENT.

Coun. GREEN offered the following:

Ordered, That the Council now proceed to the election of a president for the municipal year 1934.

The order was passed.

Chairman GALLAGHER—The Clerk will call the roll, and each member as his name is called will announce his preference.

The Clerk called the roll, and the members announced their preference, as follows:

For John F. Dowd—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fish, Fitzgerald, Gallagher, Gleason, Goldman, Green, Kerrigan, McGrath, Murray, Norton, Roberts, Selvitella, Tobin, Wilson—21.

For John I. Fitzgerald—Coun. Shattuck—1.

And Coun. John F. Dowd was declared elected President for the municipal year 1934, amidst applause.

Chairman GALLAGHER appointed Coun. McGrath and Wilson to escort President Dowd to the chair, and they performed the duty assigned.

ADOPTION OF RULES OF 1933.

Coun. ROBERTS offered the following:

Ordered, That the rules of the City Council of 1933, except Rules 13, 24 and 34, be adopted as the rules of this body until permanent rules are adopted.

The order was passed.

APPOINTMENT OF COMMITTEE TO REPORT RULES.

Coun. ROBERTS offered the following:

Ordered, That a committee of five members of the City Council be appointed to prepare and report rules for the proceedings of the City Council.

The order was passed, and President DOWD appointed as said committee Coun. Wilson, Green, McGrath, Gallagher and Roberts.

LOANS IN ANTICIPATION OF TAXES.

The following was received:

City of Boston,
Office of the Mayor, January 2, 1934.

To the City Council.

Gentlemen,—In accordance with the attached request of the City Auditor, I submit herewith an order which it is customary to introduce at the first meeting of the City Council authorizing the City Treasurer to issue, from time to time, temporary loans in anticipation of taxes in an amount not exceeding $30,000,000. This is the same amount as authorized by the City Council at the beginning of its session last year. In view of existing conditions I deem it expedient to request your approval of the same amount for 1934.

I respectfully recommend adoption of this order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Auditing Department, January 2, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I submit herewith customary order for temporary loan in anticipation of taxes, and respectfully request same to be forwarded to City Council with recommendation for its adoption.

Respectfully yours,
RUPERT S. CARVEN, City Auditor.

Ordered, That to provide temporarily money to meet the appropriations for the financial year 1934, the City Treasurer issue and sell, at such time and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston not exceeding thirty million dollars ($30,000,000) in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon within one year of their date from the taxes of the year 1934, and bear interest from their date until the same are made payable at such rate as the City Auditor, the City Treasurer, and the Mayor may determine.

Coun. McGRATH—Mr. President, I would say for the benefit of the new members that this is the customary order which comes in at the first of every year, the purpose being to maintain the City of Boston during the time while we are anticipating the payment of taxes.

The order was given its first reading and passage, yeas 22, nays 0.

SALARY REDUCTIONS FOR 1934.

The following was received:

City of Boston,
Office of the Mayor, January 1, 1934.

Wilfred J. Doyle,
City Clerk.

Dear Sir,—I hand you herewith executive order dated January 1, 1934, continuing in effect for the calendar year 1934 the salary reductions made pursuant to the provisions of section 3 of chapter 121 of the Acts of the year 1933.

Yours very truly,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Office of the Mayor.

Executive Order.

By virtue of the authority granted to me by the provisions of chapter 121 of the Acts of the year 1933, I, as Mayor of the City of Boston, do hereby order and direct that the reductions in the salary of every office and position, the salary of which is paid from the treasury of the City of Boston in whole or in part, made pursuant to the provisions of section 3 of chapter 121 of the Acts of the year 1933, be, and hereby are, continued in effect for the calendar year 1934.

By order of
FREDERICK W. MANSFIELD, Mayor.

Dated January 1, 1934.

Placed on file.

APPOINTMENT OF HENRY E. FOLEY AS CORPORATION COUNSEL.

Notice was received of the appointment by the Mayor of Henry E. Foley, 7 Summit street, Hyde Park, Boston, to be Corporation Counsel, said appointment to take effect at close of business January 2, 1934.

Placed on file.

WARD 17 IMPROVEMENTS.

Coun. WILSON offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Wentworth terrace in Ward 17.

—

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Richard terrace in Ward 17.

—

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Druid street, in Ward 17.

—

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Emerson avenue, in Ward 17.
Severally passed under suspension of the rule.

REMOVAL OF UNUSED POLES AND WIRES.

Coun. WILSON offered the following:
Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested, incident to the present emergency public works program, to take up with the Boston Elevated Street Railway Company, the early removal of all poles and overhead wires where surface street car service has been permanently discontinued.
Coun. WILSON—Mr. President, I have in mind in the introduction of this order the fact that the Federal Government and other public authorities are looking around for opportunities to have men do some work, and it strikes me that here is an opportunity to make a rather wide distribution of money for work in such districts as the Norfolk street section in my own ward and in other streets and highways of the City of Boston, where street car service has been discontinued and jitney service substituted therefor, the overhead wires and poles however, still remaining. In a number of cases the street car service has been permanently given up, and it seems to me there must come a day—and this is probably as good a time as any,—to have action taken looking to the removal of such poles and wires along lines where the street car service has been discontinued, throughout the city, especially, as I say, having in mind that the Federal Government and other public authorities are looking for opportunities to furnish jobs for men who have been discharged or laid off.
The order was passed under suspension of the rule.

NEW SUFFOLK COUNTY COURTHOUSE.

Coun. WILSON offered the following:
Ordered, That his Honor the Mayor be, and he is, respectfully requested, incident to the present Federal Works program, to consider plans for a new Suffolk County Courthouse or an adequate addition to the same.
Coun. WILSON—Mr. President, my remarks will be very brief, especially on this first day, but I have in mind an order introduced on April 26, 1926, by Coun. Fitzgerald of the West End, looking to an investigation of the overcrowded conditions of the Suffolk County Courthouse by the Committee on County Accounts, the committee being requested to report their conclusions as to the relief which should be afforded. There was also an order which I introduced on May 9, 1927, requesting further investigation of the overcrowded conditions of the Suffolk County Courthouse and of the possibility of purchasing certain adjoining property in Pemberton square which had become vacant for the purpose of constructing a suitable modern annex and giving relief in the matter. There was also the order which I introduced on August 5, 1929, to accept chapter 368 of the Acts of 1929, entitled "An Act to provide additional courthouse accommodations and facilities for the courts and other officials in the county of Suffolk." That came under the head of emergency legislation looking to the erection of a new Suffolk County Courthouse, and the only real difference that arose here in regard to it was with reference to the split, the Legislature proposing that the city stand 80 per cent of the cost of construction and the Commonwealth the 20 per cent balance, while it was felt by some of our members that the state should bear a larger proportion of the cost. There was also the order that I offered on August 3, 1931, that the Boston City Council accept chapter 384 of the Acts of 1931, which, having in mind the objection that had previously been made to the division between the state and the city, provided that 70 per cent should be borne by the city and 30 per cent by the state. That was defeated, although it had gone through with an emergency preamble. Again, last summer, during the absence of Mayor Curley in Europe, although I was not a member of the Council, I took the opportunity to write Acting-Mayor McGrath suggesting that advantage be taken of the Federal grant of 30 per cent outright for public works, the balance to be divided between the state and the city. I felt that it was a good opportunity to take advantage of that grant and to carry through an important public project, for which we would have something to show; that we could thereby get a new county courthouse, which it had been agreed throughout all these years that the city should have, the only disagreement being as to the proportion that should be borne by the city and the state, and that the grant of Federal funds afforded us a good opportunity to avoid that issue. And so I now again urge the Mayor, incident to this Federal works program, to consider plans for a new county courthouse or an adequate addition to the same. At a time when the authorities are trying to double the 18,000 odd city employees, and when every effort is being made to put men at work and to accomplish something in the line of public projects, it seems to me, as long as the taxpayers will have to ultimately pay a good proportion of the amount granted, whether the amount is sent to Washington or to the City of Boston, we might try to see if we cannot obtain some tangible results for the money spent, something that will be really worth while. Therefore, I urge the attention of the present Mayor to this matter. Our present Mayor has been honored by election to presidency of the Bar Association, and he is naturally interested in having all possible decent facilities afforded for the transaction of the legal business of the county. I trust, therefore, that he will interest himself in acting on behalf of a new or an improved Suffolk County Courthouse, something which will naturally appeal to him, and something of which he as much as any man sees the need. I trust that the initiative in this matter will be taken by the city, having in mind the delays that we see in the construction of such Federal buildings as the post office, with its inadequate elevators and inadequate heating system. I certainly feel, at a time like this, when we are all looking to work on public improvements to help us out of our present depression and to also furnish additional facilities for the public, this matter may be seriously considered, even although it means double or treble shifts, so that when we have spent millions of dollars in carrying through such a project we shall at least have something to which we can point with pride, one great public improvement that will stand there as a visible testimonial to the amounts that have been spent.
The order was passed.

HEATERS IN POLICE CARS.

Coun. NORTON offered the following:
Ordered, That the Police Commissioner of Boston be requested to consider the advisability of making an appropriation this year for the installation of heaters in police cars, used during the winter period.
Passed under suspension of the rule.

Adjourned at 3.07 p. m., on motion of Coun. NORTON, to meet on Monday, January 8, 1934, at 2 p. m.

APPOINTMENT TO PORTABLE

A communication was received from the Schoolhouse Custodian, under date of Dec. 18, 1933, recommending that Daniel C. Danick, custodian, John A. Andrew Schoolhouse, be also appointed custodian of Portable No. 222, located in the yard of that school, to take effect Dec. 1, 1933.

Placed on file and the appointment approved, to take effect on the date stated.

STUDY OF CAUSES OF HIGHWAY ACCIDENTS

On motion of Mr. Hurley, the following communication was ordered sent to Dr. Karl T. Compton, President, Massachusetts Institute of Technology:

"The Boston School Committee has noted with approval the undertaking by your renowned Institution of an exhaustive scientific study of the causes of highway accidents, and wishes to express to you its appreciation of the spirit of public service so manifested. Particularly we thank you and your colleagues on behalf of the school children, always peculiarly exposed to peril on the highways, for this effort to create a greater condition of safety upon the public thoroughfares.

"The piecemeal and sporadic surveys that are made from time to time perhaps serve a purpose. We would not wish to discourage or belittle any honest effort to decrease the terrible toll of life that the motor vehicle exacts, the ratio of which to the number of cars on the roads is increasing steadily over a term of years. We merely consider this sort of campaign as falling lamentably short of achieving any lasting results.

"The only way that the position of the motor vehicle in our life will properly be aligned is through scientific study of the causes of accidents, carried out fearlessly and without regard to special interests—in a word, such a study as the Massachusetts Institute of Technology is undertaking."

DIVISION OF DEPARTMENT OF MANUAL ARTS

Mrs. Pigeon: I have shared the feeling, Mr. Chairman, that many others have had for many years and my attention was called to it four years ago, that the title "Manual Arts" as applied to the Department of Manual Arts is misleading. The excellent idea of correlating shop work and design led former Superintendent Brooks to unite the two departments. The names "manual training" and "art" were combined to form "manual arts." Why the household science and arts were not included at the same time, I do not know. Probably it was because the Director at that time was a man and not supposed to sew and cook. Art teachers and supervisors have always cooperated with other departments in matters of design. The Director and assistants in the department have given talks to kindergartners, special class teachers, cookery and sewing teachers, as well as shop teachers. Design knowledge and art judgment are needed in all of these activities, but obviously the art director does not need to head all of these departments in order to be of service. Would it not clarify the whole situation if the art department were made a unit in itself, free to lend its influence to all other departments in every grade of school life, as it does now, with a title which more nearly describes the character of the work?

Although the "Department of Art Education" is generally used in the United States, I am recommending the term "Fine Arts Department," and also, for the other unit of that department, I am recommending either "Manual Arts" or "Mechanic Arts."

Therefore, I offer the following motion:

That the Department of Manual Arts be divided into two parts,—a Department of Fine Arts, or a Department of Art Education; and a Department of Mechanic Arts, or a Department of Manual Arts.

Mr. Hurley suggested that in view of the substantial changes that would be involved by this motion, it be referred for consideration to the Superintendent and the Board of Superintendents. Mrs. Pigeon concurred in the suggestion and the Chairman announced that the motion was so referred.

APPRECIATION OF RETIRING MEMBERS, JUNIOR MASTERS' ASSOCIATION

The Secretary read the following resolution adopted by the Junior Masters' Association:

The Junior Masters' Association wishes to express its appreciation of the efforts of the retiring members of the School Committee, Mrs. Elizabeth W. Pigeon and Mr. Wm. Arthur Reilly, to maintain the standards of the Boston public schools at high level.

The high school men of Boston are especially grateful to the present Committee, and particularly to the Chairman, for setting the precedent of direct contact with representatives of the school service when salary matters are under discussion.

Unanimously approved, Dec. 18, 1933.

The Junior Masters' Association
by William J. Roche.
President.

Placed on file.

—

The Chairman read the following statement:

It does not seem as though four years have passed since I, at the age of twenty-six, first came to the School Committee, nor does it seem two years since I was elected chairman of this board.

So much has taken place during these four years that it is hard to

enumerate the important happenings in the School Board during these four years. On the physical side the School Department has been enlarged by the addition to the Public Latin School, by the construction of the Dorchester High School and by the imminent construction of the West Roxbury High School and the South Boston Intermediate School; also by the construction of the Thomas A. Edison Intermediate School, the Clarence R. Edwards, the Woodrow Wilson and the Mary E. Curley Intermediate Schools. Additions have been made to other buildings and other substantial construction has taken place during this term.

We have appointed about two hundred new teachers, doctors, and custodians. We have elected a new superintendent, a new assistant superintendent, and reelected most of the Board of Superintendents. We have appointed a new Director of the Department of School Hygiene and a Supervisor of Health Education. We have a new Superintendent of Construction and we have reelected a commissioner in the Department of School Buildings. These are but a few of the additions that have been made to the staff and they are all the more interesting when we realize that the cost of maintaining the school department has reduced annually about twenty percent during this four year period.

We had become accustomed to the spending of over twenty million dollars per year for the maintenance of our school system but we are now getting along with approximately sixteen million dollars. No doubt when the depression is over, school expenses will increase with the resumption of increments, the abolition of the fifteen per cent pay cut for school employees and with the addition of new construction of school buildings out of current taxation. With reference to new construction I would say that within ten years we will have all the buildings that we will need for the average demands of our school population, so that annual expenses will not find this activity occupying a large part of our school budget.

Construction Costs.

In our attempt to catch up with the floating population, we have had to spend approximately three and one-half million dollars each year for new buildings, and this added to our average expense of one and one-half million dollars for repairs and alterations and maintenance of school buildings has been a large portion of our school budget.

Salary Schedule.

Nothing has given me more regret than the existence of the pay cut for our loyal school service, and I look upon it as something which should be rectified at the very earliest possible moment, as soon as our funds and legal authority will permit. This applies not only to the fifteen per cent reduction, but also to the loss of increments which has caused many in our service very much hardship.

Important Legislation.

1. I have looked with particular pleasure upon the agreement to change the marking system during this past year. This new system will clarify ratings both for pupils and for teachers in subsequent years.

2. The existence of an examined substitutes list has done away with the suspicion that there was favoritism in our assignments for temporary teaching work.

3. The adoption of the best recommendations made by the two Survey Committees whose reports were rendered during the past four years has assured everyone that our school system is functioning on an efficient basis. It was inspiring to find that both survey committees, the first including in its membership the President of Harvard University, and the second under the auspices of the Finance Commission, found that substantially there was nothing wrong with the school administration. Individual recommendations were made and most of them were put into effect by the School Committee. I doubt if there is any city department which can boast of equal efficiency with the school department as it stands today.

4. Through the adoption of a Radio program, Boston schools have pioneered in a new form of dispensing knowledge without any increased cost to the school budget.

Our schools are getting a maximum result in the lines of education with a mimumum expense. Our educational efficiency has been approved by outside and independent educators, and our financial expenditures have been approved by representatives of our tax paying citizens.

It is interesting to note here that there has been absolutely no reduction in personnel during these past four years and this fact when considered with the fact that our maintenance of a full educational program without curtailment at the lowest expense this year that it has been possible to achieve, certainly reflects credit upon the School Committee which has functioned unselfishly in the interest of our citizens.

Employment Problem

The biggest problem which faces the new Committee is that of furnishing employment for the large number who are on our lists properly qualified for school teaching work. It is our hope that in the near future the Civil Works Administration will permit us to avail ourselves of this fine talent, and I hope that the new Committee will find ways and means to permanently enroll all who are qualified in our regular and permanent service.

—

Speaking personally, I wish to say that the character of service that I have rendered as a member and as chairman of the School Committee may be best judged by the opinion of my associates on the Committee, by the Superintendent of Schools, by the Business Manager and by the other officials with whom I have had daily and weekly contacts. These officials know whether or not my efforts in behalf of the school system have been tinged with any sharp practice in my official capacity, or with any personal prejudice. If any appraisal of my personal service is necessary I leave it those I have mentioned. The number of letters I have received during the past week from school authorities and the complimentary notice which the newspapers have given by editorials with reference to my withdrawal from the School Committee have been most inspiring; and I am deeply grateful to all who have been so kind to me as to voice their compliments on my service. I, in turn, desire to pay my respects to some of those with whom I have come in contact most frequently.

Committee Members

Mrs. Pigeon has served with me for four years. She has occupied a most difficult position, being the only woman on a board of five, and with all due respect to the incoming members, it is with sincere regret that I see her pass from this Committee. She has always given fair and mature consideration to every problem that we have faced, and she has given an example of public service that will stand as a model of self sacrifice and high minded judgment.

The remaining members are possessed of experience and ability to continue the high standards of previous school committees. The school service, I am sure, will continue to have every confidence in the logical mind of Mr. Hurley, in the analytical mind of Mr. Tobin and the ever ready sympathy of Dr. Mackey. The high regard which the people of this city have for the incoming members is testified to by the vote received. Doctor Lyons returns to add to our experienced membership. My regard for him was expressed at the last meeting which he attended as a member of the Committee and I refer you to the record of those remarks. Mr. Sullivan shows promise of justifying the high hopes which his friends have in him, and I wish this new Committee the fullest measure of success during their term of service.

Officers of the Committee.

In our Superintendent I have found a man genial, able and sincere according to the best fundamental ideals of education, assisted by a board of superintendents which commands respect from all who have had continuous experience in dealing with that body. The Boston schools are safe in the hands of our present superintendent and his assisting board.

In the Business Manager we have a man of "super-honesty," if I may coin such a phrase, an executive whose department is a model of efficiency and high integrity for all such public agencies to emulate. There has never been a shadow of suspicion on his department during his term of office and he has effected tremendous savings for the people of Boston through his efficient service.

In our Secretary, Miss Cronin, we have one of the most efficient women occupying a high place in any municipal government. For many years she has served the Board of Apportionment, the Board of Superintendents, the Superintendent and the School Committee with remarkable efficiency. No more complete tribute can be paid to any person than the presentation of such a statement as this from one who has had occasion to intimately observe and benefit by that service during a period of four years.

In our custodian service we have a beloved director in Mark Mulvey,

whose department runs at a cost, per building, less than that of any other such department in the State of Massachusetts. He is assisted by Mr. Nagle, who will be recognized as years go on as one of the finest assets which the school department possesses within its ranks.

I could go on with such tributes indefinitely, mentioning in particular Mr. Mulroy, director of the department of Extended Use, whose valuable service is often times rendered without the public recognition which it so well deserves. He and other directors have co-operated with us in every policy set down by the School Committee.

The Mayor

Lastly, I would pay my respects to the Honorable James M. Curley, present Mayor of Boston, whose name will stand in the history of this city among the greatest who have contributed to the welfare of our people. Under most difficult and trying conditions he has unceasingly labored to maintain the nigh standards of every department of the city and the School Committee has found in him a municipal authority ever co-operative and understanding of current problems.

I now leave the chair at this last regular meeting of the School Committee in the year 1933. I take with me only the happiest memories of my associations in the school service. I thank you all for having been so kind to me upon every occasion and I hope that my service has merited the confidence you have placed in me during the past four years.

May I ask you to compare this statement with the one made by me at my first meeting as Chairman of the School Committee, to see if I did what I then promised to do.

—

Mr. Tobin: It is with regret that I see two of our fellow members leaving us tonight after having served the citizens of Boston on this Committee for the past four years. Mrs. Pigeon's loss will be especially great because for the first time in many decades the Committee will be without the advice and counsel of a woman on the many matters upon which a woman has a deeper insight. During my years of service on the Committee, Mrs. Pigeon has been faithful and punctual in attending every meeting and conference of the Committee with the exception of three instances, in each of which she was attending either an educational convention as a representative of this Board, or as a delegate to the National Convention of the General Federation of Women's Clubs. I have enjoyed my years of service with Mrs. Pigeon, and in her passing from the Board, the children, the citizens of Boston, and the School Committee are suffering a great loss. Mrs. Pigeon's four years of self-sacrificing service, without compensation have given her an insight to public affairs that should make her a valuable asset to some appointive public position. It is my hope that she will not be permitted to remain in private life but that either the State or Municipal Government will take advantage of her wide and varied experience by appointing her to some position worthy of her ability and talents.

Our Chairman is likewise attending his last meeting of the Committee. It is my sincere belief, and I know it is also the belief of the other members and officers of the Board, that the Boston School Committee has had as its presiding officer during the last two years as capable, sincere and courteous a gentleman as has ever presided over the deliberations of this body in its history. Under his leadership the School Committee of Boston reduced its appropriation for the year 1933 approximately $5,500,000, or approximately twenty-five per cent as compared with the budget of the year 1931. His every action as a member of the Committee has been one of dignity. During the most trying economic period through which the Boston School Committee has ever passed, he has maintained a congenial attitude that has been an inspiration to all of us.

In the retirement of Mrs. Pigeon and Mr. Reilly, the School Committee is suffering a great loss.

We now welcome to the Committee two new members. Mr. Frederick R. Sullivan comes to us with a good background and from the high opinion in which he is held, I know he is going to be a distinct addition to the Committee in its deliberations.

Dr. Lyons is returning to an old love, service on the Boston School Committee, with a marvelous vote of approval. We welcome him back with the knowledge that his years of experience will greatly assist the Committee in its deliberations during the period of reconstruction through which we will pass in the next several years. We are coming out of a period of depression, probably the greatest this country has ever seen in its history.

So I, personally, want to welcome the two new members and wish the best of good fortune to the two retiring members.

—

Mr. Hurley: There isn't much left for Dr. Mackey and me to say. I know Dr. Mackey will allow me to speak for him as well as for myself at this time. I move that we adopt unanimously the sentiments expressed by Mr. Tobin as being the sentiments of all the Committee, realizing that the retiring members cannot very well vote on the matter.

The motion was seconded by Dr. Mackey and passed.

—

Mrs. Pigeon: You and I, Mr. Chairman, have received a very beautiful verbal bouquet tonight and I second most heartily and sincerely the tribute paid you this evening. The complimentary remarks presented by Mr. Tobin for the Committee are obviously genuine. You have given most generously of your time, your ability, and your strength in order to face adequately the heavy responsibilities of "carrying on" wisely and intelligently as Chairman during the present serious economic situation.

I also deeply regret the fact that I am retiring from this Board. It has been a real joy, a rich experience, and an education to perform the duties required by so important a branch of our municipal government, for I consider that this particular public service is the finest public service a citizen can give, because it deals with the educational welfare of the boys and girls of our city.

Those who through participation or absorption become familiar with our own public school system oftentimes are unmindful of the fact that a proportionately large group of citizens lack this intimate acquaintance. Therefore I have continuously emphasized the slogan, "Know Your Public Schools." Realizing the importance of this credo, last spring I visited every building, every classroom in our school system. The opportunity to greet the Master in his school building, to meet the teacher and the child together in the classroom, and to see at first hand the diversified types of work planned to meet the needs of all the children of Boston, was a rich experience. A day spent with each director and each supervisor gave further opportunity for a more comprehensive knowledge of our school system. Although this was a stupendous task it was so worthwhile I have found it invaluable as a background in deciding many important questions. I understand that I am a pioneer in this particular undertaking. I am informed that I am the only School Committee member who has ever contacted every classroom in the city.

At this time I wish to thank the Chairman, my colleagues on the Board, the Superintendent, the Secretary, the Business Manager, our school administrators and teachers, and the entire school service, who have given their loyal support during these trying years through which we have recently passed. And although I shall sever my official contact with the Boston public schools the first of January, yet my interest will continue through the years. In the last analysis I think we should all remember that a live public conscience and an assertive public opinion can always get and maintain the kind of schools we feel our children in Boston deserve.

Chairman: Thank you, Mrs. Pigeon.

UNFINISHED BUSINESS

The Chairman stated that the members would take up various items of unfinished business, as follows:

Proposed athletic program for girls, laid over at the meeting of June 19, 1933 (see p. 105).

Mrs. Pigeon: May I say that I have had a very satisfactory conference with the Superintendent and Mr. Snow, Assistant Superintendent in charge of that particular work, and I have had submitted to me programs of procedures along this line from other cities which I, in turn, will submit to the Superintendent and Mr. Snow. I sincerely hope that they will plan definitely some program for the spring.

Chairman: List of available and suitable sites for a new girls' high school, referred to the Board of Superintendents at the meeting of Dec. 21, 1931 (see p. 326). That will be continued on the list.

—

Chairman: Proposed establishment of six-year course at Central Evening High School, referred to the Board of Superintendents at the meeting of June 6, 1932 (see p. 98). I introduced this motion on June 6, 1932 (p. 98) and while it was received with favor it was not formally voted upon, but the consensus of opinion was favorable. The question of expense has prevented adoption of the plan which would enable evening high school graduates to gain entrance to college on the same basis as graduates of the day high schools. That can be achieved only by a six-year evening high school course because of the limited number of periods a week. I sincerely hope that as soon as funds are available this plan will be put into operation so that those who are unable to attend day schools, or are ambitious enough to attend the evening schools, may obtain a diploma which will admit them to colleges and schools of higher learning, if they desire to continue their education.

—

Chairman: Establishment of Placement Bureau for Teachers, referred to the Board of Superintendents at the meeting of May 15, 1933 (see p. 69).

I recommended this procedure on May 15, 1933. At that time I believed that the Department of Vocational Guidance could properly embrace within itself the function of soliciting positions for graduates of our Teachers College. Since that time, as we all know the employment problem has become so complicated that it is practically impossible for teachers to secure positions, so that has been held in abeyance. I hope that some time when conditions have changed, the Department of Vocational Guidance or some other department will vie with the private commission agencies where our candidates for teaching positions enroll, so that they may be able, through the Department of Vocational Guidance or this Placement Bureau, to secure positions outside of Boston and thus gain the experience required for examination for permanent Boston service. I am not withdrawing the motion because I feel, as I did at the time of its introduction that it is a most worthy project, worthy of the consideration of this Committee when it is deemed advantageous to adopt the plan. So this will go over for consideration at some more favorable time.

Chairman: Appointment by reentry as result of examinations only of persons having husbands living, referred to the Board of Superintendents at the meeting of June 5, 1933 (see p. 78).

Mr. Hurley: I introduced that motion. I will not press for action in view of the later order that was passed which makes provision for the reappointment by way of reentry of widows with dependent children, the converse of this motion.

Chairman: The motion will be placed on file.

—

Chairman: Instruction on the effect of alcohol and narcotics, referred to the Board of Superintendents at the meeting of Dec. 4, 1933 (see p. 209).

This item was introduced by Mrs. Pigeon at the last meeting and referred to the Board of Superintendents.

Mrs. Pigeon: I received, very soon after my request, a report from the Director of School Hygiene and the Supervisor of Health Education, and tonight at the conference I recommended that a committee be organized, appointed by the Superintendent, to consider revamping our course of instruction along this line.

—

Chairman: Course in Money Management, referred to the Board of Superintendents at the meeting of Dec. 4, 1933 (see p. 209).

At the request of Mrs. Pigeon, the Secretary read the following report from a committee of the Board of Superintendents:

"The Board of Superintendents has been asked to consider the advisability of establishing Money Management as a course in the public schools, and report back to the School Committee before the end of the year. Your committee would recommend that the Board report as follows:

"The subject of Money Management is an important one and, especially in view of current financial situation, is probably not being given so much attention in connection with our courses of study as is desirable.

"The course entitled 'Money Management Method,' which has been brought to our attention, is approved in principle and has many fine things about it.

"So many problems present themselves in connection with the question of establishing a new course throughout our schools, such as cost; appropriateness to the various grades; whether it should be introduced grade by grade or simultaneously through the grades; whether it should be experimented with in individual schools or certain districts of the city; whether the course presented to the board or some other course should be adopted; whether such a course should have a separate time allotment or the time be taken from some existing subject allotment; that additional time is requested for consultation with supervisors and principals after they have had time to investigate the question."

Mrs. Pigeon: I think it is obvious to all of us that it will take considerable time to cover a request of this sort. Therefore, I move that at some later date the Board of Superintendents report again to the next Committee.

The motion passed.

—

On motion, all unfinished business was referred to the next Committee.

—

The Committee adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

PROCEEDINGS OF CITY COUNCIL.

Monday, January 8, 1934.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair. Absent, Coun. Brackman and Fitzgerald.

APPOINTMENT OF WEIGHER OF COAL.

Subject to confirmation by the Council, the Mayor submitted the following appointment, for the term ending April 1, 1934, viz.:

Weigher of Coal: John H. O'Brien, Jr., 60 Carleton road, Newton.

Laid over a week under the rules.

APPROPRIATION FOR MUNICIPAL EMPLOYMENT BUREAU.

The following was received:

City of Boston,
Office of the Mayor, January 8, 1934.

To the City Council.

Gentlemen,—I am advised that the appropriation for the Municipal Employment Bureau is practically exhausted and that additional funds are necessary if the Bureau is to function beyond the present week.

Pending a decision as to the future of this Bureau I deem it expedient to continue its activities for one more month. Since the weekly expenditures of the Bureau are approximately $500, I submit herewith, an appropriation order for $2,000.

I respectfully recommend adoption of this order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the sum of $2,000 be, and hereby is, appropriated to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund, when made.

On motion of Coun. McGRATH, the rule was suspended, and the order was passed, yeas 18, nays 0.

Passed under suspension of the rule.

COUNCIL RULES.

Coun. WILSON, for the Committee on Rules, submitted the following:

The Committee on Rules submit herewith and recommend for adoption the accompanying draft of the rules for 1934-35.

The rules reported are unchanged from those of the last City Council so far as they relate to parliamentary procedure, but the committee has recommended some changes in the rules relating to spectators and to the use of the council rooms. It has always been understood that the rules prohibited the presence on the floor of the Council Chamber of persons other than the officials connected with the Council and the City Hall reporters, but for some years the observance of this rule has gradually relaxed and at times the business of the Council has been interfered with and the attention of the members unwarrantly diverted by friends or constituents who are innocently in the Council Chamber, by invitation or otherwise. The rule reported by the committee definitely prohibits anyone except the members, the officials connected with the Council, and the City Hall reporters of the eight daily newspapers from trespassing on the floor of the chamber while the Council is in session. If the rule is adopted the committee proposes to see that it is enforced, and in this connection would observe that in the case of the visit of some distinguished guest the rule can be suspended, if desired, for that particular occasion. In the same rule the committee has inserted a provision prohibiting demonstrations in the gallery. The necessity for this provision has been shown on many occasions and the committee does not believe it conducive to good government to subject any members arguments or vote to the pressure of approval or disapproval from spectators.

The rule relating to the use of committee rooms, etc., has been rewritten. It is the intention of the President and the committee to retake possession of Rooms 49, 50 and 52, which have been temporarily loaned to other departments, and establish these rooms with Room 48A as waiting rooms and consultation rooms. When these arrangements are completed it is proposed that no visitors be permitted in the east or west anteroom, the rooms formerly used by the President and the Executive Committee room. The committee recognizes the fact that the situation has been unprecedented but believes that on the completion of these changes there will be no excuse for the intolerable conditions which have heretofore existed. It is true that the unfortunate and the unemployed are entitled to every sympathy and consideration but it is also true that the members of the City Council are elected to transact the city's business and are entitled to unimpeded access to the City Council meeting for at least one day a week for the two or three hours required for a City Council meeting.

For the Committee,
ROBERT GARDINER WILSON, JR.,
Chairman.

The two rules referred to in the report, as amended by the committee, are as follows:

RULE. 27. No person, excepting officials connected with the city council, and duly assigned reporters of the eight daily newspapers shall be allowed in the anterooms or upon the floor of the council chamber while the council is in session. Spectators will be allowed in the gallery of the council chamber when the council is in session, and no one will be admitted to said gallery after the seats are occupied. No demonstrations of approval or disapproval from the spectators shall be permitted and if such demonstrations are made the gallery will be cleared. The city messenger shall enforce this rule.

Use of Committee Rooms.

RULE 33. No person except members and officers of the city council and regularly assigned city hall reporters shall be admitted at any time to the west anteroom, the locker room, or the president's room, except when invited on official business.

The draft of rules, as reported by the committee, is printed as city document No. 39.

In connection with the report Coun. WILSON also offered the following order:

Ordered, That special committees to consider the subjects named in the title of the committee be appointed by the President, viz.:

Parks and Playgrounds—five members.

Public Safety—five members.

Unclaimed Baggage—three members.
Hospitals—five members.
Constables—three members.
Municipal Lighting—five members.

Coun. WILSON—Mr. President, the Committee on Rules last week went into the present unbearable situation at some length and we felt that, in fairness to the twenty-two members of the Council themselves, as well as to the thousands of people, unemployed and others, who come here daily, we should try, in view of the unusual situation, to arrange some system that will be reasonably satisfactory to all, subject, of course, to the unanimous approval of the members of the Council. It was thought advisable, Mr. President and gentlemen of the Council, to suggest to you that this room and the adjacent rooms where we hold committee meetings and conferences should be reserved for the Council, so that there may be an unimpeded and unobstructed place for committee meetings, the transaction of city business, a place where we can use the telephone, dictate letters and attend to general city business. While we realize the rights of people coming here and looking for employment through the state and our own employment bureaus, we do feel, in the interest of the proper transaction of the business of the city, that the large hall across the floor and the green room should be set aside for a waiting room and for consultation purposes; arrangements being made through attaches of the City Messenger's Department—Messrs. McMahon, Green and Walsh—so that it will be possible to call up and get in touch with people outside and make appointments for meetings with the councilors, with a view in the whole arrangement to systematize the thing so that we will not have thousands hanging around City Hall aimlessly, as they are to be found at Nashua street and other places, but that they may come at certain times, according to appointments, meeting members of the body, transacting their business without delay and being able to then go on their way. We also felt that the councilors should have certain rooms where they can either go themselves or meet people, without unnecessary delay or interruption. This whole thing is suggested in fairness to the members of the Council, upon whose shoulders a large portion of such business falls, as well as in fairness to the general public. I urge, therefore, that this proposed provision, as well as the rules as a whole, be adopted by roll call, because if this proposed rule is to work out properly it must not only be fair to the President but to the other twenty-one members of the body; and I trust, therefore, that there will be no objection and no exception to the rules. I ask, therefore, for adoption by roll call.

The roll was called, and the proposed rules were adopted, yeas 20, nays 0.

VISIT FROM MAYOR MANSFIELD.

Notice was received by the Council to the effect that Mayor Mansfield desired to appear before the body, and City Messenger Leary retired and presently escorted the Mayor into the chamber, where he was greeted with applause.

President DOWD—The Chair now has the honor of turning the gavel over to his Honor the Mayor. (Applause.)

Mayor MANSFIELD—Mr. President and members of the Council, this is an unexpected honor that has been extended to me. I had not thought that the President would hand the gavel over to me. I merely came to pay my respects to the Council, and for no other purpose whatever. I am very sorry that last week, when our worthy and veteran City Messenger came to the Mayor's office and said there were jurors to be drawn, I was not in my office and did not have a chance to meet you on your first day. I was, besides, of course, very busy in organizing my own office. I thought, therefore, it would be better to defer this formal little visit of courtesy until you had elected your President and completed your permanent organization. So that is the reason why I have come here today to make this little formal visit of courtesy, in the hope that our beloved city may profit by our friendly cooperation this year. I shall do all I can to cooperate with the members of the City Council. I want to know the members of the Council, and have the strong and earnest hope that we may all work together throughout the year. I enter the office of Mayor with an entirely open mind, free from all prejudice, my only purpose being to do the best I can for the City of Boston, as I stated in my inaugural address. I want you to feel that the doors to my office are open to you at all times; that you are sympathetic with me in my efforts, willing to give me a little time, realizing that we cannot undo in twenty minutes what it has taken twenty years to do. And so I trust that you will be sympathetic with me and not too harsh in your criticism, bearing in mind all the time that my intentions are good. I believe, as I said at our little luncheon on inauguration day, that we should look upon the City of Boston as a whole, that we should regard its problems as a whole, that we should deal with those problems as problems embodying and embracing the whole city, and not consider simply the separate sections into which our city is divided or the little local issues. If we can take a bird's-eye view of the city, seeing its needs as a whole, and seeing where those needs can be dealt with in a broad way, not merely feeling that we are representing particular communities,—although, of course, we must all take good care of the communities we do represent,—I think we will do a better job for the City of Boston. And so, gentlemen, my little visit today is one of friendship and one intended to bespeak the cooperation of this Council with the efforts of the Mayor, that we may give to the City of Boston the kind of administration that it deserves, that it has long wanted, and that we now have a chance to see that it shall get. I thank you very much. (Applause.)

Coun. MURRAY—Mr. President, I would like to ask leave of the Mayor to say just a word about the C. W. A. I believe the Mayor has a program, in which the Council is greatly interested, for obtaining work for the citizens of Boston. The C. W. A. program has been under way for some time, there has been certain money allotted to the City of Boston in connection with that program, and I know, so far as this C. W. A. money is concerned, that there are many men who are not citizens of Boston who are working today under the C. W. A. program in Boston. I want to know, with the help of his Honor the Mayor, what we are going to do with the C. W. A. Is it true that all the men hired by the departments will come through your office?

President DOWD—I might say to the member and to the body that there will be a conference on this matter between the Mayor and the President of the Council within ten minutes, and that that matter is going to be discussed. Does that answer the question?

Coun. MURRAY—Well, Mr. President, we have a lot of people bothering us all the time, anxious to know what can be done for them, and I thought I would like to see if we could get some assurance before the Mayor left here, so that we could give some encouragement to our people.

President DOWD—I have already made arrangements for a conference with the Mayor, and I shall be back here in half an hour. If there is now no further business before the Council the Council stands adjourned.

The Council stood adjourned at 2.52 p. m., to meet on Monday, January 15, 1934, at 2 p. m.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JANUARY 20, 1934. NO. 3

MAYOR MANSFIELD PRESENTS 17 MEASURES TO GENERAL COURT FOR ACTION LOOKING TO BENEFITTING CITY AND CITIZENS — SLIDING SCALES OF SALARIES, TAX LIMIT, CONSOLIDATION OF DEPARTMENTS IN INTEREST OF EFFICIENCY AND IMPROVED SERVICE AMONG MORE IMPORTANT TO BE CONSIDERED — BILLS FILED BY CORPORATION COUNSEL FOLEY.

Under instructions from Mayor Mansfield, Corporation Counsel Henry E. Foley has drafted several important measures to be presented to the Legislature looking to the putting into effect some of the ideas of the Mayor for the improvement of the service of the City of Boston and the benefit of her citizens. The bills presented to the General Court number seventeen.

The legislation proposed by Mayor Mansfield is as follows:

1. Bill relating to annual increment and sliding scales of salaries in the City of Boston. (Contemplates the restoration of step-rate increase to school teachers and others.)
2. Bill to reorganize Public Welfare Department. (By the establishment of a single paid commissioner and two paid deputy commissioners and an unpaid advisory board of five members, to be appointed by the Mayor.)

3, 4, 5 and 6. Four bills relating to appropriations by the City of Boston for municipal purposes, two for the year 1934 and two for the year 1935, one for each year fixing a tax limit, the other an appropriation limit.

7. Bill relating to salary reductions in the City of Boston and County of Suffolk. (To give power to the Mayor to continue, if necessary, for 1935 the 1934 reductions, or make lesser reductions.)
8. Bill to perfect ambiguities in the Zoning Law.
9. Bill relating to plumbing in the City of Boston.
10. Bill with regard to regulation of speed of vessels in Boston Harbor.
11. Bill with regard to dredging of certain portions of Boston Harbor. (For the purpose of improving the harbor.)

12, 13 and 14. Three bills for the consolidation of departments in the City of Boston. (Establishing broader powers for departmental consolidations.)

15. Bill enabling the Mayor to authorize advertising in newspapers as well as in the *City Record* for the purpose of giving greater publicity to proposals for bids on contracts and the like.
16. Bill relative to the disposition of fines and forfeitures imposed by District Courts in the County of Suffolk. (Providing in substance that such fines and forfeitures shall be paid into the treasury of the City of Boston.)
17. Bill relative to interest on refunds of abated taxes. (To fix rate at 4 per cent.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

BOSTON NEVER HESITATES AND NEVER WILL HESITATE TO GIVE ITS GENEROUS AND PROPER ANSWER TO THE CALL OF SUFFERING — MAYOR MANSFIELD MAKES STIRRING ADDRESS AT OPENING OF EMERGENCY RELIEF DRIVE DURING MEETING AT SYMPHONY HALL — NO CAUSE, HOWEVER HUMBLE, EVER CALLS IN VAIN, HE TELLS AUDIENCE DURING INAUGURATION OF HUMANE MISSION.

In the course of his address at the meeting at Symphony Hall which opened the Emergency Relief Drive for Boston on Monday, Mayor Mansfield spoke in part as follows:

"The drive of the Emergency Relief Campaign is an appeal to the hearts of Metropolitan Boston. None of us can listen to the wail of the infant in the hospital or to the sob of the bed-racked man or woman, without a throb. None of us can listen to the tales of homeless men and women who wander about our streets seeking shelter on bitter cold nights, without being stirred in the deepest emotion. When we learn the story that young boys and girls among whom despair is beginning to find its victims due to long continuous unemployment are seeking some of the comforts of life among the institutions in this campaign, Boston will never hesitate to give its proper answer.

Every phase of human suffering and misfortune is softened to a great degree by the wonderful work performed in the one hundred and ten institutions that have combined in making this drive a success.

From first hand information I learned many of the touching incidents connected with the campaign of 1933, one of which I must briefly relate to you: It was the last night of the drive and as the clock was tolling ten in came a widowed mother and signed up a pledge of $15. The ward leader knew that out of her small salary for seven years she had given to her paralyzed son some of the small comforts of life. In answer to his protest that her donation was too large she answered, pointing to her heart, "Something here tells me I am doing the right thing. God has saved my son and I want to help to allay the sufferings of some other woman's boy."

That is the spirit that has made Boston the City of the Great Cause. Throughout the country the conscience of our city has been looked upon as a principle from which we never deviate and no cause however humble has asked for help in vain among true Bostonians. From the Atlantic to the Pacific Boston has been ennobled by its conscience. Like a fixed star in the heavens it points the way.

In the departments under the jurisdiction of the Mayor our city spends millions a year for the protection of its citizens in every branch of public welfare. Millions on hospitals, millions to preserve the family intact, millions to give clothes and food and shelter to the young, millions to keep warm the fireside. Boston truly does a tremendous work to bring comfort and happiness to its citizens, but there are thousands, tens of thousands who never come to the institutions under the direct control of the Mayor but who ask for some measure of help under the glorious one hundred and ten institutions enrolled under the banner of this great cause.

This drive is the plea of humanity for humanity and to the broad liberal spirit of Boston I commend this glorious work. As Mayor of Boston I ask you to give generously that those who need may receive some of the softening influences of this great cultured city.

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Parker avenue, Brighton district, as a highway, from North Harvard street northeasterly, with the name of Parkmore street or some other distinctive name, bounded and described as follows:

An extension of the highway named Hooker street is hereby laid out, northeasterly from North Harvard street for a distance of approximately three hundred and seventy-four feet, over and including part of the private way known as Parker avenue, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Westerly by North Harvard street, forty and 75–100 feet; northerly by the northerly line of said extension of said Hooker street as hereby laid out, three hundred seventy and 48–100 feet; easterly by the easterly line of said extension of said Hooker street as hereby laid out, forty feet, and southerly by the southerly line of said extension of said Hooker street as hereby laid out, three hundred seventy-eight and 44–100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of an extension of Hooker street, Brighton district, as a highway, northeasterly from North Harvard street, over and including part of the private way known as Parker avenue, for a distance of approximately three hundred and seventy-four feet, under the order of the Board of January 17, 1934, and awards no damages therefor.

MAYOR MANSFIELD PAYS TRIBUTE TO BENJAMIN FRANKLIN BY PLACING WREATH ON STATUE —SCHOOL PUPILS AND CITIZENS SHARE IN EXERCISES IN FRONT OF CITY HALL IN VENERATION OF ONE OF WORLD'S GREATEST MEN.

Upon January 17 the Mayor, in the presence of pupils from several of the Boston city schools, placed a wreath at the foot of the statue of Benjamin Franklin, in the yard of City Hall on School street. In addressing the pupils and citizens who had gathered for the ceremonies Mayor Mansfield spoke in part as follows:

In history, the memory of the mediocre —the ordinary—the average man grows dimmer until finally not even a shadow remains.

But the extraordinary man, the really great man, the man of strong character, who has left his impress upon the age in which he lived looms larger as history unfolds.

Of this latter class was Benjamin Franklin. Born in Boston on January 17, 1706, 228 years ago, on Milk street, within a few steps of this historical statue erected by his native city as a memorial to his great ability and character, although he was denied many of the advantages which you young girls and boys enjoy, he was compelled to give up his school when he was a boy of tender years. He was practically a self-educated man. He mastered a delightful literary style by studying odd volumes of "The Spectator." At the age of sixteen he mastered arithmetic without assistance and studied navigation. He contributed articles to the public press which early showed signs of talent and even of genius. As he attained to man's estate he became a man of mark, his great intelligence and industry and his ingenuity in devising systems of economy, education and civic improvement, won for him the respect and admiration of the early American colonists.

He was a most versatile genius. Prudent, thrifty, conservative and wise, he was not only one of the ablest men that this country ever produced but he was one of the world's greatest men. He was not only a great statesman representing his country faithfully and well but he was an inventive genius, too. His experiments in electricity are well known, but it is not so well known that he was the inventor of the Franklin stove still in use in those parts of the country where more modern methods of heating have not penetrated. His example is one that every young man might well note and emulate. You are not all blessed with his talents and genius, of course, but you can imitate the other lasting qualities which have made his memory secure and which have endeared him to the hearts not only of the American people but of the people in many foreign lands.

When he died in 1790 at the age of eighty-four, his epitaph, written by himself, became public. It has become famous in its characteristic of the man.

He wrote:

"The Body of Benjamin Franklin, Printer
(Like the cover of an old book,
Its contents torn out,
and stript of its lettering and gilding)
Lies here food for worms.
Yet the work itself shall not be lost,
For it will (as he believed) appear once more
In a new
And more beautiful Edition,
Corrected and Amended
By
The Author."

Our faith teaches us that he has appeared in a new edition in another world. It is but fitting that we who remain after him in this world and that the people of Boston, through me as their Mayor, shall each year take note of his birth and his wonderful services to his native land and to the world. These wreaths with which we decorate his monument today are merely indicative of the veneration and esteem in which his memory is held.

247 PERSONS TO BE PUT TO WORK AT RECREATIONAL CENTERS BY MAYOR MANSFIELD.

Mayor Mansfield, at a dinner at the Hotel Westminster on the evening of January 18, pledged the cooperation of the Park Department and the city in a program to carry out recreational and health plans through C. W. A. projects. The dinner was planned and carried through by a group of neighborhood leaders.

The Mayor stated that the public recreation project, financed by the C. W. A., will begin next Monday and it is planned to put 247 persons to work in these recreational centers.

Park Commissioner William P. Long, who has been named chairman of the City-Wide Emergency Committee appointed by the Mayor, was the next speaker. He said eleven centers were used last year and that thousands used the gymnasiums. This year he hoped to add four more buildings and extend the hours in which the gyms would be open. Two days a week would be given over to women.

The session was attended by chairmen of the Boston section joint planning committees, including Ulysses S. Harris, Brighton-Allston; James H. Brennan, Charlestown; John J. Dailey, Dorchester; Samuel Elberfeld, East Boston; Frank J. Morrison, Hyde Park; Robert F. Paul, Jamaica Plain; Gabriel Piemonte, North End; Julian Steele, South End; Thomas B. Fitzpatrick, Roslindale; John J. Madden, Roxbury; Albert Stineman, South End; Dr. Emmanuel Yovino, South Boston; Jacob Burnes, West End, and Arma A. Drew, West Roxbury. W. Duncan Russell of the Community Service of Boston presided.

Building Commissioner Roswell G. Hall also spoke.

BOILER IN AMBULANCE STATION.

The Mayor has approved the following request of the Health Commissioner:

BOSTON, January 5, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I respectfully request your Honor's approval to award a contract to the Garvey Plumbing and Heating Company, 254 Adams street, Dorchester, for the installation of a boiler for coal or oil at the Ambulance Station, 20 North Grove street, Boston, for the sum of three hundred dollars ($300.).

The necessity for the above installation has arisen because of the recent cold spell, when the old boiler cracked and was rendered useless. Upon investigation, Mr. Garvey recommends the installation of a new boiler.

Yours respectfully,

F. X. MAHONEY, M. D.,
Health Commissioner.

* Contract awarded.

WITHOUT ADVERTISING.

Upon the following dates, as indicated, the Mayor approved contracts with firms and concerns for supplies and work. Communications from the heads of the several departments were as follows:

ELECTION DEPARTMENT.

BOSTON, January 2, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—The Board of Election Commissioners respectfully request that permission be given them to award the contract for printing the "Special Election" ballots to the firm of Wright & Potter Printing Company of 32 Derne street, Boston, without advertising for bids, at a price of twenty-five hundred sixty-four dollars ($2,564) for supplying not in

excess of 373,000 ballots (this being the quantity supplied at the last election), and the usual quantity of specimen ballots, the price being approximately six dollars and eighty-seven cents ($6.87) per thousand for the ballots.

The ballots for this "Special Election" will contain three hundred sixty-two (362) precinct changes. Great care will be required on the part of the printer as the time for printing such ballots and making a delivery to this office is but twelve week days. Sample ballots for posting must also be delivered at this office three days after receipt of copy.

The Wright & Potter Printing Company is the only printing concern especially equipped to do this work, having printed the State and City of Boston ballots for a long period of years.

For the reasons as stated above, and to safeguard the voters of the city as far as possible against error, this request is made.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
PETER F. TAGUE,
Chairman.

SUPPLY DEPARTMENT.

BOSTON, January 8, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested to award a contract, without advertising, to F. W. Faxon Company of 83 Francis street, Boston, for furnishing the City Hospital medical and surgical journals.

A large part of this order is for French, German, Scandinavian and English journals and this is the only concern that I know that is able and willing to handle this order.

Due to the fluctuation of foreign exchange and the fact that it is impossible to secure the price of a few of the journals, the exact amount of this contract cannot be stated. However, it is estimated that it will total approximately $1,100.

Mr. Ballard, librarian of the Medical Library at the hospital, has checked the prices and recommends award to this company.

In view of the above facts and as there is nothing to be gained by advertising, I respectfully request the award of this contract to the above-named concern.

Respectfully yours,

PHILIP A. CHAPMAN,
Superintendent of Supplies.

ADDITIONAL PURCHASES UNDER CONTRACTS.

SUPPLY DEPARTMENT.

Upon January 5 the Mayor approved the requests of the Supply Department for the purchase of additional supplies of various kinds in accordance with contracts already approved and in force, these supplies being purchased under contracts to run until March 31, 1934. Communications were received from Philip A. Chapman of the Supply Department as follows:

BOSTON, January 3, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under date of October 11, 1933, the City of Boston entered into a contract with the United Farmers' Co-operative Creamery Association, relative to the purchase of milk, cream, etc., for delivery to the various city departments.

Included in the contract is the following clause:

"It is agreed that the City of Boston, with the approval of the Mayor, may, beginning January 1, 1934, at its option, purchase, and the contractor agrees to deliver upon the same terms and conditions as aforesaid, such quantities of said milk, cream, etc., as may not have been ordered up to and including December 31, 1933. This privilege is extended to March 31, 1934."

I respectfully request that you approve the purchase on behalf of the City of Boston, pursuant to the above-quoted option, upon the same terms and conditions as are stated in said contract, such quantities of milk, cream, etc., referred to therein, as may not have been ordered up to and including December 31, 1933, for the extended period permitted thereby, to wit, to March 31, 1934.

Respectfully yours,

PHILIP A. CHAPMAN,
Superintendent of Supplies.

BOSTON, January 3, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,— Under date of October 11, 1933, the City of Boston entered into a contract with the Standard Oil Company of New York, Incorporated, relative to the purchase of gasolene and kerosene for delivery to the various city departments.

Included in the contract is the following clause:

"It is agreed that the City of Boston, with the approval of the Mayor, may, beginning January 1, 1934, at its option, purchase, and the contractor agrees to deliver upon the same terms and conditions as aforesaid, such quantities of said gasolene and kerosene as may not have been ordered up to and including December 31, 1933. This privilege is extended to March 31, 1934."

I respectfully request that you approve the purchase on behalf of the City of Boston, pursuant to the above-quoted option, upon the same terms and conditions as are stated in said contract, such quantities of gasolene and kerosene referred to therein, as may not have been ordered up to and including December 31, 1933, for the extended period permitted thereby, to wit, to March 31, 1934.

Respectfully yours,

PHILIP A. CHAPMAN,
Superintendent of Supplies.

BOSTON, January 3, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under date of November 1, 1933, the City of Boston entered into a contract with Webster-Thomas Company relative to the purchase of coffee for delivery to the Sanatorium Division, Deer Island and Long Island.

Included in the contract is the following clause:

"It is agreed that the City of Boston, with the approval of the Mayor, may, beginning January 1, 1934, at its option, purchase, and the contractor agrees to deliver upon the same terms and conditions as aforesaid, such quantities of said coffee as may not have been ordered up to and including December 31, 1933. This privilege is extended to March 31, 1934."

I respectfully request that you approve the purchase on behalf of the City of Boston, pursuant to the above-quoted option, upon the same terms and conditions as are stated in said contract, such quantities of coffee referred to therein, as may not have been ordered up to and including December 31, 1933, for the extended period permitted thereby, to wit, to March 31, 1934.

Respectfully yours,

PHILIP A. CHAPMAN,
Superintendent of Supplies.

BOSTON, January 3, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under date of November 14, 1933, the City of Boston entered into a contract with the Globe Grocery Company relative to the purchase of groceries for delivery to the various city departments.

Included in the contract is the following clause:

"It is agreed that the City of Boston, with the approval of the Mayor, may, beginning January 1, 1934, at its option, purchase, and the contractor agrees to deliver upon the same terms and conditions as aforesaid, such quantities of said groceries as may not have been ordered up to and including December 31, 1933. This privilege is extended to March 31, 1934."

I respectfully request that you approve the purchase on behalf of the City of Boston, pursuant to the above-quoted option, upon the same terms and conditions as are stated in said contract, such quantities of groceries referred to therein, as may not have been ordered up to and including December 31, 1933, for the extended period permitted thereby, to wit, to March 31, 1934.

Respectfully yours,

PHILIP A. CHAPMAN,
Superintendent of Supplies.

LAND-TAKING IN SOUTH BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Hyde street, South Boston district, as a highway, from Dorchester avenue to Old Colony avenue, bounded and described as follows:

A highway named Hyde street is hereby laid out, from Dorchester avenue to Old Colony avenue, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Westerly by Dorchester avenue, forty feet; northerly by the northerly line of said Hyde street as hereby laid out, eleven hundred and 28–100 feet; easterly by Old Colony avenue, forty feet, and southerly by the southerly line of said Hyde street as hereby laid out, eleven hundred and 90–100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Hyde street, South Boston district, as a highway, from Dorchester avenue to Old Colony avenue, under the order of the Board of January 16, 1934, and awards no damages therefor.

POLICE DEPARTMENT ORDERS.

General Order No. 375.

It gives the commissioner great pleasure to publish the following letter for the information of the department.

OFFICE OF THE MAYOR,
CITY OF BOSTON, MASS.,
FREDERICK W. MANSFIELD, *Mayor*,
January 9, 1934.

MR. MARTIN H. KING,
Superintendent of Police.

DEAR SUPERINTENDENT KING,—I hope it is not too late to thank you for the excellent work done by you and your officers upon the occasion of my inaugural exercises held at Symphony Hall last Monday. The police arrangements, so far as I could see, were perfect, and the aid and protection accorded to my own personal party and to the guests could hardly have been excelled. If you will accept my sincere thanks for yourself and convey the same to the officers who participated I shall be very much obliged to you.

Yours truly,

FREDERICK W. MANSFIELD.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 376.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by Harry N. Dickinson, captain, Division 11, against John F. Keefe, patrolman, Division 11, for alleged violation of Rules 27, 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification: In that the said Patrolman John F. Keefe, on the 24th day of December, 1933, while on duty and in uniform, being assigned to routes No 21. and No. 22, did fail to signal his station for orders from 8 p. m. December 24 to 12.30 a. m. December 25, a period of four and one half hours, although the police rule required him to so signal every forty minutes.

Charge 2: Disrespect to his superior officer.

Specification: In that on the 25th day of December, 1933, when questioned by his superior officer, Lieut. Thomas McMurray, as to the reason for his neglect of duty, the said Patrolman John F. Keefe did refuse to answer certain questions and did speak in an insolent and disrespectful manner,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence presented, accepts the plea of guilty made by the said Patrolman John F. Keefe to Charge 1 and specification thereunder, and the Board finds the said Patrolman John F. Keefe guilty of Charge 2 and specification thereunder. In view of the fact that this officer has already been before a trial board on two occasions, his pronounced insubordination, the recommendation of his commanding officer that the said Patrolman Keefe be dismissed from the service, and in order to maintain the morale and discipline of the department, the Board respectfully recommends that the said Patrolman John F. Keefe be dismissed from the Police Department."

The commissioner accepted the finding and the recommendation of the Trial Board, and ordered that the said Patrolman John F. Keefe be dismissed from the Police Department. Due written notice of such dismissal with the reasons therefor was duly and specifically given in hand on January 3, 1934, to the said John F. Keefe.

On January 6, 1934, the said John F. Keefe requested, in writing, a public hearing as provided by law, and the Police Commissioner set down Thursday, January 11, 1934, at 9.30 o'clock a. m., at the office of the Police Commissioner. as the time and place of said hearing, and duly notified the said John F. Keefe,

The said John F. Keefe was present at said time and place with counsel and was heard with his witnesses. Whereupon, after hearing the case, the Police Commissioner finds the said John F. Keefe guilty as charged, and further finds that the said John F. Keefe shall stand dismissed from the Police Department.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 377.

The Superintendent of Police is hereby directed to make the following details for duty at the Special Election in this city on Tuesday, January 23, 1934.

1. Three patrolmen for duty in the office of the Board of Election Commissioners, 111 City Hall Annex, on arrival of ballots for the Special Election at about 11 o'clock a. m., Monday, January 22, 1934, such detail to continue until all ballots cast at the election have been returned.

2. An officer of rank above that of sergeant for duty at the City Hall Annex, to supervise the police detail for motor trucks from 7 o'clock a. m., Tuesday, January 23, 1934, until relieved, and a patrolman from 8 o'clock p. m., on the same date, until relieved, for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

3. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on Special Election Day, to preserve order and protect voters in the full exercise of their rights.

4. Twenty-three sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample season to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

SCHEDULE FOR HOURS OF DEPARTURE OF SERGEANTS SO DETAILED, FROM OFFICE OF BOARD OF ELECTION COMMISSIONERS ON MORNING OF JANUARY 23, 1934.

Ward 22, Precincts 13 and 14, 9 a. m.

7. Commanding officers are to take notice that it is of the greatest importance, also, that the patrolmen herein detailed report at the polling places in the various precincts promptly according to schedule.

Failure for any reason of an officer to be on hand at a polling place at the appointed time delays the sergeant in the motor vehicle in his delivery of the ballot boxes, ballots, etc., and interferes, as is plainly seen, with the balance of the delivery schedule.

8. This detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' Office.

9. Cards with the ward and precinct number and location of voting booth printed thereon have been forwarded to the several police divisions, on which the division commander will write the name, the division number, and the number of the officer detailed at the time stated on the morning of January 23, 1934, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivered by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' Office on the morning of January 23, 1934, with ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the Office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

10. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

11. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots after which the patrolman will see that the box is again locked, and the key returned to the police officer.

12. The patrolman will obtain from the warden copies of posters, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

13. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of the polls.

14. When the polls are opened, the patrolman will mark in the place indicated on the tag attached to the key the figures which the register shows before any ballot are cast.

15. At 8 p. m., Tuesday, January 23, when the polls close, one sergeant will report in each of the twenty-two wards (excepting Ward 1, East Boston, for which two sergeants and two motor trucks are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward, and receive registering ballot box (which must be locked) and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot envelope, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots, receipts for ballots and check lists, carry them to the Election Commissioners' office and deliver same to some member of the Board of Election Commissioners.

16. When the polls are closed, the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope and the envelope certified by the signatures of himself and the other election officers and the same returned to the Election Commissioners, as described in section 15 of this order. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will keep it about his person until delivery at the office of the Election Commissioners. The unused and spoiled ballots are then to be put in the envelope for unused ballots, and the envelopes sealed and certified.

17. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

18. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk, and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

19. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is properly instructed as to the duty of bringing the official returns, the box of ballots cast, and the press return to the Election Commissioners' Office as soon as they are delivered to him by the election officers.

20. When the ballots have all been counted, the ballots thus counted, tally sheets and nothing else, shall be placed by the warden in the leatheroid box for that purpose, which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book and press return to the City Hall Annex, Court square, and deliver same to the Election Commissioners. The patrolman is directed not to allow the official return, press return or record book to be placed in the leatheroid box.

21. While the polls remain open, an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with headquarters.

22. Attention is called to the fact that the polls at the Special Election on Tuesday, January 23, 1934, shall open at 10 o'clock a. m., and close at 8 o'clock p. m.

23. Commanding officers of divisions will see that the officers detailed for duty on Special Election Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on . . . Election Days."

24. The counting of ballots will be done on one table only with two inspectors counting and two inspectors watching the count.

Notes.

1. Attention is again called to the last paragraph of the circular, "Instructions to Police Officers on . . . Election Days," which reads: "The police officer is directed not to allow the official return or record book to be placed in the leatheroid box."

That this may not happen (as it has in the past, notwithstanding repeated instructions) in any of the precincts of this city at the coming election, the officer of rank who will visit the polling places in each division (provided for in section 21 of this order), shall, at an appropriate time, call to the attention of the police officer and of the warden on duty at the polls, that the official return, press return and record book are not to be placed in the leatheroid box.

They shall be handed to the police officer who will deliver them as set out in the paragraph immediately following.

2. The officer going to the office of the Board of Election Commissioners with the leatheroid box, after the counting of the ballots, will take with him, in a separate package, the official return, press return and record book, which he shall safely deliver to the election commissioners with the leatheroid box, as provided in section 20 of this order.

3. The police shall enforce the order that smoking is prohibited within the confines of the polling places, during the entire day, while the polls are open, as well as after they are closed.

The Board of Election Commissioners makes special request that the officers detailed at the 362 precincts be instructed to see that this is enforced.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

Commanding officers will take notice, and provide means to correct the following conditions set out in a paragraph of a letter received by the Police Commissioner from the Board of Election Commissioners:

"May we again call your attention to the law which prohibits smoking in any polling place, and ask you to have the officers who are detailed to the three hundred and sixty-two (362) precincts make a special effort to see that there is no smoking during the entire day, while the polls are opened, as well as after they are closed."

4. The following matter has been brought particularly to the attention of the Police Commissioner in writing by the Board of Election Commissioners.

Commanding officers will see that this cause of complaint is corrected.

"During the hours from 6 p. m. to 8 p. m. there has been a large increase in the number of persons who congregate outside the polling places. This makes it disagreeable to voters who are entering and leaving the polling places. May we ask that the police use every effort to relieve this congregation?"

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 378.

The commissioner is pleased to publish the following letters for the information of the department:

THE EXPRESSMEN'S LEAGUE,
January 11, 1934.

HON. EUGENE C. HULTMAN,
Police Commissioner.

DEAR MR. COMMISSIONER,—The helpful cooperation of your department during the year just past has again been called to our attention by the report of our special agent and a copy of his report is attached for your information.

We feel that the officers mentioned in this report and your entire department have done a wonderful piece of work in preventing thefts from trucks and in the arrest of twenty-two persons for this type of larceny.

It is apparent that such a record should not pass without an expression of our sincere thanks and our wish that the present most pleasant relations may be continued through the years to come.

Yours respectfully,

THE EXPRESSMEN'S LEAGUE,
IRA S. NELSON,
Executive Secretary.

THE EXPRESSMEN'S LEAGUE,
January 9, 1934.

MR. IRA NELSON,
Expressmen's League,

DEAR SIR,—I wish to call to your attention the valuable assistance received from Deputy Superintendent James McDevitt and Captain Stephen Flaherty in the creation of the permanent express detail of Sergt. Frank Bohmbach and Patrolman William Philbrick with a private car. Your agent reports to the officers each morning. The entire business section is covered, including all freight terminals. I believe that an expression of thanks should be tendered to the Police Commissioner of Boston, as I consider this is the best piece of police work done in years.

The total reported losses for the past year amounted to $2,859.52. Of this amount $2,355.73 was stolen prior to the creation of the express squad. The total recoveries made in the arrest of criminals and found on the highways amount to $4,108.11.

We arrested twenty-two persons for larceny from trucks, and four for receiving stolen goods. Of these, sixteen were placed on a suspended sentence, three were sent to Concord Reformatory, two sentenced to six months, one to twelve months, and one to thirty days in the House of Correction, one was sentenced to three to five years at State Prison, and two were discharged.

Respectfully submitted,

LAWRENCE W. WELCH.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 6.

I. CHARGES.

Hoseman Dennis J. McLaughlin of Engine Company 6 has been suspended from duty in the Boston Fire Department, without pay, for seven (7) days, to take effect at 8 a. m., Monday, January 15, 1934, because of the following charges preferred against him by Capt. James F. Sheehan of Rescue Company 3, under date of January 3, 1934:

Charge 1: Violation of Rule 354, Sections A and C.

Specification: In that Hoseman Dennis J. McLaughlin, while on an "off duty" period December 29, 1933, entered the quarters of Rescue Company 3 and took or was a party to the taking, without permission, spare car No. 080, used for salting hydrants. This car, while in his possession, was involved in an accident at 40 Staniford street, breaking the left front axle of the car and also a small plate glass window at 40 Staniford street, and bending a "no parking" sign at the same location. Hoseman McLaughlin failed to report these facts to his immediate superior.

Charge 2: Violation of Rule 374, Section I.

Specification: In that when Hoseman McLaughlin was informed by his superiors in regard to this affair he refused to give the truth concerning it.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

General Orders No. 8.

I. FIRE PREVENTION INSPECTION.

Beginning Wednesday, January 17, 1934, a system of district inspection will be inaugurated in the Fire Department to augment work now being done by the inspectors from the Fire Prevention Division.

District chiefs will assign men from the various companies in their respective districts to perform daily inspection work. Different men will be assigned each day whenever possible. The schedule of men to be assigned from each district is as follows:

District 1, 1 inspector.
District 2, 1 inspector.
District 3, 2 inspectors.
District 4, 2 inspectors.
District 5, 2 inspectors.
District 6, 2 inspectors.
District 7, 2 inspectors.
District 8, 2 inspectors.
District 9, 2 inspectors.
District 10, 2 inspectors.
District 11, 1 inspector.
District 12, 1 inspector.
District 13, 1 inspector.
District 14, 1 inspector.
District 15, 1 inspector.

Each inspector will be furnished with a pad of notices which he is to use when conditions are found that are liable to cause fire. These notices are to be made out in duplicate. The original is to be delivered to the owner or manager of the building and the duplicate is to be forwarded to the Fire Prevention Division.

The purpose of this augmented inspection force is twofold, first, to make every possible effort on the part of the Fire Department to eliminate possible fire hazards; and, secondly, to make every effort to apprehend persons who are liable to set fires or to find places where conditions are such that fires may be set.

The men assigned to this work will perform their inspections between 9 a. m. and 4 p. m. in the daytime, and district chiefs will carefully instruct these men in the proper method of making inspections.

Men assigned to inspection work will be careful and neat about their appearance, and will be courteous at all times.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

General Order No. 9.

I. ANNUAL BALL.

The Fifty-fifth Annual Ball of the Boston Fire and Protective Departments will be held on Monday evening, February 5, 1934, at the Boston Garden. Detailed information and instructions concerning the ball will be furnished later, but in the meantime the Fire Commissioner desires to emphasize the fact that he is deeply interested in the success of the ball and he expects every member of the department to manifest the same interest. Everyone should do his part to make the ball a financial success.

On the night of the ball the commissioner will expect to see every officer and private in the department who is off duty in attendance at Boston Garden in uniform, participating in the success of the affair, and every member of the department who is off duty should take part in the grand march. This year the department should present the longest and most colorful grand march in its history. The personal interest and cooperation of each man is necessary. It is an obligation the members of the department owe themselves.

II. C. W. A. PROJECT.

During the progress of the Civil Works project of painting interiors of certain buildings in this department company commanders will exercise due care and diligence in the protection of the materials and equipment which may be used in connection with the work which are stored in the various houses.

This material and equipment is government property and a strict accounting must be made thereof.

Civil Works employees will not be allowed to remain in the building after working hours and under no circumstances will they be allowed to have access to the supplies or materials outside of working hours.

III. WRONG BOX NUMBER.

In General Orders No. 2, c. s., regarding a new circuit, Box 12–2429 was given instead of 12–2459. Box 12–2459 is the correct number and company commanders should make this change immediately.

IV. RELOCATING BOX 3134.

Box 3134, formerly located on pole at Norfolk avenue and Clapp street, has been moved to Norfolk avenue and Burrell street, a distance of about 150 feet from the old location.

New cards for this box will be furnished later.

V. ACTING DISTRICT CHIEF.

Capt. Michael J. Aylward of Engine Company 32 is designated acting district chief of District No. 2, to take effect as of December 18, 1933.

VI. COMMENDATIONS.

Within the past week members of the Boston Fire Department have distinguished themselves by courageous and valiant service of a type characteristic of the history and traditions of the department.

On January 10, 1934, the department responded to an alarm from Box 1662 at 4.42 a. m. for a fire at 1819–1821 Washington street. While Engine Company 22 was running a line, Hoseman Patrick J. Flaherty observed a man standing on the coping of the sixth floor where he had climbed to escape from the building. Hoseman Flaherty proceeded to the roof *via* Ladder Company 12's aerial ladder and then to a position directly over the man. Lying on his stomach, Hoseman Flaherty reached down over the side of the building and after several attempts secured a hold on the man's wrists and raised the man to the roof. The rescued man was in a highly nervous state and bordering on collapse at the time. Hoseman Flaherty risked his own life in making this rescue and showed great courage and ability in accomplishing the act. Because of his courage, coolness, ability and efficiency in a most trying situation, Hoseman Patrick J. Flaherty is awarded seven days' additional vacation, is highly commended and this case is referred to the Board of Merit for further investigation and recommendations.

At about 1.25 p. m. January 11, 1934, a cry for help was heard at Fire Alarm Headquarters, and upon investigation a little girl (Dorothy O'Neil), about ten years of age, was seen about thirty feet from the shore hanging on the ice in Muddy river. Edward F. Corliss,

Thomas A. Kelley and Caesar Mikolajewski of the Fire Alarm Division, and Raymond T. Lonergan and Daniel J. Foley of the Maintenance Division, immediately responded. Kelley and Foley were soon floundering in the water but Mikolajewski by crawling on the ice managed to reach the spot where the girl was hanging when he went in. He grabbed the girl and held her until Corliss and Lonergan pushed a ladder out to him. The water is deep at this point and there was considerable hazard attached to this undertaking. The above-named men, with no thought of their own safety, responded to the call for help. They are all highly commended and this case is referred to the Board of Merit for further investigation and recommendation.

Lieut. Edward J. White of Engine Company 23, Lieut. George L. Evanson of Water Tower Company 2, Engineer George L. Lyons of the Motor Squad and Apparatus Operator William H. Lanigan of the Fire Prevention Division are hereby commended for responding to and working at fire, Box 2344, five alarms, January 5, 1934, while off duty.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

REINSTATEMENT OF MRS. MARY E. GARFIELD.

The following was received:

School Committee of the City of Boston,
Office of the Secretary,
January 12, 1934.

Mr. Wilfred Doyle, City Clerk,

My dear Mr. Doyle,—Under the provisions of chapter 320 of the Acts of 1933, the School Committee of the City of Boston respectfully asks that the City Council approve the reinstatement of Mrs. Mary Evelyn Garfield as a clerk in the office of the Business Manager. The authority of the Commissioner of Civil Service for such reinstatement has been given, subject to the approval of the City Council.

Mrs. Garfield resigned from service in the office of the Business Manager October 25, 1927 to marry, and now has one child. Her husband has been out of work for more than two years, and Mrs. Garfield therefore is entirely dependent upon herself for support. She has placed her resignation in the hands of the Business Manager, undated, to become immediately effective when her husband shall succeed in obtaining a permanent position which will enable him to support his family.

Under the circumstances the School Committee is willing to reinstate Mrs. Garfield, and trusts that the City Council may take early and favorable action on the School Committee's petition.,

Very truly yours,
ELLEN M. CRONIN,
Secretary.

In connection with the foregoing Chairman GALLAGHER offered the following:

Ordered, That under the provisions of chapter 320 of the Acts of 1933 the reinstatement of Mary E. Garfield in the employment of the city as a clerk in the Schoolhouse Department be, and hereby is, approved.

Pased under suspension of the rule.

MUNICIPAL BUILDING, WARD 1.

Coun. SELVITELLA offered the following:

Resolved, That the City Council of Boston hereby favors the enactment of legislation authorizing the construction of a municipal building in Ward 1.

Passed under suspension of the rule.

PAYMENT TO MOTHER OF DAVID McDONALD.

Coun. TOBIN offered the following:

Resolved, That the City Council of Boston hereby approves the enactment of legislation to extend the time within which the city may accept chapter 226 of the Acts of 1932 concerning a payment to the mother of David McDonald.

Passed under suspension of the rule.

PENSION FOR FRED W. CONNELLY.

Coun. TOBIN offered the following:

Resolved, That the City Council of Boston hereby approves the enactment of legislation to authorize the payment of a pension to Fred W. Connelly, former teacher in the Franklin Union.

Passed under suspension of the rule.

TRAFFIC LIGHTS AT QUINCY STREET AND COLUMBIA ROAD.

Coun. TOBIN offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install traffic lights at the corner of Quincy street and Columbia road.

Passed under suspension of the rule.

SURVEY OF WELFARE DEPARTMENT.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to obtain authorization under the C. W. A. program for a systematic and detailed survey of the Welfare Department by the Statistics Department of the City of Boston, and for the enlargement and completion of the Consolidated Index Cross Reference System now being compiled by the Statistics Department.

Coun. WILSON—Mr. President, a week ago your committee was advised by Mr. McCartin, in the Mayor's office, that although over 50,000 Boston men already registered with the State Employment Bureau have not been placed and although additional registrations are being accepted daily, there is no immediate prospect of further work. It is likewise unfortunate that with some 16,000 men already placed at work, there will be very little permanent value to show for the work done and the money paid out. The present financial condition of the City of Boston, in common with every other great city in the country, demands certain rigid economies. His Honor the Mayor is making valiant efforts toward that end. He recently urged from every department a budget 20 per cent below tentative estimates. But even less drastic department cuts will be useless without real correction where the chief cause of higher taxes and reduced salaries exists. In 1928 the public welfare and soldiers' relief rolls roughly amounted to $2,650,000; it rose to $3,840,000 in 1929. In 1930 it was $4,310,000; in 1931 it almost doubled to $7,550,000. For 1932 it ran almost twelve million and last year almost thirteen million. At the present time there are about 32,000 current active cases in public welfare alone. With one out of every eight persons in the city on the public relief rolls, we are spending more than a million dollars a month, ostensibly to provide for the poor and the unemployed. During that period from April to September last year, when almost every other city in Massachusetts showed a drop in welfare lists anywhere from 40 to 60 per cent, Boston only showed a 4 per cent decrease. We were down to $200,000 per week in October, but up another $10,000 per week by Thanksgiving. For years we have been told that the workings and details of the Public Welfare Department are a sort of sanctified secret. Something to be referred to only in a hushed whisper, and with the light turned low. The motto has been, primarily, to jealously guard the secrecy of the confidential public welfare lists. Fraudulent cases have quickly sensed their security under a system which has hesitated to permit any close inquiry or check-up, lest some worthy case be caused embarrassment. But now the city government is embarrassed! Embarrassed financially, which is an embarrassment that can't blush unseen! I agree with the principle that of course the lists should not be available to the public; but some degree of protection is due to the taxpayers of the city, and due to the many worthy cases where large families have been forced to exist on inadequate allowances, because of the greedy demands of hundreds of families who have no proper place on the rolls. Even the disclosures of the successive partial investigations made last year, which only pecked at the situation, convinced everybody but the Department of Public Welfare that the present unwieldly and outgrown system, or lack of system, not only is wide open to fraud, but fraud actually exists. With any real regard for the financial health of the city at this time it is very apparent that the Public Welfare Department can stand an operation. I don't ask his Honor the Mayor to cut the heart out of the Public Welfare Department budget, but I do believe we can spare a few of the light fingers! I have no quarrel with Walter McCarthy. Especially with the additional burden of C. W. A. now placed on his shoulders, and with the present set-up in the Public Welfare Department and at least until there has been one thorough stock-taking of the business of this money-disbursing city agency, increased five times in volume since 1928, no human being can handle it. It mounted too rapidly, and they've never been able to catch up with it. Apparently even the recent placing of over nine thousand men on C. W. A. work from the welfare and soldiers' relief lists has so far failed to reflect much in any reduction of total cases! Hundreds of fraudulent cases have squeezed in with the rush. In short, before we start tinkering with a leak or two in the pipes of other departments, let us look to the break in the dike that exists in the Public Welfare Department. An immediate systematic check-up of these 32,000 current active cases in the Welfare Department and those still to come, in an effort to stop the deluge, isn't a question

of economy, it's a matter of self-preservation and the solvency of the City of Boston! I am not asking for an investigation. I ask for a systematic stocktaking. Under the C. W. A. this can be done at the government expense. It can be done by an enlarged force of competent men under the direction of the Statistics Department. Mr. Balfe probably won't thank this body for suggesting that this serious and important responsibility and burden be placed on his department, but most members of this body I assume are more or less familiar with the splendid system of cross references and data already compiled and available in that office. Separate personal cards for every person police listed in the entire City of Boston are on file by wards, precincts and streets. Different colored celluloid tags attached to the top of the various cards disclose instantly the existence of any public welfare or soldiers' relief case, automobile ownership, city or county employment, hospitalization, communicable disease, real estate ownership, and other information of value. With that start, I therefore urge the appropriateness of a real 100 per cent survey and stocktaking of the Public Welfare and Soldiers' Relief Departments by the Statistics Department under C. W. A. auspices. Let these lists for once be systematically and completely purged of all improper and fraudulent names, and the 4 per cent decrease in Boston cases will more nearly equal the 40 to 60 per cent drop found in other industrial cities. Even a 20 per cent correction in this one department will, in total amount, more than equal a 5 per cent economy slash in all the other city departments combined! It can absolutely be effected, without touching a single worthy case. And such use of an enlarged Statistics Department staff of workers would be a profitable investment for the city to undertake immediately with or without C. W. A. aid. I ask the adoption of the order, and I might say, incidentally, that the message that the members of the Council sent to the committee, to the President of the United States and Mr. Ickes, with reference to the situation here in Boston is still unanswered.

The order was passed under suspension of the rule.

CONFIRMATION OF EXECUTIVE APPOINTMENT.

Chairman GALLAGHER called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointment submitted by the Mayor January 8, 1934, of John H. O'Brien, Jr., to be a Weigher of Coal.

The question came on confirmation. Committee, Coun. Fish and Selvitella. Whole number of ballots 15, yeas 15, and the appointment was confirmed.

REPAVING OF PIKE'S ALLEY.

Coun. FITZGERALD offered the following:

Ordered, That his Honor the Mayor instruct the Commissioner of Public Works to repave Pike's alley, Ward 3.

Passed under suspension of the rule.

OPPOSITION TO UNAPPROVED DEPARTMENT CONSOLIDATION.

Coun. WILSON offered the following:

Ordered, That the Legislative Committee of the City Council be instructed to oppose the passage of any bill by the Legislature for the consolidation of city departments not providing for approval by the City Council.

Coun. WILSON—Mr. President, I might say that the reason for offering that order is a report, which I have not verified, to the effect that a bill has been introduced into the Massachusetts Legislature to revamp the business structure of the city and consolidate various city departments. I presume that if there is any lack of reference to the City Council being given an opportunity to pass on the matter of consolidation of departments, it is through an oversight; but, even though the powers of the City Council have been reduced in recent years, we are still asked to go over the annual budget in some detail, and I submit that the City Council is still an integral part of the government of the City of Boston, and that the Committee on Ordinances of the City Council might naturally expect an opportunity to look over such a proposition. I would assume that such a bill, if passed by the Legislature, should, of course, carry a proviso, therefore, that it receive the approval of the City Council.

The order was passed under suspension of the rule.

Adjourned, at 2.42 p. m., on motion of Coun. SELVITELLA, to meet on Monday, January 22, 1934, at 2 p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

Dec. 28, 1933.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 8.25 o'clock, the Chairman presiding.

Present: Messrs. Hurley, Mackey, Mrs. Pigeon, Messrs. Reilly and Tobin.

—

Chairman: This is a special meeting of the School Committee as a result of conference held this week at which time the Chairman and other members presented motions which require action in public meeting to become effective. I will ask the Secretary to read the proposed orders and amendments to which the Committee agreed at the last conference.

—

RESOLUTION ON DEATH OF MARY PARKER FOLLETT

The following was offered:

RESOLVED, That the School Committee has learned with sincere regret of the death on Dec. 18, 1933, of Miss Mary Parker Follett.

Miss Follett was a woman of rare vision. She made her life's work one of service to the community in which she lived. Born in Quincy, Massachusetts, she graduated from Radcliffe College, summa cum laude in 1898. After graduation, she studied abroad, specializing in history, philosophy, and government. In her early days, she became interested in the Boston public schools and was a pioneer in the field of vocational guidance for school pupils, and evening recreational centers for adults.

As early as 1902, she was eager that Boston children should have the advantage of vocational guidance by competent authorities on the basis of work which she had seen abroad, and she readily accepted membership on the first Vocation Bureau Committee. From 1912 to 1917, she worked with and shared the expense of the Boston Placement Bureau, until it was absorbed by the Department of Vocational Guidance.

In 1912, as Chairman of the Education Committee of the Women's Municipal League of Boston, Miss Follett was largely instrumental in having the School Committee obtain the necessary legislation for the establishment and maintenance of the activities of the Department of Extended Use of the Public Schools, including the school centers, home and school associations, and the wider use of the school plants for civic purposes.

Because of her many years of devoted service to the Boston public schools, the School Committee of the City of Boston orders this brief tribute to the memory of Miss Mary Parker Follett spread upon the records of this meeting.

The resolution was adopted by unanimous vote and a copy ordered sent to Miss Follett's brother, Mr. George D. Follett, and to Dr. Richard C. Cabot.

AUTHORITY OF SUPERINTENDENT TO UNDERTAKE PROJECTS UNDER F. E. R. A. PROGRAM.

On motion, it was

ORDERED, That the Superintendent is hereby authorized to undertake under the F. E. R. A. program such projects as do not run counter to the established policies of the School Committee.

—

ESTABLISHMENT OF RANK OF PRINCIPAL, BOSTON DISCIPLINARY DAY SCHOOL

The Secretary read the following order amending the regulations:

ORDERED, That the regulations are hereby amended as follows:

Section 295, paragraph 1. In the second and third lines, strike out the words "one assistant in charge" and insert in place thereof "a principal" so that the paragraph shall read as follows:

Sect. 295. 1. Teachers in the Boston Disciplinary Day School shall consist of a principal and assistants appointed or assigned by the superintendent from day elementary or day intermediate schools. The number of such teachers shall not exceed one for each fifteen pupils belonging.

—

Mr. Hurley: I move that the order be laid over under the rules.

Chairman: I'd like to speak to this order. For many years the Disciplinary Day School has functioned with great success in that of the pupils who have been assigned to the school, only a fractional percentage later reached the County school for delinquent children. The Disciplinary Day School receives children who are not subservient to what I might call good school habits. For one reason or another, they do not get along in the home school, therefore they are assigned to the Disciplinary Day School where, under special supervision, effort is made to reestablish good habits so that they may go ahead in their regular school work.

This school has functioned so well that it has been emulated by other cities, notably Chicago which, on the precedent of our Disciplinary Day School, formed a similar school headed up with a principal.

As a reward for the excellent service of the woman who has been in charge of this most difficult work, and in recognition of the success of the work as shown by the fact that only a fractional percentage of those who have attended this school later have been sent to the County School, and that a large percentage have been returned to the home schools where they have gone on successfully, I have moved that the rank of Principal of the Disciplinary Day School be established. This change involves no increase of salary for the present incumbent. I have recommended this rank because I think it is proportionate to the work done and the standing which this teacher has in the courts when she appears in the cases of delinquent children. It is the recognition due her from the school system.

In view of Mr. Hurley's motion, the matter will go over to the next meeting, but I would state that I have asked that the present Assistant in Charge be given the rank of Principal. The Superintendent has informed me that in this I am invading his right of nomination. I differ with him in that opinion because I feel that the School Committee is not nominating or appointing anybody. The Committee merely will be giving a more descriptive title to the teacher in charge, a more suitable title, with no increase in salary and no change in duties. I will therefore move that Miss Godvin, who is the present incumbent, be appointed Principal. Accordingly, I will ask the Secretary to present the order which was unanimously agreed upon by the School Committee at the last conference, and which will accomplish the purpose of my motion.

Mrs. Pigeon: But the whole matter is laid over.

Mr. Hurley: I would suggest that the matter having been laid over, further discussion is not in order

Superintendent: I should object strongly to any preliminary procedure which will prevent the Superintendent from defining his position as he has a right to do under the rules, to join in this discussion and to present orders.

After some further discussion, the motion to lay over the proposed amendment of section 295, was declared by the Chairman passed.

Discussion followed.

—

Mr. Hurley: I move that the other pending orders on this matter be laid over until the next public meeting.

Chairman: I wish it stated clearly on the records, as has been stated at some length here previously, that my purpose in establishing this rank is to give recognition to the person who has ably carried out the work of the Disciplinary Day School, and I hope that the new Committee will bear that in mind and recognize the purpose of the motion in establishing the rank. and that the Superintendent, in conformity with the general policy, will nominate the present incumbent to the new rank.

Dr. Mackey: I move that Miss Godvin now be appointed Principal of the Boston Disciplinary Day School.

Chairman: As a matter of procedure that action would follow the amendment to the rules which will establish the rank.

Mr. Toye, speaking from the floor: Mr. Chairman, may I as a citizen ask a question? Is there something more important than a mere transfer here tonight? I am simply asking for information.

—

Question came concerning the order which had been laid over, and it was read by the Secretary:

ORDERED, That the regulations are hereby amended as follows:

Section 295, paragraph 1. In the second and third lines, strike out the words "one assistant in charge" and insert in place thereof "a principal," so that the paragraph shall read as follows:

Sect. 295. 1. Teachers in the Boston Disciplinary Day School shall consist of a principal and assistants appointed or assigned by the

superintendent from day elementary or day intermediate schools. The number of such teachers shall not exceed one for each fifteen pupils belonging.

Chairman: I might say that I proposed this change two years ago to the present Superintendent, and before that I proposed it to the late Superintendent, Dr. Jeremiah E. Burke, and no action having been taken, I have presented it in public meeting. That will give you the background of the story.

Mr. Hurley: What is before the house at this time?

Chairman: The motion has been laid over and I have been requested to have the Superintendent make a statement.

Mr. Tobin: As I understand the status of the question at the present time, the order has been laid over for consideration by the next Committee without this Committee passing on the merits of the matter. I now move reconsideration of the motion to lay over, for I can see nothing to be accomplished by that action. It is putting on the new Committee action which should be taken by this Committee. We should at least establish the rank tonight.

Chairman: Mr. Tobin has moved reconsideration of the motion to lay over.

Mr. Hurley: Would the Superintendent object if we created the rank?

Superintendent: The Superintendent has no right to and therefore would not object to the Committee's making a new rank. That is clearly within its power.

Chairman: Mr. Tobin's motion now is on reconsideration of the action on Mr. Hurley's motion, that the order to amend be laid over without discussion.

Dr. Mackey: I second that motion.

Chairman: The motion then is that the previous motion of Mr. Hurley be reconsidered. The motion passed.

Chairman: Question comes now on the passage of the motion to amend section 295 to provide for the establishment of the rank of Principal, Disciplinary Day School.

Superintendent: Mr. Chairman, the Superintendent would like to say a word on that point. I have no objection to the creation of this new rank. I think another order which the Secretary has would be more effective in that it would not destroy the rank which now is held by the head of that school but would create a new one to which she might in due course be appointed. The order which the Secretary just read abolishes the present position which this lady holds and creates a new position to which she has not been appointed, and therefore leaves her without status. It would be much better if the order in the form which the Secretary is holding were passed. May I ask that the Secretary read the order?

Secretary: ORDERED, That the rank of Principal, Boston Disciplinary Day School, is hereby established; and that the regulations be amended accordingly.

Chairman: That motion is acceptable to me and therefore I withdraw the previous motion and offer the order which the Secretary has just read.

A roll call being ordered, the order passed by the following vote:

YEAS—Messrs. Mackey, Tobin and Reilly—3.

NAYS—Mr. Hurley and Mrs. Pigeon—2.

—

The following was offered:

ORDERED, That the salary of the principal of the Boston Disciplinary Day School is hereby established for the remainder of the current school year, as follows:

Minimum, $1728; annual increment, $96; maximum, $3168.

—

Chairman: There will be no change in salary and no change in duties involved.

A roll call being ordered, the order passed by the following vote:

Mr. Hurley: No.
Dr. Mackey: Yes.
Mrs Pigeon: Not voting, in view of the fact that she voted no on the creation of the rank.
Mr. Tobin: Yes.
Mr. Reilly: Yes.

—

The following was offered:

That the rank of M. Gertrude Godvin, Assistant in Charge, Boston Disciplinary Day School, is hereby changed to Principal, Boston Disciplinary Day School, to take effect Jan. 2, 1934, or such date as shall be determined.

—

Mr. Hurley: I understand this is the Superintendent's prerogative.

Chairman: Do you feel that it is?

Mr. Hurley: I do, and through you I request the Superintendent's views on it.

Superintendent: I feel of course perfectly sure that this is a matter of appointment, and appointment under the Rules rests in origin with the Superintendent. An appointment to this rank should begin with and be recommended to the School Committee by the Superintendent of Schools.

Chairman: Having accepted the revised order upon the recommendation of the Superintendent, I am perfectly willing to have the matter stand, in view of the feeling of the Superintendent as just expressed. But it doesn't diminish my feeling as originally expressed, which my original motion would have achieved, that Miss Godvin, the present incumbent, should be given the new rank. Inasmuch as there is some doubt as to our right in the situation, I will withdraw the motion which I offered and rely upon the Superintendent to make the appointment according to his best judgment. Therefore, the motion to change the rank of Miss M. Gertrude Godvin is withdrawn.

—

APPOINTMENT OF SUPERVISOR OF NUTRITION CLASSES

Mr. Hurley offered the following:

ORDERED, that Dr. Carl F. Maraldi, school physician, be appointed supervisor of nutrition classes, subject to the approval of the Department of Civil Service.

Mrs. Pigeon: I move that the motion be laid on the table.

Chairman: It is moved that the matter be laid on the table. Is the Committee agreeable?

Mr. Hurley: I'd like to ask the mover of that motion what her reason is.

Mr. Tobin: The motion to lay on the table is undebatable; it comes right to the body for vote.

In answer to roll call on the matter of laying on the table the order presented by Mr. Hurley, the members voted as follows:

YEAS—Mrs. Pigeon and Mr. Tobin—2.

NAYS—Messrs. Hurley, Mackey, and Reilly—3.

Mr. Hurley: Now that the motion to lay on the table has been defeated, I move the original question.

Superintendent: May the Superintendent make the announcement that in not opposing this particular motion, he is not surrendering his right of nomination, because this particular office of Supervisor of Nutrition Classes does not lie within his province to nominate. That is entirely in the hands of the School Committee, as far as the practice of this Board has been concerned.

—

In answer to roll call on the motion that Dr. Carl F. Maraldi, school physician, be appointed to the position of Supervisor of Nutrition Classes, the members voted as follows:

Mr. Hurley: Yes.
Dr. Mackey: Yes.

Mrs. Pigeon: I am not ready to vote. I don't know the qualifications of the man so far as nutrition work is concerned. I feel that we need somebody who is very well qualified in connection with this particular position. Therefore I am not voting.

Dr. Mackey: As a matter of fact the qualifications were read by Mr. Hurley at the last conference. They can be made available for the press.

Mr. Tobin: No.

Chairman: Yes. I have in mind, with reference to this vote, that there were two other doctors mentioned for the same position. One is Dr. English for whom I have the greatest respect but who, I am informed, will not accept the position; the other is Dr. Moore, for whom I also have the greatest respect, but for whom I have no indication that there would be sufficient votes to carry a motion in her behalf. Therefore, I am voting for Dr. Maraldi.

The Chairman declared the motion passed.

—

APPOINTMENT OF TWO ADDITIONAL ASSISTANT DIRECTORS OF PENMANSHIP.

The following was offered:

ORDERED That the regulations are hereby amended as follows:

Section 307, paragraph 8. Strike out the paragraph and insert in place thereof the following:

8. A director of penmanship and three assistant directors of penmanship.

—

Superintendent: The Superintendent at this point would like

to say that in his opinion there is no need of any additional assistant directors in the department of penmanship; that one is sufficient, and three are not at all necessary.

Mr. Tobin: I would like to ask the Superintendent, through the Chair, whether he feels that the department requires the services of an assistant director?

Superintendent: My personal opinion is that it does not require the services of an assistant director save if it is thought advisable to have someone with that rank who may in an emergency take over the duties of the director. As far as the functioning of the department is concerned, I do not feel that the assistant director is at all necessary.

Chairman: Does the Committee desire a suspension of the Rules to permit of action tonight on the order which has been read, or shall it be laid over?

The rules were suspended and the order passed by the following vote:

Mr. Hurley: No.

Dr. Mackey: Mr. Chairman, I feel that in so far as the present assistant director handles the first three grades and the assistants handle the higher grades, I am justified in voting in their favor; therefore I vote yes.

Mrs. Pigeon: Yes.

Mr. Tobin: Yes.

Chairman: Yes.

Chairman: With reference to the Superintendent's statement; for the first time I feel called upon to voice a difference of opinion—which is only a difference of opinion. The department as it is now constituted has a director, an assistant director, and two assistants. To my knowledge there is no difference whatever in the work done by the assistant director and the two assistants. The assistant director covers the first two or three grades and the assistants cover the other grades. In conformity with my repeated statement that it was my hope to reduce the multiplicity of ranks in the department, I found no course open for me but to favor a motion which will reduce the number of ranks even in one department. Therefore I have favored this motion which will change the rank of the two assistants to that of assistant director and make in that department a Director and three assistant directors.

Superintendent: To make the records clear and do justice to the assistant director: One of the members was in error when he seemed to infer that the work of the assistant director, because she is in the first three grades, is inferior to that of the assistants. As a matter of fact, the assistant director is doing the work in the lower grades at the order of the Assistant Superintendent in charge, because he and I believe that the work in penmanship here is of much more importance than the work in the upper grades. So that it isn't really true to say that the work is identically the same. In our opinion, the more important work is done in the first three grades in the formation of good penmanship habits.

Chairman: Then the difference in work is only in the quality in your mind—the person who handles the early grades has a greater responsibility than those who handle the upper grades. That is the only difference in their work?

Superintendent: Yes.

Chairman: Therefore the logical conclusion to that argument would be that the first grade teacher should get more money than the third grade teacher.

Superintendent: I agree with you.

Mrs. Pigeon: I want to be recorded as agreeing with the Superintendent there. I think the teachers who are in our first three grades should have an added increment to their salary, because I believe that right there in the formative period we need the very best teachers we can find.

Mr. Tobin: I might comment here—unfortunately for the teachers of the first three grades we are in a great depression; otherwise, judging from the present temper of the Committee and of the Superintendent they would be treated very kindly by this Committee at tonight's meeting.

Mr. Hurley: As the only member of the School Committee who voted no, I'd like to be recorded in favor of the upper grade teachers.

Chairman: You will be so recorded.

Chairman: Since by the amendment we have now adopted, we have abolished the rank of Assistant in Penmanship, I present the following orders for action:

1. ORDERED, That the rank of Margaret L. Nolan, assistant in penmanship, is hereby changed to assistant director of penmanship, to take effect Jan. 2, 1934.

2. ORDERED, That the rank of Julia E. Sullivan, assistant in penmanship, is hereby changed to assistant director of penmanship, to take effect Jan. 2, 1934.

—

Chairman: I do this because unless we take this or some such action, these two former assistants will be without any rank whatever, and inasmuch as it was the intent of the motion to secure a uniformity of ranks and since this to my mind is merely a change in rank, although the Superintendent declares me wrong in that belief; nevertheless I am still of that opinion, and I therefore logically present these two orders.

Mr. Tobin: I'd like to make this statement. The department as now constituted has a total of four members, headed by a director with three subordinates, all performing identical duties, the only difference being that the assistant director supervises the penmanship work of the first two or three grades and the other two assistants supervise the work of the higher grades. Since they perform the same duties, their ranks should be identical and for that reason I am voting to give the same title to all three who are now working as subordinates to the director of penmanship.

Superintendent: Speaking to Mr. Tobin's statement: I believe that there is no work for these two women comparable with the title, assistant director. They will not be assistant directors. They will give the director no more assistance than they are giving now. However, that is debatable. The right of the School Committee to promote these good women to a rank without the intervention of a rated list is the one to which I wish to speak, and I wish to make this considered statement:

"Through the tireless and unselfish efforts of the School Committees through the years, with the cooperation of the Superintendent and his subordinates, there has been built up in Boston a school system with no superior in the country, in which the citizens of Boston justly take pride.

"This gratifying situation, it is agreed, has come about almost wholly through the development of the merit system of appointment and promotion which puts beyond the reach of personal considerations initial appointment and promotion within the service. Those who are most deeply interested in the public schools are unanimous in their belief that the very cornerstone upon which the merit system must rest is the establishment by the Board of Superintendents of rated lists for promotion within the service. The Board of Superintendents is authorized to establish such lists as are requested by the Superintendent and to determine the eligibility of candidates for rating on such lists. In the cases in question, the Board of Superintendents has been ignored.

"Equally important with the provision for rated lists is the right of appointment vested in the Superintendent of Schools. The provision of the statute has been embodied in the rules of the School Committee in various places by implication, and expressly by Section 58, paragraph 1, which reads: 'He (the Superintendent) shall appoint, reappoint, designate, assign, promote, transfer, and remove teachers, members of the supervising staff, school physicians, school nurses, librarians, secretaries, clerical assistants, bookkeepers, and other persons employed in similar capacities in the schools, in accordance with the regulations.'

"This right of appointment, subject to the approval of the School Committee, in so far as it relates to teachers, members of the supervising staff, and all those concerned with the educational side of the department, has never been questioned in the history of the Boston public schools. Any successful attempt to take from the Superintendent this right of appointment will open the door to all the evils attendant upon appointment on any other than our present basis.

"The Superintendent believes that the action contemplated in the orders under discussion, if successful, will establish a most dangerous precedent that will inevitably lead to action that will undermine the structure of the school system as it now exists and will work infinite harm to the children of Boston. The Superintendent feels that if he were not to oppose as vigorously as possible the adoption of these orders, he would be false to his trust."

—

Chairman: I would like to speak to the Superintendent's statement. To me it seems that we are making a mountain of a mole hill. Reducing the thing to its simplest form; we have a group or department of people performing certain duties.

We are disagreed upon the relative importance of their duties. The hool Committee, elected by the people, comes together and decides that the relative importance of the duties of these women is such that they should be given equal rank. That being agreed, the ranks are established. Inasmuch as these people now are performing those duties which we have deemed important, I do not think that the Committee is invading the rights of the Superintendent when it merely redesignates the title of the persons whose duties are not changed and whose salaries are not changed. If we were to set up a new rank in the department where there had been no such service rendered as that included in the new rank, and then proceed to name a person to that rank, I would say that we were then invading the Superintendent's rights and departing from the policy which has been followed by previous committees and which I have upon every occasion supported and endorsed. But this I think is a little different, Mr. Superintendent. I say sincerely that if I thought it was an invasion of your right, I would be the first to withdraw from my position in the situation.

Superintendent: May I say one more word. You are promoting these two women, no doubt about that—you are promoting them from the rank of assistant to that of assistant director. That is a promotion. The Rules and Regulations say that promotions shall be made in the first instance by the Superintendent of Schools. He has not done so in this case. Secondly, when the rank of assistant director was filled, it was filled from a rated list. The person appointed was No. 1 on that list and I firmly believe that is the proper procedure. Of course I yield to your superior wisdom in creating the office. The proper thing to do now is to establish a rating plan and a rated list for the position of Assistant Director of Penmanship. The people who come out first and second would then be nominated in the regular way and no harm and no injustice would be done. It is clearly a promotion from one rank to another existing rank, and it seems to me that if the School Committee can do this properly, it can do anything it likes in the way of appointment and promotion as long as there are four votes to suspend the regulations.

Chairman: My distinction with you is this—and I am trying to be as fair as possible—my view of a promotion is something which implies increased responsibility and increased rank in relation to the department in which the person functions who is promoted. I claim that in this instance we are only more clearly designating the work which the person is doing, and that it is not a promotion, but is the establishment of a title which is more clearly descriptive of the work done. That is the view that I have with reference to your statement that the women are receiving promotions. They have no added duties, no added salary, no change in any other way.

Superintendent: The salary of the rank, assistant director of penmanship is a different schedule from that of assistant in penmanship, and therefore would carry some increase in salary. Clearly this is a promotion from one rank to the other. You say it is made because there is no difference in the work. Then why make it? No difference in duties, no added responsibilities, why the promotion?

Chairman: Because there is no distinction between the work of the present assistant director and the present assistants.

Superintendent: Then why not reduce the present assistant director to the rank of assistant?

Mr. Hurley: Will the Superintendent recommend that?

Superintendent: I wouldn't be willing to do that off hand, without consideration. To present it at this moment would not be a wise thing, but I think it would be just as defensible as this elevation.

Dr. Mackey: I think it was an injustice on the part of the School Committee to recommend a superior title and salary for the assistant director, without considering the assistants.

Superintendent: I am not sure that the Doctor understands that the assistants were added after the assistant director was appointed, so there could be no injustice.

Chairman: Now the question comes on the passage of the two orders, whether they shall be laid over or acted upon tonight.

The Secretary read the orders as presented:

ORDERED, That the rank of Margaret L. Nolan, assistant in penmanship, is hereby changed to assistant director of penmanship to take effect Jan. 2, 1934.

ORDERED, That the rank of Julia E. Sullivan, assistant in penmanship, is hereby changed to assistant director of penmanship, to take effect Jan. 2, 1934.

Mr. Hurley: May that motion be separated since there are two persons concerned?

Chairman: Very well. Question comes on the passage of order No. 1, changing the rank of Margaret L. Nolan.

In answer to roll call, the members voted as follows:

YEAS—Dr. Mackey, Mrs. Pigeon, Messrs. Tobin and Reilly—4.

NAY—Mr. Hurley—1.

The chair declared the motion passed.

Chairman: With that vote, my previous statement made with reference to my difference in opinion with the Superintendent should be tied up.

Question came on passage of order No. 2, changing the rank of Julia E. Sullivan.

In answer to roll call, the members voted as follows:

YEAS—Dr. Mackey, Mrs. Pigeon, Messrs. Tobin and Reilly—4.

NAY—Mr. Hurley—1.

The Chair declared the motion passed.

—

Superintendent: I'd like to answer one question that Mr. Hurley asked, in order to interject a possibility here. The statute law says that the superintendent of schools shall recommend teachers to the School Committee. The Superintendent has not recommended anyone for these promotions. I wonder if that has any bearing upon this issue; in other words, is the Committee violating the law of Massachusetts in making these changes without a recommendation from the Superintendent of Schools.

Chairman: Is that a law?

Superintendent: It is a law of the General Court of Massachusetts.

Mr. Hurley: I rise now to say that there is no law giving to the Superintendent the power of nomination.

At the request of the Superintendent and Mr. Hurley, the Secretary read the following:

Sect. 59, Chapter 71 of the General Laws:

"The school committee of a town not in a superintendency union or district shall employ a superintendent of schools and fix his compensation. A superintendent employed under this section or section 60 or 63 shall be the executive officer of the committee, and under its general direction, shall have the care and supervision of the public schools, shall assist it in keeping its records and accounts and in making such reports as are required by law, and shall recommend to the committee teachers, textbooks, and courses of study."

Mr. Hurley: Mr. Chairman, the word is "recommend" is it not?

Chairman: Yes. Now, Mr. Superintendent, will you give us the law which gives you power to appoint?

Superintendent: I didn't say that. I said that the statute law said "The superintendent of schools shall recommend teachers the school committee . . ." Chap. 444, Acts of 1911, Sect. 2. Now that is the basis of the right of the Superintendent. The word in our regulations is "nominate." Now whether that really means that you cannot do it unless the Superintendent does recommend, I do not know, but the law does say the superintendent "shall recommend."

Mr. Hurley. I happen to be a lawyer and the word "recommend" means merely recommend. By our rules and regulations we have delegated to the Superintendent the power of appointment.

Superintendent: It seems to me that the Superintendent must recommend under the law, and in this instance the Superintendent has not recommended anybody.

Mr. Toye, speaking from the floor: I feel rather humble about standing up here—if I am out of order—

Chairman: It is a departure from our regular procedure but I recognize the gentleman. Because of the dignity of the office held by the gentleman and the friendly relationship which the Committee has to him personally, I would be very pleased to hear what the editor of the Traveler has to say.

Mr. Toye: I am here for a purpose tonight and the purpose is to try to translate to the public which this Committee has served very well, the Committee has served so well that it has given me personally a great deal of pleasure to inform the public that the Committee has had its best interests at heart, and I want to be as true to the public as the Committee has been, and I don't want to misinterpret. I have no partisanship. It has not been made clear to my dull mind whether

or not something extremely important is occurring here tonight. I speak for nobody. I am just trying to fit myself to speak to somebody and that somebody is a portion of the public. I would not be worried about this Committee with the power of recommendation, but I am wondering what other committees might do, and I am wondering if I attach too great importance to what is going on here tonight. After listening, and coming here without any predisposition of seeing a very great danger, and I mean it quite sincerely when I say that I would have full confidence in any appointment made by the present Committee—but I am going to write something and I want it to be right.

Mr. Tobin: I'd like to say this to Mr. Toye. First of all, I in common with all the other members of the Committee and the officials at 15 Beacon Street, do appreciate the courteous treatment we have always received from the Boston Traveler. They have always truly pictured every condition in regard to the schools in its true light. I would say this, Mr. Toye; if this Committee were tonight to assign any of these individuals to new duties—to duties in which they had not proven themselves to be proficient, even minor changes, then I would say that we were establishing a dangerous precedent; but since the duties are to be identical, no change in duties, merely a clarification and standardization of ranks, no danger can result.

Mr. Toye: I do want to have this correct. I have in mind—let us assume that it was thought that a person performed duties that approximated in importance those of the Board of Superintendents, a subsequent Committee quite easily might appoint that person to the Board of Superintendents. Does it open up anything like that?

Chairman: In answer to that, I don't think your case brings out what you want because the School Committee has the right to appoint its officers—the superintendent, assistant superintendents, etc. But taking some other rank, a teacher for example. You fear we might take a teacher and might make her director of a new department. If you mean that, this action doesn't make that possible. In other words, our action tonight does not permit us to take any person in the city, or any teacher in the service, and appoint him to any rank we may desire to establish. Our action doesn't mean we can take a teacher out of the ranks and make her a director, or assistant director, or secretary, or any other title in the school service. Our action in no way means that we or subsequent Committees can do that. There is no precedent here for any such action.

Mr. Toye: Repeating with emphasis what I have said about this Committee—I am worried about the old bugaboo of schools in politics. Being impersonal about this whole business, I wonder—and I may be out of order—I wonder if the Superintendent and Mr. Hurley, who seemed to have opposed this motion, can give me any evidence in support of my doubt.

Chairman: I am going to ask the Superintendent and Mr. Hurley in turn whether or not they feel that politics has anything to do with this appointment.

Mr. Toye: I didn't mean to be so emphatic. I am wondering if you are merely borrowing trouble in the future by the establishment of a precedent. You can help me out by showing me that in the future it couldn't be done.

Superintendent: I'd like to carry out the argument which Mr. Tobin was using, that there was no change of duties. That has really no bearing on the issue at all. The issue is pretty clearly drawn. Has the School Committee the right to appoint directly any person to any rank without the appointment originating with the Superintendent of Schools?

Chairman: My distinction here is, if the Committee has the right to give the Superintendent powers of nomination, it also must have the right to take those powers away in certain cases if it so desires; but in this particular instance we are not taking away from you. We could if we wanted to, but we are not doing it.

Dr. Mackey: As a matter of fact, the original rule or regulation was created by a former school committee. Hence I feel that we are justified in revising this rule or regulation if we feel warranted in so doing.

Chairman: In this particular instance, we could if we wished, but we haven't had to do it. Somebody has drawn a red herring across the trail here. They are presuming that we have done something that we haven't done. They are assuming we have taken from the Superintendent a power which we have not taken.

Superintendent: I don't see how you could possibly say otherwise. You have promoted people without nomination by the Superintendent. There was the rank of Assistant and these women are now placed in a higher rank, with a higher salary, and the Superintendent has not intervened at all. If that is not depriving him of his right of nomination, I don't know what it is.

Chairman: Have you a nomination to make?

Superintendent: No.

Chairman: Then how are we depriving you of anything?

Superintendent: You are appointing people without the intervention of the Superintendent. The School Committee has a right to create the offices of two additional assistant directors. Then we should follow the regular custom and go through the regular procedure. The Superintendent of Schools should be directed to fill these places. He will do it under your orders. He will call for a rated list and the first two people will be nominated. If these two ladies are the best in the service for the job, they will come out at the top and you haven't created a dangerous precedent.

Mr. Tobin: I could heartily agree with the Superintendent if these were new positions with new duties, but since they are the selfsame positions with the same duties and we only place them on the same standard with the assistant director who performs the same duties, I must disagree with him. I, as a member of this committee, would never have placed anyone in a particular position that I felt was a position which should be the result of a nomination by the Superintendent, but this is merely a clarification of the ranks of people performing the same duties and for that reason there is no invasion of the rights of the Superintendent. I think there has been a lot of hair-splitting here tonight. The School Committee is a powerful body. They have great powers if they wish to exercise them. I think this Committee has used rare judgment and during my entire service on the Board they have at all times followed out and lived up religously to a merit system beyond compare in the whole of the United States, or, I might dare say, in the world, and I hope the Boston papers will not leave the impression in the minds of the public that this is a breaking down of the merit system.

WATCHMAN, BOSTON TRADE SCHOOL

A communication was received from the Business Manager, under date of Dec. 28, 1933, recommending the passage of an accompanying order amending Section 14 of the Schedule of Compensation for Custodians of School Buildings for Regular Day School Service to provide for the employment of a watchman at the Boston Trade School where valuable property, portable equipment, tools, etc., are housed, such amendment to take effect Jan. 2, 1934.

Placed on file.

—

On motion, it was

ORDERED, That Section 14 of the Schedule of Compensation for Custodians of School Buildings for Regular Day School Service—School Document No. 9, 1930—is hereby amended by adding the following paragraph, to take effect Jan. 2, 1934:

Boston Trade School—Thirty-five dollars ($35) per week in addition to the compensation allowed under schedule rates for the purpose of providing day and night service for the building.

SCHOOL LUNCHEONS

Dr. Mackey: I'd like to ask the Superintendent if we have had any other reports in relation to the abandonment of lunch counters in our schools. The Women's Educational and Industrial Union has abandoned certain lunch counters. I feel that the health and well-being of our children are concerned in this matter of vital importance. Therefore, I present the matter as I have previously done in conference.

The Superintendent stated that a committee of Head Masters is working with the Assistant Superintendent in charge, Mr. Snow, and the women who represent the Women's Educational and Industrial Union, in the hope that means will be found to make the project at least solvent; that it looks now as if they might possibly reach some satisfactory arrangement, and that they are not proposing to discontinue any other schools.

Discussion followed with reference to the problems with which the Committee is now faced in connection with withdrawal by the Union of luncheon service in certain schools, namely, the Frothingham Annex of the Charlestown High School, the Donald McKay Intermediate School, and the Henry L. Pierce Annex to the Dorchester High School for Girls; and with reference to the problems with which the Union has had to deal—transportation, small sales in certain districts, etc.

Dr. Mackey offered the following:

ORDERED, That the School Committee sever its contacts and break its contract or agreement with the Women's Educational and Industrial Union one month from today, January 28, 1934.

After discussion, at Mr. Tobin's suggestion, Dr. Mackey's motion was made a matter of record and action was postponed pending receipt of progressive reports from the committee which is now working on the matter at the Superintendent's request.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner for permission to demolish the following structures, which are unsafe, and to demolish others under the Civil Works Administration:

The building at 18 Bunker Hill street, Ward 2. The "rear wall is in an unsafe and dangerous condition and should be taken care of at once."

The owner, Charlestown Five Cents Savings Bank of Charlestown, has been notified of the unsafe condition, and have ordered the tenants to vacate the building.

The building at 47 Ward street, Ward 7, is in an unsafe and dangerous condition, dilapidated, and a fire menace, also open to the public and weather; basement and first floor unsafe; partitions removed, also rear piazza.

A notice of the unsafe condition has been sent to the owner, Annie Leary of 1788 Marine Drive, Vancouver, B. C., and a copy of the unsafe notice posted on the external wall of the building. The inspector now reports that the building is in a very dangerous condition, and should be razed.

The building at 5 Wall street, Ward 3, is in a dilapidated condition caused by fire on February 9, 1932; doors and windows gone; plastering off; partition floors ripped up; dangerous.

The building is owned by the estate of Catherine Farley. The administrator, Frederick Farley of 37 Joy street, Boston, was notified of the unsafe condition, but nothing has been done to remove the cause of complaint.

The building at 65 Gordon street, Ward 21, is in a dilapidated and dangerous condition.

The owners, Fred W. Sproul *et al.* of 70 Allston street, Allston, have been notified of the unsafe condition, of the building, but neglect to remove the cause of complaint.

The building is a fire menace, windows, doors and foundation broken and missing, and the inspector recommends that it be razed.

The building at 25 Prescott street, Ward 2, is in a dilapidated condition; windows broken and open to the public; clapboards falling of; left-hand end of building, front side, all rotted and falling down.

The owner, James Neville of 65 Austin street, Charlestown, has been notified of the unsafe condition of the building, but neglects to remove the cause of complaint.

The building at 282 Bremen street, Ward 1, is unsafe, shed roof frame is badly deflected and walls out of plumb; stable walls settled, bulged and out of plumb; second floor frame deflected; sills and posts rotted; building dangerous and a fire menace.

The owner, Etta Goldberg of 171 Paris street, East Boston, was notified of the unsafe condition of the building, but neglects to remove the cause of complaint. The inspector now reports that the building is unsafe and dangerous, and he recommends that it be razed.

The building at 288 Dorchester street, Ward 7, is in an unsafe and dangerous condition; two sides of building bulging out.

The owner, Richard M. Lyons of 551 Massachusetts avenue, Boston, was notified of the unsafe condition of the building, but neglects to remove the cause of complaint. The inspector now reports that the building is in an unsafe and dangerous condition; the brick underpinning is overhanging, the left side wall is bulging out; the right side wall is caving in; building vacant and closed up. Heavy snow load on roof may cause same to collapse, and he recommends that the building be razed.

The building at 570 Canterbury street, Ward 18, was destroyed by fire to such an extent as to leave the remaining portion in an unsafe and dangerous condition.

The owner of record, William E. MacDonald, has not been located, but a notice of the unsafe condition has been posted on the external wall of the building. Nothing has been done to remove the cause of complaint.

The building at 354 Tremont street, Ward 3, is in a dilapidated condition; chimney on the roof falling down; front and rear walls lashed together with wire ropes, which was done by building wreckers; chimney on ell held up by plank; slate loose; 8-inch external wall soft brick falling out; windows and doors open.

The owner of record, Bessie Bowman, has not been located, but a notice of the unsafe condition has been posted on the external wall of the building. The inspector now reports that the building is in such a condition that it should be razed.

The building at 143 Rutherford avenue, Ward 2, is in a dilapidated condition; rear ell falling down; clapboards falling off; windows broken; corner boards and casings falling off. The owner, A. J. Douglas of 1 Monument street, Charlestown, has been notified of the unsafe condition of the building, but neglects to remove the cause of complaint. The inspector now reports that the building is in such a condition that it should be razed.

The building at 67 River street, rear, Ward 17, is open to trespass at the ground level on sides and rear; sill on right side is rotted and the building settled; it is a fire menace. Unsafe and dangerous and should be taken down. Building boarded up on several occasions and reopened.

The owner of record, William E. McDonald, has not been located, but a notice of the unsafe condition has been posted on the external wall of the building. Nothing has been done to remove the cause of complaint.

The building at 24 Stone street, Ward 2, is in a dilapidated condition; large store window glass gone, allowing free access to building; plaster falling from ceilings; chimney falling down; outlets from roof stopped up allowing water to stand on roof about 6 inches deep. The owner, William D. Milton of 212 Summer street, Boston, has been notified of the unsafe condition of the building, but neglects to remove the cause of complaint. The inspector now reports that the building is in such a condition that it should be razed.

The building at 66 Washington street, rear, Ward 2, used for two-car garage is in a dilapidated condition; sills, studding and boarding all rotten and falling down; building out of plumb about 12 inches.

The owner, Herbert N. Hanson of 58 Washington street, Charlestown, was notified of the unsafe condition of the building, but neglects to remove the cause of complaint. The inspector now reports that the building is in such a condition that it should be razed.

(By C. W. A. Labor.)

OIL BURNER APPARATUS.

The Mayor has approved the following request of the Health Department:

BOSTON, January 5, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I respectfully request your Honor's approval for the award of a purchase of an oil burner apparatus for the new boiler at the Ambulance Station, North Grove street, to Petroleum Heat and Power Company for the sum of three hundred and seventy-five dollars ($375).

Yours respectfully,

F. X. MAHONEY, M. D.,
Health Commissioner.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JANUARY 27, 1934. NO. 4

MAYOR MANSFIELD PAYS NOTABLE TRIBUTE TO GEN. JOSEPH HALLER, NOTED POLISH GENERAL, UPON OCCASION OF VISIT TO BOSTON. ENTERTAINS DISTINGUISHED VISITOR AT LUNCHEON AFTER WELCOME AT CITY HALL. POINTS TO HEROISM OF POLISH PEOPLE AND THEIR CONTRIBUTION TO GROWTH AND PROGRESS OF UNITED STATES.

Upon the occasion of the visit of General Joseph Haller to the City of Boston, Mayor Mansfield, during the welcome luncheon tendered the visitor and his friends, spoke as follows:

It matters not where one may turn in the pages of history, there is revealed the indomitable strength and courage of the Polish people.

Since the dawn of civilization, the history of patriotism has known no land where sufferings, sacrifices, sorrows, and the struggle for liberty have been more enduring than in Poland.

I acclaim the Polish nation, happily restored to an honored and fitting place in the family of nations, and I greet, in the name of the people of Boston, General Joseph Haller, Commander-in-Chief of the Polish Army in the World War.

General Haller is not the first of Poland's heroes to be welcomed and honored by the people of America. Every schoolboy knows the story of Poland's immortal hero who, in the battle for human freedom, gave both to his native land and to America the devoted service of one of the greatest liberators in the history of mankind. At West Point rises the monument to him, bearing the words, "To the hero of two worlds"; and the City of Boston has seen fit, a few years ago, to erect in its Public Garden a memorial to serve for generations to come as an inspiration for all that human patriotism represents. The memory and deeds of General Thaddeus Kosciusko will forever remain enshrined in the hearts of the American people. Nor shall we ever forget another immortal of Poland, General Kazimierz Pulaski, who fell leading the American Army in a headlong charge at the battle of Savannah, in October, 1779.

But glorious days came to the Republic of Poland, under the guidance of Woodrow Wilson, with the proclamation of independence in November, 1918, and with the first sitting of a National Assembly elected by the people, on February 10, 1919. The end of strife, however, was not yet, and in the same year, armed defence against the "Red" troops of Bolshevik Russia became imperative; but, in 1920, with Warsaw in peril of capture, a dramatic counter-attack by the Polish defenders of the front line in Europe against Bolshevik invasion from the East, reversed the nature of the campaign, and Poland accepted a peace on favorable terms.

The constitution of Poland was adopted on March 17, 1921, annexations of territory as the result of the war with Russia were recognized on March 14, 1923, and commercial agreements between Poland and the United States were made in 1925 and 1926.

In Poland's fight for liberty and independence, it is gratifying to hear America's part expressed by another famous son of Poland, Ignace Paderewski — we all grieve with him today in the loss of his wife and helpmate, who passed away on Tuesday; during the war, she actively supported the International Red Cross, cared for the "War brides" of Poland, and established an asylum for five hundred women and children — Paderewski who, on September 18, 1919, in a public address stated: "Poland has set up a democracy under the inspiration of the American people. Had it not been for American intervention in Europe we might possibly have had some semblance of independent government under an autocratic over-rule, but with American intervention and American help we have sought to establish not only the independence of the state, but also the internal liberty of our people, through the difficult road of democracy."

General Haller,— popular hero of your native land, inspiring leader of 23,000 Americans of Polish extraction who followed you to war-torn Europe and fought under your banner in the Great War to save democracy,— Boston reaffirms its support to your beloved Republic of Poland, and pledges its assistance in your appeal for funds for the disabled veterans of the Polish Army.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR MANSFIELD PLANS TO HAVE ALL CITY SUPPLIES PURCHASED THROUGH ONE CENTRAL AGENCY.

Upon January 22 the Mayor issued the following statement:

I have accepted, to take effect at the close of business today, the resignation of Philip A. Chapman as Superintendent of Supplies. I have appointed in his place Warren W. Loomis of 815 Webster street, Needham. Mr. Loomis is about fifty-six years of age, native of New Jersey, graduated from Massachusetts Institute of Technology in 1905 with an electrical engineer's degree. From 1905 he was employed by Stone & Webster and in 1906 he was sent to one of that company's Texas firms as purchasing agent and superintendent of railway department. He returned to Boston in 1909, where he was again assigned to the purchasing department, holding various positions in increasing importance until he became assistant to the purchasing agent and in 1917 was made general purchasing agent, continuing in that position until 1933.

During that time as general purchasing agent he was responsible for the purchase of from ten million to twenty million dollars' worth of supplies annually. His experience has been varied and his work in the purchasing department has given him very broad and wide experience with manufacturers, sources of supply and equipment of extensive range. He is very highly recommended for this position.

The Superintendent of Supplies in Boston purchases between three and four million dollars' worth annually. Other departments purchase independently of the purchasing agent. I hope to be able to obtain the adoption of legislation so that all supplies may be bought through one central purchasing agent. Mr. Loomis will be admirably qualified to undertake this larger work.

Mr. Robert D. Brewer of the Merchants National Bank says that there has been an inquiry from New York sources for a large block of Boston tax anticipation notes, indicating an improved demand for Boston paper. Details and further information are not yet available.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works, to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, supposed to belong to Boston District Developing Corporation, bounded:

Easterly by Poplar street, ten feet; southerly by other land supposed to belong to said corporation, one hundred feet; westerly by land supposed to belong to City of Boston, ten feet, and northerly by other land supposed to belong to said corporation, one hundred feet, containing ten hundred square feet, more or less.

The sewerage works to be constructed are as follows: One hundred linear feet of 12-inch pipe sanitary sewer and one hundred linear feet of 12-inch pipe surface drain, in the above described premises, being private land between Poplar street and the Municipal Golf Course.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that the undermentioned estate sustains damages by the taking of an easement for sewerage purposes in private land between Poplar street and the Municipal Golf Course, West Roxbury district, under the order of the Board of January 8, 1934, in the amount hereinafter mentioned, and awards said amount therefor.

Boston District Developing Corporation, 1,000 square feet, $50.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Burard street, West Roxbury district, as a highway, from La Grange street to Dent street, bounded and described as follows:

A highway named Burard street is hereby laid out, from La Grange street to Dent street, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by La Grange street, forty feet; southeasterly by the southeasterly line of said Burard street as hereby laid out, four hundred sixty-eight and 92–100 feet; southwesterly by Dent street, forty and 1–100 feet; and northwesterly by the northwesterly line of said Burard street as hereby laid out, four hundred sixty-nine and 70–100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Burard street, West Roxbury district, as a highway, from La Grange street to Dent street, under the order of the Board of January 16, 1934, and awards no damages therefor.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for public improvement, consisting of the laying out and construction of Cary road, West Roxbury district, as a highway, from Williams street to Kenton road, with the name of Cardillo street or some other distinctive name, bounded and described as follows:

A highway named Dungarvan road is hereby laid out, from Williams street to Kenton road, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following-described lands, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, owners unknown, bounded: Northerly by Kenton road, thirty-eight and 77-100 feet; southeasterly, by the southeasterly line of said Dungarvan road as established under this order, seventy-nine and 40–100 feet; southwesterly by Cary road, thirty-three and 11–100 feet, and northwesterly by the northwesterly line of said Dungarvan road as established under this order, sixty-eight and 44–100 feet, containing twenty-two hundred and forty-nine square feet, more or less.

The land, owners unknown, being the private way known as Cary road.

Said Dungarvan road as hereby laid out is bounded: Southwesterly by Williams street, thirty-six and 73–100 feet; northerly by the northerly line of said Dungarvan road as hereby laid out, one hundred fifty-two and 30–100 feet;

northwesterly by the northwesterly line of said Dungarvan road as hereby laid out, two hundred eleven and 50–100 feet; again southwesterly by the southwesterly line of said Dungarvan road as hereby laid out, 43–100 feet; again northwesterly by the northwesterly line of said Dungarvan road as hereby laid out, ninety-three and 22–100 feet; northerly by Kenton road, thirty-eight and 77–100 feet; southeasterly by the southeasterly line of said Dungarvan road as hereby laid out, three hundred forty-four and 90–100 feet, and southerly by the southerly line of said Dungarvan road as hereby laid out, by two measurements, thirty and 56–100 feet and one hundred and seven feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Dungarvan road (formerly Cary road), West Roxbury district, as a highway, from Williams street to Kenton road, under the order of the Board of January 17, 1934, and awards no damages therefor.

Owners unknown, 2,249 square feet, nothing.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works, to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Haven avenue, bounded: Easterly by easement taken by the City of Boston for sewerage purposes in Haven avenue, October 3, 1933, six feet; southerly by another part of Haven avenue, by three measurements, fifty-one and 89–100 feet, eighty-three and 63–100 feet and one hundred eighteen and 27–100 feet; westerly by the same, six and 3–100 feet, and northerly by the same, by three measurements, one hundred nineteen and 39–100 feet, eighty-four and 37–100 feet and fifty-two and 11–100 feet, containing fifteen hundred and twenty-nine square feet, more or less.

The sewerage works to be constructed are as follows: 252 linear feet of 10-inch pipe sanitary sewer and 252 linear feet of 12-inch pipe surface drain, in the above described premises, being part of the private way known as Haven avenue, westerly from sewer easement taken October 3, 1933, for a distance of approximately two hundred and fifty-five feet.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the northerly and southerly sides of said Haven avenue, as shown on the plan hereinafter mentioned, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1124, Sewerage Works, Haven Avenue, Dorchester, December 12, 1933, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

POLICE DEPARTMENT ORDERS.

General Order No. 379.

A "Board of Merit," consisting of Superintendent Martin H. King, Deputy Superintendents James McDevitt, John M. Anderson and William W. Livingston, has brought to the attention of the Police Commissioner the following outstanding cases in which police officers of this department especially distinguished themselves in the performance of their duty during the year 1933. The commissioner, therefore, makes the following awards:

The Walter Scott Medal for Valor for 1933 and a Department Medal of Honor to Sergt. Francis W. Russell of Bureau of Criminal Investigation.

Sergt. Francis W. Russell of Bureau of Criminal Investigation, for meritorious police duty performed and bravery shown on March 27, 1933. With the assistance of other officers, in the face of imminent danger to himself, Sergeant Russell entered an apartment and succeeded in holding at bay two desperate criminals armed with loaded revolvers, both of whom attempted to shoot Sergt. Francis W. Russell.

Department medals of honor to:

Patrolmen Daniel Fitzgerald and Thomas J. Mundy of Division 14, John J. Dever of Division 4, Daniel J. Feeney of Division 16 (formerly of Division 9), Andrew K. Adair and George W. Burke of Division 2, Henry F. Brogan and Henry A. Weiss of Division 14.

Patrolman Daniel Fitzgerald.

Patrolman Daniel Fitzgerald of Division 14, for meritorious police duty performed on October 4, 1933, in rescuing a mother and several children from a burning building.

Patrolman Thomas J. Mundy.

Patrolman Thomas J. Mundy of Division 14, for meritorious police duty performed on October 4, 1933, in rescuing a mother and several children from a burning building.

Patrolman John J. Dever.

Patrolman John J. Dever of Division 4, for valor shown on September 20, 1933, by plunging into the water and rescuing two persons, one of whom had jumped into the water in an attempt to save the other who was attempting to commit suicide.

Patrolman Daniel J. Feeney.

Patrolman Daniel J. Feeney of Division 16, formerly of Division 9, for meritorious police duty performed on the night of April 24, 1933, in the capture of two men, one of whom was armed with a loaded revolver, while in the act of robbing a storekeeper. By these arrests several armed robberies were solved.

Patrolman Andrew K. Adair

Patrolman Andrew K. Adair, attached to Division 2, for effective and energetic action shown on April 21, 1933, in the pursuit and capture of two desperadoes who were discovered while in the commission of a felony.

Patrolman George W. Burke.

Patrolman George W. Burke, attached to Division 2, for effective and energetic action shown on April 21, 1933, in the pursuit and capture of two desperadoes who were discovered while in the commission of a felony

Patrolman Henry F. Brogan.

Patrolman Henry F. Brogan of Division 14, for courage shown and outstanding service rendered on November 19, 1933, when he swam to the rescue of three persons in the Charles river who were in imminent danger of drowning.

Patrolman Henry A. Weiss.

Patrolman Henry A. Weiss of Division 14, for courage shown and outstanding service rendered on November 19, 1933, when he swam to the rescue of three persons in the Charles river who were in imminent danger of drowning.

The commissioner notes with pleasure the courageous acts of the officers named in this order, shown in emergencies where prompt action on their part was required.

Presentations of the Walter Scott Medal for Valor and the Department Medals of Honor to the officers herein awarded were made by the commissioner on the occasion of the concert and ball of the Boston Police Relief Association, held at Mechanics Building on the evening of January 16, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 380.

Patrolman Michael J. Kilgallon of Division 1 is commended in General Orders for his prompt response to the blinker flashing signal on the night of December 28, 1933, which resulted in the capture of a person who had stolen a fur coat from a store.

The commissioner is pleased to recognize the effectual police service rendered by Patrolman Kilgallon on this occasion.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 381.

Patrolmen Frank T. Lamb, Paul M. Sances, Alfred J. Morrissey, Thomas E. Clegg, Martin W. Connolly, Walter J. Burkinshaw, James J. Driscoll, Albert F. Varner, John T. Hennebury and John F. Smiley of Division 7, and William F. Ahern of Division 1, are hereby commended in General Orders for meritorious police duty performed on December 29, 1933, on the occasion of a serious fire which occurred in East Boston in the early morning, in which the lives of a large number of persons were endangered. In addition Patrolman William F. Ahern of Division 1 is granted two days' additional vacation for prompt and effectual service rendered while off duty, having discovered the fire and, unassisted, rushed into the building warning several of the families and carrying down others who, because of excitement, were unable to make their way out of the building.

The commissioner is pleased to recognize the splendid duty performed on this occasion which, but for the prompt and heroic service rendered by the police, may have resulted in the loss of life.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 382.

A trial board consisting of Captains Campbell, Grace and Daley having heard by reference a complaint made by Thomas F. Casey, captain, Division 10, against Joseph P. Leahy, sergeant, Division 10, for alleged violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 4th day of January, 1934, the said Sergt. Joseph P. Leahy, when not in uniform and not on duty, was under the influence of intoxicating liquor to such an extent he was unable to perform police duty if called upon so to do, and that, by so doing, he was guilty of an act contrary to good order and discipline of the department and tended to bring into disrepute and criticism his associates on the force and the department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, finds the said Sergt. Joseph P. Leahy guilty as charged. Having in mind the recommendation of his captain as being a good, reliable police officer and never having occasion to warn him before of the use of liquor, also that he considered him a very valuable man in the department, and, further, Capt. Mathew Killen, who formerly was his commanding officer, testified as a character witness for Sergeant Leahy and stated that he was a thoroughly reliable officer and never having occasion to warn him of the use of liquor, in fact, never knew he used liquor, and Capt. Mathew Killen was so positive on that point, that he stated he would have to see the man under the influence of liquor before he believed it. Also Sergeant Leahy worked on a murder case in Division 10 on his regular tour of duty and other times, both day and night, on his own initiative with the purpose of cleaning up the murder, since December 24, 1933, and after doing his first watch from 6 p. m. to 1 a. m. on January 3, 1934, he remained on duty on his own initiative until 3 a. m., making an effort to secure a very important witness in the murder case, so as to be presented in the Grand Jury on January 4, 1934, and on January 4, 1934, while on a day off, Sergeant Leahy appeared before the Grand Jury and remained in the District Attorney's office until 4 p. m. It also appeared in the evidence that he was suffering from an ulcerated tooth, and also from stomach trouble. Ordinarily a sergeant having been convicted of being under the influence of liquor would justify the extreme punishment of demotion or discharge, but, owing to the high recommendation given by his commanding officer, and also Capt. Mathew Killen, his former commanding officer, the Board respectfully recommends that he be suspended for a period of thirty days, beginning as of January 5, 1934, at 7.45 o'clock a. m."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Sergt. Joseph P. Leahy be suspended from duty for thirty days, effective as of January 5, 1934, at 7.45 o'clock a. m.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner, upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not

allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 383.

Patrolmen Francis J. O'Connor and Harvey B. Yates, both of Division 4, and Patrolmen Stanley A. Slack and William J. Crowley, both of Bureau of Criminal Investigation, are commended in General Orders for efficient police duty performed on December 1, 1933, in connection with the murder of a person in the South End.

The commissioner is pleased to recognize the prompt and intelligent manner in which these officers performed this splendid police duty which resulted in the apprehension of the felon within a few hours after the commission of the crime.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 384.

A trial board consisting of Captains Campbell, Grace and Daley, having heard by reference a complaint made by Thomas S. J. Kavanagh, captain, Division 9, against Napoleon J. Dubois, patrolman, Division 9, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on the second day of January, 1934, Patrolman Napoleon J. Dubois, being in uniform and not on duty, was under the influence of intoxicating liquor to such an extent that he would have been unable, had he been called upon to do so, to perform the duties of a police officer.

Specification 2: In that on the second day of January, 1934, Patrolman Napoleon J. Dubois, while in uniform and not on police duty, entered the Merry-Go-Round Room at the Copley-Plaza Hotel, a place where liquor is dispensed and sold, did sit at a table with another person who was under the influence of intoxicating liquors, and not being on any police business at the time, all tending to bring into disrepute and criticism his associates in the Police Department and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented by witnesses, accepts the plea of guilty made by the said Patrolman Napoleon J. Dubois to Specification 2 of said charge, and the Board finds the said Patrolman Napoleon J. Dubois guilty on Specification 1 of said charge. In view of the statements of his superior officers and the recommendation made by Capt. Thomas S. J. Kavanagh that Patrolman Dubois, if given another chance, will prove to be a good police officer, the Board respectfully recommends that the said Patrolman Napoleon J. Dubois be suspended from duty for a period of thirty days, effective as of January 6, 1934, at 5.45 o'clock, and that at the expiration of the said period of suspension the said Patrolman Napoleon J. Dubois be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman Napoleon J. Dubois be suspended from duty for a period of thirty days, effective as of January 6, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Napoleon J. Dubois perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 385.

It gives the commissioner great pleasure to publish the following letter for the information of the department:

EMERGENCY CAMPAIGN OF 1934,
24 FEDERAL STREET, BOSTON,
January 15, 1934.

COMMISSIONER EUGENE C. HULTMAN,
Boston Police Department.

MY DEAR COMMISSIONER,—I want to thank you not only on behalf of the campaign but also personally for the assistance your department is giving us in the preliminary work of the campaign. Lieutenant O'Dea has been most obliging as has Lieutenant Blaney.

Cooperation as we are receiving from your department is of infinite value to the campaign.

Very truly yours,

J. W. FARLEY,
General Chairman.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 386.

The city is hereby divided into three major inspectional districts, namely:

District A: Divisions 13, 14, 17, 18 and 19.

District B: Divisions 1, 2, 7, 15 and 16.

District C: Divisions 4, 6, 9, 10 and 11.

Each district shall be under the inspectional supervision of a deputy superintendent and his duties shall be as follows:

He shall inspect all divisions within his district for the purpose of ascertaining and noting how the members of each division are performing their duty.

He shall make his visits at irregular intervals and unannounced.

He shall observe the manner in which the officers in command and in charge of divisions perform their duty.

He shall observe the manner in which the sergeants perform their duty.

He shall observe the manner in which the patrolmen perform their duty.

He shall observe the conditions in every division within his district and shall note whether all members of divisions are zealous in the enforcement of the laws of this Commonwealth.

He shall report in writing on the first day of each week, and more frequently if required, to the superintendent, setting down the division or divisions that he has visited within his district, the time spent visiting each division, and in his report shall call specifically to the attention of the superintendent every matter of importance concerning proper police administration, conditions he observed, and whether or not the work of the divisons in his district is being properly carried out.

He shall make suggestions and recommendations as to how the department can be of greater service to the public.

He shall also perform any other duties which may be assigned to him by the superintendent.

The following assignments of Inspectors of Divisions are hereby made:

Deputy Superintendent James McDevitt is assigned to District A.

Deputy Superintendent John M. Anderson is assigned to District B.

Deputy Superintendent William W. Livingston is assigned to District C.

All rules and regulations and General Orders inconsistent with this order are hereby repealed.

This order will take effect Tuesday, January 23, 1934, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 387.

A trial board consisting of Captains Campbell, McGrath and Daley, having heard by reference a complaint made by Thomas F. Casey, Captain, Division 10, against Thomas F. Johnston, patrolman, Division 10, for alleged violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Conduct unbecoming an officer.

Specification: In that on the ninth day of January, 1934, the said Patrolman Thomas F. Johnston, when in uniform and on duty, being assigned to prowler car covering routes 13 and 36 and the lower end of the division from 12.30 to 8 a. m., was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty if called upon so to do, and that by so doing he was guilty of an act contrary to good order and discipline of the department and tended to bring into disrepute and criticism his associates on the force and the department as a whole.

Charge 2: Neglect of duty.

Specification: In that on the ninth day of January, 1934, the said Patrolman Thomas F. Johnston was assigned to patrol duty between the hours of 12.30 a. m. and 8 a. m. and did fail to properly perform said duty in that he left his tour of duty at about 4.15 a. m. without permission from his superior officers,—

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented, finds the said Patrolman Thomas F. Johnston guilty as charged. The Board has also considered the fact that this officer has never before been before a trial board for a violation of the Rules and Regulations of the department, the good recommendation given him by his commanding officer; the fact that the officer was an observer in the prowler car and not an operator; and the fact that on the previous night Patrolman Johnston probably prevented a suicide by cutting down a prisoner in a cell, and his promise to take a pledge with his spiritual adviser to abstain from the use of intoxicating liquors in the future. Therefore, the

Board respectfully recommends that the said Patrolman Thomas F. Johnston be suspended from duty with loss of pay for a period of thirty days, effective as of January 9, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Thomas F. Johnston be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Thomas F. Johnston be suspended from duty for a period of thirty days effective as of January 9, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Thomas F. Johnston perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 388.

By authority conferred upon the Police Commissioner by law, Patrolman John J. Dowd of Division 11, charged with conduct unbecoming an officer and untruthfulness, was dismissed from the Police Department, effective as of January 19, 1934, at 5.45 o'clock p. m. Written notice of such dismissal, with the reasons therefor, was duly and specifically given in hand on January 19, 1934, to the said John J. Dowd.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 389.

The commissioner is pleased to publish the following letter for the information of the department:

TRUSTEES OF THE
ARMENIAN APOSTOLIC CHURCH
OF BOSTON.
397 SHAWMUT AVENUE, BOSTON, MASS.,
January 19, 1934.

EUGENE C. HULTMAN, ESQ.,
Commissioner of Police.

DEAR SIR,—The mass meeting committee of the Armenian Apostolic Church thanks the Boston Police Department for the excellent manner in which they maintained order among the thousands of people attending the protest mass meeting at the Boston Opera House, and also at the services in the church on January 14.

Very truly yours,

H. HABESHIAN,
Chairman.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Bowdoin square, Dorchester district, as a highway, from Westville street to Dakota street, with the name of Boyd street, or some other distinctive name, bounded and described as follows:

A highway named Boyd street is hereby laid out, from Westville street to Dakota street, and ordered constructed, the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive or trees or structures standing upon of affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Westville street, forty feet; northeasterly by the northeasterly line of said Boyd street as hereby laid out, two hundred ninety-four and 1–100 feet; southeasterly by Dakota street, forty feet, and southwesterly by the southwesterly line of said Boyd street as hereby laid out, two hundred ninety-four and 1–100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Boyd street, Dorchester district, as a highway, from Westville street to Dakota street, under the order of the Board of January 3, 1934, and awards no damages therefor.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Fenton street, Dorchester district, as a highway, from Clayton street to Duncan street, bounded and described as follows:

A highway named Fenton street is hereby laid out, from Clayton street to Duncan street, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Clayton street, forty-nine and 80-100 feet; southeasterly by the southeasterly line of said Fenton street as hereby laid out, six hundred thirty and 94-100 feet; southwesterly by Duncan street, forty and 23-100 feet, and northwesterly by the northwesterly line of said Fenton street as hereby laid out, six hundred fifty-six and 27-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Fenton street, Dorchester district, as a highway, from Clayton street to Duncan street, under the order of the Board of January 3, 1934, and awards no damages therefor.

FIRE DEPARTMENT ORDERS.

General Order No. 13.

I. BERNARD F. MCNAMARA.

It is with deep regret that the Fire Commissioner announces the death on January 17, 1934, of Bernard F. McNamara of Engine Company 41. Hoseman McNamara was appointed to the department on October 14, 1903.

The funeral was held from his late residence, 671 Washington street, Brighton, at 9 a. m., January 20, 1934, followed by services at the Church of Our Lady of the Presentation. The Chief of Department made the usual detail to act as funeral escort and Engine Company 41 was excused from duty in order to attend the funeral.

II. WILLIAM A. BALDWIN.

It is with deep regret that the Fire Commissioner announces the death of William A. Baldwin of the Fire Prevention Division on Monday, January 22, 1934. Ladderman Baldwin was appointed to the Fire Department on February 10, 1893.

The funeral will be held from his late residence, 120 Fuller street, Dorchester, at 8 a. m., Thursday, January 25, 1934, followed by services at St. Gregory's Church, Dorchester avenue, at 9 a. m. The Chief of Department will arrange to detail sixteen members from the uniform inspection force of the Fire Prevention Division to act as an escort from this department. The detail will report at the corner of Washington and Fuller streets, Dorchester, at 8 a. m., to Capt. Michael Norton, who will be in charge of the detail.

III. TESTING DOORS.

On and after Monday, January 29, 1934, the practice of making weekly tests of the fire alarm box doors will be limited to the 742 keyless doors now in service. The signature cards will be kept in these boxes and signed by the men testing the doors, as usual.

Weekly inspection and tests of boxes with quick-action doors will be discontinued on and after Monday, January 29, 1934.

The practice of testing doors after a sleet storm, or during any kind of weather which may interfere with the proper operation of fire alarm box doors, will be continued. In other words, when doors are apt to freeze up, men will be sent out to test all doors, including the old-style keyless doors and the quick-action doors.

IV. FIRE EXTENDING TO PROPERTY OF ANOTHER.

The practice of sending in special reports on Form 5 where a fire occurs in one building and extends to the property of another will be discontinued on and after this date.

V. COMMENDATIONS.

In commending members of the Fire Alarm Division in General Orders No. 10 for the services rendered by them in rescuing a valuable dog who had broken through the ice on Muddy river on January 16, 1934, the name of George T. Scott, aid to the Superintendent of Fire Alarm, was inadvertently omitted. George T. Scott, aid to the Superintendent of Fire Alarm, is hereby commended for the services rendered by him on this occasion when the dog was rescued from Muddy river.

The Fire Commissioner is in receipt of the following letter from Blair's Foodland, Incorporated, in which appreciation is expressed of the services rendered by the members of this department at the fire, Box 2124, three alarms, January 18, 1934:

BOSTON, MASS., January 19, 1934.

HON. EDWARD F. MCLAUGHLIN.
Fire Commissioner.

DEAR SIR,—I wish to take this opportunity in thanking the Fire Department for the splendid work which they did in protecting our fire here. Our loss would have been far greater hadn't it been for the men in your department.

Will you kindly express to those men overcome by smoke and gas, my most sincere thanks and I trust none of them will suffer any ill effects.

It is only through the fine efforts of your department that our city is so well protected.

Very truly yours,

BLAIR'S FOODLAND, INC.,
by M. BURG, *President.*

Lieut. John J. McLane of Engine Company 41 is hereby commended for responding to and working at fire, still alarm, 324 and 326 Washington street, Brighton, January 17, 1934, while off duty.

Ladderman Timothy J. Donovan of Ladder Company 14 and Man on Probation Thomas J. Kavanaugh of Engine Company 34 are hereby commended for responding to and working at fire, Box 5217, second alarm, January 18, 1934, while off duty.

Ladderman John J. Devine of Ladder Company 4 is hereby commended for responding to and working at fire, Box 2124, January 18, 1934, three alarms, while off duty.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the orders of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Shirley road, Hyde Park district, as a highway, from Sunnyside street northwesterly, with the name of Shubert street or some other distinctive name substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said improvement, and that it appoints eleven o'clock a. m., of December 28, 1933, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

CORNELIUS A. REARDON,
Secretary.

IN BOARD OF STREET COMMISSIONERS
OF THE CITY OF BOSTON,
January 19, 1934.

Ordered, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published December 15, 16, 1933, and December 18, 19, 1933, in the Boston *Post* and the Boston *American*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city of the public improvement, shown on a plan, marked "City of Boston, Scribner Road, Hyde Park, November 1, 1933, William J. Sullivan, Chief Engineer, Street Laying-Out Department" deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

A highway named Scribner road is hereby laid out, northwesterly from Sunnyside street for a distance of approximately one hundred and ninety-five feet, and ordered constructed, the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Sunnyside street, forty feet; southwesterly by the southwesterly line of said Scribner road as hereby laid out, one hundred ninety-four and 71-100 feet; northwesterly by the northwesterly line of said Scribner road as hereby laid out, forty feet; and northeasterly by the northeasterly line of said Scribner road as hereby laid out, one hundred ninety-four and 44-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Scribner road (formerly Shirley road), Hyde Park district, as a highway, northwesterly from Sunnyside street for a distance of one hundred and ninety-five feet, under the order of the Board of January 19, 1934, and awards no damages therefor.

PROCEEDINGS OF SCHOOL COMMITTEE.

Jan. 2, 1934.

The meeting for organization of the School Committee of the City of Boston for the current municipal year was held in the Administration Building, 15 Beacon Street, at 7:25 o'clock, P. M.

Present: Messrs. Hurley, Lyons, Sullivan, and Tobin.

—

The meeting was called to order by Mr. Joseph J. Hurley, the senior member.

—

Mr. Hurley: This meeting was called for the purpose of organizing the School Committee of the City of Boston for the current municipal year. We have just received word that Dr. Mackey, about an hour and a half ago, was called to perform an emergency operation, and we have been deliberating as to what we should do. Under ordinary circumstances we would proceed notwithstanding the absence of a member, since we have a quorum. However, since this is the meeting for organization, we feel that out of courtesy to the Doctor who has been unavoidably detained, we should adjourn. We have adequate precedent for the action as evidenced by the minutes of the meeting of Jan. 7, 1929, when, because of the absence of a member, postponement of action was agreed upon. Therefore, a motion to adjourn this organization meeting, which has been called in accordance with the law, now is in order.

—

On motion of Mr. Tobin, it was VOTED, To adjourn to Wednesday, Jan. 3, 1934, at 7 o'clock, P. M.

—

Attest:

ELLEN M. CRONIN,
Secretary.

Jan. 3, 1934.

The adjourned meeting for organization of the School Committee of the City of Boston for the current municipal year was held in the Administration Building, 15 Beacon Street, at 7:14 o'clock P. M.

Present: Messrs. Hurley, Lyons, Mackey, Sullivan and Tobin.

—

The meeting was called to order by Mr. Joseph J. Hurley, the senior member.

ELECTION OF CHAIRMAN

The Committee proceeded to the election of a Chairman, and the Secretary was directed to call the roll

The members as their names were called respectively stated that they voted as follows:

For JOSEPH V. LYONS—Dr. Lyons—1.

For MAURICE J. TOBIN—Messrs. Mackey, Sullivan and Hurley—3.

For JOSEPH J. HURLEY—Mr. Tobin—1

On motion of Dr. Lyons, the election of Mr. Tobin as Chairman of the School Committee was declared unanimous and Mr. Tobin assumed the chair.

Chairman: Gentlemen, I thank you with all my heart. I thank you for the honor you do me and the tribute you have paid to my humble efforts in the school service. You have made me your Chairman for this year and that title has its responsibilities. This Chair has been occupied by some of our most illustrious and able citizens, and it will be my aim to live up to the standards that have been set here by my predecessors during the past twenty years. I intend to serve but one term. It is my belief that this honor should be rotated among the members of the Committee. After my year of service I know that the Committee will select an able successor. The Committee is made up of young men this year. There is no woman on the Board. We are on trial. Our actions will be judged by many who will know we are doing what is good for the school children, but others will question our motives, not seeing the true facts that have caused us to take certain actions. If we curry public favor, we may aggrandize ourselves but we will not fully serve the purpose for which we were placed here. We have a paramount responsibility which is above all others in our decision here, that one which is measured by the test—is the proposed measure good for the children?

The School Committee has many weighty problems to dispose of during the coming year:

1. The school luncheon problem is a matter most vitally affecting the health and well-being of the children in our system, particularly as it pertains to the intermediate schools where the ages of the pupils range from ten to fourteen years.

2. I would like to see the Committee take advantage of Mr. Shepard's outstanding offer to make available for our use additional radio time. I recommend to the Committee a series of broadcasts covering the modern economic trend in relation to the old doctrines of economics that have been thrown into the discard during the past year; for example, industry under the "laissez faire" theory as compared with industry under the N. R. A., and, also, the single monetary standard as compared with the proposed dual monetary standard—such a course would fill a much needed want at this particular time.

3. I would like to see inaugurated on Beacon Hill legislation that will permit us to appropriate money for the proper outfitting of athletic teams, now financed largely through sale of candy in the separate schools. The passage of this legislation would ensure that no pupil would be subject to injury through a failure to have proper equipment.

4. The Department has many pressing building requirements. In an endeavor to cooperate with the new Mayor in his attempt to keep the tax rate within reasonable limits, I suggest to the Committee for its consideration the financing of major projects from moneys raised within the City's debt limit. This method will require the cooperation of the Mayor, and I think I can speak safely for the other members of the Committee that it is the sense of this Committee that we will show every cooperation to the new administration, and I have great confidence that we will receive the same cooperation from that source.

5. The members of the Committee are faced tonight with the new Administration's plan to restore the annual increment to the teaching service. Last year in the preparation of our budget, anticipating the possibility of such action by the incoming Administration, the Committee made provision for the increment in the salary schedule for the school year 1934 up to August 31. Therefore, no action by this Committee is necessary and automatically the increments will be given to the teaching service as soon as the Mayor issues his official pronouncement.

6. This is a question which has always been dear to my heart and something that I think the school service and the entire city could assist in clearing up:

Designation of a council of teachers to approve acceptable motion pictures in conjunction with social agencies doing this work at the present time, their approved list to be issued monthly to the parents, taken home by the children. Thus gangland pictures, sex stories, and other improper pictures may be discouraged in a tangible way by listing only films which are not objectionable according to normal standards of morals. Parents will know that their children should not be permitted to attend unlisted pictures. While this is essentially a social problem, it is up to the schools to assist in maintaining and improving the social order by guarding its pupils from false standards of conduct and law observance. The old dime novel was a blessing compared to the glorified gentlemen gangsters and flaunting actresses our school children are being impressed with today.

In conclusion, let us work in harmony without sacrifice of personal convictions; let us debate all our questions openly and honestly, without hard feelings. Our responsibility is mutual; and our task is clear.

On motion, it was

ORDERED, That the Rules of the School Committee and the Regulations of the Public Schools of last year which do not involve the expenditure of money, are hereby adopted for the present year until otherwise ordered.

—

ELECTION OF TREASURER

The Committee proceeded to the election of a Treasurer of the Corporation.

The Secretary was directed to call the roll, and the members as their names were called respectively voted as follows:

For FREDERICK R. SULLIVAN—Messrs. Hurley, Lyons, Mackey, and Tobin—4.

For JOSEPH J. HURLEY—Mr. Sullivan—1.

The Chairman declared Mr. Frederick R. Sullivan duly elected Treasurer of the Corporation.

—

Mr. Sullivan: I wish to express my thanks for the action of the Committee in electing me Treasurer of the Corporation. It is my hope that during my term as Treasurer I shall live up to the high standards of my predecessors.

—

COMMITTEE ON NAMING OF SCHOOL BUILDINGS

PROPOSALS FOR FURNISHING AND DELIVERING TOLL COLLECTION EQUIPMENT, TRAFFIC TUNNEL.

The Transit Department of the City of Boston, 1 Beacon street, seventh floor, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States, for furnishing and delivering toll collection equipment for the Traffic Tunnel. A bond of an approved surety company will be required for the faithful performance of the contract in a sum of the total bid price. Proposals must be filled out and signed by the bidder on forms to be obtained at this office, inclosed in a sealed envelope, indorsed "Toll Collection Equipment, Traffic Tunnel," and delivered to the Department, or to its secretary, before 12 o'clock noon on Monday, February 5, 1934, at which time and place they will be publicly opened and read. A properly certified check in the sum of one thousand (1,000) dollars, payable to the city, must accompany the proposal. This check shall become the property of the city if the contract is not executed by the bidder within the time prescribed after the date of the notification by the Department of the acceptance of the proposal and the readiness of the contract for signature. Proposals must be made in duplicate. The sealed duplicate, without check, is to be deposited by the bidder with the City Auditor, Room 20, City Hall, previous to the time named for opening the proposals. Plan, proposals, specifications and forms of contract may be obtained at this office on or after Tuesday, January 23, 1934. A deposit of $5, in cash or by certified check, will be required for a plan and two sets of the specifications. Mutilation of them will be deemed sufficient cause for the forfeiture of said deposit. The Department reserves the right to reject any or all proposals.

INFORMATION REQUESTED OF WELFARE OVERSEERS.

Coun. SHATTUCK offered the following:

Ordered, That the Board of Overseers of Public Welfare be requested, through his Honor the Mayor, to furnish the City Council with the following information:

1. Monthly expenditures of the department for (a) care of dependents, (b) mothers' aid and (c) old age assistance, during the years 1932 and 1933.
2. Monthly case load in 1932 and 1933 for (a), (b) and (c) above.
3. Number of recipients taken from dependent aid rolls to be employed in the Civilian Conservation Corps.
4. Number of recipients taken from dependent aid rolls to be employed on Civil Works projects.
5. The schedule of rent allowances to recipients, and the manner in which the payment of such allowances for rent is checked.
6. The methods by which the department attempts to determine private employment of recipients or refusal of recipients to accept such employment.
7. The methods by which the department attempts to secure private employment for recipients.
8. The basis of allowances made to recipients, and the means employed by the department to assure the expenditure of allowances to recipients in accordance with the specific allocation to food, fuel, clothing and other purposes.
9. The types of supplies purchased by the department for recipients and the manner in which such purchases are made, inspected and distributed.
10. The improvements made and contemplated by the department in its case and financial record systems.

Ordered, That the Board of Overseers of Public Welfare be requested, through his Honor the Mayor, to furnish the City Council monthly, as soon as may be after the end of each month, beginning with the month of January, the following statistical information:

1. The case load at the end of the month.
2. The number of recipients of aid dropped from the rolls during the month.
3. The number of recipients of aid added to the rolls during the month.
4. The expenditure for the month for (a) care of dependents, (b) mothers' aid and (c) old age assistance.

Coun. SHATTUCK—Mr. President, these are companion orders on the same subject matter. One asks for information concerning the past and the other for monthly information in the future. I should like for a moment to run over the items in the first order, asking for past information. The first two items call for the monthy expenditures of the department for care of dependents, mothers' aid and old age assistance, during the years 1932 and 1933, and for the monthly case load in 1932 and 1933 in these lines. On those matters we have only piecemeal information, when the annual reports come in, and they arrive so long after the event that they are of no great value. The third item asks for the number of recipients taken from dependent aid rolls to be employed in the Civilian Conservation Corps, and the fourth item for the number of recipients taken from dependent aid rolls to be employed on Civil Works projects. Last winter, during the peak of unemployment, neither of these enterprises was under way, except that I think the Conservation Corps had begun to function in a very small degree. But there have been many things done at the expense of the Federal Government and in other ways, through the N. R. A., which have brought of about a large increase of employment and of aid from various sources, and yet that has been very slightly reflected, so far as one can see, in the monthly expense or the number of persons on the rolls of our public welfare. I think we should have those facts in order that we may see how things are going. Item 5 relates to the schedule of rent allowances to recipients, and the manner in which the payment of such allowances for rent is checked. I hear a great many complaints from landlords that they cannot pay their taxes, and that they cannot pay their taxes because they cannot collect their rents. If people are paid money for rent, does it go through for that purpose? And under Item 6, "The methods by which the department attempts to determine private employment of recipients or refusal of recipients to accept such employment"—that matter is exceedingly important at the present time, when there is increasing private employment, increasing use of public money in C. W. A. and other ways. Are these many people getting off the welfare rolls when they should get off? That is a question that requires much greater study and more care than when unemployment was increasing and it could be almost assumed that a person did not have a job. Then there is the seventh item, information as to the methods by which the department attempts to secure private employment for recipients. Also, under the eighth item, the extent to which the department knows whether the money is spent for the food, clothing, shelter, and so forth, for which it is given. Item 9 asks about the types of supplies purchased by the department for recipients and the manner in which such purchases are made, inspected and distributed. Probably one of the greatest lacks in the past has been a check-up in the matter of the purchasing of supplies—for instance, where there have been purchases from "phony" dealers, who have then gone to real dealers and obtained a reduced price of perhaps 50 per cent, or have given list prices when they could buy at wholesale rates, thus deceiving in all sorts of ways. How does the Department of Public Welfare handle those matters? And finally, what improvement has the department made, and what does it contemplate, in its case and financial record system? The second order, as I have said, simply covers the furnishing of monthly statistics as to the amount of money being spent, the number of people on the rolls, the number of people taken from the rolls and the number added during the month. This information, Mr. President, is very similar to that asked for in a letter which I wrote to the Department of Public Welfare on the fifth day of December last, and of which letter, Mr. President, I have not even had an acknowledgment. That in itself indicates the high degree of efficiency in that department. I am not critical of the good in-

tentions of the members of the Board. So far as I know, they are conscientious men and women. I am not critical of Mr. McCarthy, the executive secretary. He is doubtless doing his best under a heavy load. I do criticize the system; and I criticize the Board for not seeing the need of a change in system, and for obstructive tactics whenever changes have been suggested. The system may have worked well enough when the Board was spending one or two millions a year. Now that the expenditures run to over a million a month, the system has completely broken down. This breakdown is particularly serious at the present time, a time of recovery, when every case should receive special scrutiny, and when the rolls should be rapidly reduced and promptly purged of those who no longer require aid, or who could help themselves if they had the will to do it. Control should be placed in the hands of a single and highly competent executive. A bill has been filed by the Mayor to permit such a reorganization. It should have the support of the Legislature, and that without delay. Prompt action is imperative. The malady which afflicts Boston and so many of our other cities and towns is curable. But it cannot be cured with a leaky system of expenditures. We must stop the leaks. Fortunately, we do not need to wait for legislation to obtain the information requested in the pending order. We should have it forthwith, and hereafter we should have monthly reports. My second order is to provide for these monthly reports.

Coun. McGRATH—Mr. President, I think the gentleman from Ward 5 (Coun. Shattuck) is to be congratulated upon starting out on this very precarious course of daring to request of the Public Welfare Department information which is of vital importance to the citizens of Boston. I had no idea that he was going to introduce such an order, but I did know that when he introduced an order it would be in proper shape, as is the order which he has introduced today. Might I congratulate him, too, for his courage, because some seven years ago I stood on the floor of this Council, when the appropriation for public welfare had passed the one million dollar mark, and suggested that the time had arrived when we should pay some attention to the situation in the Public Welfare Department in Boston. Through the years we have seen those expenditures increase, and week after week I became almost a crank in asking information from the Welfare Department of the City of Boston, failing to get it, and then being told that I was baiting the poor and that the recipients of welfare were entitled to protection rather than to criticism. And so it continued on, and the amount expended each month increased until a year ago, in this Council Chamber, at a meeting of the Committee on Appropriations, there sat before us Mr. Hecht, the chairman of the Board, and Mr. McCarthy, the secretary, and sitting at this table were Mr. Lydon, the Soldiers' Relief Commissioner, and Mr. Kent, and upon our invitation there was sitting at another table the Corporation Counsel of Boston, Mr. Silverman. Upon questioning these gentlemen, for the first time Mr. Silverman learned to his astonishment that even the recipients of soldiers' relief in the City of Boston were never compared with the recipients of welfare from the same City of Boston. I questioned him on two specific cases where a man was receiving the full amount for his wife and children from the Soliders' Relief Department and the wife of that family was receiving the full amount from the Public Welfare Department. I had been prompted to make a fight of this character because hundreds of men in the Dorchester section, who had spent their lifetimes attempting to buy a home and to place a roof over the heads of their little families, had had their roof trees swept away through taxation because of the number of fakirs who were on the public welfare rolls and on the rolls of the soldiers' relief. And when the time had arrived that practically every department of Boston had decreased its expenditures and that 18,000 city employees had to have their salaries cut, when the time had come that hundreds of faithful citizens were being threatened with loss of their homes because of the increase in the Public Welfare and Soldiers' Relief Departments, I felt that it was within the province of the Council to ask questions. There was a period of seven months when I could not get an answer of any kind from the Public Welfare Department, because there was no answer to be given. One day I appeared in this Council with a book from the Family Welfare Association, a private association at 43 Tremont street, which thanked the Public Welfare Department of Boston for giving them this voluminous information, and said that in the past two months thay had had seven conferences with the Public Welfare officials, as a result of which they had obtained every bit of information that we had so long asked for. And then I started after a precinct arrangement, so that we could get away from these generalities arising from the fact that the Welfare Department gave out relief from the Winthrop line to the Dedham line and it was impossible to tell where the cancer spot of Boston really was. So I felt that it would be better to divide the thing into precincts. I followed the Board into the room across the hall, where Mayor Curley presided, and I asked Mr. Hecht what his appropriations were up to that time for the year. It seemed that his figures were a million out of the way. Later on, when his Honor the Mayor was away, I carried on an investigation, the results of which appeared in the Boston papers from time to time, and although they said they had every single case in their files, it appeared that some of the cases had not been turned over and that they were 7,000 cases short. They laughed it away, but finally there passed through this Council an order which established upstairs, under Mr. Balfe of the Statistics Department, a listing of the City of Boston habitations, and the outcome was astounding. It was found that quite a number of people who were on Boston welfare were driving cars for pleasure; that in some instances there were fathers of families receiving aid who had a daughter and a son at home, each one of whom was driving an automobile for pleasure. It was found that people owning homes free and clear were yet receiving public welfare. When I gathered together these cases from Mr. Balfe, I turned them over to Corporation Counsel Silverman and he turned them over to his investigators, and as a result of what they found in some thirty cases Corporation Counsel Silverman called a meeting in the Mayor's office, over which I presided, and then something happened. Cases that had been found to be wrong suddenly became white as snow. For instance, there was a case in Dorchester—indeed in my own ward—where the landlady owning a home said that in the fourteen years she owned that home there never was a person of the name given as one receiving aid from that home, who had lived there. Every few months some lady called and inquired about this family, and each time this landlady became very indignant and said there was never such a family living there. I was interested then in the visitor's report,—what had the visitor said about this particular case? Well, unfortunately the entire records had been lost, and Mr. Silverman said, "Why investigate that case further?" We had another case at the South End where they said the thing could not go wrong because they were sending checks. "Well, who cashed the checks?" There was a little corner grocer who cashed them every week. They went into a place on Tremont street and inquired in regard to this particular recipient of aid, and the landlady said, "I never heard of her. As a matter of fact, over on Appleton street I own another house." But in that house there was no recipient of that name. Well, nothing was cleared up in an investigation of that case for months. But peculiarly enough on the morning of the day when we held the last meeting downstairs, and when practically every case under consideration had been investigated, although it was supposed to be a secret report, what did they find out from that landlady? It seemed, although she had not previously furnished the information, that she owned an additional house on Gray street, and the person receiving aid lived there. I also found that there were over one hundred men, voters in the City of Boston and receiving aid, who were signing with a cross. There was a number of cases where people owned their own real estate, owned it free and clear, and yet they were receiving aid. I merely say this, not wishing to prolong this debate unnecessarily, that, although there may not seem to be one plausible or reasonable answer to any particular question that the gentleman from Ward 5 (Coun. Shattuck) has asked, Walter McCarthy can find 150 answers for every one.

Coun. NORTON—Mr. President, it is very encouraging to have the councilor from Ward 5 (Coun. Shattuck) enlist his efforts in support of something that the members of the Council have attempted to remedy for the last four years. It is rather astounding that Cleveland, with over 100,000 more population than Boston's 700,000, and that Baltimore, with 20,000 more people than Boston, are spending a much smaller amount than we are for welfare, an amount so small as to be entirely out of all proportion to our relative populations. No one, of course, wants anybody in Boston to go hungry or to go without aid, but the trouble seems to be that many are getting aid who should not get it and that many have not obtained aid who should get it. The trouble fundamentally has been this. We have 130,000-odd people at the present time living off the City of Boston, and yet we have less than sixty investigators. In my ward alone there are hundreds of families who have needed aid and who have found great difficulty in obtaining it. The trouble has been largely one of administration. We have tried to have something done, and have the whole thing handled in a proper way, and nothing has been done. The moment objections have been raised, as the colleague from Dorchester has brought out, there were 150 answers. There has been opposition encountered all along the line. The colleague has just spoken of the difficulty he had when he was Acting Mayor of Boston in attempting to accomplish something, and being unable to do so. The group in power were able to stand off any remedial legislation or to prevent any order that might go through this body being put into effect. So it is encouraging to have the colleague from the Back Bay enlist in this cause. I hope, Mr. Shattuck, you will look carefully into this matter and if you do, I think you will realize the necessity of decentralizing the Welfare Department. There is no other welfare department in the country, I understand, that is not decentralized. The Boston Council of Social Agencies in their report recommend decentralization, and I believe every other welfare agency will recommend decentralization of welfare work in the City of Boston. Take the case of a man in Hyde Park, who received $5 a week and who was compelled, in going back and forth between his home and the woodyard three times a week, to pay 60 cents carfare, thus receiving a mere pittance for food or for other things he might require. Why shouldn't that situation be handled all over the city from the municipal buildings? For three years I carried on this fight in connection with the public welfare system and was told that it could not be done, that I was a layman and did not understand the intricacies of the department, and that, therefore, I should not even make a suggestion. Chairman Hecht became quite irate in the matter on several occasions, when any councilor was presumptuous enought to offer suggestions. But the suggestion I offered in respect to decentralization was one that had been put into effect by the leading welfare authorities of the United States, and one that was also recommended by welfare authorities in Boston. I asked the former Mayor why he did not insist on decentralization, having the distribution carried on from municipal buildings or convenient points—in Charlestown, for instance, East Boston, Roxbury, South Boston, West Roxbury, Roslindale, Brighton; why he did not have the cumbersome, inefficient and unscientific system that was in vogue abolished, and have the work taken over in the different localities in some suitably located building. His answer was, "I have asked them down there time and time again to consider it, but they tell me it is impossible." We will never have a proper Welfare Department, in my humble estimation, until we have decentralization, having the work handled from points in different sections of the City of Boston. There seems to be no earthly or proper reason why people from Dorchester, Hyde Park, Roslindale, West Roxbury, and other outlying sections, should be compelled to either walk or travel down to this building now serving as headquarters for the department. They should be able locally and conventiently to put in their applications and have a report within forty-eight hours on their case. I have spoken of what the situation was in Hyde Park. A short time ago an arrangement was made so that the people of Hyde Park do not have to go to Hawkins Street, but the situation is handled locally there in the Hyde Park Municipal Building. That, however, is at the present time the only ward in Boston at some distance from the downtown section where unfortunates are not compelled when they are looking for welfare to go to Hawkins Street. If that arrangement can be made in Ward 18, why cannot it be made in every other ward of Boston with the exception of the ward where Hawkins Street is located? So, Mr. President, it is encouraging in this long battle which has been going on for so many years, to have the colleague from the Back Bay section taking an interest in the Welfare Department, with a veiw to cutting down the expenses of the City of Boston and administering aid in a more up-to-date and satisfactory way. I am sure that we will all wlecome a better system for handling the feeding, clothing and housing of the worthy unfortunates in our city.

EMPLOYMENT OF CITIZENS IN EAST BOSTON TUNNEL.

Coun. SELVITELLA offered the following:

Ordered, That the Boston Transit Commission be requested, through his Honor the Mayor, to confer with the C. M. Tyler Company with reference to giving citizens of Boston preference in employment on tiling work to be done in the East Boston Traffic Tunnel.

Coun. SELVITELLA—Mr. President, the C. M. Tyler Company have been awarded the contract, in the sum of $166,000, for the tiling of the traffic tunnel to East Boston. The contract covers work for a period of six solid months. The contractor has already made arrangements and preparations are now going on whereby men from Somerville, Cambridge, Chelsea and other municipalities outside of Boston are being given preference in work that properly belongs to residents of Boston. Under the terms of this contract, Article 6, there is a clause which reads that no person other than a citizen of the United States shall be employed on any public works being done under contract. I raise a serious question, Mr. President, as to the merits of that particular clause, because under its terms men from Kalamazoo, from California, from other parts of the United States, may come into Boston and be given work that properly belongs to the residents of Boston. We had a very unpleasant experience at the beginning of the building of this tunnel, when but 30 per cent of residents of Boston were given work and 70 per cent was given to southerners who were flocking into Boston and taking work away from our citizens. At the present time, while I am speaking, there are over eight tile setters on the public welfare rolls who could very easily be taken off those rolls and given work, men who are deserving and in very needy circumstances, to say nothing of a large number of other men in the City of Boston who could do that work and should be placed upon it. I believe the Mayor of Boston and the Transit Commission will, if the matter is called to their attention, be glad to see that local work is given to local men, rather than to men from these other municipalities that I have mentioned. I think it is fair and proper that something should be given to relieve the very acute conditions here in Boston, giving work to our needy citizens and residents.

Coun. NORTON—Mr. President, I am afraid that nothing will be done. You are opposing a very powerful organization. I went before the Boston Finance Commission in regard to the concern you have mentioned. Every reputable tile concern in Boston bid on that work, and every concern went before the Finance Commission and said they felt that they had been fooled because of a very misleading term in the specifications as drawn up. It is a very interesting case. The leading tile men of Boston were asked to bid on the tiling of the tunnel, which should have a certain amount of evaporation and of tensile strength. When the specifications were drawn up, they were so drawn up that terra cotta could meet the requirements of tiling. In other words, if they had known that terra cotta would be acceptable, they claim that they would have been able to give the city a much lower figure. The only concern that understood that terra cotta would be accepted instead of tile was this concern that got the contract, and I understand that tile costs 30 to 40 per cent more than terra cotta. So this concern that has been mentioned was favored in that respect. They were powerful enough to obtain that contract and were fortunate enough to have that information. So, if they were powerful enough to do that, I wonder how far you are going to get now in holding them to what is fair in the matter of employment of Boston men.

The order was passed under suspension of the rule.

EAST BOSTON HOUSING DEVELOPMENT.

Coun. SELVITELLA offered the following:

Ordered, That his Honor the Mayor be hereby requested to take immediate action in opposition to any expenditure by the United States Government or the State in aid of the proposed housing development in East Boston, especially in consideration of the fact that the district is now amply provided with dwellings and that any further large development would substantially depreciate real estate values.

Coun. SELVITELLA—Mr. President, I hold in my hand here a newspaper containing a picture of a $3,500,000 East Boston housing development which has apparently met with the approval of the United States Public Works Administrator. Mr. President, at the present time there is no housing problem in East Boston. As a matter of fact, East Boston is no different from any other community in the city. There are at least 40 per cent of the tenements in East Boston and at least 25 per cent more of the homes in East Boston that are now in danger of being foreclosed on account of nonpayment of taxes and nonpayment of interest on mortgages. That particular problem is the problem of the Boston Port Development Company, which has organized a subsidiary known as the Neptune Gardens, and they are attempting to unload upon the government this huge, gigantic proposition, which, if permitted to pass, will further embarrass the home owners of East Boston. It is a very serious state of affairs, Mr. President, and this Port Development Company has yet to pay one single penny of taxes to the City of Boston for the past three years. I hold in my hands the *City Record*, supposed to contain all the delinquent tax sales against property owners of the City of Boston. I have investigated this matter and have found that the Boston Port Development Company, who are behind this huge steal, have not paid their taxes upon this proposed land in East Boston to the City of Boston. The question now comes to my mind, why this company was not advertised in the Boston *City Record* for failure to pay taxes, when they have listed here a tax of $7.10 against some poor unfortunate property owner, another one for a tax of $16.60, and a dozen others for similar small amounts. Yet this company that is trying to promote a $3,500,000 project upon the flats of East Boston did not in 1932 pay a tax for $4,572.40. Under the law they should have been in this *City Record*, and the reason why they are not must be apparent—that William McDonald was closely associated with the last administration, and they made sure that that particular advertisement did not appear in the *City Record*. I hope that the authorities in Washington, through his Honor the Mayor, will stop this gigantic steal of public money, which will make the housing problem in East Boston 100 per cent greater than it is at the present time.

Coun. SHATTUCK—Mr. President, I wish to congratulate the gentleman from East Boston upon his attack on the Boston Port Development Company and its predecessor, the East Boston Land Company. They perpetrated one of the most scandalous jobs in the City of Boston. I congratulate the gentleman, and I wish he would go further, by introducing an order to have the question of taxes and assessments investigated by the Corporation Counsel of the City of Boston. Fortunately, we have a man upon whose investigation we can rely.

Coun. FITZGERALD—Mr. President, I also want to add my word against the East Boston housing proposition. It has been before the Council previously, and I think the Mayor would be doing a very good thing for the citizens of Boston in removing from the Planning Board Mr. Fay, one of the engineers who has been tied up with this proposition. The Mayor would certainly be doing a service to the city if he forthwith removed those who have participated in this scheme. I think the councilor ought to go a little farther and introduce an order calling on the Mayor to send the Corporation Counsel to Washington to represent the city and show to the administration the true condition of affairs here. The property owners of the city are now laboring under a heavy load. That is true all over the entire city. These people have got away with too much. Those of us who have been members of the Council for any length of time know what has been going on, know something about the scheming that has been in progress. A few of us have opposed it here, but we have been in the minority. The thing should be investigated. Time for action has not expired under the statute of limitations, and it is high time that the matter was taken up with the authorities in Washington. We have seen enough of these schemes, some of which have been very speciously advanced, apparently with noble purposes and with influential men behind them. We have had some gentlemen, landscape architects, who are doing some of the work down at the West End now. The time has come to show this sort of work up, and I certainly hope that there will be a follow-up of the suggestion made by the gentleman from Ward 5 (Coun. Shattuck). Let us follow it up by asking the Mayor to have the Corporation Counsel represent the city at Washington, and let us oppose this thing with all the strength we can put behind it.

The order was referred to the Committee on Rules.

TRANSFER OF POLICE OFFICERS.

Coun. AGNEW offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to remove from the Municipal Court of the City of Boston and all district courts in the City of Boston police officers who are especially assigned to present and prosecute criminal cases in said courts, and transfer such officers to more active duty for the benefit of the City of Boston.

Coun. AGNEW—Mr. President and gentlemen of the Council, at the present time in the municipal courts of the City of Boston and in the district courts the Police Commissioner has assigned special officers to prosecute criminal cases that are brought into the respective courts. Believing that the efficiency of the Police Department should be maintained and that the man power of the department should not be weakened, as I believe it is needed in more and in better ways than in these courts, I offer this order. I have also in mind the fact that the average police officer making an arrest, after his term in the police school, is fully capable of presenting a case to the court, and it is unnecessary, in my opinion, to have these other officers taken from active duty and sent into the courts, assigned there for no other reason or purpose than to present the cases brought in. I ask the Police Commissioner, through his Honor the Mayor, to remove these police officers, and to allow the arresting police officers to present their own cases, returning the officers now assigned to these respective courts to their outside duties. I think that will be more beneficial to the citizens of Boston than the present practice.

The order was referred to the Committee on Rules.

REINSTATEMENT OF PETER CLOUGHERTY.

Coun. AGNEW offered the following:

Resolved, That the City of Boston hereby approves the enactment of legislation to provide for the reinstatement of Peter Clougherty in the Police Department, provided that said legislation includes a referendum to the Mayor and City Council.

Passed under suspension of the rules.

SAFETY ISLAND ON NASHUA STREET.

Coun. FITZGERALD offered the following:

Ordered, That his Honor the Mayor direct the Commissioner of Public Works to place a safety island on Nashua street, between Cotting and Minot streets.

Passed under suspension of the rule.

REINSTATEMENT OF WILLIAM S. FOSTER.

Coun. FITZGERALD, for Coun. Green, offered the following:

Resolved, That the City Council of Boston hereby favors the enactment of legislation authorizing the reinstatement of William S. Foster as a member of the Boston Police Department.

Passed under suspension of the rulw.

ANNUITY TO THOMAS E. GOGGIN.

Coun. DONOVAN offered the following:

Resolved, That the City Council of Boston hereby approves the enactment of legislation for the payment of an annuity to Thomas E. Goggin, formerly an employee of the City of Boston and County of Suffolk, who was injured in the course of his employment.

Passed under suspension of the rule.

SALE OF DWELLING HOUSES.

Coun. ROBERTS offered the following:

Ordered, That the City Collector be instructed, through his Honor the Mayor, not to proceed to sell any dwelling house wherein the total amount fo taxes due is less than $25.

Passed under suspension of the rule.

CREDIT TO CITY EMPLOYEES AT HOSPITAL.

Coun. ROBERTS offered the following:

Ordered, That the Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to extend reasonable credit to all regular employees of the city who become patients at the said hospital.

Passed under suspension of the rule.

FEDERAL AID FOR SLUM CLEARANCE.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of requesting the Corporation Counsel to make a study of all Federal laws regarding slum clearance, with a view to having the city request enabling legislation from the Massachusetts Legislature, if such is found to be necessary, in order to have the city take full advantage of United States Government grants for slum clearance.

Coun. NORTON—Mr. President, I believe that the matter of slum clearance here in Boston is worthy of the attention of city officials. Under certain conditions the Federal Government is granting money outright or loaning the same to cities and towns to build small homes. The Subsistence Homesteads Division of the Department of the Interior is now establishing demonstration homestead projects in selected areas with the $25,000,000 revolving loan fund made available for this purpose by the National Recovery Act. At Decatur, Indiana, $125,000 will be spent, building forty to forty-six homesteads, each with one to two acres of land. The occupants, to be selected from among the common people, will be given a contract for sale. They will make small monthly payments to acquire title to the homesteads, with the cost of each to range from $2,000 to $2,600, including land, a small, low-cost home equipped with modern conveniences and soil suitable for gardening. They will have an opportunity to produce garden foodstuffs for their own use. Governor Lehman of New York recently requested the New York State Legislature to pass enabling legislation so that New York State communities might take full advantage of the Federal grants for slum clearance. Boston is in need of low-cost homes for poor people. The splendid report issued by the Boston Council of Social Agencies, in March, 1933, entitled "Social Statistics," points out that in 1930 we had over seven hundred ninety-nine persons to the inhabited acre in the North End section, while in the Hyde Park area we had less than forty-six persons to the inhabited acre. West Roxbury, 46.6; Brighton, 79.1. Charlestown had 255.8 persons to the inhabitable acre in 1930. Some results of this crowding may be gained from the fact that out of 454 babies born in Charlestown in 1931, fifty-two died during the first year of life. In Hyde Park, during 1930, with the same number of babies born, 454, we lost but seventeen during the first year. The Charlestown infant mortality rate was over three times that of Hyde Park. Out where there is more room and less crowding such as in West Roxbury, Brighton, Mattapan, Jamaica Plain and other suburban areas, the infant mortality rate is much lower than what it is in the congested areas of Boston. The delinquency rate in the suburbs in some cases is half what it is in the crowded wards. In the South End section of Boston, in 1930, 20 per cent of the inhabitants lived in hotels or lodging houses,—mostly lodging houses. I often wonder if it would be possible to mitigate this situation somewhat by the erection of low-cost homes with modern conveniences in the suburban wards of Boston. On March 1, 1933, 46.3 per cent of the families in the South End were forced to ask for welfare. The Boston Council of Social Agencies admits that this figure may be high but it was what they arrived at after an investigation. Less than 12 per cent of the families in the Dorchester North section, less than 5 per cent in the West Roxbury area, less than 6 per cent in the Brighton area, were forced to seek aid from the city during the same period. These figures tend to show that those in the suburban, less crowded areas of the city have a better chance of escaping poverty than those in the crowded areas. Facts such as these tend to show that there is need for low-cost housing for our poor people out in the nonconjested areas. Therefore, it may be, that some steps might be taken at this session of the Legislature which would allow the city to take full advantage of all Federal appropriations for slum-clearance and the erection of low-cost homes.

Passed under suspension of the rule.

FREE PASSES ON EAST BOSTON FERRIES.

Coun. NORTON offered the following:
Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be requested to advise the Council regarding the number of free passes issued, and the total number of free rides given on the East Boston ferries during the past fiscal year.
Passed under suspension of the rule.

WEEKLY MEETINGS WITH SECRETARY McCARTHY.

Coun. NORTON offered the following:
Ordered, That Secretary Walter V. McCarthy of the Public Welfare Department be requested, through his Honor the Mayor, to set aside a definite period weekly to meet city councilors.
Passed under suspension of the rule.

INFORMATION AS TO TAXES OF BOSTON PORT DEVELOPMENT COMPANY.

Coun. SELVITELLA offered the following:
Ordered, That the City Collector, through his Honor the Mayor, furnish the City Council with the following information:
1. Amount of taxes paid and unpaid by Boston Port Development Company on land in their name in East Boston during years 1930-33.
2. Whether or not tax sales were held during those years on any property held by said concern in East Boston, and, if such sales were advertised in the *City Record*.
Passed under suspension of the rule.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Coun. GALLAGHER called up, under unfinished business, Nos. 1 and 2 on the calendar, viz.:
1. Action on appointments submitted by the Mayor January 15, 1934, of Margaret A. Steeves, Robert MacGregor, Fred Clements, David J. O'Connor and Joseph Doucette, to be Weighers of Coal; Warren Flynn, to be a Weigher of Goods; and John J. McCarthy, to be a Weigher of Goods and a Measurer of Grain.
2. Action on appointments submitted by the Mayor January 15, 1934, of Cornelius N. Dundon, to be a Constable, without authority to serve civil process.
The question came on confirmation. Committee, Coun. Agnew and Selvitella. Whole number of ballots, 18, yeas 18, and the appointments were confirmed.

MANAGERS OF OLD SOUTH ASSOCIATION.

Coun. BRACKMAN offered the following:
Ordered, That the Council now proceed to the election of the two managers of the Old South Association.
The order was passed.
President DOWD—The clerk will now call the roll, and each member as his name is called will announce his choice.
The clerk called the roll, and Councilors Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fish, Gallagher, Goldman, Kerrigan, McGrath, Murray, Norton, Roberts, Selvitella and Tobin, each voted for Coun. Donovan and Shattuck as Managers of the Old South Association, and the two members named were thereupon declared elected.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of January, 1934.
Report accepted; said order passed.

Adjourned at 3.17 p. m., on motion of Coun. GOLDMAN, to meet on Monday, January 29, 1934, at 2 p. m.

ANNEXATIONS OF BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included. By 1915 the total was 549,139, or 73.67 per cent of city. By 1925 the total was 607,519, or 77.92 per cent.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

JAMAICA SPENDS $1,000,000 ANNUALLY ON ROAD CONSTRUCTION AND MAINTENANCE.

Jamaica, an English possession, has a highway system which is almost entirely constructed of waterbound macadam, some 70 miles of which has been surface-treated. Many of the roads are under the supervision of the Department of Public Works and various parochial boards. There are about 2,500 miles of bridle and foot paths. The highway system connects all parts of the island in a very satisfactory manner, and the problem is not that of the construction of new roads, but the improvement of old ones, the surfacing and widening of these roads, and protective coatings. The roads are well maintained and, as there are not many heavy trucks, the maintenance is satisfactory. There are approximately 4,000 miles of highways, or 1.11 square miles of area to one mile of highway.

About a million dollars per year is spent on new construction and maintenance, the machinery used being both European and American.

(From a report of the American Road Builders' Association.)

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

BOSTON INCORPORATED AS A CITY, 1822.

The act of incorporation was passed by the Legislature on February 23, 1822. On March 4 following, the voters of Boston accepted said act, chapter 110, 1821-22, as its first city charter by a majority of 916 in a total vote of 4,678. The vote was 2,797 yeas, 1,881 nays. Previous attempts to incorporate as a city had been made in 1650, 1659, 1667, 1708, 1744, 1762, 1784, 1791, 1804 and 1815. The charter was revised in 1854, 1885 and 1909. Amendments to the 1909 charter were enacted in 1910, 1912, 1914, 1918, 1919, 1921, 1922 and lastly in 1924 (see "Municipal Register" for 1928, pages 19-43).

PUBLIC DEBT, JANUARY 1, 1931.

Gross funded debt, January 1, 1931, $152,656,100.96 (including $159,999.96 issued by State for enlargement of Court House). Sinking funds, $38,990,246.22; other redemption means, $3,168,693.92, Net Debt, $110,497,160.82; or more than on January 1, 1930, by $8,320,376.01.

Of said net debt $65,544,363.02 or 59.32 per cent was City Debt; $43,191,696.73 or 39.09 per cent Rapid Transit debt (representing 4½ per cent investment); $1,223,101.07 or 1.10 per cent, County Debt; $538,000 or 0.49 per cent, Water Debt.

Debt paid in 1930 was $7,423,550.00 but there was an increase in total gross debt of $7,691,450.00.

Per cent of net debt to valuation, 5.60; net debt per capita, $141.40 (approx.); net debt, exclusive of Rapid Transit debt, $67,305,464.09 or $86.13 per capita (approx).

Per capitas are based on U. S. Census Bureau's estimated population on January 1, 1931.

Loans authorized but not issued (within debt limit), $1,757,000; same outside of debt limit, $6,908,000; Total, $8,665,000.

POPULATION OF COUNTIES, 1930.

(1) Middlesex (11 cities and 43 towns), 934,924 or 156,572 over 1920; (2) Suffolk (3 cities and 1 town), 879,536 or 44,014 over 1920; (3) Essex (8 cities and 26 towns), 498,040 or 15,884 over 1920; (4) Worcester (4 cities and 57 towns), 491,242 or 36,107 over 1920; (5) Bristol (4 cities and 16 towns), 364,590 or 5,585 over 1920; (6) Hampden (4 cities and 19 towns), 335,496 or 35,191 over 1920; (7) Norfolk (1 city and 27 towns), 299,426 or 80,345 over 1920; (8) Plymouth (1 city and 26 towns), 162,311 or 5,343 over 1920; (9) Berkshire (2 cities and 30 towns), 120,700 or 7,667 over 1920; (10) Hampshire (1 city and 22 towns), 72,801 or 3,202 over 1920; (11) Franklin (26 towns), 49,612 or 251 over 1920; (12) Barnstable (15 towns), 32,305 or 5,635 over 1920; (13) Dukes (7 towns), 4,953 or 581 over 1920; (14) Nantucket (1 town), 3,678 or 881 over 1920. Total for the 14 counties (39 cities and 316 towns), 4,249,614 or 397,258 (*i. e.*, 10.3 per cent) over 1920. Of said total, 2,940,335 (*i. e.*, 69.19 per cent) were in the cities and 1,309,279 (*i. e.*, 30.81 per cent) in the towns. The four counties, Suffolk, Middlesex, Essex and Bristol, contain 63.00 per cent of the State's inhabitants.

If the municipalities having a population of 5,000 or over are properly called urban, then the percentage of urban population in the entire State reaches the notable figure of 90.71, while the rural shows but 9.29 per cent.

RURAL TEACHERS' SUPERVISION.

Improving instruction in rural schools through promoting the efficiency and professional growth of teachers is the most important function of supervision in connection with the rural school movement. In the accomplishment of this purpose supervisors use different means and procedures usually designated as supervisory measures, according to the United Stated Office of Education. Among those found particularly successful in rural communities are: County-wide teachers' meetings, circular letters, group conferences, visitations, individual conferences, and help rendered by teachers to colleagues.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, FEBRUARY 3, 1934. No. 5

MAYOR MANSFIELD BEGINS TASK OF REORGANIZING PUBLIC WELFARE DEPARTMENT IN EFFORT TO ERADICATE EVILS CHARGED TO SYSTEM OF AID FOR CITIZENS—TELLS CITIZENS IN HIS FIRST OF SERIES OF WEEKLY BROADCASTS WHAT HE BELIEVES, AFTER INVESTIGATION, TO BE FAULTS, AND REMEDIES HE PROPOSES. CORPORATION COUNSEL HAS BEEN INSTRUCTED TO DRAFT LEGISLATION DESIGNED TO UPROOT ABUSES AND PLACE DEPARTMENT ON BASIS THAT WILL, AS NEAR AS POSSIBLE, BE CRITICISM PROOF.

Mayor Mansfield, on Monday, January 29, inaugurated a series of weekly broadcasts from Station WNAC, during which he plans to discuss municipal problems with the citizens of Boston. In his first address he spoke as follows:

Good afternoon, radio audience, this is Mayor Mansfield speaking. Through the courtesy of Station WNAC I shall, from time to time, talk to you about the important business of the city. I am and shall continue to be that kind of public official who believes in setting forth to the people the trend of our city's activities and I shall be glad to learn of your views on all these subjects which I shall openly discuss.

Today I am about to present to you my intended action on a matter that has been uppermost in the people's mind for the past three years. I refer to the administration of the Public Welfare Department, which department, as you know, is expected, among other things, to provide aid for thousands of families who through no fault of their own are out of work and, consequently, unable to purchase food and clothing for their loved ones and whose homes during the dreaded winter may even be without the comforts of heat.

I am discussing this department in my first radio address because our children are affected — the little ones in our homes who are unable to protect themselves against the ravages of unemployment. Of course, grown-ups suffer terribly from enforced idleness, but even in extreme cases they have the physical power to battle for themselves where young children and babies are helpless, and our first thoughts are naturally of them and of their mothers.

Citizens Generous.

There is no doubt about the generous spirit of our city. We all feel that no family or individual should suffer through lack of food or clothing or the other necessaries of life. The expenditures of our city rising from about three million in 1929 to thirteen million in 1933 testify to the natural desire on the part of our citizens to help our neighbors during this industrial depression. We want, however, to be sure that a proper distribution of these funds is carried on, to the end that no unworthy persons are listed on the rolls of that department. As a result of many investigations the public is convinced that abuses of a flagrant nature have crept into this most humane branch of our Municipal Government.

We may be called upon for a further investigation of all the activities of the Welfare Department and even if further evidence is produced it will be collateral in its nature and unless a radical change is made I fear that a renewal of the old abuses will result. After long and serious consideration, and as a result of countless conferences with those best able to inform me, I have come to the conclusion that the fundamental defect in the administration of this department lies in the machinery of the department itself. Now the natural question arises — "What is the real organization of this department, and wherein does its weakness lie as at present constituted?" The directing power of the department is placed under the control of a Board of Overseers who are unpaid and, naturally, are not required to give their full time to the tremendous amount of work of the department. That to my mind is the real fault which must be corrected — the general lack of responsibility which is found therein and in this view I am backed up by persons who have made a long study of the subject. Again the natural question arises in your mind, radio audience, "What has Mayor Mansfield to offer?" The answer is quite simple and sound. I have instructed my Corporation Counsel to present to the Legislature a bill that goes right to the root of the trouble, which, together with other necessary features, will give protection to the city, protection to the applicant for aid and will eliminate the unscrupulous individual and eradicate present abuses.

Legislation Proposed.

Now, let me slowly and carefully review the important parts of the proposed legislation which I hope will receive your support and which, I further hope, you will urge your Representatives and Senators to vote for at the State House. I favor the appointment of a department head who will give his entire working time to the affairs under his control — not part of his time, but his full time. That, of course, overcomes a radical defect in the department as at present organized, because the responsibility is immediately centered on the full working day. Further, I desire to have the department divided into two main branches, over each of which there should be a deputy commissioner appointed. The first branch to have control of the clerical, record keeping and financial work of the department, and the second, what might be called the field work or investigations necessary to be made when applications are presented and the follow-up of the same.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

MAYOR MANSFIELD SAVES JOBS OF 880 C. W. A. WORKERS IN DEPARTMENT OF SCHOOL BUILDINGS BY PROVIDING FOR THEIR WAGES WHEN FEDERAL FUNDS WERE DEPLETED AND THEY WERE ABOUT TO LOSE EMPLOYMENT—ACTION TAKEN AND PLAN APPROVED AFTER CONFERENCE WITH SUPERINTENDENT WILLIAM W. DRUMMEY.

Mayor Mansfield took quick and positive action to provide employment for C. W. A. workers in the Department of School Buildings who were about to lose their jobs because the funds provided by the Federal Government were found to be insufficient for carrying them longer. When informed of the situation by Superintendent of Construction, William W. Drummey, at a conference the Mayor approved the plan for carrying on the work and paying out of municipal funds. This action was taken when the following letter was approved and the plan put into effect:

BOSTON, January 25, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,— Confirming, at your request, the meeting in your office, Tuesday, at 4.45 p. m., regarding the C. W. A. problem in this department, please receive below a synopsis of the facts.

We get no information whatsoever from Mr. Bartlett or a written order we can rely on and his verbal orders are changed. Now the fund is running out and it will be necessary to lay off approximately eight hundred eighty men with only three weeks to run at four days a week at six hours a day.

The work that these men are doing is exclusively repairs of school buildings throughout the entire plant, throughout the city. It is work that must be done anyhow. If it isn't done by these men it will have to be done by some others. We propose, with the approval of yourself, graciously given, and the advice of the auditor, the Corporation Counsel and the oral approval of Mr. Hurley, Civil Service Commissioner, to employ these approximately eight hundred eighty men as temporary employees of this department, beginning next Monday, the 29th, for the same rate of pay for the same kind of work, for the same number of hours a day, for the period ending February 15. This is a net of twelve working days.

No appropriation is necessary. We have the money on the basis of one third of last year's appropriation in accordance with the budget. It will show the city an actual saving because it is work that ordinarily we would have to pay a profit on to contractors. Appended to this letter is a list of men, by name and address, who are included in the eight hundred eighty plus or minus mentioned above. That there may be no hitch in their pay roll, which will be incidentally a separate pay roll, I respectfully request the approval as required on each of these individuals.

Thanking you for your cooperation, I am,

Respectfully yours,

WM. W. DRUMMEY,
Superintendent of Construction.

BROADCAST BY MAYOR.

(*Continued from page 97.*)

Both of these deputy commissioners are to be paid a decent salary with the necessity of giving full time to their positions. In this legislation the direct responsibility will be placed upon the shoulders of the commissioner and his two deputies, which cannot be avoided. This sounds like repetition but I must say again that the great difference between the department as organized now and the anticipated legislation is that the responsibility is placed upon persons who will be in constant touch with every action of the department—ready at all times to meet any emergency and to answer every question that might arise and from every angle.

If, however, the Mayor could appoint political favorites or persons not qualified the value of this legislation would be minimized. I have provided for this, however, in the bill which requires the commissioner and the deputy commissioners to be persons who are experienced in their particular fields—possessing administrative ability and professional training and experience in social welfare. One of the deputies, for instance, must have had at least five years' experience in office management or accounting and the other deputy shall be a trained social worker. All of the employees of the department now under civil service will have the full protection afforded them by law so that there will be no fear in their minds in the reorganization of the department.

All of the aforesaid statement is in full accord with my public utterances wherein I have often stated that it was my intention to place in charge of our city departments only persons well qualified.

Personal Responsibility.

The main point I wish to make, before I pass to another feature for your consideration, is that for the first time within memory, if this legislation passes, there can be no backing or filling by responsible heads of the department if any unethical practice is uncovered—a paid public official must answer.

I know that this department is so unlike any other in the city as the personal element largely dominates its activities and I have inserted a provision that guards against what might be called the bureaucratic form of administration which generally leads to favoritism and other abuses. To prevent the recurrence of such perniciousness I have provided for the appointment of an unpaid advisory Board of five members, who will advise with the commissioner concerning the policy and administration of the department. This Board may by itself initiate or upon the request of the commissioner study and investigate broad questions of departmental policy and activity. Now we all know that for generations certain religious, charitable and similar agencies have given temporary and permanent aid to the poor. By the very nature of their work they have first-hand and reliable information and a human understanding of the very pressing problems of the community. From such bodies I shall select this advisory committee. They will be in a way a connecting link between the administrative officials and the applicants who desire to be aided—in fact, as I view it, they will be the advocates of those who apply for help.

This, my radio audience, is the program which I desire to install in the Welfare Department for the protection of our city and for those who ask for help. It is a long stride in advance of the present system which has worn itself out and should have been discarded at least three years ago.

District Relief Offices.

It is also my intention, if the plan proves to be feasible, to establish district offices for welfare relief if this may be done without great expense to the city. By using municipal buildings where they exist in the various districts, or other city-owned property, I hope to relieve the recipients of welfare of the burden of visiting the central office on Hawkins street. Such visits at the present time are expensive to the recipients if they are compelled to pay car fare and are a physical hardship if they cannot pay car fare and are compelled to walk from their homes and return. In addition to this they are often required to wait for a long time before they can be attended to at the central headquarters. By establishing the district offices I hope to make it easier for the welfare recipients and also relieve the principal office of some of its congestion.

And this is an appropriate place for me to speak about something else. While we are on the subject of welfare and public relief we must not forget that there are many persons in this world who are suffering not from unemployment alone but also from sickness and disease. Privations caused by lack of employment and insufficient funds are difficult to bear, but when to these are added physical infirmities the burden becomes almost intolerable. While we are resolved that our unfortunate unemployed and their dependents shall not be allowed to suffer, we must also resolve that those stricken by illness and wasting diseases must not be forgotten.

One of the most insidious and saddest of afflictions is that of infantile paralysis. Tomorrow evening, in the Imperial Ballroom in the Hotel Statler, there will be a Roosevelt Birthday Ball, named in honor of our President, Franklin D. Roosevelt. But this ball is not intended merely as a social function. The proceeds are to be used for the establishment and maintenance of suitable institutions at Warm Springs, Georgia, or elsewhere if it is deemed advisable, to give proper care and attention to those persons, particularly children, who have been afflicted with this terrible disease. Seventy-five per cent of the cases are charitable in their nature. Let me urge you to do your part to make this charitable enterprise a great success.

I am informed that the box tickets are practically all gone but that there are seats left at the tables at $5 each, which include supper. A regular admission ticket may be purchased for $2.50, which will include the dance and the shows which will be given in different parts of the Statler Hotel, but they will not include the supper. Arrangements may be made so that those holding admission tickets at $2.50 can purchase supper by paying for it in addition.

As Mayor of the City of Boston I want to feel that when the returns come in from our beautiful city she will be first in proportion to size as we always have been first in every call for the relief of human suffering.

REQUEST FOR AUTHORITY TO TERMINATE CONTRACT OF COLEMAN BROS. CORPORATION FOR REMOVAL OF GARBAGE, ETC., IN DORCHESTER AND TO AWARD NEW CONTRACT TO JOSEPH P. McCABE, INC. — MAYOR MANSFIELD GIVES APPROVAL TO REQUEST OF PUBLIC WORKS COMMISSIONER C. J. CARVEN.

Mayor Mansfield has approved the request of C. J. Carven, Commissioner of Public Works, to be allowed to terminate, in keeping with an understood agreement between parties to the litigation, the contract that had been awarded to Coleman Bros. Corporation, for the removal of garbage and refuse in the Dorchester district, and to award a contract to Joseph P. McCabe, Inc. The Public Works Commissioner, in explanation of his request, states that if the contract is canceled it will be necessary to award a new contract. The letter to Mayor Mansfield is as follows:

BOSTON, February 2, 1934.

HONORABLE FREDERICK W. MANSFIELD,
Mayor, City Hall, Boston.

DEAR MR. MAYOR:—A proposal for bids for the collection and disposal of refuse and garbage in the Dorchester District was duly advertised in compliance with the provisions of law in December, 1933. Five bids were submitted upon said proposal and were opened on December 12, 1933. The bid submitted by Joseph P. McCabe, Inc., was the lowest of these bids. Upon this proposal I awarded the contract, with the approval of James M. Curley, then Mayor, to Coleman Bros. Corporation, the third lowest bidder, having been advised by the then Corporation Counsel that the bid of Joseph P. McCabe, Inc., who was the lowest bidder, omitted certain information required to be submitted by bidders with their bids. Were it not for this advice I would have awarded the contract to Joseph P. McCabe, Inc.

Following the award of this contract to Coleman Bros. Corporation, a petition by ten taxpayers was filed in the Superior Court. The issue raised in said petition involved the validity of the contract. These proceedings are now pending and I am advised that the parties to said proceedings are willing to consent to the entry of a decree therein dismissing said petition, provided that said contract between the City of Boston and Coleman Bros. Corporation be terminated as of February 14, 1934, and a new contract be entered into between the City and Joseph P. McCabe, Inc., upon the terms and conditions set forth in its bid hereinbefore referred to, except that said contract shall be for the period from February 15, 1934, to December 31, 1934, inclusive, and that payment shall be made at the monthly rate set forth in said bid. I am also advised that Joseph P. McCabe, Inc., is willing to enter into such a contract.

The state of the proceedings in this matter in the Superior Court may involve, if no compromise be made, appeals to the Supreme Judicial Court and uncertainty and delay.

If the contract with Coleman Bros. Corporation is canceled, as suggested, it will be necessary to award a new contract for the collection and disposal of garbage and refuse in the Dorchester district for the period from February 15, 1934, to December 31, 1934, inclusive.

In view of the desirability of terminating the pending litigation, the importance of maintaining service in the Dorchester District, which may be impaired by further delay or uncertainty, the fact that Joseph P. McCabe, Inc., was the lowest bidder at the time the original bids were made and would have been awarded the original contract except for the reasons hereinbefore set forth, and in view of the City's best interests, I recommend and request your approval of my entering into an agreement of termination of the contract with Coleman Bros. Corporation and of an award by me to said Joseph P. McCabe, Inc., of a contract, upon the terms and for the periods above stated and that in connection with doing the foregoing I be authorized to dispense with advertising.

Yours very truly,

C. J. CARVEN,
Commissioner of Public Works.

Approved and authority to dispense with advertising is hereby given.

FREDERICK W. MANSFIELD,
Mayor.

LAND-TAKING IN EAST BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intenton to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston known as East Boston and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Orient avenue, bounded: Northeasterly by land supposed to belong to Orient Heights Company, by land hereinafter described as taken from Orient Heights Company and by land supposed to belong to Orient Heights Company, twelve feet; southeasterly by another part of said Orient avenue, nineteen feet; again northeasterly by the same, two hundred thirty-two and 5-100 feet; again southeasterly by the same, twelve feet; southwesterly by the same, two hundred forty-four and 5-100 feet, and northwesterly by the same, thirty-one feet, containing thirty-one hundred and fifty-seven square feet, more or less.

A parcel of land, supposed to belong to Orient Heights Company, bounded: Southwesterly by land hereinbefore described as taken from owners unknown (Orient avenue), six feet; northwesterly by land supposed to belong to said company, one hundred nine and 10-100 feet; northerly by Faywood avenue, six and 69-100 feet, and southeasterly by other land supposed to belong to said company, one hundred twelve and 6-100 feet, containing six hundred and sixty-three square feet, more or less.

The sewerage works to be constructed are as follows: 265 linear feet of 10-inch pipe sanitary sewer and 265 linear feet of 10-inch pipe surface drain in Orient avenue, and 115 linear feet of 10-inch pipe sanitary sewer and 115 linear feet of 10-inch pipe surface drain in private land between Orient avenue and Faywood avenue.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Orient avenue as shown on the plan hereinafter mentioned, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1125, Sewerage Works, Orient Avenue, Faywood Avenue, East Boston, December 30, 1933, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several firms and persons for work and supplies. Communications from the heads of the several departments were as follows:

DEPARTMENT OF SCHOOL BUILDINGS,
BOSTON, January 18, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I request permission to award without advertising, to John H. Oxley, 1104 Kimball Building, Tremont street, Boston, a contract for a sum not to exceed $2,000 for professional services to complete his survey work on all kinds of school furniture.

Mr. Oxley has been employed by this department by me during the past year and previous to that by Mr. Rourke, for the same operation in three parts. This is the concluding part. By means of this study of all kinds of furniture for schools, including costs, sizes, drawings, etc., we have been able to show a very marked saving over a period of several years on furniture for all schools.

I consider it entirely necessary and request your approval.

Respectfully yours,

WM. W. DRUMMEY,
Superintendent of Construction.

—

BOSTON, January 22, 1924.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I respectfully request the approval of your Honor, under the provisions of section 30, chapter 486, of the Acts of 1909, to the awarding of a contract, without advertising, in the sum of $11,000, to Deskor Chair Sales Corporation, Room 904, Park Square Building, for installing one thousand (1,000) Deskor chairs (four hundred and forty-four (444) of same to be convertible into desks) in the auditorium of the Jeremiah E. Burke Senior High School for Girls, Dorchester.

These chairs have been requested by Superintendent of Public Schools Patrick T. Campbell. As this chair is a patented article, nothing can be gained by advertising, and I therefore believe that the best interests of the city will be served by awarding the contract as above set forth.

Very truly yours,

WM. W. DRUMMEY,
Superintendent of Construction.

PENAL INSTITUTIONS DEPARTMENT.
BOSTON, January 18, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Because of the reports submitted to me by the chief engineer of the House of Correction, Deer Island, Boston Harbor, and also because of the reports submitted by the Travelers' Insurance Company, through their supervising engineer, Mr. C. D. Paterson, repairs are needed at once on boiler designated as No. 2 boiler at the House of Correction, Deer Island. The work to be done consists of the following items:

Rebuilding left side wall, rebuilding right side wall, rebuilding lower front wall, rebuilding arch over front wall, lowering peep-holes rear of boiler, repairing floor on bottom of boiler, pointing piers and grouting top of boiler.

Since the work entailed is of an emergency nature, I respectfully request permission to award the work, without advertising, to B. F. Hanrahan, 26 Bennington street, East Boston, in the sum of $1,100, which I believe to be a fair price.

Sincerely yours,

WILLIAM G. O'HARE,
Penal Institutions Commissioner.

ADDITIONAL PURCHASES UNDER CONTRACTS.

SUPPLY DEPARTMENT.

Upon January 30 the Mayor approved the requests of the Supply Department for the purchase of additional supplies of various kinds in accordance with contracts already approved and in force, these supplies being purchased under contracts to run until March 31 and April 30, 1934. Communications were received from Philip A. Chapman of the Supply Department as follows:

BOSTON, January 19, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under date of May 11, 1933, the City of Boston entered into a contract with the New England Coal and Coke Company relative to the purchase of semibituminous coal for delivery by vessel to the Harbor Institutions.

Included in the contract is the following clause:

"The Contractor agrees to furnish and deliver for the prices per gross ton of 2,240 pounds named in the following schedules, all of the semibituminous coal required at the various places of delivery between May 1, 1933, and April 30, 1934. Deliveries shall be made strictly in accordance with the specifications appended herewith, as ordered by the Superintendent of Supplies. It is agreed that the City of Boston, with the approval of the Mayor, may, beginning January 1, 1934, at its option, purchase, and the Contractor agrees to deliver upon the same terms and conditions as aforesaid, such quantities of said coal as may not have been ordered up to and including December 31, 1933."

I respectfully request that you approve the purchase on behalf of the City of Boston, pursuant to the above-quoted option, upon the same terms and conditions as are stated in said contract, such quantities of semibituminous coal referred to therein, as may not have been ordered up to and including December 31, 1933, for the extended period permitted thereby, to wit, to April 30, 1934.

Respectfully yours,

PHILIP A. CHAPMAN,

ADDITIONAL APPROPRIATON FOR SCHOOL FURNITURE.

The following communication was received:

City of Boston—Department of School Buildings.

January 15, 1934.

School Committee of the
City of Boston,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Under date of January 10th, 1934, the School Committee forwarded to the Board of Commissioners of School Buildings, the following proposed order. The amount of money mentioned in this order is for the purpose of furnishing the new Jeremiah E. Burke High School, Christopher Gibson District, Dorchester.

ORDERED, That in accordance with the provisions of Chapter 206 of the Special Acts of 1919, as amended by Chapter 524 of the Acts of 1920, as amended by Chapter 488 of the Acts of 1923, as amended by Chapter 327 of the Acts of 1925, as amended by Chapter 314 of the Acts of 1926, the following appropriation is hereby made:

Item 2—Christopher Gibson District, Dorchester; Furnishing of Jeremiah E Burke High School, $74,741.50

This school is now completed and it will be necessary immediately to furnish the building with proper furniture.

The amount involved in this order is for a less amount than the Superintendent of Construction estimated it would cost in the first proposed schedule to furnish the building, especially in view of the fact that the price of furniture has been increased. The officials of the School Committee have pared down the original proposed schedule for furniture and we are hopeful that the amount involved in this order will be sufficient to equip the building as now proposed.

The Board of Commissioners of School Buildings approve the proposed order.

Very truly yours,
Board of Commissioners of School Buildings,
By Richard J. Lane,
Chairman.

Placed on file.

The following was offered:

ORDERED, That in accordance with the provisions of Chapter 206 of the Special Acts of 1919, as amended by Chapter 524 of the Acts of 1920, as amended by Chapter 488 of the Acts of 1923, as amended by Chapter 327 of the Acts of 1925, as amended by Chapter 314 of the Acts of 1926, the following appropriation is hereby made:

Item 2—Christopher Gibson District, Dorchester: Furnishing of Jeremiah E. Burke High School.....$74,741.50

Passed by the following vote:

YEAS—Messrs. Hurley, Lyons, Mackey, Sullivan, and Tobin—5.

NAYS—0.

—

Dr. Mackey: Referring to the order just passed: I hope that the Superintendent of Construction will see that the furniture and equipment to be purchased under this appropriation shall be from regular furniture concerns. As I understand the matter about one-third of the contract will go to prison labor and I believe that at this time outside concerns should receive the contracts.

Superintendent: May I state that in the matter of prison contracts, the Superintendent of Construction is bound by the law; he must buy a certain proportion from the state institutions.

Dr. Mackey offered the following:

That the Superintendent of Construction is hereby requested to confine his purchases of prison-made materials for school buildings to the minimum requirement of the law.

The motion passed.

—

RESIGNATION

The resignation of Paul J. Campbell, Fuel Engineer in the office of the Business Manager, to take effect Jan. 3, 1934, was presented.

The resignation was accepted.

RESOLUTION ON ONE HUNDREDTH BIRTHDAY OF MISS L. ANNA DUDLEY

The following resolution, offered by the Chairman, was read:

RESOLVED, That the School Committee hereby extends to Miss L. Anna Dudley, retired Boston teacher, felicitations upon her hundredth birthday and takes occasion to voice the Committee's sincere appreciation of the work which Miss Dudley did, both as a teacher in the public schools and as a retired teacher, in the interest of other former Boston teachers.

Miss Dudley was born at Wayland in 1834. She graduated from the Lancaster Normal School and began service as a Boston teacher in the Dearborn District in May, 1865.

Upon the opening of the new Hugh O'Brien School, Sept. 1, 1887, she transferred to that school where she remained until she retired, Jan. 1, 1901.

Under the 1910 pension law, provision was made for a small annuity for teachers who had previously retired, and at the invitation of the School Committee Miss Dudley took upon herself the work of locating the teachers who were entitled to share in this annuity privilege. A great amount of labor was involved, for the teachers were scattered throughout the country. Largely through Miss Dudley's efforts, many teachers were made more comfortable during their declining years by the small additional income thus afforded.

Out of generous consideration for others, Miss Dudley consistently refused to have her name placed upon the list of annuitants, and it was only when provision had been made for all of the original petitioners that she was finally persuaded to accept the annuity. This was in September, 1917.

Although Miss Dudley practically has been confined to her home during recent years, she has not lost her interest in the Boston public schools and the teachers, past and present. Frequently during recent years she has brought to the attention of the welfare committee of the Teachers' Club cases of needy teachers.

RESOLVED, That this expression of appreciation of the School

Committee be spread upon the records as a well-deserved tribute to Miss L. Anna Dudley, an outstanding teacher of youth, and a real friend to the teachers, and that a copy be sent to Miss Dudley.

The resolutions were unanimously adopted.

FILLING OF VACANCIES UP TO CLOSE OF SCHOOL YEAR

Chairman: I would like to make mention of a change that was recently mad by the Committee and agreed to by the Superintendent of Schools. It has been the custom for many years to terminate the making of regular appointments on or about May first, and any vacancies that occurred beyond that time have been allowed to go over until the following school year. In this way many people who in the opinion of the Committee and of the Superintendent, were entitled to these places because of their positions on the list, i. e., number one at the time the vacancies occurred, did not receive appointment. The Committee has now decided that in all fairness appointments should be made right up to the close of the school year. Under this change in policy on the part of the Superintendent and the School Committee, quite a few additional appointments will be made this year after the first of May.

—

UNFINISHED BUSINESS

The four orders laid over at the meeting of Dec. 18, 1933 (see p. 215), making changes in and additions to the Authorized List of Test Books, were taken up and passed unanimously.

—

The Committee adjourned.

Attest:

PROCEEDINGS OF CITY COUNCIL.

Monday, January 29, 1934.

Regular meeting of City Council in Council Chamber, City Hall, at 2 p. m., President DOWD in the chair. Absent, Coun. Brackman and Roberts.

SUBMISSION OF BUDGET.

The following was received:

City of Boston,
Office of the Mayor, January 29, 1934.

To the City Council.

Gentlemen,—Under the provisions of section 3 of the City Charter, the Mayor is required to submit a budget within thirty days after the beginning of the fiscal year.

Under the provisions of chapter 267 of the Special Acts of 1916, the city may raise by taxation for general municipal purposes, exclusive of schools, an amount not in excess of $6.52 on each $1,000 of the average valuation for the past three years. For 1934 this statutory authorization produces an amount slightly in excess of $12,000,000. Since the city budget for 1933 totaled $36,750,000, it is evident that the existing tax limit is inadequate to provide for the needs of the city. I have accordingly directed the Corporation Counsel to petition the Legislature for a tax limit, or appropriation limit, which will permit the appropriation of the amount deemed necessary for the proper and adequate maintenance of city services and activities.

Pending the enactment of this legislation I am unable to submit the budget in full segregated form. In order, however, to avoid any question being raised as to the submission of a budget within the time stated in the City Charter, I submit herewith a budget in lump sum form.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1934, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston or County of Suffolk, or the departments or officers thereof, and to meet their respective obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriation for Water Service, current expenses and the payment to the state under the provisions of chapter 488 of the Acts of 1895 and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes be met by the income of said works and any excess over income from taxes; that the appropriation for Printing Department be met by the department income and any excess over income from taxes; and the appropriation for *City Record* be met by the income of said publication and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1933, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation, and by the income of the financial year beginning January 1, 1934, and taxes to the amount of $16,637,816.75 and that said amount be raised by taxation on the polls and estates in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city and all taxes assessed for meeting the city's proportion of the state tax for the year 1934, or for any other taxes or assessments payable to the Commonwealth, be due and payable on the fifteenth day of September, 1934; that interest shall be charged on all taxes remaining unpaid after the third day of October, 1934, in accordance with the provisions of chapter 59, section 57, of the General Laws, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the fifteenth day of September, 1934, until paid, and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

SALE OF FERRYBOAT "JOHN H. SULLIVAN."

The following was received:

City of Boston,
Office of the Mayor, January 29, 1934.

To the Honorable the City Council.

Gentlemen,—I submit herewith a letter from C. J. Carven, Commissioner of Public Works, relating to the sale of the ferryboat "John H. Sullivan," and recommend the passage of the accompanying order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, January 26, 1934.
To His Honor the Mayor.

The ferryboat "John H. Sullivan" used in our Ferry Service was built in 1912 at a cost of $118,000 and is the oldest boat in the service.

The abandonment of the North Ferry releases this boat from duty and, as a matter of fact, in the past few years it has not been suitable for the heavy service to which it was subjected. Allowing depreciation of 5 per cent per annum, the boat has practically paid for itself. It is now tied up at a wharf and will never be placed in service again. Naturally, in the meantime, the boat is deteriorating.

This office received a communication recently from the Delaware River Ferry Company of Chester, Penn., inquiring if the city had any boats for sale.

As the "John H. Sullivan" is of no further use to the city, I respectfully suggest that steps be taken to sell this boat at public auction at a price of not less than $5,000.

Yours respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

Ordered, that the Commissioner of Public Works be authorized to sell at public auction, after duly advertising the time and place of the sale, the unused ferryboat "John H. Sullivan," at an upset price of five thousand dollars.

Referred to the Executive Committee.

VETO OF THREE RESOLUTIONS.

The following was received:

City of Boston,
Office of the Mayor, January 26, 1934.
To the City Council.

Gentlemen,—I return herewith without my signature the following three resolutions adopted by your honorable body:

Resolution in favor of legislation for the reinstatement of Michael McCormack in the Police Department.

Resolution in favor of legislation for the reinstatement of William S. Foster in the Police Department.

Resolution in favor of legislation for the reinstatement of Peter Clougherty in the Police Department.

After several years of consideration of applications for special legislation for the benefit of individuals who desired reinstatement in the employment of cities and towns the Legislature in 1933 enacted chapter 320, which provides a simple method of procedure applicable to all cases, and I see no reason for approving or seeking further special legislation. Accordingly I am disapproving the resolutions.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

LOANS FOR SEWERAGE WORKS AND STREETS.

The following was received:

City of Boston,
Office of the Mayor, January 29, 1934.
To the City Council.

Gentlemen,—I am in receipt of the attached communications from the Commissioner of Public Works in which he requests that loans of $1,000,000 each be made available respectively for Sewerage Works and for the Reconstruction of Streets.

It is essential that these loans be given early consideration in order that the Public Works Department may establish the year's program and start actual construction as early as possible. I submit, herewith, orders providing for these loans and respectfully recommend adoption of the same by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department, January 20, 1934.
To His Honor the Mayor.

It is customary each year for the Public Works Department to request a loan of $1,000,000 for sewerage works, the appropriation of this amount to be made under the provisions of chapter 426 of the Acts of 1897, as amended by chapter 204 of the Acts of 1908 and by chapter 178 of the Acts of 1930.

The money obtained is used for the purpose of complying with petitions received during the year; for enlarging and rebuilding antiquated sewers which, because of their age or size, are inefficient or dangerous, and for sewer work necessary to be done in streets included in the street construction program of the year and in the streets laid out by the Board of Street Commissioners and ordered constructed.

I respectfully recommend that the customary loan be provided this year.

Yours respectfully,
C. J. CARVEN,
Commissioner of Public Works.

City of Boston,
Public Works Department, January 20, 1934.
To His Honor the Mayor.

I respectfully recommend that a loan of $1,000,000 be provided for the Reconstruction of Streets.

The appropriation of this sum will enable the department to reconstruct and recondition main highways and other important arteries of travel which, after a careful survey, will be included in the street construction program of the year.

Yours respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

Ordered, That under the provisions of chapter 426 of the Acts of 1897, as amended by chapter 204 of the Acts of 1908 and chapter 178 of the Acts of 1930, the sum of $1,000,000 be, and hereby is, appropriated to be expended under the direction of the Commissioner of Public Works for sewerage works, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That the sum of $1,000,000 be, and the same hereby is, appropriated, to be expended by the Commissioner of Public Works, for Reconstruction of Streets, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount.

Referred to the Committee on Finance.

MUNICIPAL BUILDING IN WARD 1.

The following was received:

City of Boston,
Office of the Mayor, January 29, 1934.
To the City Council.

Gentlemen,—I have indorsed my approval upon the resolution adopted by your honorable body on January 15 which favors the enactment of legislation authorizing the construction of a municipal building in Ward 1 and have forwarded it to the Committee on Joint Rules of the Massachusetts Legislature. I am informed by the Speaker of the House of Representatives that this form of approval is merely intended to expedite consideration of the legislation and does not bind the city in any way, nor is it indicative of the position the city will take upon the legislation when it is considered in committee.

For your information I am inclosing a copy of a letter which I sent to the Committee on Joint Rules and a copy of the reply from Speaker Saltonstall.

I am writing this letter and inclosing this correspondence in order that it may be understood that the indorsement of the approval of the Mayor does not indicate, necessarily, that I favor the proposed legislation.

The right is reserved to the city to oppose any order thus adopted if it should seem advisable to do so.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Copy of letter from Mayor Frederick W. Mansfield to the Committee on Joint Rules of the Massachusetts Legislature:

January 22, 1934.

Gentlemen,—I have received from the City Council of Boston three resolutions as follows:

Resolution approving of legislation to extend the time within which the city may accept payment to the mother of David MacDonald, as provided by Statute 1932, chapter 226.

Resolution approving legislation authorizing a pension to Fred W. Connelly.

Resolution approving legislation to construct a municipal building in Ward 1.

The form of approval which I am required to sign upon each of these resolutions would seem to indicate approval of the legislation referred to, but I am informed by Mr. Wilfred J. Doyle, City Clerk, that this is merely a matter of form and is not taken as an indication that the City of Boston has bound itself to approve of the proposed legislation.

Yours truly,
FREDERICK W. MANSFIELD, Mayor.

—

Copy of letter from Leverett Saltonstall, Speaker of the House of Representatives, to Mayor Frederick W. Mansfield:

January 23, 1934.

My dear Mr. Mayor,—The plan effected by Joint Rule 7B was initiated in 1921 by Speaker B. Loring Young in an endeavor to curtail time and money spent for printing of matters which come under that rule, to prevent such matters from being enacted into law and signed by the Governor only to be entirely refused by the Mayor and City Council of a city or the selectmen of a town, or county commissioners of a county whose approval was demanded under the provisions of the act.

The Committees on Rules of the two branches, acting concurrently, cannot, of course, bind the Mayor and City Council who approve the form of these measures to later actually accept them, but approval or disapproval of them at this stage, before they are admitted or printed, does give the Legislature some idea as to the necessity and importance of acting upon them.

In the last year or two the City Council and the Mayor have approved them purely as a matter of form, reserving the right to act upon any legislation that is passed. Of course this in substance nullifies the whole purport of the rule. However, I realize that it may be difficult for the Council and the Mayor to do anything else.

Of the three matters to which you refer in your letter of January 22, one of them I believe has been vetoed already twice by your predecessor in office. This may give you some indication as to whether or not you care to give it even your formal approval.

I have talked this matter over several times with Mr. Wilfred Doyle, and I believe he thoroughly understands what the rule attempts to do.

With kind personal regards, I am,

Very sincerely yours,
LEVERETT SALTONSTALL.

URBAN POPULATION, APRIL 1, 1930.

As defined by the Census Bureau, the urban population is, in general, that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural.

The total urban population of the UNITED STATES is 68,954,823 (34,154,760 males and 34,800,063 females), of whom 62,836,605 (31,162,570 males and 31,674,035 females) are white; of these whites 52,109,746 (25,520,483 males and 26,589,263 females) are native; 33,497,232 (16,515,816 males and 16,981,416 females) of these latter are of native parentage and 18,612,514 (9,004,667 males and 9,607,847 females) are of foreign or mixed parentage; there are 10,726,859 (5,642,087 males and 5,084,772 females) foreign-born white; there are 5,193,913 (2,479,158 males and 2,714,755 females) Negroes; other races, 924,305 (513,032 males and 411,273 females).

The urban population is 56.2 per cent of the total population of the country; native white, 54.6 per cent and foreign-born white, 80.3 per cent; Negroes, 43.7 per cent.

The total urban population of NEW ENGLAND is 6,311,976 or 77.3 per cent of the total population of New England. Of the 4,660,339 native white, 2,089,031 are of native parentage and 2,571,308 are of foreign or mixed parentage; foreign-born whites number 1,564,769; Negro, 81,443; other races, 5,425.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

FIRE DEPARTMENT ORDERS.

General Order No. 14.

I. ANNUAL BALL.

The fifty-fifth annual ball of the Boston Fire and Protective Departments will be held on Monday evening, February 5, 1934, at the Boston Garden. It is hoped that this ball will be the most successful both financially and socially in the history of the department. This can best be accomplished by every member of the department doing his part in aiding the Ball Committee which has been untiring in its efforts. The ball last year was a wonderful success financially and in attendance because of the cooperation shown by every member.

For many years the people of Boston have been generous in the support of the Fire Department ball and it is the chief means by which the Boston Firemen's Relief Fund is sustained. Because of the depression which has affected everyone in the community in some way or another everyone, including the Fire Commissioner himself, has made an extra effort to make the ball a success. Considerable work has been done by the Fire Commissioner, assisted by the committee, in the sale of tickets. The commissioner feels that everyone in the department should join in the ball and be present in uniform to participate in the grand march. No man knows when it will be his time to look to the fund for assistance and while he can he should support the ball financially and add his personal assistance.

The commissioner is most anxious that the march be a representative one and that all members of the department who are off duty will participate. He expects that every officer who is off duty, deputy chiefs, district chiefs, captains, lieutenants, as well as privates, will appear in uniform and take part in the march.

The floor marshal is Capt. John H. Leary of Ladder Company 12. The chief of aides is Lieut. James F. McFadden of Water Tower 1. Members of the department detailed to the ball will report to the chief of aides, Boston Garden, at 7 p. m., February 5, 1934, unless otherwise ordered.

Members detailed will attend strictly to the duties assigned to them.

Trustees, aides and members detailed to the ball will be granted leave from 4 p. m., February 5, to 8 a. m., February 6, 1934.

For officers, regulation uniform, sack coat, white gloves will be worn. For privates, regulation uniform, sack coats, black shirt and tie and white gloves will be worn on this occasion. This applies to all privates in uniform whether acting as aides or not.

II. RETIREMENTS.

The following retirements, which took effect at 8 a. m., Friday, January 26, 1934, are hereby announced for the information of the department:

Hoseman George E. Clemens, Engine Company 40

Hoseman Patrick F. Cronin, Rescue Company 3,

Hoseman Clemens was appointed to the department on March 15, 1918. Hoseman Cronin was appointed to the department on January 30, 1918.

The following retirements are hereby announced to take effect at 8 a. m., Friday, February 2, 1934:

Capt. James W. Dwyer, Engine Company 11.

Lieut. John F. Curley, Ladder Company 19.

Captain Dwyer was appointed to the Fire Department on May 2, 1891. He was promoted to lieutenant on June 3, 1904, and to captain on September 2, 1910. Lieut. John F. Curley was appointed to the department on December 9, 1892. He was promoted to engineer on June 29, 1900, and to lieutenant on November 6, 1903.

The foregoing officers and men leave the department with the best wishes of their associates.

III. TRANSFERS.

The following transfers are hereby announced to take effect at 8 a. m., Friday, February 2, 1924:

Lieut. Norman R. Doyle, from Engine 21 to Ladder 19.

Lieut. Daniel P. Connor, from Rescue 2 to Engine 21.

Lieut. Thomas J. Mulhern, from Engine 17 to Rescue 2.

Lieut. James F. McFadden, from Tower 1 to Engine 15.

Lieut. John J. Barry, from Engine 18 to Engine 19.

Lieut. Jeremiah C. Sullivan, from Engine 15 to Engine 18.

Edward R. Hudson, from Engine 41 to Ladder 26.

Francis E. Hollum, from Engine 51 to Engine 41.

VII. WINDING BOXES.

The order which requires a telegrapher to fill out a card stating that a fire alarm box has been wound is hereby rescinded. The first telegrapher reporting at a box when responding to an alarm shall wind the box if it is of the succession type.

VIII. NORTHERN AVENUE BRIDGE.

The following notice, which has been received from the Boston Traffic Commission, is hereby published for the information of the department:

"*Voted*, During the period of bridge repairs, estimated to be two (2) weeks, vehicles are excluded from Northern avenue, between Atlantic avenue and Sleeper street, effective January 30, 1934."

IX. BOSTON AUTOMATIC FIRE ALARM ASSIGNMENT CARD.

A new assignment card for page 20 of the Boston Automatic Fire Alarm assignment book is being issued to the department today. This card is dated January 22, 1934, and begins with Signal No. 496. It is to replace old page 20, dated April 1-1929. Company commanders will care, fully note all changes and corrections on the new card. Old cards are to be returned to Headquarters not later than Monday, February 5, 1934, in the envelopes provided.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

MAYOR MANSFIELD PAYS GRACEFUL TRIBUTE TO RETIRING STREET COMMISSIONER JOHN J. O'CALLAGHAN.

Upon the occasion of his retirement from the service of the city, Mayor Mansfield addressed the following letter to Street Commissioner John J. O'Callaghan:

DEAR MR. O'CALLAGHAN,—I cannot allow the occasion of your retirement from public service, after thirty-two years of duty faithfully performed, to pass without some word of appreciation from the chief magistrate of the city which you have served so well. The quality of your service has been so well recognized that you have survived through many changes of administration and your retirement marks the passing of one who has always given his very best for Boston and his fellow citizens—a service that has reflected nothing but credit upon yourself and has been of very great value to the city.

While regretting, with all who know you, that you have concluded to sever a relationship which has endured for a large part of a lifetime, I am sincerely pleased to have this opportunity, as Mayor, to thank you for myself and for the city for the services which you have so faithfully and painstakingly given since you first entered public employment.

With every good wish for continued health and happiness,

Yours truly,

FREDERICK W. MANSFIELD,
Mayor.

POLICE DEPARTMENT ORDERS.

General Order No. 391.

Sergt. Charles F. Eldridge, Patrolmen Samuel J. Willis, Augustine J. Fay, John J. Riley and John J. Byrne of Division 16, and Sergt. Joseph H. Bradley of Division 1, are commended in General Orders, and in addition Sergt. Eldridge, who gave generously of his own time, is granted two days' additional vacation for meritorious police duty performed in connection with the capture of the person who committed an armed holdup and robbery on December 15, 1933, in the Back Bay district.

The commissioner is pleased to recognize the zeal and persistent efforts shown by these officers which resulted in the apprehension of this dangerous criminal.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 392.

Rule 12 of the Rules and Regulations of the Police Department is hereby amended by striking out said rule and inserting in place thereof the following:

Rule 12. Detective Bureau.

The Detective Bureau shall be located at Police Headquarters and the personnel thereof shall consist of officers who shall be assigned to it from time to time. The Detective Bureau shall be under the command of a superior officer and subject only to the orders of the superintendent. The officer designated by the Police Commissioner in command of the Detective Bureau is particularly charged with the prevention of crime and the detection and arrest of criminals and the recovery of lost and stolen property. He shall have general supervision of all pawnbrokers, auctioneers, junk shop keepers, used-car dealers and dealers in second-hand articles and he shall investigate and report upon all applications to act as such.

Division commanders shall report immediately to the officer in charge of headquarters all felonies committed in their divisions, and the officer in charge of headquarters shall in turn immediately report same to the commanding officer of the Detective Bureau, and the commanding officer of the Detective Bureau, upon receipt of such reports, shall assign one or more detectives to cooperate with the commanding officers of the divisions, and if the crime reported is of such major importance as to warrant his presence the commanding officer of the Detective Bureau shall proceed forthwith to the particular division in which the crime occurred. The detective or detectives assigned by the commanding officer of the Detective Bureau shall be under the orders of the division commander during the investigation and shall report in detail to the commanding officer of the Detective Bureau daily in writing as to the status of the case and the work performed. The commanding officer of the Detective Bureau shall make to the superintendent daily reports of all cases under investigation by the Detective Bureau, and such further reports as may be required by the superintendent.

The commanding officer of the division in which serious crimes occur shall make to the superintendent daily reports of every case under investigation.

The Rules and Regulations of the Police Department are further amended by striking out the words, "Bureau of Criminal Investigation," wherever they appear in said Rules and Regulations, and inserting in place thereof the words, "Detective Bureau."

All Rules and Regulations and General Orders inconsistent herewith are hereby repealed.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 393.

The Supervisor of Cases shall be notified by the officer in charge of headquarters immediately upon receipt of a report of the commission of a serious crime in any division of the city. The Supervisor of Cases, upon receiving such notification, shall assign a member of his unit to report immediately to the division in which the particular crime occurred, and if the crime is of such major importance as to warrant his presence he shall personally respond.

The Supervisor of Cases has supervision of the preparation and presentation of all evidence gathered by officers of this department; therefore it shall be the duty of the Supervisor of Cases to interrogate all witnesses regarding the crime being investigated. The officer in charge of headquarters shall, upon receipt of a report of the commission of a serious crime, immediately notify a competent stenographer and provide the necessary transportation by notifying the station in which the stenographer lives to call for him, and said stenographer shall report to the Supervisor of Cases.

The Supervisor of Cases shall make to the superintendent daily report of all cases under investigation by his Bureau.

This order will take effect as of Monday, January 29, 1934, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 394.

Commencing Monday, January 29, 1934, the line-up of prisoners arrested for criminal offenses will be held in Room 403 on the fourth floor in Police Headquarters at 8 a. m. on every week day. Previous to a prisoner being placed in the line-up he shall have been photographed and fingerprinted and his record at the Bureau of Records shall have been examined, and the officer in charge of the line-up shall be furnished with a complete copy of the prisoner's record in the Bureau of Records. The line-up shall be under the direct supervision of the Supervisor of Cases. He shall interrogate all prisoners in the line-up, and shall at all times have a competent stenographer present to make notes of everything said by prisoners and witnesses in reference to the particular crime in question.

This order will take effect as of Monday, January 29, 1934, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

General Order No. 396.

The commissioner is pleased to publish the following letter for the information of the department:

BOSTON POLICE RELIEF ASSOCIATION, INC.,
154 BERKELEY STREET,
January 27, 1934.

HON. EUGENE C. HULTMAN,
Police Commissioner.

DEAR SIR,—At a meeting of the Board of Directors of the Boston Police Relief Association, duly held on Friday, January 19 last, it was voted that the association extend to Capt. Thomas S. J. Kavanagh of Division 9 and the officers associated with him in the drill presented at our annual ball of Tuesday, January 16 last, at Mechanics' Hall, its thanks and appreciation for their splendid performance.

And it was further voted that you be respectfully requested to send to the department in the name of the association a letter conveying our thanks and appreciation as above set forth.

For the Board of Directors.

JOHN F. KENNY,
Clerk, B. P. R. A.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 397.

A trial board consisting of Captains Campbell, Killen and Daley having heard by reference a complaint made by Harry T. Grace, captain, Division 15, against Francis P. Higgins, patrolman, Division 15, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification: In that on the 16th day of January, 1934, the said patrolman Francis P. Higgins failed to report for his regular tour of duty at the 12.30 a. m. roll call.

Charge 2: Conduct unbecoming an officer.

Specification: In that on the 16th day of January, 1934, the said Patrolman Francis P. Higgins did report at Station 15 at 1 a. m., not being in uniform, and he was under the influence of intoxicating liquor to such an extent that he was unable to perform the duties of a police officer, and by so doing he has brought his associates into disrepute and criticism,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence presented accepts the plea of guilty made by the said Patrolman Francis P. Higgins. The Board has taken into consideration the excellent recommendation given Patrolman Higgins by his commanding officer and by Deputy Superintendent Anderson, Lieutenant Miller and Sergeant Schultz; the fact that this officer has twice been commended in General Orders, and on one occasion, the Police Commissioner, in recognition of the excellent police duty performed by Patrolman Higgins, remitted 100 hours of punishment duty; the fact that Patrolman Higgins has promised to take a pledge with his spiritual adviser to abstain from the use of intoxicating liquor in the future, and respectfully recommends that the said Patrolman Francis P. Higgins be suspended from duty for a period of thirty days, effective as of January 16, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Francis P. Higgins be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Francis P. Higgins be suspended from duty for a period of thirty days, effective as of January 16, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Francis P. Higgins perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 398.

A trial board consisting of Captains Campbell, McGrath and Daley having heard by reference a complaint made by Mathew Killen, captain, Division 18, against Arthur F. Wall, patrolman, Division 18, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on the ninth day of January, 1934, the said Patrolman Wall, while in civilian clothes and not on duty, was under the influence of intoxicating liquor to such an extent that he was unfit to perform police duty if called upon so to do.

Specification 2: In that on the ninth day of January, 1934, the said Patrolman Arthur F. Wall did engage in an altercation with certain persons on the street, some of said persons being at present unknown, thereby tending to bring into disrepute and criticism his associates on the Police Force and the Police Department, as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented finds the said Patrolman Arthur F. Wall guilty on Specification 1 of said charge, and not guilty on Specification 2 of said charge. In view of the recommendation of Patrolman Wall's commanding officer that the extreme penalty of dismissal should not be invoked, and taking into consideration the fact that this officer has not been before a trial board charged with intoxication at any other time, the Board respectfully recommends that the said Patrolman Arthur F. Wall be suspended from duty for a period of thirty days, effective as of January 9, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Arthur F. Wall be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Arthur F. Wall be suspended from duty for a period of thirty days, effective as of January 9, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Arthur F. Wall perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 399.

A trial board consisting of Captains Campbell, Killen and Daley having heard by reference a complaint made by John McGrath, captain, Division 14, against Merrill S. White, patrolman, Division 14, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specifications: In that on the 17th day of January, 1934, at about 2.15 a. m., while in uniform and on duty, the said Patrolman Merrill S. White was under the influence of intoxicating liquor to such an extent that he was unable to properly perform the duties of a police officer, and, further, that while in this condition the said Patrolman Merrill S. White did smoke a cigarette in a public thoroughfare, all tending to bring into disrepute and criticism his associates in the Police Department and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented accepts the plea of guilty made by the said Patrolman Merrill S. White. The Board has considered the fact that Patrolman White's commanding officer forcefully recommended that the extreme penalty of dismissal not be inflicted at this time; the solemn promise of this officer that henceforth he will refrain from the use of intoxicating liquor, having stated that he has arrived at a point where he realizes that if he wants to remain in the department he must abstain from the use of liquor; the fact that this officer on two previous occasions has been before a trial board for violation of the Rules and Regulations of the police Department, and respectfully recommends that the said Patrolman Merrill S. White be suspended from duty for a period of ninety days, effective as of January 17, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Merrill S. White be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Merrill S. White be suspended from duty for a period of ninety days, effective as of January 17, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Merrill S. White perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 400.

A trial board consisting of Captains Campbell, McGrath and Daley having heard by reference a complaint made by Thomas F. Casey, captain, Division 10, against Horace E. Griffin, patrolman, Division 10, for alleged violation of Rules 27, 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification 1: In that on the eleventh day of January, 1934, the said Patrolman Horace E. Griffin, assigned to routes 24, 25, one half of 23, did fail to signal his "on duty" call at 12.20 a. m., not being on any police business at the time.

Specification 2: In that on the eleventh day of January, 1934, the said Patrolman Horace E. Griffin on said routes failed to telephone from his relieving post and failed to come to the station at the expiration of his tour of duty to report to the officer in charge.

Charge 2: Untruthfulness.

Specification: In that on the eleventh day of January, 1934, the said Patrolman Horace E. Griffin, when questioned by Deputy Superintendent William W. Livingston and his Captain Thomas F. Casey, did state that he did signal such duty call and did telephone in and report to his station at the expiration of his tour of duty, all of which the said Patrolman Horace E. Griffin well knew to be untrue,—

has submitted the following finding and recommendation:

The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman Horace E. Griffin guilty on both charges and specifications thereunder. The Board, having considered the fact that Patrolman Horace E. Griffin was before the Trial Board in 1930, charged with being under the influence of intoxicating liquor, and having considered the recommendation of Capt. Thomas F. Casey and Deputy Superintendent William W. Livingston, that if given another opportunity, Patrolman Griffin will prove to be a good police officer, the Board therefore respectfully recommends that the said Patrolman Horace E. Griffin be suspended from duty for a period of thirty days, effective as of January 11, 1934, at 5.45 p. m., and that at the expiration of the said period of suspension the said Patrolman Horace E. Griffin be ordered to perform two hundred and ten hours of punishment duty.

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Horace E. Griffin be suspended from duty for a period of thirty days, effective as of January 11, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Horace E. Griffin perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Hubbard road, Dorchester district, as a highway, from Savin Hill avenue southwesterly, with the name of Hubbardston road or come other distinctive name.

Ordered, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published December 8, 9, 11, 12 in the Boston *Globe* and the Boston *Transcript,* two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city, of the public improvement shown on a plan marked "City of Boston, Hubbardston Road, Dorchester, December 19, 1933, William J. Sullivan, Chief Engineer, Street Laying-Out Department," deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

A highway named Hubbardston road is hereby laid out from Savin Hill avenue southwesterly for a distance of approximately three hundred and seventy feet, the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Savin Hill avenue, thirty-six and 77-100 feet; southerly by the southerly line of said Hubbardston road as hereby laid out, one hundred eighty-six and 52-100 feet and one hundred eighty-four and 90-100 feet; westerly by the westerly line of said Hubbardston road as hereby laid out, twelve and 79-100 feet and twenty-four and 85-100 feet; and northerly by the northerly line of said Hubbardston road as hereby laid out, one hundred eighty-three and 14-100 feet and one hundred eighty-nine and 38-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Hubbardston road (formerly Hubbard road), Dorchester district, as a highway, from Savin Hill avenue southwesterly, under the order of the Board of January 23, 1934, and awards no damages therefor.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, FEBRUARY 10, 1934. NO. 6

MAYOR MANSFIELD AIMS TO RESTORE BOSTON TO ITS FORMER LEADERSHIP IN INDUSTRY, COMMERCE AND PROSPERITY BUT BY NO FALSE OR LUXURIOUS MUNICIPAL EXPENDITURES — DISCUSSES PROBLEMS AND TASKS THAT FACE HIM IN SECOND OF HIS RADIO ADDRESSES — POINTS OUT TO CITIZENS OF BOSTON HOW COOPERATION WITH HIM IN HIS PLANS WILL TURN NATION CONFIDENTLY TOWARD BOSTON IN NEXT FOUR YEARS.

In his second weekly broadcast from City Hall Station, Mayor Mansfield discussed another of the problems of the city, that of municipal expenditures, addressing his audience as follows:

Today, I shall discuss with you another of our city problems that is very important in that it affects questions that arise in every home. When a public official talks about taxes and finance the people generally back away as if the subject were too complicated to understand and too uninteresting to hear. I shall not weary you with a long column of figures, but I shall speak in terms of shoes for the children, wearing apparel for the grown-up boys and girls, and an occasional visit to the movies for the mother when her tasks are done at home. Every father and mother knows the difficulty of satisfying the needs of their own little flock and they desire above all things to be provided with funds to buy these necessary things. It's to the wage earner I wish to talk today and especially to the mother who waits for the Saturday night pay envelope to meet the expenses of her home.

Every time a new tax is levied to meet the running expenses of the government you fathers and mothers pay. You may not see it very clearly but it comes out of your pay envelopes just the same in the form of higher rent, higher poll taxes and increased prices for your shoes or your clothing. Indirect taxes have a way of fooling the everyday man and woman because they don't see the tax bill presented by the city, state or national collector, but it's there just the same and millions of our citizens pay those indirect taxes by the increased price of the goods they buy.

With these thoughts in mind I want you in spirit to sit with me at my desk in the Mayor's office this afternoon to see how I am trying to protect your wages and your salary that is sorely needed in your family instead of being diverted to the tax collector.

Where Taxes Come From.

The first set of papers which we will read together indicate that the great bulk of the running expenses of our city comes out of taxes on the houses in which you live or the factory in which you work or the department store in which you buy your wares. If I, as Mayor, am not careful of your interests and I allow the expenses of this city to rise, you pay the bill, not alone in higher rents, but in the goods you purchase, as increased taxes in the long run finally are passed along to the consumer. Almost daily you are paying what might be called a fixed charge against your wages in the fare collected by the Elevated for riding to work, and the same thing happens in every government tax; it comes out of your pocket although it is not noticeable. I have a very pressing problem to keep down the running expenses of our city so that the drain on your wages will not be increased. That is my work, but, as you sit by me in spirit, I want you to see how I am attempting to put that principle into operation.

Here is a second paper calling for the expenditure of a million dollars for a public improvement which in my mind is not absolutely necessary and can be deferred until normal times return. This particular paper refers to the construction of a strandway in East Boston, a district in which I was born, which supported me loyally in the last election, and for which I consequently have a high regard. I explained to a delegation from that district the serious condition of our city finances were due to an era of reckless spending in the past, showing them that every million dollars spent on what might be termed municipal luxuries was putting the city deeper and deeper into the hole and that ultimately it would mean higher taxes and consequently higher rents. I think they recognized the wisdom of my reasoning and I am expecting that other districts during these abnormal days will follow the fine civic spirit displayed by the citizens from my birthplace until better times replace these days of industrial depression. I shall not permit the expenditure of city money on big projects that are not necessary and that can wait for the coming of those prosperous days.

MAYOR MANSFIELD TELLS CHAMBER OF COMMERCE MEMBERS HOW HE PLANS TO HELP BUSINESS — POINTS TO LOSSES IN COMMERCE AND TRADE IN DEPRESSION YEARS AND SAYS THAT HE PROPOSES ABSOLUTE, RIGID AND UNWAVERING CONTROL OF EXPENDITURES OF THE CITY, YET DOING ALL POSSIBLE TO AID AND INVITE BUSINESS — ASKS BUSINESS MEN, MERCHANTS AND ALL OTHERS TO NOTE THAT HE SERVES CITY FOR PUBLIC GOOD.

Upon February 8, before the Chamber of Commerce, at a luncheon, Mayor Mansfield spoke in part as follows:

As business men you do not want a speech clothed in the niceties of refined English. Such phrases at times conceal the real thought in a speaker's mind, perhaps not purposely, but they have a tendency to cloud the real points.

I realize that you are thoroughly acquainted with the data which I shall use and consequently we can at least understand one another.

Boston has suffered during this economic depression severely. You ought to know exactly how deeply it has cut into the business of our manufacturers, merchants and wage earners.

In the January release of the Department of Labor and Industries of the Commonwealth a very important table was compiled relative to the manufacturers of the City of Boston. Its figures conclude with the end of 1932. Therefore it is not so conclusive as I would wish, but with a mental reservation which may incline us to the opinion that business has done some better in 1933 and the beginning of 1934 we get much meat for thought in the table to which I have referred.

For the year 1932 the amount of wages paid in all manufacturing industries of Boston was $53,000,000 compared with $105,000,000 in 1928. The average number of wage earners in 1932 was 46,000 as compared to 75,000 in 1928. The value of the manufactured products decreased in 1932 to $298,000,000 from $586,000,000 in 1928. These figures are so startling that I realize the responsibility that rests on my shoulders to carry on the administration at City Hall so that some measure of help might come from my office. Of course Boston is confined in its administration by the amount of taxes which it receives yearly. To illustrate the big decrease in expected taxes I quote you the figures of the valuation of April, 1932, of $1,890,000,000 and the valuation of April 3, 1933, of $1,780,000,000, or a reduction in a single year of $110,000,000. That would mean on the basis of $32 per thousand a reduction of about three million and a half dollars in taxes.

The Mayor of Boston can best help the business of this city by exercising an absolute control, rigid and unwavering, in the expenditures of the city. I am opposed to the expenditure of public money on so-called luxuries. I had an example brought before me a few days ago calling for the expenditure of a million dollars in the strandway of East Boston. There is no necessity for that expenditure and it must wait for the return of better and more normal times. This applies not only to strandways but to all other expenditures of a similar nature that the city has followed out in recent years. The reckless waste of public money shall at least be ended during the four years of my administration and all for the definite purpose of keeping down the tax rate. Higher tax rates have a depressing effect on business in a large city like Boston and my determination is set to reduce it, if possible. I realize that I shall be unable to show the fullness of my program in restricting expenditures in the first year but I am headed in the direction that must meet your approval.

On the necessary expenditures I shall not be niggardly in the appropriations which I shall request from the City Council. Thus far I have called for liberal expenditures for the repair and maintenance of our highways and for the construction of new sewers, which in any event must be kept in order. For the further protection of the congested area of Roxbury and Dorchester I have asked for a loan for the installation of high pressure service. For the protection of the individual and the business of Boston I have followed the request of the Police Commissioner for the introduction of two-way radio to apprehend bandits who are going about in broad daylight armed as if we were in a state of war. The above paragraphs briefly tell a story of one month of my administration. I want the business men, the merchants, the wage earner and the big and small tax payer of Boston to know that I am serving this city for the public good.

CIRCULAR LETTER NO. 3.

MAYOR'S OFFICE,
BOSTON, January 31, 1934.

To All Department Heads.

GENTLEMEN,—Many orders for the allowance of overtime to city employees in various departments are being presented to me for my approval, and I wish the heads of departments to know my ideas in the matter of overtime, which are as follows:

In those cases where the head of the department conscientiously can and does certify that the overtime is necessary the employee should be compensated by the allowance of time off to make up the period worked as overtime, but not to be compensated by additional payments of money. All employees in every department who are likely to be called upon for overtime work must be informed to this effect.

In any case where the number of employees is so limited that to grant them time off to compensate for overtime would seriously interfere with the conduct of business in the department, a certificate to that effect should be added to the order, but in those cases heads of departments are requested to report to the Mayor upon the advisability of having the extra work done by temporary employees at regular, and not overtime rates.

Yours truly,

FREDERICK W. MANSFIELD,
Mayor.

CONTRACTS AMENDED.

TRANSIT DEPARTMENT.

H. E. Fletcher Company has been allowed to amend the contract for granite blocks, Traffic Tunnel, by striking out on page 10, Article 11, third paragraph, the words and figures "three hundred fifteen (315)" and substituting therefor the words and figures "four hundred fifty-five (455)," so that the contract as further amended shall read: "The Contractor agrees to complete said delivery within four hundred fifty-five (455) days from notification to commence delivery, said notification to be given on or after December 1, 1932," and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

The Lovejoy Granite Company has been allowed to amend the contract for furnishing and delivering granite blocks, Traffic Tunnel, by striking out on page 13, fifth paragraph, the words and figures "seventy (70) days" and substituting therefor the words and figures "one hundred ninety-five (195) days," so that the contract as amended shall read on page 13, fifth paragraph: "The Contractor agrees to complete said delivery within one hundred ninety-five (195) days from delivery of the contract," and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

BROADCAST BY MAYOR.

(Continued from page 125.)

That leads me a step further. While I shall not favor borrowing money for purposes of carrying out the so-called luxury projects I shall not follow a policy of false economy of not spending any money at all on public improvements. There are certain necessary expenditures this city must make in order to keep abreast of the times. To delay them or to forego them entirely would tend to relegate Boston to a second or third rate municipality—and that would be a terrible calamity. Let me explain:

Here I have before me two papers, one which calls for a million dollars for the repair of our public thoroughfares and the other calls for a million dollars for the repair of old and the construction of new sewers. Everybody will readily agree that they are a vital part of the proper functioning of our city and so I recommended the adoption of both these projects by the City Council and I expect that work thereon will proceed within several months. They, unlike the Strandway, are not luxuries but necessities and cannot be passed by. Today, however, I am asking the Council to reduce their orders to $250,000 each as a further means of economy.

Now I come to a very special reason why I am trying to hold in check the lavish expenditure of city funds and as you go along I think you will see with me that my policy is correct. The latest report of the Massachusetts Department of Labor and Industries is crammed full of information which should be read by the head of every family in the state. It will show at a glance just how far back Boston has fallen in the last few years. Let me read for you the real salient points that go right to the meat of our subject:

More Business and Industry.

From 1928 to the end of 1932 the amount of wages paid annually in the manufacturing plants in Boston fell from $104,000,000 to $52,000,000 and the value of all their products decreased from $586,000,000 to $298,000,000.

Do we want this business to return and will we reach out for new factories? I know your answer; the return of the old manufacturing plants and the starting of new ones means additional wages for Saturday night. Additional wages make happy families and increase the retail trade of the local merchants. Increased wages have a more widespread influence than any other factor in American life.

Let me impress this fact upon you. If we would succeed in our attempt to encourage new business to come to our city it is absolutely necessary to keep our tax rate within reasonable bounds. During recent years, in an era of frenzied finance, many big concerns, fearful of the future, erected their distributing plants, etc., just outside the limits of our city in order to evade the rising tax rate of our city. I have in mind a large department store doing business almost within a stone's throw of City Hall which built a warehouse in a neighboring city and a national electric equipment company which did the same. I could give you many other examples of a similar nature in which business concerns have erected buildings in adjoining cities and towns because of the uncertainty of the tax rate of Boston.

As Mayor of this city I am going if I can to prevent the reckless spending and waste of public funds. I am going to establish a financial policy that can be understood by the business men of this city. I want to impress upon manufacturers and merchants that during my administration they can have confidence that the day of wild finance in this city is ended.

I want to encourage them to locate here because that means work for the unemployed of Boston. New factories and the revival of the old business will bring the smile of contentment once more to the faces of our citizens who walked the streets in idleness for months. One of the fundamentals of my financial policy is based on the hope that I can in an official way draw business to this city and turn the industrial curve upward.

Finally, I want to assure you that my mission of confidence in Boston which I desire to spread throughout the country is not simply lip service, not just words; I want it translated into actual performance.

At least for two years there has been a public demand for two-way radio in the police cars of this city and the Police Commissioner also has demanded in addition the relaying of the cables connecting the various stations with headquarters. This system of communication is made necessary by the increased violence of desperate criminals who are going about armed in broad daylight. Up to recently they engaged in gang warfare, and society at large was not so deeply stirred because they were killing off one another. They were struggling for control of the illicit liquor business. The end of prohibition has brouht a change in the activity of these gangsters. Here in the East we do not read of leaders of the same evil repute as in other cities but there are men in our neighborhood who are just as desperate as those who exist in any part of the country. We have read of cold-blooded murders right in our own midst and a few days ago society was shocked with the brutal outrage in the Needham bank.

I want to put an end to this banditry in Boston and I want to give evidence to the underworld that they cannot ply their trade within the limits of our beautiful city.

I have requested at once the passage of an order by the City Council for the introduction of the two-way radio in our police cars and the new cable communications so that every service will be rendered to our policemen in their attempt to rid Boston of these desperate character. We must inspire the country with confidence in our city. I have today submitted an order to that effect to the City Council.

The task before us is no easy one. I realize the full responsibility on our shoulders and we shall meet it with confidence. The fullness of my policy I hardly expect to be reached in the first year of my administration, but to me the way is clear and I shall follow the road to the end without change.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 14, 1933, as amended, determining damages caused by the making of the public improvement consisting of the laying out and construction of Westchester, formerly Winchester road, be, and the same hereby is, amended, by adding to said order the amount $381 as an award to Joseph J. Welsh and Anna C. Welsh; that the amount $381 be, and the same hereby is, awarded to Joseph J. Welsh and Anna C. Welsh for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of December 17, 1932, as amended, determining damages caused by the making of the public improvement consisting of the laying out and construction of Lila road, be, and the same hereby is, amended, by adding to said order the amount $50 as an award to Joseph J. Welsh and Anna C. Welsh; that the amount $50 be, and the same hereby is, awarded to Joseph J. Welsh and Anna C. Welsh for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 13, 1933, as amended January 29, 1934, determining damages caused by the making of the public improvement consisting of the laying out and construction of Orange street, be, and the same hereby is, amended, by adding to said order the amount $75 as an award to August F. Oberacker; that the amount $75 be, and the same hereby is, awarded to August F. Oberacker for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 13, 1933, determining that no person sustains damages by the making of the public improvement, consisting of the laying out and construction of Orange street, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word: "no."

That said order be further amended by adding thereto Charles Hoerlein, $100.

That the amount $100 be, and the same hereby is, awarded to Charles Hoerlein for the damages sustained by the making of the said improvement.

Voted, That the order of the Street Commissioners and Mayor of September 7, 1933, determining damages caused by the making of the public improvement, consisting of the laying out and construction of McKone, formerly Bertram street, be, and the same hereby is, amended, by striking from said order the amount $75 awarded to Louis H. Giardino and Benjamin J. Viafora, trustees under will of Mary G. Viafora, in said order and inserting in place thereof the amount $100; that the amount $100 be, and the same hereby is, awarded to Louis H. Giardino and Benjamin J. Viafora, trustees under will of Mary G. Viafora, for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 2, 1933, determining damages caused by the making of the public improvement, consisting of the laying out and construction of Perthshire road, be, and the same hereby is, amended, by striking from said order the amount $190 awarded to Thomas F. Athy and Delia Athy in said order and inserting in place thereof the amount $400; that the amount $400 be, and the same hereby is, awarded to Thomas F. Athy and Delia Athy for the damages so sustained.

BETTERMENT ASSESSMENT.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted,—That in the matter of Jeremiah Collins, petitioner for damages occasioned his estate by the laying out and construction of Sanborn avenue, under the order of the Street Commissioners and Mayor of June 12, 1931, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of five hundred (500) dollars, the city to assume betterment assessment of $135.90 (assessment lot 49) levied for said improvement of Sanborn avenue, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

THOSE MAY GIVE WHO WISH.

Upon January 30 Mayor Mansfield issued the following statement:

No doubt all city employees know from reading the newspapers that a great number of outstanding men and women are giving their time and energy freely to raise money for the support of the 110 philanthropic organizations which serve directly and indirectly some 200,000 needy people of our communities. There is no doubt as to the worthiness of the cause.

Because of the reduction in their salaries, I was hesitant in even permitting city employees to be solicited for funds but on reflection, after talking to Mr. Burroughs, who is the Executive Chairman of the Labor Division, and Mr. Farley, the General Chairman of the drive, I feel that I perhaps ought not to deprive them of the privilege of giving. By familiarizing themselves with the needs and the cause, as this Campaign Committee presents it, they may judge for themselves whether they wish to help.

Whatever they determine to give after being acquainted with all the facts, they may do so entirely according to their conscience and of their own free will. In my personal capacity, I have, of course, indorsed this campaign in every way for I have consented to act as chairman of the Organized Labor Division.

This is not to be construed as a request, or wish, or demand on my part in any way, but merely as a statement of my position. I do not wish any departmental solicitation.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Durant road, Hyde Park district, as a highway, from Sunnyside street northwesterly, with the name of Durling street or some other distinctive name, bounded and described as follows:

A highway named Drury road is hereby laid out, from Sunnyside street northwesterly for a distance of one hundred and ninety-seven feet, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Sunnyside street, forty feet; southwesterly by the southwesterly line of said Drury road as hereby laid out, one hundred and ninety-seven feet; northwesterly by the northwesterly line of said Drury road as hereby laid out, forty feet, and northeasterly by the northeasterly line of said Drury road as hereby laid out, one hundred and ninety-seven feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Drury road (formerly Durant road), Hyde Park district, as a highway, under the order of the Board of January 29, 1934, and awards no damages therefor.

POLICE DEPARTMENT ORDERS.

General Order No. 401.

The commissioner is pleased to publish the following letter for the information of the department:

BOSTON COMMITTEE,
BIRTHDAY BALL FOR THE PRESIDENT,
BOSTON HEADQUARTERS,
PARKER HOUSE, February 1, 1934.

EUGENE C. HULTMAN, *Police Commissioner*, 154 Berkeley Street, Boston.

DEAR COMMISSIONER,—This is just a short note which is entirely inadequate for expressing in behalf of the President's Birthday Ball Committee our appreciation of your cooperation and the splendid work which your men performed last Tuesday night at the Hotel Statler.

I assure you that it was greatly appreciated and very highly complimented by many people.

Thanking you personally, I remain,

Very truly yours,

PAUL D. RUST, JR.,
Chairman.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 402.

It gives the commissioner great pleasure to publish the following letter for the information of the department:

ROTARY CLUB OF BOSTON,
HOTEL STATLER, PARK SQUARE,
January 31, 1934.

MR. EUGENE C. HULTMAN, *Police Commissioner*, Police Department, Berkeley and Stuart Streets, Boston.

DEAR COMMISSIONER,—The Rotary Club has not forgotten the wonderful service performed by the Boston Police Department during the Convention of Rotary International held in late June, last. Your entire force, wherever they came in contact with Rotarians and their ladies, were a credit to themselves and to the City of Boston. The ready cooperation on the part of the late Superintendent Crowley made our contact with your department a most pleasing one.

As an added evidence of real appreciation of the fine service rendered by your force, the Club and Rotary International wish to present to the Boston Police Relief Association a check for $250. In order that our members, and Rotary in general, will be conscious of our contribution as a partial evidence of gratitude we would like to make the presentation at our weekly luncheon, Wednesday, February 7, at the Hotel Statler. Would there be any objection to our inviting Superintendent King to be present when the check is handed to Capt. John J. Mullen of the Boston Police Relief Association? Obviously, we should earnestly hope that you could witness the little ceremony by being on hand.

If I can know your reaction promptly it will permit time to invite Superintendent King and Captain Mullen, and make whatever preliminary arrangements that need to be planned in ample time.

Sincerely yours,

E. WENTWORTH PRESCOTT,
Secretary.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 403.

A trial board consisting of Captains Campbell, McGrath and Daley, having heard by reference a complaint made by Lieut. Lawrence H. Dunn, Division 1, against William T. Downey, patrolman, Division 1, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 23d day of January, 1934, the said Patrolman William T. Downey, while in uniform and on duty, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty, tending to bring into disrepute and criticism himself and his associates in the Police Department,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented by witnesses, accepts the plea of guilty made by the said Patrolman William T. Downey. The Board has also considered the excellent recommendation given Patrolman Downey by his commanding officer who requests that Patrolman Downey be allowed to remain in the department at Division 1 as he believes Patrolman Downey has the makings of a first-class police officer. Patrolman Downey has taken a pledge to abstain from the use of intoxicating liquor in the future. Therefore, the Board respectfully recommends that the said Patrolman William T. Downey be suspended from duty for a period of thirty days effective as of January 24, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman William T. Downey be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman William T. Downey be suspended from duty for a period of thirty days, effective as of January 24, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman William T. Downey perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 404.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by Perley S. Skillings, captain, Division 16, against Joseph A. Cote, patrolman, Division 16, for alleged violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on the 29th day of January, 1934, the said Patrolman Joseph A. Cote was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty if called upon so to do.

Specification 2: In that on the 29th day of January, 1934, the said Patrolman Joseph A. Cote reported "sick," whereas in truth and in fact the said Patrolman Joseph A. Cote was not sick,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented by witnesses, accepts the plea of guilty made by the said Patrolman Joseph A Cote. The Board has considered the fact that Patrolman Joseph A. Cote has never been before the Trial Board before, the high recommendation of Deputy Superintendent John M. Anderson that he be retained as a member of the Police Department, as he was not under the influence of liquor while on duty, but at his home, and he was not exposed to the public view. Therefore, the Board respectfully recommends that the said Patrolman Joseph A. Cote be suspended from duty with loss of pay for a period of thirty days, effective as of January 29, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Joseph A. Cote be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Joseph A. Cote be suspended from duty for a period of thirty days, effective as of January 29, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Joseph A. Cote perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Secion 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Hibbard avenue, bounded:

Westerly by Pleasant Hill avenue, thirty-two feet; northerly by the northerly line of said Hibbard avenue, by two measurements, one hundred feet and four and 96 100 feet on a curved line; easterly by easement taken by the City of Boston for sewerage purposes in 1893, by two measurements, twenty-two and 67–100 feet on a curved line and ten and 4–100 feet; and southerly by another part of said Hibbard avenue, by two measurements, two and 70–100 feet and one hundred feet, containing thirty-two hundred and seventy-three square feet, more or less.

Included in the above described land is a part of a parcel of land registered in the Land Court, said parcel being shown on the plan hereinbefore referred to, and said part being the portion of said registered parcel which lies between the northerly line of said Hibbard avenue and the middle line thereof; the owner of said portion, the number of the certificate of title and the book and page where the same is registered are as follows:

Francis Leo Murphy and Mary Catharine Murphy, Cert. No. 29628, Book 144, page 28.

Included in the above described land is a part of a parcel of land registered in the Land Court, said parcel being shown on the plan hereinbefore referred to, and said part being the portion of said registered parcel which lies between the southerly line of said taking and the middle line of Hibbard avenue; the owner of said portion, the number of the certificate of title and the book and page where the same is registered are as follows:

Katherine Halley, Cert. No. 31968, Book 155, page 168.

A parcel of land, owners unknown, being part of the private way known as Hibbard avenue, bounded:

Westerly by easement taken by the City of Boston for sewerage purposes in 1893, by two measurements, ten and 33–100 feet, and twenty-four feet on a curved line; northerly by the northerly line of said Hibbard avenue, thirty-eight and 34–100 feet on a curved line; again northerly by easement taken by the City of Boston for sewerage purposes in 1893, forty-eight and 94–100 feet; and easterly by another part of said Hibbard avenue, by two measurements, twenty-six and 95–100 feet on a curved line and seventy-nine and 21–100 feet on a curved line, containing twenty-three hundred and forty square feet, more or less.

Included in the above described land is a part of a parcel of land registered in the Land Court, said parcel being shown on the plan hereinbefore referred to, and said part being the portion of said registered parcel which lies between the northerly line of Hibbard avenue and the easterly line of said taking; the owners of said portion, the number of the certificate of title and the book and page where the same is registered are as follows:

Codman Park Trust, Jacob Friedberg and Leo Dane, trustees, Cert. No. 25207, Book 22, page 7.

A parcel of land, owners unknown, being part of the private way known as Hibbard avenue, bounded:

Southerly by easement taken by the City of Boston for sewerage purposes in 1893, five hundred sixty-eight and 9–100 feet; westerly by the westerly line of said Hibbard avenue, eighty-three and 2–100 feet on a curved line; northerly by the northerly line of said Hibbard avenue four hundred ninety-five and 81–100 feet; easterly by Washington street, thirty-two and 5–100 feet, containing seventeen thousand four hundred and seventy-five square feet, more or less.

Included in the above described land is a part of a parcel of land registered in the Land Court, said parcel being shown on the plan hereinbefore referred to, and said part being the portion of said registered parcel which lies between the westerly-northerly lines of said Hibbard avenue and the northerly line of taking made for sewerage purposes in 1893; the owner of said portion, the number of the certificate of title and the book and page where the same is registered are as follows:

Codman Park Trust, Jacob Friedberg and Leo Dane, trustees, Cert. No. 25207, Book 22, page 7.

The sewerage works to be constructed are as follows: 140 linear feet of 30-inch by 36-inch brick sanitary sewer and 740 linear feet of 5-foot 6-inch circular concrete surface drain, in the above described premises, being part of the private way known as Hibbard avenue, between Washington street and Pleasant Hill avenue.

No betterments are to be assessed for the making of the aforesaid improvement.

The Commissioner of Public Works is hereby designated to build the above sewerage works.

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes in Hibbard avenue, Dorchester district, under the order of the Board of January 21, 1934, and awards no damages therefor.

Owners unknown (Hibbard avenue), 3,273 square feet	Nothing
Owners unknown (Hibbard avenue), 2,340 square feet	Nothing
Owners unknown (Hibbard avenue), 17,475 square feet	Nothing

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Roberts avenue, West Roxbury district, as a highway, from La Grange street to Dent street, with the name of Rockford avenue or some other distinctive name, bounded and described as follows:

A highway named Bertson avenue is hereby laid out, from La Grange street to Dent street, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by La Grange street, forty and 82-100 feet; southeasterly by the southeasterly line of said Bertson avenue as hereby laid out, five hundred seventeen and 76-100 feet; southwesterly by Dent street, forty and 7-100 feet, and northwesterly by the northwesterly line of said Bertson avenue as hereby laid out, five hundred twenty-three and 52-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Bertson avenue (formerly Roberts avenue), West Roxbury district, as a highway, from La Grange street to Dent street, under the order of the Board of January 30, 1934, and awards no damages therefor.

TRANSFERS IN APPROPRIATIONS.

City Auditor Rupert S. Carven announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by Budget Commissioner Charles J. Fox and approved by his Honor the Mayor:

ASSESSING DEPARTMENT.

BOSTON, December 19, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Assessing Department:

From the appropriation for B, Service Other than Personal, $1,818.61, to the appropriation for Personal Service, Unassigned, $18.61; D, Supplies, $1,800.

To provide funds for payment on account of deficit in budget group items.

Respectfully,

NEAL F. HOLLAND,
Acting Chairman.

The above transfer was made by the City Auditor with the approval of the Mayor December 22, 1933.

AUDITING DEPARTMENT.

BOSTON, December 30, 1933.

JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—For the reasons as below explained, will you kindly approve the following request for transfer within the appropriations of the Auditing Department:

From the appropriation for A-1, Permanent Employees, $100.70; A-2, Temporary Employees, $7; D, Supplies, $24.42, to the appropriation for B, Service Other than Personal, $132.12.

This transfer is requested to meet expenses, necessarily incurred, for which appropriation was insufficient.

Respectfully,

RUPERT S. CARVEN,
City Auditor.

The above transfer was made by the City Auditor with the approval of the Mayor.

BOARD OF APPEAL.

BOSTON, December 27, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within and outside the appropriations of the Board of Appeal:

From the appropriation for Building Department, B, Service Other than Personal, $18.23, to the appropriation for Board of Appeal, B, Service Other than Personal, $8.77; D, Supplies, $9.46.

B-3, Advertising and Posting—The estimate allowed in the budget was not sufficient to cover the cost of advertising "Notice of Public Hearings" as required by the act even though every effort was made to cut down the form of notice to a minimum wording.

D-1, Office Supplies—Every possible economy was practised to keep the expenses for supplies down but it was necessary to go over the amount allowed by $9.46.

Respectfully,

JOSEPH A. TOMASELLO,
Chairman.

The above transfers were made by the City Auditor with the approval of the Mayor.

BOSTON PORT AUTHORITY.

BOSTON, December 21, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Boston Port Authority:

From the appropriation for G, Miscellaneous, $80.84, to the appropriation for A-1, Permanent Employees, $80.84.

This transfer is necessary in order to provide for the position of Commerce Assistant, established in this department with the authorization of the Mayor.

Respectfully,

RICHARD PARKHURST,
Vice-Chairman.

The above transfer was made by the City Auditor with the approval of the Mayor.

BOSTON, December 23, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer from other sources to the Boston Port Authority:

From the appropriation for Reserve Fund, $6,000, to the appropriation for Boston Port Authority, G, Miscellaneous, $6,000.

This transfer is necessary in order to pay the chief counsel employed by the Board in the preparation and presentation at Washington of cases involving the port for services rendered during the current year. It is felt that since these services were rendered in 1933, they should be paid for out of the current year's budget appropriations.

Respectfully,

RICHARD PARKHURST,
Vice-Chairman.

The above transfer was made by the City Auditor with the approval of the Mayor.

BOSTON RETIREMENT BOARD.

BOSTON, December 19, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Boston Retirement Board:

From the appropriation for D, Supplies, $213.90, to the appropriation for A-1, Permanent Employees, $149.73, B, Other than Personal, $64.17.

To balance accounts for the year 1933.

Respectfully,

W. J. DOYLE,
City Clerk.

The above transfer was made by the City Auditor with the approval of the Mayor December 22, 1933.

BOSTON TRAFFIC COMMISSION.

BOSTON, December 22, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Boston Traffic Commission.

From the appropriation for Group C, Equipment (Item C-3, Electrical Equipment), $900, to the appropriation for Group D, Supplies (Item D-11, Motor Vehicle), $500; Group E, Materials (Item E-10, Electrical Materials), $400.

From Group B, Service Other than Personal (B-8, Light, Heat and Power), $325, to A-1, Permanent Employees, $325.

To provide sufficient funds where appropriation has been found insufficient.

Respectfully,

JOSEPH A. CONRY,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor.

BUDGET DEPARTMENT.

BOS ON, December 29, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Budget Department:

From the appropriation for A-1, Permanent Employees, $42.52; B, Services Other than Personal, $8; C, Equipment, $10, to the appropriation for D, Supplies, $60.52.

Unforeseen expenditures incident to the C. W. A.

Respectfully,

CHARLES J. FOX,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor.

CITY CLERK DEPARTMENT.

BOSTON, December 30, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the City Cerk Department:

From the appropriation for Group B, $83.97, to the appropriation for Group D, $83.97.

To balance accounts.

Respectfully,

W. J. DOYLE,
City Clerk.

The above transfer was made by the City Auditor with the approval of the Mayor.

CITY COUNCIL.

BOSTON, December 15, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the City Council:

From the appropriation for Reserve Fund, $124.68, to the appropriation for B, Service Other than Personal, $124.68.

From Reserve Fund, $1,467.05; to D-1, Supplies, $1,467.05.

From City Council A-1, $31.36; City Council Group C, $1.40; Auditing Department A-1, $33.62, to City Council Group B, $66.38.

Because of extraordinary expenditure occasioned by the fact the current year was a municipal election year the original budget allowances for City Council activities have proved inadequate. A

supplementary appropriation is required to meet the requirements for the balance of the year.

Respectfully,

JOSEPH MCGRATH,
President.

The above transfers were made by the City Auditor with the approval of the Mayor December 22, 1933.

CITY DOCUMENTS.

BOSTON, December 29, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer to the appropriations of the City Documents:

From the appropriation for Public Buildings Department, B, Service Other than Personal, $5,110.23; C, Equipment, $644.59, to the appropriation for City Documents, $5,754.82.

The above amount will be necessary to cover the expense for printing City Documents charged to that appropriation for the current year.

Respectfully,

WILLIAM J. CASEY,
Superintendent of Printing.

The above transfer was made by the City Auditor with the approval of the Mayor.

CITY PLANNING BOARD.

BOSTON, December 30, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—Will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the City Planning Board:

From the appropriation for G, Miscellaneous, $48.82, to the appropriation for C, Equipment, $48.82.

From D, Supplies, $2.20, to C, Equipment, $2.20.

From D, Supplies, $7.91, to B, Service Other than Personal, $7.91.

Respectfully,

WILLIAM STANLEY PARKER,
Vice-Chairman.

The above transfers were made by the City Auditor with the approval of the Mayor.

COLLECTING DEPARTMENT.

BOSTON, December 21, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Collecting Department:

From the appropriation for B, Service Other than Personal, $364, to the appropriation for A-3, Personal Service, Unassigned, $364.

To cover expense of overtime services on tax advertisement and sale.

Respectfully,

WILLIAM M. MCMORROW,
City Collector.

The above transfer was made by the City Auditor with the approval of the Mayor December 22, 1933.

—

BOSTON, December 29, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within and from outside the appropriations of the Collecting Department:

From the appropriation for A-1, Personal Service, $19.41; D, Supplies, $1,542.15; A-1, Permanent Employees, $245.59, to the appropriation for B, Service Other than Personal, $1,807.15.

Transfer made necessary by increased cost of annual tax sale.

Respectfully,

WILLIAM M. MCMORROW,
City Collector.

The above transfer was made by the City Auditor with the approval of the Mayor.

COLLECTING DEPARTMENT (Water Service).

BOSTON, December 29, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Collecting Department (Water Division):

From the appropriation for A-2, Personal Service, $54.35; B, Service Other than Personal, $235.17, to the appropriation for D, Supplies, $289.52.

Transfer made necessary by increased cost of supplies and supper money for clerks working overtime on the various tax and water rushes.

Respectfully,

WILLIAM M. MCMORROW,
City Collector.

The above transfer was made by the City Auditor with the approval of the Mayor.

ELECTION DEPARTMENT.

BOSTON, December 18, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Election Department:

From the appropriation for C, Equipment, $191.47; D, Supplies, $62.12; E, Materials, $91.27; Reserve Fund, $278.94, to the appropriation for B, Service Other than Personal, $623.80.

Miscellaneous expenses incurred incident to the recount of votes in the last municipal election which were not anticipated in preparation of our budget.

Respectfully,

PETER F. TAGUE,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor December 20, 1933.

—

BOSTON, December 28, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Election Department:

From the appropriation for A-1, Permanent Employees, $130.20, to the appropriation for B, Service Other than Personal, $126.20; C, Equipment, $4;

Miscellaneous expenses incurred incident to the recount of votes in the last municipal election which were not anticipated in preparation of our budget.

Respectfully,

PETER F. TAGUE,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor.

FINANCE COMMISSION.

BOSTON, December 14, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Finance Commission:

From the appropriation for G, Miscellaneous, $61.29, to the appropriation for A-1, Permanent Employees, $61.29.

When the Budget Commissioner changed the allotment of the $50,000 guaranteed the Finance Commission by statute, he neglected to leave in the pay roll item enough money to cover the salaries authorized by the Finance Commission.

Respectfully,

FRANK A. GOODWIN,
Chairman.

The above transfer was made by the City Auditor with the approval of the Mayor December 20, 1933.

LAW DEPARTMENT.

BOSTON, December 30, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Law Department:

From the appropriation for Group B, Service Other than Personal, $65.65, to the appropriation for Group C, Equipment, $65.65.

From Group B, Service Other than Personal, $94.88; A-2, Temporary Employees, $7.55, to Group D, Supplies, $102.43.

This transfer is necessary to take care of outstanding bills for books, etc., for Law Department library; also to pay bills rendered for stationery and ice.

Respectfully,

SAMUEL SILVERMAN,
Corporation Counsel.

The above transfers were made by the City Auditor with the approval of the Mayor.

LIBRARY DEPARTMENT.

BOSTON, November 16, 1933.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Library Department:

From the appropriation for A, Personal Service, $10,000, to the appropriation for C, Equipment, $10,000.

The Library Department has been seriously hampered in meeting the demands of the public for books by the reduction in the library account C-10, from $160,000 in 1932 to $75,000 in 1933.

Account A, Personal Service, will have an unexpended balance of more than $10,000 because of unfilled positions.

Respectfully,

JOHN L. HALL,
President, Trustees.

The above transfer was made by the City Auditor with the approval of the Mayor December 20, 1933.

—

BOSTON, December 29, 1933.
RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Library Department:

From the appropriation for B, Service Other than Personal, $2,000; C, Equipment, $1,500; D, Supplies, $800, to the appropriation for E, Material, $4,300.

We request the above transfer to be made to provide against deficiencies in the above accounts in the 1933 appropriation and to cover the outstanding invoices.

Respectfully,

MILTON E. LORD,
Director.

The above transfer was made by the City Auditor with the approval of the Mayor.

—

BOSTON, December 30, 1933.
RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Library Department:

From the appropriation for E, Material, $609.59, to the appropriation for B, Services Other than Personal, $609.59.

From E, Material, $926.47, to D, Supplies, $926.47.

We request the above transfers to be made to provide against deficiencies in the above accounts in the 1933 appropriation and to cover the outstanding invoices.

Respectfully,

JOHN L. HALL,
President, Trustees.

The above transfers were made by the City Auditor with the approval of the Mayor.

MAYOR'S OFFICE.

BOSTON, December 29, 1933.
RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within and from outside the appropriations of the Mayor's Office:

From the appropriation for Mayor, Office Expenses, $390.69; Group C, Equipment, Conventions, etc., $4,190, to the appropriation for Mayor, Office Expenses, A-1, Permanent Employees, $846.90; A-2, Temporary Employees, $75.80; Group B, Service Other than Personal, $655.28; Group D, Supplies, $720.71; Group G, Miscellaneous, $2,282.

To meet expenses, necessarily incurred, for which appropriations were insufficient.

Respectfully,

JAMES M. CURLEY, *Mayor.*

The above transfer was made by the City Auditor with the approval of the Mayor.

PARK DEPARTMENT.

BOSTON, December 29, 1933.
RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Park Department:

From the appropriation for C, Equipment, $2,000, to the appropriation for B, Service Other than Personal, $2,000.

From C, Equipment, $1,000, to E, Materials, $1,000.

From D, Supplies, $800, to E, Materials, $800.

From G, Miscellaneous, $700, to E, Materials, $700.

From G, Miscellaneous, $1,700, to F-11, Workingmen's Compensation, $1,700.

These transfers are made necessary by conditions unforseen when making up the budget.

Respectfully,

WILLIAM P. LONG,
Chairman.

The above transfers were made by the City Auditor with the approval of the Mayor.

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, December 29, 1933.
RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Penal Institutions Department:

From the appropriation for Office Expenses, E-1, Office Supplies, $99.48, to the appropriation for Office Expenses, A-1, Permanent Employees, $35.62; D-11, Motor Vehicle, $63.86.

ANNEXATIONS OF BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent. Hyde Park not included. By 1915 the total was 549,139, or 73.67 per cent of city. By 1925 the total was 607,519, or 77.92 per cent.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

JAMAICA SPENDS $1,000,000 ANNUALLY ON ROAD CONSTRUCTION AND MAINTENANCE.

Jamaica, an English possession, has a highway system which is almost entirely constructed of waterbound macadam, some 70 miles of which has been surface-treated. Many of the roads are under the supervision of the Department of Public Works and various parochial boards. There are about 2,500 miles of bridle and foot paths. The highway system connects all parts of the island in a very satisfactory manner, and the problem is not that of the construction of new roads, but the improvement of old ones, the surfacing and widening of these roads, and protective coatings. The roads are well maintained and, as there are not many heavy trucks, the maintenance is satisfactory. There are approximately 4,000 miles of highways, or 1.11 square miles of area to one mile of highway.

About a million dollars per year is spent on new construction and maintenance, the machinery used being both European and American.

(From a report of the American Road Builders' Association.)

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

BOSTON INCORPORATED AS A CITY, 1822.

The act of incorporation was passed by the Legislature on February 23, 1822. On March 4 following, the voters of Boston accepted said act, chapter 110, 1821-22, as its first city charter by a majority of 916 in a total vote of 4,678. The vote was 2,797 yeas, 1,881 nays. Previous attempts to incorporate as a city had been made in 1650, 1659, 1667, 1708, 1744, 1762, 1784, 1791, 1804 and 1815. The charter was revised in 1854, 1885 and 1909. Amendments to the 1909 charter were enacted in 1910, 1912, 1914, 1918, 1919, 1921, 1922 and lastly in 1924 (see "Municipal Register" for 1928, pages 19-43).

RURAL TEACHERS' SUPERVISION.

Improving instruction in rural schools through promoting the efficiency and professional growth of teachers is the most important function of supervision in connection with the rural school movement. In the accomplishment of this purpose supervisors use different means and procedures usually designated as supervisory measures, according to the United Stated Office of Education. Among those found particularly successful in rural communities are: County-wide teachers' meetings, circular letters, group conferences, visitations, individual conferences, and help rendered by teachers to colleagues.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, FEBRUARY 17, 1934. No. 7

NEW CITY HALL ONE OF MAJOR PROJECTS BEING PLANNED FOR BY MAYOR MANSFIELD AS MOST URGENTLY NEEDED BOTH AS MUNICIPAL ECONOMY AND FOR EFFICIENCY OF SERVICE AS WELL AS SAFETY FOR PUBLIC — RECENT EXPERIENCE, WHEN CROWDED COUNCIL CHAMBER THREATENED DISASTER, EMPHASIZED NEED AND SPURRED TO ACTION — MAYOR BROADCASTS PLAN IN REGULAR WEEKLY DISCUSSION OVER WNAC RADIO LINE.

In his radio address from Station WNAC on February 12, Mayor Mansfield spoke as follows:

Good afternoon, radio friends. This is the Mayor, speaking from City Hall.

During my month and a half administration at City Hall no proposed public improvement has received the almost universal commendation of the public as the proposed construction of a new City Hall at an approximate cost of $1,800,000.

My policy is and will be in reference to the expenditure of public money based on the following ground:

Until normal times return, I am unwilling to involve the city in expenditure that will afterwards call for large annual budget appropriation.

The construction of a new City Hall falls within the province of my intended policy. The annual rents paid for departments in private buildings total $67,450, and include such busy departments as the Finance Commission, the Licensing Board, the Law Department, the Transit Department, the Park Department and the Department of School Buildings.

Of course it would be distinctly modern in its trend to have all bureaus that carry on public business located in a single building, and this will be accomplished through the erection of a new City Hall, and of course in the departments specified there will be a considerable sum of money saved for the taxpayers that now goes out as rent.

Danger to Lives.

There is another factor, too, that must not be overlooked, and which, if passed by, may cause a loss of life that would be startling. The present City Hall has stood for a number of years and somewhere deterioration had set in so that when the City Council Chamber is fairly well crowded on occasions of public meetings, the Building Commissioner has noted slight tremors and has reported to me that unless rectified something serious might happen.

As a matter of finance, it is well to know that the interest on $1,200,000 at 4 per cent would approximate $48,000 annually, which would be about $15,000 less than the rent paid for departments occupying private office buildings. I say, "$1,200,000," because the Federal government is willing to give a grant of one third of the estimated cost of the construction of the new City Hall, which is $1,800,000.

The Sinking Fund requirements of course would be an additional expense to the city which, in a way, would be compensated for by additional work for about a year and a half to thousands of artisans who have traveled our streets for months seeking employment. And further, let me add that of the $1,800,000 required for the construction of City Hall, 30 per cent of that sum would come as an outright gift from the National Government.

Will Be Credit To City.

On the artistic side, it may be well to remark that Boston has always been considered as the Athens of America, and it is my firm purpose, if this project is carried out, to have a City Hall that will do credit to the refined ideas of our city. Furthermore, I may add that I am pledged to no architect and to no special design; my mind is perfectly free and open to secure for Boston a City Hall that will reflect continued glory on this great municipality.

I am sending a message to the City Council today, in which I advise — as I have been advised by the Corporation Council and by Washington officials—the honorable councilors that the loan orders pertaining to those objects heretofore passed and approved by former Mayor Curley are of doubtful validity in view of the inclusion therein of the words, "Outside the limit of indebtedness." Washington will allow us until March 5 to execute and return the loan contracts above referred to, and it will be necessary therefore to have new loan orders passed before the date specified.

One of the largest loan orders covers the estimated cost of a new surgical building in the City Hospital group. I have given this matter considerable thought, particularly with regard to the maintenance cost after the building is completed. I shall continue my studies of this question and will promptly advise the City Council as to my final decision.

If I deem it advisable, as a result of my examination, that the new surgical building should be erected, I have taken time by the forelock by introducing this order to the City Council. In addition, I have also reintroduced the loan order for $1,000,000, for the reconstruction of our thoroughfares, in order that our public highways may be placed on a par and continued so with the other large municipalities of our country. *(Continued on page 155.)*

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the shipteeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.

BROADCAST BY MAYOR.

OTHER PROJECTS PLANNED.

In addition, I have also requested the Council to repass a loan order for $2,000,000 for a new high school and for an intermediate school, with the view that Boston may continue to be the finest educational center in America.

Another loan order resubmitted today calls for $1,000,000 for the construction of new and the reconstruction of old sewers in the city, in conformity with the established custom of Boston, as a necessary measure.

For the establishment of a high pressure system in the Roxbury-Dorchester district, which improvement has been long requested in that section of the city, due to the fire hazard, I am requesting the City Council to repass a loan order in the sum of $700,000; and for the replacement of the Brookline water main from Brookline to Beacon street, a further loan order of $350,000.

All of these orders you will note, radio audience, call for the expenditure of public money on projects that one might almost call absolutely necessary for the proper administration of our city. Not one of them can be placed in what might be termed the luxury class, and neither can they fall in the category of lavish and unwarranted expenditure.

I am especially interested in the immediate passage of these orders, due to the part which the Federal Government will bear in these great public improvements. On all of them, the Federal Government is committed to the policy of an outright grant of 30 per cent of the total cost. For months I know the general public has been a bit doubtful as to the final outcome of these overadvertised public works, but it does appear as if the dawn is breaking and that the first real step in their construction is about to occur.

I also have in preparation for immediate distribution an executive order to all heads of departments asking them to submit new projects for C. W. A. workers. The original program for C. W. A. relief provided funds and work up to February 15, but there has been so much public interest in this subject that Congress may extend the workings of the C. W. A. law for several months longer.

If Congress does this and the President signs the measures, that will mean the C. W. A. workers instead of being discharged on the fifteenth of February may continue at work for weeks and perhaps months longer.

In order to be ready for the extension of the C. W. A. program, if it comes, I am asking the heads of departments to consider and submit new projects in order that Boston's quota of 25,000 unemployed may get the full benefit of this National legislation.

This letter will be distributed probably tomorrow and I expect the reports to come in from the heads of departments very rapidly.

Of course if the National program is not extended and the C. W. A. work is terminated on the fifteenth of February many of the workers will be thrown back on public welfare relief and soldiers' relief. The Boston representatives at Washington are doing all they can to extend the program, and if it is extended I trust that Boston will be ready with new projects in order to keep our unemployed at work.

CHANGE IN CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

D'Amore Construction Company has been allowed to add the following in the R. G. Morris School: For insulating over the ceiling of the kindergarten with the same silicate material used over the second-story ceiling and in accordance with the specifications for the whole work, subcontractor's price, $258; 10 per cent as per contract, $25.80; cutting hole through plastered ceiling of closet and repairing after insulating work is done, $20—$303.80, and the amount of $303.80 will be added therefor, making the account as follows: Contract price, $14,477; total additions, $2,056.24; amount of contract, $16,533.24.

DAMAGES ASSESSED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That in the matter of Andrew J. McDonnell, petitioner for damages occasioned his estate by the taking of an easement for sewerage purposes in the property No. 74 Landseer street, West Roxbury district, under the order of the Street Commissioners and Mayor of October 10, 1932, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of four hundred (400) dollars, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

FORMER MAYOR NAMED TO BOSTON PORT AUTHORITY BOARD.

Upon February 10 Mayor Mansfield issued the following statement:

I am very happy to announce that on John F. Fitzgerald's seventy-first birthday I have appointed him a member of the Boston Port Authority to fill the place made vacant by the death of Thomas J. A. Johnson.

Mr. Fitzgerald is practically the father of the idea of a Board of this kind and has always been deeply interested in developing the Port and the appointment I am very sure will meet with universal approval.

Mr. Fitzgerald has accepted the appointment, which, of course, is an unpaid position and this is another indication of his devotion to the City of Boston. He will be a live wire on the Board, and I am very sure will prove one of its most valuable members.

POPULATION OF MASSACHUSETTS, 1930.

Total population, 4,249,614 (2,071,672 males and 2,177,942 females; total white, 4,192,926 (2,042,213 males and 2,150,713 females); total native white, 3,138,290 (1,532,751 males and 1,605,539 females); native white of native parentage, 1,429,784 (702,983 males and 726,801 females); native white of foreign or mixed parentage, 1,708,506 (829,768 males and 878,738 females); 1,202,191 (584,705 males and 617,486 females) of them being of foreign parentage; foreign-born white, 1,054,636 (509,462 males and 545,174 females); Negro, 52,365 (26,097 males and 26,268 females); Indian, 874 (458 males and 416 females); Chinese, 2,973 (2,530 males and 443 females); Japanese, 201 (151 males and 50 females); Mexican, 66 (43 males and 23 females); all other races, 209 (180 males and 29 females).

CONTRACTS AMENDED.

DEPARTMENT OF SCHOOL BUILDINGS.

Rugo Construction Company, Incorporated, have been allowed to amend the contract for erecting and completing addition and alterations to the William Barton Rogers School, Harvard avenue and Webster street, Hyde Park district, by striking out the words and figures "within eight months from the date of this contract," on page 9, Article 2, and substituting therefor the words "within ten months from the date of this contract," so that said Article 2, on page 9, shall read: "The contractor shall carry on the work with due diligence and dispatch and shall bring the work to entire completion as defined in the specifications, within ten months from the date of this contract, and shall be liable in damages for any failure to so do, all as defined in the specifications.

TRANSIT DEPARTMENT.

The Gorham Company have been allowed to amend the contract for furnishing and installing ornamental bronze work for the portals of the Traffic Tunnel by striking out on page 8, first paragraph, the words "forty-two days" and substituting therefor the words "eighty-two days," so that the contract as amended shall read on page 8, first paragraph, "The contractor agrees to complete the work in this contract within eighty-two days from notification by the department to begin," and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following buildings as menaces or fire hazards:

The building at 2 Kelley's block, Ward 2.

The building at 19 Horton street, Ward 18, is unsafe and dangerous; unoccupied; windows are missing; the side walls are broken through; out of plumb and settled toward center where sill is rotted and foundation is loose. It is unsafe and dangerous and should be razed.

The owners, Angelo and Assunta Molonario of 22 Norton street, Readville, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 34 West Sixth street, Ward 7, is in an unsafe and dangerous condition, dilapidated and a fire hazard.

The owner of record, Emma J. Greenwood, has not been located but a notice of the unsafe condition has been posted on the external wall of the building. Nothing has been done to remove the cause of complaint.

The building at 18 B street, Ward 7, is in an unsafe and dangerous condition, dilapidated and a fire hazard.

The owner, Mary W. Favreau of 31 West Fifth street, South Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 16 B street, Ward 7, is in an unsafe and dangerous condition, dilapidated and a fire hazard.

The owner, Elizabeth T. McAuliffe of 286 K street, South Boston, has been notified of the unsafe condition of the building but nothing has been done to remove the cause of complaint.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for public improvement, consisting of the laying out and construction of an extension of Berry street, West Roxbury district, over and including the private way known as Sutton street, to Cummins Highway, bounded and described as follows:

An extension of the highway named Berry street is hereby laid out, over and including the private way known as Sutton street, to Cummins Highway, and ordered constructed, the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Berry street, fifty-six and 45–100 feet; southeasterly by the southeasterly line of said extension of said Berry street as hereby laid out, by two measurements, four hundred forty-two and 65–100 feet and two hundred thirty and 95–100 feet; southwesterly by Cummins Highway, thirty and 15–100 feet; and northwesterly by the northwesterly line of said extension of said Berry street, by three measurements, two hundred one and 3–100 feet, forty-one and 28–100 feet and four hundred sixty-two and 75–100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of an extension of Berry street, West Roxbury district, over Sutton street, to Cummins Highway, under the order of the Board of February 5, 1934, and awards no damages therefor.

POLICE DEPARTMENT ORDERS.

General Order No. 405.

Sergt. Peter J. Norton of Division 6, having arrived at the age of sixty-four and five-twelfths years, having performed faithful service in the Police Department for thirty-five and two-twelfths years, and having made application to be retired from active service, it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Sergt. Peter J. Norton be retired from active service and that his name be placed upon the department pension roll with pay at the rate of twelve hundred and fifty (1,250) dollars per annum (payable monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect, April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for retirement of those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Sergt. Peter J. Norton, as herein provided, will take effect at 7.45 o'clock a. m., Friday, February 9, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 406.

Sergt. John J. Crimmins of Division 1 is commended in General Orders for efficient police duty performed on January 3, 1934, in connection with the arrest of a man wanted for shooting with intent to kill in the North End.

The commissioner is pleased to recognize the initiative and intelligence shown by Sergeant Crimmins in his investigation and handling of this case which resulted in the arrest of the culprit.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 407.

Sergt. Francis P. McGuire and Patrolman Maurice P. Sheehy, both of Division 16, are commended in General Orders, and each is granted two days' additional vacation for meritorious police duty performed on November 25, 1933, in connection with the arrest of a person who was observed acting in a suspicious manner and who attempted to shoot Sergeant McGuire when he was taken into custody. It developed that this man had committed several daring armed hold-ups in western cities and he admitted to the officers that it was his purpose to hold up the first person who looked good to him who happened along. He has since been committed to the State Hospital at Mattapan.

The commissioner is pleased to recognize the alert and effective police duty performed in apprehending this dangerous character.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 408.

Sergt. George F. Weckbacker, Patrolman Andrew R. Smith and Joseph J. Culpin, all of Division 18, are commended in General Orders and each is given two days' additional vacation for meritorious police duty performed on December 16, 1933, in connection with the arrest of four men and two runaway girls. As a result of information obtained by persistent questioning of one of the men arrested on suspicion of stealing an automobile, the officers went to a rooming house where they located two runaway girls with a suit case containing a sawed-off shotgun and an automatic revolver, which they had brought from New York. One of the men arrested was sentenced for a long period in State Prison for an armed robbery in Division 4.

The commissioner is pleased to recognize the thorough and persistent efforts shown by these officers in performing this important police duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 409.

Patrolmen Lewis S. Morrissey and Jeremiah W. Gainey, both of Division 10, are commended in General Orders and each is granted two days' additional vacation for meritorious police duty performed on February 4, 1934, on the occasion of the arrest of two holdup men armed with loaded revolvers, who had held up a taxi driver and taken his taxicab.

Patrolmen Morrissey and Gainey, who were doing duty in a prowl car, were informed at a signal box shortly after the holdup was reported, and a few minutes later they observed the taxicab traveling at a fast rate of speed on Centre street. The officers pursued and overtook the car and Patrolman Morrissey, at the point of a shotgun, ordered the men out of the taxi. Upon further investigation of the men, it was found that they had committed several armed holdups recently in Roxbury.

The commissioner is pleased to recognize the initiative and alertness shown by these officers in performing this splendid police duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 410.

Lieut-Inspector John F. McCarthy, of Office of Supervisor of Cases, Sergts. Martin J. Shannon and John F. Devine, both of Division 6; Patrolman Francis J. Gannon (now of Division 14) and Patrolmen Thomas E. Keating and James P. Murphy, both of Division 6, are hereby commended in General Orders for splendid police duty performed in connection with the arrest of the person who shot a police officer on December 4, 1933.

The commissioner is pleased to recognize the zeal and untiring efforts given by these officers in the apprehension and conviction of this dangerous felon.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 18.

I. RETIREMENT.

The following retirement is hereby announced to take effect at 8 a. m., Friday, February 9, 1934:

Joseph J. Murray, lineman in the Fire Alarm Division.

Lineman Murray was appointed to the department on February 2, 1915.

II. BOARD OF MERIT.

The Board of Merit of the Boston Fire Department, consisting of the chief of department and six deputy chiefs, met during the month of January to consider any acts that had been referred to it by the Fire Commissioner. After consideration the Board submitted the following recommendations which are hereby approved by the Fire Commissioner:

Case of Ladderman William H. Leonard, Ladder Company 3, Box 1634, 1.27 p. m., Sunday, January 8, 1933. On this occasion Ladderman Leonard exposed himself to injury and possibility of physical disability, and by his quick action was able to keep a drowning man from sinking in the Fort Point channel at the Dover Street Bridge, until further assistance could be rendered. The Board recommends that Ladderman Leonard be highly commended for the meritorious service performed by him. He was commended in General Order No. 3, 1933, and was awarded a bronze medal by the Massachusetts Humane Society for this act.

Case of Hoseman James L. Harrington, Engine Company 26. On April 30, 1933, this department responded to a fire in the building 254 and 256 Columbus avenue, at 12.32 a. m. The building was heavily charged with smoke, the fire having crossed from the rear stairway to the front stairway on the second floor, making it necessary to use the fire escape for egress. The deputy chief in charge of the fire was informed that an elderly woman, who was crippled, was unable to get out of the building. Hoseman James L. Harrington of Engine Company 26 was sent to the top floor to rescue her. Investigation of this case showed that the conditions on the top floor were bad, due to the heat and smoke. The Board recommends that Hoseman Harrington be awarded a special commendation for the meritorious service performed by him on this occasion.

Case of Master Charles C. McNamara, Engine Company 31. At or about 6.25 p. m., August 31, 1933, a man fell from the steamship "King Philip" into the water opposite 18 T Wharf. Master McNamara, who was off duty, was attracted to the scene by the excitement. He dove overboard fully clothed and brought the unconscious man to safety. Master McNamara then applied the prone method of resuscitation until the arrival of the ambulance from the Haymarket Relief Hospital. Master McNamara was highly commended in General Order 33, 1933, for this act, and the Board recommends that he be awarded a special commendation for the meritorious service performed by him on this occasion.

Case of Hoseman William C. Jeffers, Engine Company 3, Box 1634, 8.19 p. m., Saturday, September 9, 1933. On arrival of Engine Company 3, the commanding officer was informed that a man had fallen overboard from the end of a wharf into the water of the South Bay in the rear of 350 Albany street. Hoseman William C. Jeffers of that company immediately leaped into the water and rescued the man by swimming with him to the piling of the wharf. The man was then assisted from the water by other members of the company. This act was performed in the dark at considerable personal danger to the member concerned, inasmuch as the South Bay is cluttered with all sorts of submerged junk, thereby increasing the possibility of injury. Hoseman Jeffers was highly commended in General Order 34, 1933, for this act. Because of the splendid display of courage and personal danger to which he was exposed, the Board recommends that the name of Hoseman William C. Jeffers be placed on the Roll of Merit of the Boston Fire Department for his service on this occasion.

Case of Hoseman Thomas J. Mullen, Engine Company 18, Box 3351, 11.28 a. m., September 13, 1933, fire 77 Kingsdale street. Upon arrival at this fire, the district chief was informed that there was an aged and infirm woman confined to the attic in the building. Hoseman Mullen was ordered to proceed to the attic and assist her to safety. The rescue was made by Hoseman Mullen after he had encountered hazardous and difficult conditions, particularly in view of the fact that entrance to the attic was heavily charged with smoke. Hoseman Mullen was highly commended in General Order 35, 1933, for this act. Because of the courage displayed by Hoseman Mullen the Board recommends that he be awarded a special commendation for his meritorious service on this occasion.

Case of Lieut. Daniel P. Connor and Hoseman Edward F. Leonard, Rescue Company 2, fire, Box 2175, 19 Sonoma street, Roxbury, 10.35 p. m., December 26, 1933. While ventilating first floor at this fire under order of the deputy chief, Hoseman Edward F. Leonard and Lieut. Daniel P. Connor of Rescue Company 2, equipped with Burrell masks, found a woman, age 21, an employee of the occupant of the suite, overcome by smoke and lying on the floor, and removed her from the building, following which the company rendered first aid until the arrival of a doctor who ordered her removed to a hospital. While the Board does not feel that these members were exposed to any particular personal danger or that the services rendered were of an extraordinary nature beyond the

regular performance of duty, because of their prompt and efficient action, the Board recommends that these members be awarded an ordinary commendation in General Orders, inasmuch as no previous action has been taken on this case.

After carefully reviewing the following cases, the Board is of the opinion that the members concerned have already received sufficient recognition for the services performed, and has no further recommendations to make regarding same:

Ladderman Joseph H. Dashner, Ladder 25, 12.17 p. m., May 13, 1933. See General Order No. 33, 1933, wherein he was highly commended.

Engineer Raymond Garrity, Engine Company 31 and Hoseman Coleman B. Norton, Engine Company 44, 4 a. m., August 6, 1933. Both commended in General Order No. 33, 1933.

Master Francis A. Nugent and Hoseman Thomas B. Maguire of Engine Company 47, 4.10 a. m., August 17, 1933. Both commended in General Order No. 33, 1933.

Hoseman Thomas J. Driscoll and Robert E. Roche of Engine Company 21, fire, Box 3162, 6.54 a. m., July 4, 1933, 7 Half Moon street. Both men commended in General Order No. 45, 1933."

III. FIRE DEPARTMENT BAND.

There will be a very important meeting of all present members of the Fire Department Band at Engine Company 26, Broadway, on Friday afternoon, February 9, 1934, at 2.30 o'clock. Members will not bring instruments.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Glenbrook street, Roxbury district, as a highway, from Dewey street to Woodcliff street, bounded and described as follows:

A highway named Glenbrook street is hereby laid out, from Dewey street to Woodcliff street and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northerly by Dewey street, twenty-two and 14–100 feet; easterly by the easterly line of said Glenbrook street as hereby laid out, two hundred eighty and 67–100 feet; southerly by Woodcliff street, twenty-three and 45–100 feet, and westerly by the westerly line of said Glenbrook street as hereby laid out, two hundred seventy-seven and 92–100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Glenbrook street, Roxbury district, as a highway, from Dewey street to Woodcliff street, under the order of the Board of February 7, 1934, and awards no damages therefor.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments for the term ending April 30, 1934, viz.:

Weighers of Goods: Richard J. Moore, 32 O street, South Boston; Roe Augusta, 41 Norfolk road, Randolph; Thomas Flaherty, 421 Quincy street, Dorchester.

Severally laid over a week under the law.

TRAFFIC LIGHTS, QUINCY STREET AND COLUMBIA ROAD.

The following was received:

City of Boston,
Office of the Mayor, February 5, 1934.

To the Honorable the City Council.

Gentlemen,—I transmit herewith a letter from the Traffic Commissioner relative to your order of January 15, 1934, concerning the installation of traffic lights at Quincy street and Columbia road.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Boston Traffic Commission,
January 23, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge Council order dated January 15, 1934, which reads as follows:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install traffic lights at the corner of Quincy street and Columbia road.

There are at present no funds available for this commission for the installation of automatic traffic signals at suburban intersections.

Very truly yours,
WILLIAM P. HICKEY,
Commissioner.

Placed on file.

DILLAWAY HOUSE, ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, February 2, 1934.

To the City Council.

Gentlemen,—By chapter 291 of the Acts of 1930, the City of Boston was authorized to relocate and restore the Dillaway House, so called, located on Eliot square, Roxbury, which house was used by Gen. John Thomas as his headquarters during the siege of Boston in the War of the Revolution, and to expend for those purposes not more than $25,000.

Appropriations were provided in 1932 and 1933, and a contract was made, under the direction of the Department of School Buildings, for the relocation and restoration of the house.

I am informed that the contract is completed, and it now becomes necessary to provide for the care, custody and maintenance of the building. I accordingly recommend the passage of the accompanying ordinance, placing this house in the custody of the Public Buildings Department, which now has charge of other historic buildings such as the Old State House and Faneuil Hall.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

An Ordinance Concerning the Dillaway House.

Be it ordained by the City Council of Boston, as follows:

The Superintendent of Public Buildings shall have the care, custody and management of the Dillaway House, so called, in Roxbury; may establish rules and regulations for the use and preservation of the said house as an historical relic of the Revolutionary War; and may, if authorized by an order of the City Council, approved by the Mayor, let or lease the whole or any part of said house to an historical society or other association organized for historical purposes.

Referred to the Committee on Ordinances.

SALE OF JUNK.

The following was received:

City of Boston,
Office of the Mayor, February 2, 1934.

To the Honorable the City Council.

Gentlemen,—I submit herewith a letter from Edward F. McLaughlin, Fire Commissioner, relating to the sale of junk and recommend the passage of the accompanying order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Fire Department, January 29, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

Dear Sir,—This department has at the Fire Alarm Shop an accumulation of junk consisting chiefly of old lead-covered cable and old iron which we desire to dispose of for lack of space and because the material is of no use to the Fire Department. After authority to sell this material is granted, proposals will be requested by publicly advertising for them.

For your Honor's information I inclose herewith a form of order which could be submitted to the City Council.

Yours very truly,
EDWARD F. McLAUGHLIN,
Fire Commissioner.

Ordered, That the Fire Commissioner be, and hereby is, authorized to sell, after publicly advertising for proposals, old material in the Fire Alarm Shop consisting of old lead-covered cable, old iron, etc., at a value estimated at approximately five hundred dollars.

Referred to the Executive Committee.

LOANS FOR STREETS AND SEWERS.

The following was received:

City of Boston,
Office of the Mayor, February 5, 1934.

To the City Council.

Gentlemen,—As a result of conference with the Commissioner of Public Works and others I believe that it is desirable to appropriate at this time within the debt-incurring power of the city only $250,000 for Reconstruction of streets, and $250,000 for Sewerage Works. I accordingly request that the two loans of $1,000,000 each now pending be reduced to $250,000 each before final action is taken upon them by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Referred to Committee on Finance.

NORTHERN AVENUE BRIDGE AND POLICE COMMUNICATIONS SYSTEM.

The following was received:

City of Boston,
Office of the Mayor, February 5, 1934.

To the City Council.

Gentlemen,—Within the past week two projects have been brought to my attention which I believe are proper items for the city to carry out under the provisions of chapter 366 of the Acts of 1933, the Act enabling cities and towns to secure the benefits provided by the National Industrial Recovery Act. These projects are: The reconstruction of the Northern Avenue Bridge, and the establishment of a modern and efficient communication system for the Police Department.

The Northern Avenue Bridge, affording direct connection with the freight terminals and railroad yards in South Boston, is one of the most important arteries of traffic in the city. Over a week ago a serious defect in the draw-span of the bridge became apparent, which made it necessary, in order that marine traffic should not be impeded, to leave the draw-span in an open position and closing the bridge entirely to land traffic. Estimates received from reliable sources indicate that the cost of repairing the present defect would be approximately $75,000. Since the bridge is approximately thirty years old, it is questionable whether the outlay of this large sum for repairs is justified. In consideration of the age of the structure, I believe the proper step to take at this time is to provide for the replacement of the existing structure with a new bridge. In the opinion of the Commissioner of Public Works, this project will involve an expenditure of $1,000,000.

The electrical communication system of the Boston Police Department comprises a total of approximately 930,000 feet of cables connecting eighteen divisions or stations with patrol boxes, there being approximately forty boxes in each division. The system was installed between 1886 and 1889, and except for minor modifications and replacements, there has been practically no change or improvement in the system for over forty years. As might be expected, the signal system because of its age, is in rather poor condition and is very much out of date, in view of the notable improvements that have been made in the signal systems of the Police Departments in other large cities of the country. Recent happenings, not only in Boston, but in neighboring communities, have emphasized the urgent necessity of having in operation at all times a modern and up-to-date police communication system. I have discussed the matter thoroughly with the Police Commissioner, who informs me that an appropriation of $350,000 will be required to give Boston a modern and efficient police radio and telephone system.

In connection with these two projects I submit herewith three orders, the first providing general authority for the city to engage in these projects, and the second and third orders, providing for the necessary loan appropriations. I respectfully recommend prompt consideration and passage by your honorable body of the accompanying orders.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That in accordance with the provisions of section 2, Part 1, of chapter 366 of the Acts of 1933, the City of Boston shall engage in the following public works projects:

1. Reconstruction and replacement of Northern Avenue Bridge at an estimated cost of $1,000,000
2. Establishment of a modern and efficient police communications system at an estimated cost of..... $350,000

Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933, the sum of $1,000,000 be, and hereby is, appropriated, to be expended under the direction of the Commissioner of Public Works for Northern Avenue Bridge, and that to meet said appropriation the city treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness.

Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933, the sum of $350,000 be, and hereby is, appropriated, to be expended under the direction of the Police Commissioner for police communications system, and that to meet said appropriation the city treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness.

Referred to the Committee on Finance.

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install automatic traffic signals at the intersection of Blue Hill avenue and Quincy street, Ward 13.

Passed under suspension of the rule.

DISPLAY OF NAZI SWASTIKA.

Coun. GOLDMAN and BRACKMAN offered the following:

Resolved, That since the Nazi Swastika has become the symbol of race persecution with all its resultant suffering to hundreds of thousands of persons composing the oppressed minorities in Germany and including Jews, Catholics, Masons and others,

That since this emblem of bigotry has been publicly flaunted from the windows of the German Consul in Boston,

That since such public display is an affront to those citizens of Boston who because of racial, religious or intellectural reasons are in sympathy with the oppressed minorities of Germany,

Therefore, Be it resolved that the Boston City Council go on record as being opposed to the public display of the Nazi Swastika in the streets of Boston, a city which has made such glorious contributions to the cause of liberty and enlightenment in America.

Referred to the Committee on Rules.

SIDEWALK ON GALLIVAN BOULEVARD.

Coun. WILSON offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along 249 Gallivan Boulevard, Ward 17, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

DESIGNATION OF PHYSICIANS.

Coun. WILSON offered the following:

Whereas, The Commissioner of Public Health has designated as the physician to act under the provisions of chapter 340 of the Acts of 1933, the medical practitioner of the medical board established by chapter 521 of the Acts of 1922;

Ordered, That until otherwise ordered the Mayor and City Council hereby designate as the two physicians to act under the provisions of chapter 340 of the Acts of 1933, the surgeon and the neurologist of the said medical board.

Referred to the Executive Committee.

SENATE BILL 224.

Coun. WILSON offered the following:

Resolved, That the City Council of Boston hereby favors the enactment of Senate Bill No. 224, which permits the acceptance, on account of less than 50 per cent on the payment of back taxes.

Coun. WILSON—Mr. President, let me say very briefly that, if I am correctly informed, this bill introduced into the Legislature is for the obvious helpful purpose of allowing taxpayers of the City of Boston who are so disposed, instead of waiting to pay their entire tax bill, to pay on account and to save the running of interest. Although I understand that many authorities are opposing the passage of that particular legislation, it seems to me in the present days of unpaid taxes, where people are behind through no fault of their own, we should encourage some payment of taxes, stop the running of interest, and help the taxpayers in every way possible.

The order was passed under suspension of the rule.

MUNICIPAL LIGHTING PLANT.

President DOWD offered the following:

Resolved, That the City Council of Boston hereby approves the enactment of legislation to authorize the said city to borrow money outside the debt limit for the purpose of establishing a municipal lighting plant.

Passed under suspension of the rule.

TRAFFIC LIGHTS, WARD 21.

Coun. AGNEW offered the following:

Ordered, That the City of Boston Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signal lights on Commonwealth avenue at Allston street, Ward 21.

—

Ordered, That the City of Boston Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signal lights on Commonwealth avenue at Warren street, Ward 21.

Severally passed under suspension of the rule.

SUNSET AVENUE, WARD 19.

Coun. NORTON for Coun. Murray offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the

Mayor, to accept and lay out Sunset avenue, Ward 19, as a public highway.

Passed under suspension of the rule.

RECONSTRUCTION OF HYDE PARK AVENUE.

Coun. MURRAY and NORTON offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to reconstruct Hyde Park avenue, from Forest Hills to Readville.

Passed under suspension of the rule.

DECENTRALIZING OF WELFARE DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That the Welfare Department of the City of Boston be decentralized.

(In connection with the above, Coun. Norton submitted as a matter of record, quotation from *Globe* editorial of January 31, 1934, as follows: "The physical overcrowding of the welfare building has itself amounted to a scandal for a long time. The congestion there makes efficient dealing with 30,000 human cases impossible. The situation cries out for districting into units that can be comprehended. When the district welfare office is right around the corner, like the school and the church and the health clinic, it will be possible for the department to know its clients and for them to know it. There will be less call to ask the local politician to use his influence at the remote central office.")

Passed under suspension of the rule.

MATTER IN "CITY RECORD."

Coun. NORTON offered the following:

Ordered, That his Honor, the Mayor of Boston, be requested to consider the advisability of directing the editor of the *City Record* to confine said publication to the purposes for which it was created, as stated in the City Charter, and to bar from it all extraneous information not required by law.

Coun. NORTON—Mr. President, in the past the *City Record* has been used for flagrant and cheap political propaganda in Boston. Under the law it was supposed to be used specifically for the advertising of bids, for notice of the awarding of contracts, for printing the minutes of the City Council and School Committee meetings. There is now an opportunity for the Mayor to save a little money in confining the *City Record* to the purposes defined by the law.

The order was passed under suspension of the rule.

FEDERAL PROJECTS AFFECTING BOSTON.

Coun. WILSON—Mr. President, reporting for the committee of the City Council appointed to consider the matter of the working out of the C. W. A. program in Boston, and also having in mind the two communications from the Mayor which have come to us today, suggesting a new public works program, involving the expenditure of $1,000,000 for the Northern Avenue Bridge, and $350,000 for Police Department radio, I will now submit for purposes of the record letters sent by your committee both to the President of the United States, and Harold Ickes, Federal Works Administrator, and replies thereto. Our letter, dated Boston, January 8, 1934, read as follows:

"The following resolution is forwarded to you by committee appointed on action of the Boston City Council today, due to storming of the City Hall by the unemployed of Boston:

"A conference held by the committee, the Mayor of Boston, and Mr. M. J. McCartin, Director of the Massachusetts State Employment Service, discloses the fact that although there are now over fifty thousand male residents of Boston registered for possible work under the Civil Works program, and despite the fact that additional applications are beng accepted daily, less than one hundred jobs remain available for approved projects now existing.

"May we respectfully request advices as to possible plans for the immediate speeding up of all projects now before your departments affecting the City of Boston?"

After a delay of two weeks, dealing with a matter that we thought was urgent, we received the following letter from the Federal Emergency Administration of Public Works. This letter was dated from Washington January 20, 1934:

Mr. Robert Gardiner Wilson, Jr.,
Chairman, Boston City Council Committee.

Dear Mr. Wilson,—This will acknowledge your letter of January 8, addressed to Hon. Harold L. Ickes, concerning pending projects for the City of Boston.

Non-Federal projects in the amount of $10,565,000 have already been approved for the City of Boston, and there are now under examination projects located in Boston amounting to approximately $30,000,000.

It is only fair to tell you that nearly all the funds of the Public Works Administration have been exhausted, and it is not likely that many more projects will be approved by the administrator until additional funds are made available.

You may be assured that with additional funds available the examination of the pending projects will be done with all the speed commensurate with a proper regard for the expenditure of the taxpayers' money, so that those which are found worthy may be put on the agenda for approval.

For information concerning the Civil Works Administration program, you should communicate with the chairman, Mr. Joseph W. Bartlett, Ford Hall, Boston.

Sincerely yours,
E. W. CLARK,
Executive Assistant,
for the Administrator.

Then, three weeks after the date of our first letter—on this matter that we felt was so urgent—we received this letter:

Federal Civil Works Administration,
Washington, January 29, 1934.

Mr. Robert Gardiner Wilson, Jr.,
Chairman, Boston City Council Committee.

Dear Mr. Wilson,—The President has requested that we reply to your letter of January 8, in which you express deep concern for the serious results that may be brought about in Boston unless the employment quota be enlarged.

Our original estimates of weekly expenditures necessary to operate the Civil Works program were made on the basis of 4,000,000 persons receiving an average wage of between twelve and thirteen dollars. Actually, we have more than 4,000,000 persons on our pay rolls and the average wage is in excess of $14 per week; consequently, our appropriation of $400,000,000 which was originally believed would carry us until February 15 has rapidly been depleted, and it has been necessary for us to reduce the working hours on local, state and Federal projects to keep our expenditures within the funds available to us.

The President's program for the rapid employment of persons in diversified projects throughout the United States presented an opportunity for cooperation with the Federal Government by local Civil Works Administrations in every community in our nation. States, counties and cities have contributed substantially by the purchases of materials and supplies. Their fine spirit in the development of this program gives hope that we may continue to utilize their assistance in the solution of this most evident problem.

We will continue the President's program of Civil Works, under funds available or to be made available, adjusting activities in the several communities to changing conditions, in order that we may render the greatest social good to every person. The provision of funds for the further continuance of the Civil Works program is a matter entirely dependent upon the legislative branch of the Government.

Your approval of existing Civil Works projects and your sincere desire to perfect the operation of the Civil Works program, so that it may bring to all unemployed persons a real hope for the normal reconstruction of their lives in this difficult economic period, are very much appreciated.

Very truly yours,
BRUCE MCCLURE,
Secretary,
Federal Civil Works Administration.

I have read these letters for the benefit of the members of the Council and leave it for them to determine whether there is here inferentially any approval of our letter of January 8, and whether these letters we have received even at this late stage indicate that there is any possibility of assistance from Washington.

RECESS.

The Council voted at 3.14 p. m., on motion of Coun. DOHERTY, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President DOWD at 4.28 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on message from Mayor and order (referred today) that Fire Commissioner be authorized to sell, after publicly advertising for proposals, old material in Fire Alarm Shop—that same ought to pass.

Report accepted; said order passed.

2. Report on order (referred today) that Mayor and City Council designate as two physicians to act under provisions of chapter 340 of Acts of 1933 the surgeon and neurologist of the retirement medical board—that same ought to pass.

Report accepted; said order passed.

Adjourned at 4.30 p. m., on motion of Coun. SELVITELLA, to meet on Monday, February 12, 1934, at 2 p. m.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, FEBRUARY 24, 1934. NO. 8

MAYOR MANSFIELD BATTLES FOR BOSTON'S UNEMPLOYED ON C. W. A. AND P. W. A. WORKS — PROTESTS DRASTIC CUT IN WORKERS AS ORDERED FROM WASHINGTON AND MAKES PLANS TO PROVIDE PROJECTS FOR CONTINUING WORKERS IN JOBS AT THE SAME TIME THAT CITY BENEFITS — IN RADIO BROADCAST FROM CITY HALL STATION HE EXPLAINS HIS PLANS AND RECOUNTS HIS EFFORTS IN BEHALF OF BOSTON'S CITIZENS.

The order issued by the Civil Works Administrator Saturday night has caused so much consternation among the group employed in the projects that I deem it advisable to explain the whole matter. The order called for the reduction of the working force of at least 10,000 in the state and as nearly as I can figure it, 1,150 in Boston.

The general impression prevails that a flat rate reduction was ordered throughout the country, but that is not the case. There was no reduction ordered at all in Delaware and in all the southern states an average of 20 per cent. Pennsylvania was ordered to reduce 5½ per cent; New York, 7 per cent; Connecticut, 13.6 per cent and Massachusetts, 8½ per cent. In all fairness to the men and women employed on the C. W. A. projects in Boston I protest a general reduction now in their ranks for the following reasons:

Last October-November, 19,000 was established as the number of employees to be hired on the Civil Works projects in Boston. The municipal authorities were expected to lay out a sufficient number of projects that would mean the hiring of that number of workers. Unfortunately, however, less than 14,000 were given work because the plans presented to employ them were not sufficiently wide to take care of the larger number of workers.

To Fill Quota.

In fairness to the men employed, therefore, I am going to get in touch with the State Director of Civil Works Administration for a delay in the application of the Washington order, due to the fact that our quota has not been filled during the past three months.

I was greatly surprised and I presume my radio audience was surprised last November when only 14,000 men and women were hired on these projects, and I determined at that time that if an opportunity were presented to me I would try to find sufficient work to meet the maximum quota.

Several days ago at a meeting of all heads of departments I requested their cooperation, set forth to them the very pressing problem of the unemployed in this city, and within forty-eight hours there was laid on my desk a program calling for employment of nearly 20,000 men and women under the Civil Works Administration. I was not greatly surprised at the prompt result, because I was convinced that sufficient work could be found in our great city for the employment of that number.

Although I had heard rumors of the impending order that was to come from Washington, I was shocked at the deep cut made in the working force in Boston, and because of the above specified facts I shall immediately take steps to delay the operation of this last official order.

This leads me to say something further about the Public Works Administration, or P. W. A., which follows quite naturally after the C. W. A., or Civil Works Administration, has finished its operation, which we expect will be sometime around May 15. The C. W. A. was started in every city and town in the country so that at least some measure of relief would be given to idle men and women during the winter months. That idea was very commendable and to my mind was one of the noblest works that our government has performed, especially at a time when realities were too stern to be ignored.

Back to Normal Conditions.

Of course, we all realize that this program could not be continued indefinitely, and that an attempt would be made to get the workers back into their normal fields. This will be done in a practical manner by the projects which will be laid out under the P. W. A., or the Public Works Administration. There is a distinction between the C. W. A. and P. W. A. that the public should realize. In the C. W. A. the cost of both labor and materials was borne entirely by the Federal Government, but in the P. W. A. projects the Federal Government agrees only to be responsible for 30 per cent of the total cost for labor and materials. With that in mind, let it be understood

WASHINGTON, D. C., February 20, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,— I have been advised by certain members of the City Council that they entertained doubts as to the effect of the proposed order to authorize borrowings in anticipation of taxes for the year 1934, which you submitted to the City Council on February 19, 1934. I submit herewith the reasons leading me to believe that the proposed order should be passed, and my opinion as to the effect of this order.

There was introduced in the Legislature this year a bill relative to temporary loans by cities, towns and certain districts in anticipation of revenue, which bill became law on February 13, 1934 (chapter 11 of the Acts of 1934). In substance, chapter 11 of the Acts of 1934 amended section 4 of chapter 44 of the General Laws (dealing with temporary borrowings in anticipation of revenue) by striking out from said section the words "and expressly made payable therefrom by such vote" and further expressly provided that section 4 should apply to Boston.

From the legislative history of chapter 11, and from its preamble, I am of the opinion that chapter 11 provided for the striking out of the above quoted words because certain purchasers of municipal notes had suggested that the presence of these words indicated a legislative intent that notes issued under section 4 of chapter 44 of the General Laws should not be general obligations of the cities or towns issuing them, but were to be payable only from the revenue of the year, and from no other sources. This opinion was not, I believe, shared by local bond counsel, nor by the Law Department of Boston. The view that those obligations were not general obligations, however, threatened to impair the marketability of the notes.

Similarly, I am of the opinion that the provision in chapter 11 that section 4 of chapter 44 of the General Laws should apply to Boston, was inserted because a doubt had been raised by purchasers of notes of the City of Boston as to the power of Boston to borrow in anticipation of taxes. This doubt was not shared by local bond counsel, and, I believe, rightly. Furthermore, the Law Department, under my predecessors, has been of the opinion that section 4 did apply to Boston, but in view of the doubt expressed, it seemed advisable to the Legislature to be explicit in this matter.

It is my further opinion that chapter 11 was intended merely to clarify the law, and that it does not in substance change the law. Notes duly issued by cities and towns under section 4, as now amended, are clearly general obligations of the cities and towns issuing the same, but they are not secured by any specific municipal funds; in other words, obligations arising therefrom are on the same footing with ordinary contractual obligations of the municipality.

The order providing for temporary loans in anticipation of taxes of the year 1934, which was given its second and final reading by the City Council on January 8, 1934, and approved by you on January 9, 1934, contained in it the words "payable . . . from the taxes of the year 1934."

In view of the change in section 4 of chapter 44, it seems to me desirable to limit said order to the notes already issued thereunder, and pass a new loan order authorizing borrowings in anticipation of taxes for the year 1934, this new loan order to be in the same form as the one last adopted, with two exceptions: (1) that the amount be $28,000,000, and (2) that the words "from the taxes of the year 1934" be omitted.

Inasmuch as revenue includes taxes, loans in anticipation of taxes are, in my opinion, authorized under section 4 of chapter 44 as amended.

Respectfully submitted,
HENRY E. FOLEY,
Corporation Counsel.

BROADCAST BY MAYOR.

(Continued from page 177.)

that the theory underlying the action of the Federal Government in reducing the ranks of the C. W. A. workers runs something as follows:

If the various cities and towns in the country present projects of a public nature, and those projects are accepted by the Federal authorities and work starts promptly, these said projects will take up many that are dropped by the C. W. A. from now until the middle of May. It is a real practical method of approaching the subject of unemployment. And, in addition, the P. W. A. projects are required to return what is recognized as a decent and living wage, and that means a better wage will be paid to the men in the new program.

The list of P. W. A. projects which I have submitted for government acceptance by the very nature of their work require skilled artisans for their completion.

The real big question that stands out above all others, is,— "How is the P. W. A. going to work?" Does it mean a turn in the tide of our national industrial life, or is it just going to be a stop-gap in the industrial depression which at times seems almost impossible to change? If Boston were the only government unit that was concerned in this P. W. A., it would be natural to expect that we could not go it alone. Every state, however, is involved, and every large city and town is about to be engaged in the struggle to set the wheels of industry going. Under these conditions, I am of the opinion that something in the nature of a boom will result, but I shall not attempt to guess as to the permanency of the industrial improvement.

Multiplicity of Needs.

When we realize the multiplicity of articles needed for the construction of new city halls, new schools, new streets, new sewers, wherein factories are called upon to produce these goods, truckmen required to haul them to their proper location after being freighted by the railroads, and this process is multiplied in the forty-eight states, with their various subdivisions in larger and smaller units, I believe I am justified in saying that a rally of great proportions is bound to occur in the life of our country, and that every section of the United States will share in this improvement.

I trust my radio audience will not get the impression that almost everybody in our country is idle; of course, that would be laughable. If we realize that there are in the neighborhood of forty million workers in the United States, and that about twelve million of them are without their usual permanent employment, we get a sorry, but not an absolutely dark, picture. The major part of our country is engaged in work and receives wages every Saturday night; not, of course, as large as some time ago, but a vast army of our workers have jobs. The real problem is to bring back into their normal industrial life, that other large army which has no steady, set employment. Our National Government hopes that the P. W. A. program will accomplish that end.

Then another question comes before us, as the protector of the finances of the city during this expected boom. We must not be swept off our feet and recklessly return to an era of free spending and forget that just at present the responsibility on our shoulders becomes heavier due to our entrance into the spirit of the P. W. A.

Let me explain this last statement:

If, for instance, the total expenditure for the P. W. A. projects, which the city is to construct, reaches ten million dollars, and we deduct three million dollars which the United States Government agrees to pay—that leaves seven million dollars on which our city will be compelled to meet interest annually, and, in addition, appropriations must be made yearly to meet this debt in serial payments.

Of necessity, I must think very seriously of the taxpayers, and of the 21,000 city employees, and seriously, too, of the other workers and of the business concerns in which they are employed. Since I have given my consent, in conformity with the rest of our country, to commit the city to the expenditure required by the P. W. A. projects, for the sake of relieving the unemployment difficulties here, and to help restore normal industrial life, I am, on the other hand, required zealously to watch the other expenditures of our municipality.

There has been a decided change for the better in the credit standing of our city which gives me comfort. The best way to judge the improved financial security is found in the status of our temporary notes and bonds on the investment market. Within a few days, my office has been in receipt of a communication from a most reputable banking concern, which informs me that during the few weeks in which I have been here the financial paper of our city has shown decided strength. That means so much to every person within our confines that to lose this gain would be bad administration. We must be known to the country as a city with a strong financial basis, because that creates confidence and confidence is the greatest asset in business.

If the great army of city employees will work in harmony with this administration, and watch carefully the machinery under their control, with an eye to making savings here and there, the ultimate effect for everybody in Boston will be pleasant.

MAYOR'S OFFICE CONTRIBUTES 100 PER CENT TO THE EMERGENCY RELIEF CAMPAIGN.

The Mayor was pleasantly greeted on February 21 by his office force who pledged 100 per cent to contribute to the Emergency Relief Campaign.

The contribution of the Mayor's office force, which was entirely voluntary on their part, was especially interesting to Mayor Mansfield because he is the active chairman of the labor group which is doing its utmost to make the drive a success. The Mayor's secretary, Joseph F. Mellyn, surrounded by his corps of co-workers handed the pledge cards to Harry Burroughs who is a prominent executive at the Emergency Relief Headquarters.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of an extension of Keith street, West Roxbury district, as a highway, from Perham street to La Grange street, bounded and described as follows:

An extension of the highway named Keith street is hereby laid out, from Perham street to La Grange street, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southwesterly by Perham street, forty and 6-100 feet; northwesterly by the northwesterly line of said extension of said Keith street as hereby laid out, eight hundred ninety-one and 33-100 feet; northeasterly by La Grange street, forty and 79-100 feet, and southeasterly by the southeasterly line of said extension of said Keith street as hereby laid out, eight hundred eighty-five and 68-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of an extension of Keith street, West Roxbury district, as a highway, from Perham street to La Grange street, under the order of the Board of February 12, 1934, and awards no damages therefor.

Foster Electric Company, $2,830; General Electric Supply Corporation, $2,800; Wetmore-Savage Electric Supply Company, $2,800; Albert E. Mace Company, Incorporated, $2,726; Graybar Electric Company, Incorporated, $2,604.

WITHOUT ADVERTISING.

Upon varying dates, as indicated, the Mayor approved the requests of the heads of several departments for furnishing labor and materials. Communications from the heads of the several departments were as follows:

INSTITUTIONS DEPARTMENT.

BOSTON, February 16, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Your approval of awarding a contract to the George A. Lawley & Son Corporation for furnishing

and installing an ice breaker on the steamer "Stephen J. O'Meara" for a sum not to exceed two hundred fifty dollars ($250) is respectfully requested.

In view of the difficulty encountered in reaching Long Island during the recent cold weather I feel that it is very important that an ice breaker should be made a part of the equipment of the boat.

Very truly yours,

F. X. MAHONEY,
Acting Commissioner.

PUBLIC WORKS DEPARTMENT (Bridge Service).

BOSTON, February 14, 1934.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract, without advertising, to the Boston Bridge Works, Incorporated, 47 Winter street, Boston, for the furnishing of labor and materials necessary to the jacking and blocking up of the draw span of the Northern Avenue Bridge to prevent said span from further accident or danger of slipping into the channel, at an estimated cost of $15,000.

The blocking and other material to be used can be valued after repairs are made and used by the Bridge and Ferry Division.

This is emergency work which will not permit of delay in advertising for proposals.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Water Service).

BOSTON, February 16, 1934.

To the Mayor of Boston.

The Water Division of the Public Works Department is meeting conditions today which have not existed since the severe winter of 1917. The sub-zero weather for the past two weeks or more has forced the frost into the ground to a depth of four or five feet, and as a consequence a great number of service pipes have frozen and are freezing.

Up to date the division has thawed out 246 service pipes and have a list on hand of 135 service pipes to attend to, and for the past two or three days are receiving calls at the rate of thirty per day.

The Water Service pipes are thawed out by the use of electrical machines. In addition to the machines, the property of the Public Works Department, we have been obliged to engage three electrical machines from the Edison Electric Illuminating Company. The rental of these machines is at the rate of $165 per day, and at the present time it is estimated that we shall require the services of these machines in addition to our own for a period of at least two weeks.

As this total cost will amount to over one thousand dollars, I respectfully request your permission to make a contract, without advertising, with the Edison Electric Illuminating Company for the rental of their equipment to the amount of approximately twenty-five hundred (2,500) dollars.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Alpheus road, West Roxbury district, as a highway, from Beech street to Bates street, bounded and described as follows:

A highway named Alpheus road is hereby laid out, from Beech street to Bates street, and ordered constructed, the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Beech street, by two measurements, seventy-nine and 76–100 feet and twenty-seven and 9–100 feet; southerly by the southerly line of said Alpheus road as hereby laid out, twenty-four and 59–100 feet on a curve of ten and 14–100 feet radious; easterly by the easterly line of said Alpheus road as hereby laid out, one hundred one and 40–100 feet; southeasterly by the southeasterly line of said Alpheus road as hereby laid out, by two measurements, four hundred fifty and 23–100 feet and five hundred fifty-five and 99–100 feet; again easterly by the easterly line of said Alpheus road as hereby laid out, thirteen and 27–100 feet on a curve of nine and 99–100 feet radius; southwesterly by Bates street, sixty-one and 81–100 feet; northerly by the northerly line of said Alpheus road as hereby laid out, eighteen and 14–100 feet on a curve of ten feet radius; northwesterly by the northwesterly line of said Alpheus road as hereby laid out, by two measurements, five hundred twenty-seven and 67–100 feet, and four hundred twenty-seven and 88–100 feet; and westerly by the westerly line of said Alpheus road as hereby laid out, one hundred forty-three and 33–100 feet and thirty-eight and 63–100 feet on a curve of fifty-two and 42–100 feet radius.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Alpheus road, West Roxbury district, as a highway, from Beech street to Bates street, under the order of the Board of February 14, 1934, and awards no damages therefor.

MAYOR MANSFIELD SENDS MESSAGE OF CONDOLENCE TO BELGIUM UPON DEATH OF KING.

The Mayor has sent the following cablegram to the Royal Palace, Brussels, Belgium:

"In no other place in this country does the memory of King Albert live so strongly as in Boston whose citizens unite with me in expressing their sympathy at this hour.

The memory of his visit, just after the World War, has survived during the long years, and we Bostonians are deeply shocked at his tragic death."

LAND-TAKING IN EAST BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston known as East Boston and are bounded as follows:

A parcel of land, owners unknown, being the private way known as Everett court, bounded:

Southwesterly by Everett street, sixteen feet; northwesterly by the northwesterly line of said Everett court, ninety-seven feet; northeasterly by another part of said court, sixteen feet; and southeasterly by the southeasterly line of said court, ninety-seven feet, containing fifteen hundred and fifty-two square feet, more or less.

The sewerage works to be constructed are as follows: 115 linear feet of 12-inch pipe sanitary sewer.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Everett court will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1127, Sewerage Works, Everett Court, East Boston, January 22, 1934, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

POLICE DEPARTMENT ORDERS.

General Order No. 411.

A trial board consisting of Captains Campbell, McGrath and Daley having heard by reference a complaint made by Edward W. Fallon, captain, Division 6, against Stephen X. Mahoney, patrolman, Division 6, for violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 23d day of January, 1934, the said patrolman Stephen X. Mahoney, while in uniform and on duty at the polling booth in the Gaston School on L street, South Boston, was under the influence of intoxicating liquor to such an extent that he was unable to perform his duties as a police officer,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as pre-

sented, accepts the plea of guilty as made by the said Patrolman Stephen X. Mahoney. The Board having considered that this was election day and Patrolman Mahoney was doing duty in an election booth where he was exposed to the public view and having an important assignment, and also the fact that he had been before the Trial Board on a similar complaint very recently, on which complaint he was suspended from duty for a period of twenty days and sentenced to perform two hundred and ten hours of punishment duty, it would certainly justify the extreme penalty of dismissal from the Police Department, but Lieut. George A. Mahoney, his commanding officer, acting captain, stated that he believed that Patrolman Mahoney had learned his lesson and that he would have no further trouble with him. Patrolman Mahoney also filed a pledge card from his spiritual adviser, and the officer testified that his wife was in a delicate mental condition and since this occurrence she has been sent to a sanitarium by order of a physician. He also testified that he had been up all night long after doing a first watch, attending to the needs of his wife, until he was obliged to report at eight o'clock on election morning, and that during the early morning, while sitting up caring for his wife, he had taken a couple of hot drinks of liquor, and had not partaken of any food. Probably this had a greater effect on him than if he had partaken of food. Added to the fact is the testimony of Deputy Superintendent William W. Livingston, who stated that he had known of the sickness of Patrolman Mahoney's wife, and that he believed that the officer was truthful when he stated that that was the cause of his taking the liquor as a stimulant; also that he thought Patrolman Mahoney was worthy of another chance. The officer also testified that he had been in attendance at court for several days, both long and short, both in the United States Court and in the South Boston Municipal Court, and had lost a great deal of sleep. In consideration of all the above facts the Board respectfully recommends that the said Patrolman Stephen X. Mahoney be suspended from duty for a period of ninety days, effective as of January 24, 1934, at 7.45 a. m."

The Commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman Stephen X. Mahoney be suspended from duty for a period of ninety days, effective as of January 24, 1934, at 7.45 o'clock a. m.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 412.

Sergt. Coleman S. Joyce, Patrolmen Michael J. Dennehy and William A. Cohen, all of Division 1, are commended in General Orders for meritorious police duty performed on January 12, 1934, in connection with the capture of a dangerous character who had committed an armed holdup in Charlestown and was later captured in the North End.

The commissioner is pleased to recognize the courageous and effective manner in which these officers acted in accomplishing this important arrest.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 413.

The resignation of Patrolman William J. Fallon of Division 9 having been presented, it is hereby accepted, to take effect Friday, February 16, 1934, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 414.

The office of biological chemist is hereby created in the department.

The office of the biological chemist will be in the laboratory of the Medical Examiner of the Southern District, 818 Harrison avenue, Boston. The duties of the biological chemist will be to make such tests and examinations as are required of him by the Superintendent of Police and the Medical Examiners of Suffolk County. He shall report in writing on Monday of each week to the Superintendent of Police as to the cases on which he has worked and the general progress of the same.

Mr. Frank Stratton, B. S., is appointed biological chemist for the department, effective Monday, February 19, 1934, at 8.30 o'clock a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 415.

Rule 63 of the Rules and Regulations of this department, having to do with "Dealers in Second-Hand Articles," appearing upon page 216 of said rules, is hereby amended by adding after section 9, on page 218, a new section to be numbered "9A" and to read as follows:

9A. No shopkeeper, holding a second-hand dealer's license from the Police Commissioner, shall permit to be displayed any second-hand furniture or household effects in any open area surrounding or appurtenant to the premises occupied by said licensee.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 416.

A trial board consisting of Captains Campbell, Casey and Daley having heard by reference a complaint made by William Lewis, captain, Division 19, against Joseph R. Madden, patrolman, Division 19, for violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 9th day of February, 1934, at about 8 p. m., while in uniform and on duty, the said Patrolman Joseph R. Madden was under the influence of intoxicating liquor to such an extent that he was unable to perform the duties of a police officer properly,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence presented, accepts the plea of guilty made by the said Patrolman Joseph R. Madden. Deputy Superintendent McDevitt (former commanding officer of Patrolman Madden) recommended that Patrolman Madden be given another chance if the Board could be assured that the officer would refrain from the use of intoxicating liquors in the future. Deputy Superintendent McDevitt also stated that some years ago, while he (Deputy McDevitt) was Patrolman Madden's commanding officer at Division 3, Patrolman Madden was warned about the use of liquor and this warning had a good effect at that time. Captain Lewis made no recommendations, but Lieutenant McDonough said Patrolman Madden is a good police officer and one to whom he has assigned important work. Patrolman Madden has promised the Board that he will take a pledge with his spiritual adviser to refrain from the use of intoxicating liquor in the future, and in view of the fact that this is the first time this officer has been before a trial board charged with a violation of the rules, the Board respectfully recommends that the said Patrolman Joseph R. Madden be suspended from duty with loss of pay for a period of thirty days, effective as of February 10, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Joseph R. Madden be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman Joseph R. Madden be suspended from duty for a period of thirty days, effective as of February 10, 1934, at 7.45 o'clock a. m.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

CHICAGO POLICE.

Although the numerical strength of the Chicago police department has been reduced in the last two years from approximately 6,700 to 6,000, the number of men on foot patrol has been increased 150 per cent, or about 1,900.

PROCEEDINGS OF CITY COUNCIL.

Monday, February 12, 1934.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair. Absent, Coun. Murray and Selvitella.

INFORMATION ON FINANCIAL MATTERS.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1934.

To the Honorable the City Council.

Gentlemen,—I transmit herewith a communication from the Acting City Auditor in reply to your order requesting information on certain financial matters.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Auditing Department, February 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The following information is submitted in reply to order of the City Council passed February 5, 1934, asking certain questions concerning the finances of the city.

1. The assessed value of real estate in the city as of January 1, 1934, after giving effect to all tax reductions granted previous to that date was $1,617,652,900.

2. The total amount of outstanding bonds of the city as of January 1, 1934, was $172,450,999.95.

3. The total amount of the Sinking Funds, as of January 1, 1934, was $36,635,726.81.

4. This question asks for the actual market value of the bonds and investments held in the Sinking Funds. I am unable to answer this question. For the city's purposes the value of the bonds is their par value, as they are usually held until maturity and are paid at their face value unless they are in default.

5. The amount of money borrowed during the year 1933 on short term notes in anticipation of taxes was $50,500,000.

6. The Auditing Department of the City of Boston does not prepare a balance sheet of assets and liabilities. All known liabilities for the year 1933 have been paid, and the only outstanding obligation is $13,500,000 borrowed during 1933 in anticipation of taxes of 1933 and payable during 1934. To offset this obligation of $13,500,000 there are uncollected taxes for the years 1932 and 1933 amounting to about $22,000,000.

Respectfully,
W. J. DOYLE, Acting City Auditor.

Placed on file.

RESCISSION OF LOANS.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1934.

To the City Council.

Gentlemen,—Under date of February 5, 1934, the Emergency Finance Board of the State disapproved certain applications made by the city for loans and grants under the provisions of chapter 366 of the Acts of 1933. In connection with these applications, orders were passed during 1933 by the City Council, and approved by the Mayor, authorizing the issuance of loans for the several projects. In order that the incumbrance placed upon the borrowing power of the city by these orders may be removed I submit herewith orders providing for the rescinding of the same.

I respectfully recommend adoption of the accompanying orders by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the right to borrow $450,000 for new wayfarers' lodge, under loan order passed December 11, 1933, and approved by the Mayor December 12, 1933, be, and the same hereby is, rescinded.

Ordered, That the right to borrow $1,075,000 for new fire houses and departmental buildings, under loan order passed December 18, 1933, and approved by the Mayor December 20, 1933, be, and the same hereby is, rescinded.

Ordered, That the right to borrow $800,000 for new prison buildings, under loan order passed December 18, 1933, and approved by the Mayor December 20, 1933, be, and the same hereby is, rescinded.

Referred to the Executive Committee.

MUNICIPAL EMPLOYMENT BUREAU.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1934.

To the City Council.

Gentlemen,—Under date of January 8, 1934, in requesting an appropriation of $2,000 to continue the activities of the Municipal Employment Bureau for one month, I stated that I had not then decided as to the future of this Bureau. Since that time I have made a personal study and investigation of the activities of this Bureau, and have come to the conclusion that after reorganization the work of the Bureau can be continued at a much reduced cost to the taxpayers. I propose under my plan of reorganization to appoint as head of the Bureau an individual who is qualified by training and experience to handle placement and employment problems. I also contemplate retaining a limited office staff for the Bureau. Under this plan of reorganization the cost of administering the activities of the Bureau will not exceed $10,000 per year, as compared with a maintenance cost in excess of $30,000 in prior years. I submit herewith an order providing for the appropriation of $10,000 to cover the activities of the Municipal Employment Bureau for the balance of the current year. I respectfully recommend adoption of this order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the sum of $10,000 be, and hereby is, appropriated, to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund, when made.

Referred to the Executive Committee.

NEW CITY HALL.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1934.

To the City Council.

Gentlemen,—During the past week there was submitted, at my direction, to the Emergency Finance Board of the State a project providing for the construction of a new city hall at an estimated cost of $1,800,000. It is my intention, provided this project is approved, to have plans prepared for the construction of a modern building on the site of the present City Hall which will be large enough not only to provide for the housing of departments now occupying space in the old building but also for those departments which are at present located outside of the Hall and Annex and for whose quarters the city is obliged to appropriate annually $63,430 for rentals.

In my opinion this is one of the most worthwhile projects in which the city could engage under the terms of the National Industrial Recovery Act, since it will afford employment for a large group in our community which has felt severely the pinch of the long existent economic depression, namely, the members of the building trades.

In conformity with the provisions of chapter 366, of the Acts of 1933, I submit herewith two orders; one providing for approval by the Council of this project; and the other providing for the appropriation of the estimated cost of construction of the new structure.

In view of the limited amount of time which is available for the various steps which must be taken before this project can finally be placed before the Federal authorities in Washington, I respectfully recommend immediate consideration and adoption of the accompanying orders by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That in accordance with the provisions of section 2, Part 1, of chapter 366 of the Acts of 1933, the City of Boston shall engage in the following Public Works project:

Construction of new city hall on site of present structure together with the demolition of the present city hall building at an estimated cost of $1,800,000.

Ordered, That under the provisions of chapter 366 of the Acts of 1933 and acts in amendment thereof or in addition thereto, the sum of $1,800,000 be, and the same hereby is, appropriated, to be expended under the direction of the Superintendent of Public Buildings for a new city hall and demolition of the present structure, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of the city to said amount.

Referred to the Executive Committee.

NEW LOAN ORDERS FOR PUBLIC WORKS PROJECTS.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1934.

To the City Council.

Gentlemen,—Under date of February 2 the Federal Emergency Administrator of Public Works forwarded to me five forms of loan contracts to be executed on behalf of the City of Boston. These contracts related to loans and grants for certain public works projects which have been approved by the City Council. I have been advised by Washington and by the Corporation Counsel that the loan orders pertaining to these projects heretofore passed by your honorable body and approved by my predecessor, former Mayor Curley, are of doubtful validity in view of the inclusion therein of the words "outside the limit of indebtedness." Washington will allow us until March 5 to execute and return the loan contracts above referred to. In order that these loan contracts be properly executed and delivered on behalf of the city it will be necessary to have new loan orders with regard to the projects in question passed and approved before March 5.

I submit, herewith, new loan orders for the several projects and in view of the limited time which remains for their submission to the Federal authorities in Washington, I respectfully recommend that these orders be given a first reading today by your honorable body.

Included in these orders is one for $1,500,000 to cover the estimated cost of the construction of a new surgical building at the City Hospital. I have not been able to finally satisfy myself that it is in the interest of the City of Boston to undertake the construction at this time of this building, in view of the large maintenance costs that are likely to occur after the building is completed. I propose to continue with my examination into this question and will promptly advise you in regard to my ultimate conclusions. In the meantime, however, in view of the possibility that the erection of a new surgical building will be deemed advisable I am, because of the limitation of time previously explained, submitting to your honorable body a loan order for this project.

I, therefore, respectfully recommend immediate consideration and adoption of the accompanying orders by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the sum of $1,000,000 be, and hereby is, appropriated to be expended under the direction of the Commissioner of Public Works for the Reconstruction of Streets, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the sum of $2,000,000 be, and hereby is, appropriated to be expended under the direction of the School Committee for one new high school and one new intermediate school, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the sum of $350,000 be, and hereby is, appropriated to be expended under the direction of the Commissioner of Public Works, for Replacement of the Brookline Avenue Water Main, from the Brookline line to Beacon street, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the sum of $1,500,000 be, and hereby is, appropriated to be expended under the direction of the Hospital Trustees, for New Buildings and Alterations and Equipment, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the sum of $1,000,000 be, and hereby is, appropriated to be expended under the direction of the Commissioner of Public Works, for the Construction, Reconstruction and Replacement of Sewers and the Covering of Open Water Courses, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the sum of $700,000 be, and hereby is, appropriated to be expended under the direction of the Commissioner of Public Works for Water Main Construction, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to Executive Committee.

FINANCE COMMISSION REPORT ON SETTLEMENTS FOR LAND-TAKINGS.

The following was received:

City of Boston,
Finance Commission, February 12, 1934.

To the Honorable the Mayor and City Council.

Gentlemen,—The Finance Commission submits the following report in reply to an order adopted by the City Council on December 18, 1933, requesting investigation of the settlements made by the Law Department for land takings for the approach from Haymarket square to the East Boston Traffic Tunnel.

During the period that Malcolm E. Nichols was Mayor the Legislature authorized the construction of this tunnel and by chapter 297 of the Acts of 1929 authorized a bond issue of $16,000,000 to pay for it.

This tunnel project had appeared in the plans for an intermediate highway, so called, for which legislative authority had been sought in 1924 and subsequently denied in 1926, after a special commission had reported upon it.

While action upon the intermediate highway legislation was pending and at a time when its sponsors believed authority would be given for it, real estate speculators took options on scores of parcels on the line of the contemplated improvement. Many thousands of dollars were sacrificed by the speculators when they decided, on the expiration of their options, that there was little possibility of the improvement being authorized. Many more thousands of dollars, however, were invested in some of the parcels by the speculators when, upon the expiration of their options, they decided to take over title to them and necessarily paid in more money.

Accordingly, when the East Boston Traffic Tunnel was finally authorized in 1929, real estate speculators were already in possession of many parcels in the vicinity of the Boston approach and terminus.

Coincident with public announcement of the adoption of a tunnel plan by the Nichols administration in 1929 came the discovery by the Finance Commission that many more parcels had been taken under option by the speculators. Most of these were within the lines of this Nichols tunnel entrance plan. The Finance Commission opposed the consummation of this plan on three grounds: (1) that it provided for a tunnel with a bend (2) that apparently the stage was all set for heavy damage costs to speculators for land takings, and (3) that the plan brought the Boston exit of the tunnel out north of Hanover street at about the junction of Cross and Salem streets which, in the opinion of the Finance Commission, and its technical advisers, would not best serve the intended purposes.

On the technicality that the consummation of this plan could not be accomplished within the authorized amount of money, a ten taxpayers' suit was brought in the courts. This held up final action until the Nichols administration expired.

Under the Curley administration in 1930 a radical change in the proposed line of the tunnel was made. This change brought the Boston exit out on Cross street south of Hanover street, and between Hanover and North streets, and necessitated a new street widening on North street as an approach from the south of the entrance.

According to the best opinion obtainable at the time, the construction of the tunnel in accordance with this plan would take up the entire amount of the authorization of $16,000,000. Some of the parcels already held by the speculators lay within the lines of this plan, but the bulk of the parcels gathered previously by the speculators was outside the line of the improvement. A number of new parcels were thereupon added to their holdings these being within the lines of the widening of North street and Cross street toward Commercial street.

Within a short time thereafter there appeared in the Legislature a new drive for the construction of the circle in Haymarket square and the widening of Cross and Merrimac streets as an approach to the tunnel from the northerly side. Most of the land involved had been included in the original Nichols tunnel plan. This drive had the support of those who had been prominent in the activity for the intermediate highway legislation.

The sponsors sought legislative authority to spend $4,500,000 for this addition, but the Legislature cut the amount to $3,000,000 by chapter 287 of the Acts of 1932.

A highway from the North Station through Beverly street, across Washington street and along Cross street to the market district had been the dream of promoters of civic improvements for half a century previous to 1925, but at no time had there been sufficient agitation for it to affect property along the line of the improvement. On the other hand, agitation first in 1925–26 for the intermediate highway, then in 1928–29 the Nichols East Boston Traffic Tunnel plan, and approach thereto; then, in 1930 the Curley plan, and finally in 1931–32 the Merrimac street-Haymarket square approach to the tunnel was vigorously carried on in City Hall, at the State House and in the newspapers for five or six years.

All this agitation had a very damaging effect upon the owners of property in this particular section. Prospective buyers were plentiful, but with offers that could not be considered unless for some reason the owner had to sacrifice his investment. Leases expired and the owners could not obtain renewals. Tenants moved out and no new tenants could be found, but very often tenants who remained, as well as those who moved out, stopped paying rent. Much of the property became vacant and suffered from petty pilfering. Great loss was caused to owners who had an investment that they wanted to keep and very often derived a living from. The interest on their mortgages, the premiums on their insurance policies, the taxes imposed by the city, and the custodial charges had to be paid just as though the income had not been affected. During this period the assessors made little or no change in the valuations and continued to assess taxes against the parcels, whether occupied or not, on the same basis as when most of them were paying parcels.

There were other parcels, however, which had deteriorated in value from causes not connected with these agitations. Parcels on North street, then in the hands of trustees for large estates had been permitted to fall into disrepair and because of this condition were unattractive either to possible tenants or purchasers. Those in charge of them were ready to sell at any price, and when conditions looked right speculators appeared on the scene and obtained title for an absurdly small sum.

Obviously settlement for taking of the general group of these parcels on a flat 10 per cent in excess of the assessed value was a great benefit to some and a hardship to others. If the speculators' parcels were taken and paid for within a reasonably short time, the speculators benefited, but if the parcels were taken and not paid for for a long time after taking, the advantage of purchase at a low price was chipped away as time went on, and the owner who saw a paying investment become a white elephant on his hands lost more and more.

Some speculators made handsome profits on the early takings; some saw the profits melt by procrastination in settlement of the later takings. Other owners were relieved to have the city take and pay assessed value plus 10 per cent because it provided them with a means of "getting out from under" unwise or unfortunate mortgages; but the Finance Commission has found some, and the commission believes there are some others whose cases have not yet been disposed of, who were compelled to give up paying investments that they were content to hold, tunnel or no tunnel.

The Finance Commission has prepared a list of the parcels included in the latest taking, viz., Merrimac street widening, Haymarket square circle, and Cross street widening. Though the actual taking was as of June 1, 1933, when the Curley administration went out of office on January 1, only twelve of twenty-nine parcels had been paid for.

An examination of the cases settled disclosed that the majority of them were the "speculators'" cases; in fact, only one owned by a recognized speculator has not been paid for; and also that the percentage of excess of valuation paid ranged from approximately 33 per cent down to 10 per cent.

The Finance Commission has examined either the owner of the equity or the attorney who secured the settlement in all twelve cases. None

went to trial in court, but all twelve were settled within the last fifteen days of the Curley administration. The commission believes the facts to some extent speak for themselves and submits them accordingly as an appendix.

The Finance Commission understands that no land-takings, except one or two for school purposes, are in prospect for the near future. It realizes that many already taken have yet to be paid for.

To stop further losses by the individuals who own the parcels already taken, consideration of which losses will, and unquestionably should, be reflected in the agreements of damages to be paid, the commission recommends that the docket be speedily cleared. Before any further takings for any purpose are made, the Finance Commission believes that the city should work out a method which will safeguard the general body of taxpayers against having to pay excessive prices for land, and at the same time protect individual owners from the ravages caused by long continued agitations for improvements and long-deferred settlement of just claims arising from consummation of improvements.

There is now on the statutes a permissive act, chapter 380 of the Acts of 1929, called the "Alternative Method of Land Takings," which in brief authorizes the city to abandon takings if a fair price can not be agreed upon between city and owner. The Finance Commission believes the principle of this act should be made mandatory, instead of permissive and recommends that your Honor institute the steps necessary to make it so.

Respectfully submitted,
FRANK A. GOODWIN, Chairman,
JOSEPH A. SHEEHAN,
JOSEPH JOYCE DONAHUE,
CHARLES M. STOREY,
THE FINANCE COMMISSION.

That the right to borrow $450,000 for new Wayfarers' Lodge, under loan order passed December 11, 1933, and approved by the Mayor December 12, 1933, be, and the same hereby is, rescinded.

That the right to borrow $1,075,000 for new firehouses and departmental buildings, under loan order passed December 18, 1933, and approved by the Mayor December 20, 1933, be, and the same hereby is, rescinded.

That the right to borrow $800,000 for new prison buildings under loan order passed December 18, 1933, and approved by the Mayor December 20, 1933, be, and the same hereby is, rescinded.

The reports were accepted, and the question came on the passage of the orders.

Coun. WILSON—Mr. President, perhaps a word of explanation is advisable in reference to these various orders and, while perhaps it is not a part of the report of the committee, certainly many members of the Council feel that the public should be advised as to the position of members in this matter, with the present public works situation in the City of Boston. As long ago as August 7, 1933, Mayor Curley asked the Council to approve requests totalling $23,500,000, under the President's public works program. The Council approved some $21,000,000 of projects but the State Emergency Finance Board cut down and restricted the amount to $10,000,000. The city then suggested the expenditure of $10,300,000. The Board has approved $5,850,000. Our advices from Washington say that $10,500,000 and some odd have been O.K.'d for the City of Boston. So we come to this position today. The Mayor sends in a proposed change in the program of public works projects, as far as the City of Boston is concerned. He repeats six projects which were passed and approved by the previous Council and by Mayor Curley, totalling $6.550,000, and he proposes three brand new projects aggregating $3,150,000, and the Council today is in this position. We are advised that these projects must be approved by the Council and approved by the Mayor and approved here in Massachusetts and sent on to Washington not later than the 5th of March. With the two readings that are necessary we must, as a matter of fact, vote today affirmatively for all these projects, aggregating $9,700,000. Two weeks from today we will be called upon to vote again, giving the second reading to these various projects. Therefore, in the meeting of the Executive Committee today all the members of the Council, without exception, reserved their right to vote either for or against on the second reading. The only purpose of voting affirmatively on these projects today, aggregating $9.700,000, is in order that two weeks from today the Council may be in a position to approve or disapprove of the items. Therefore, the committee has reported back "Ought to pass" on that distinct understanding. I might also make a statement concerning the rescinding of previous orders. Those cover the $450,000 for the Wayfarers' Lodge, the item of $1,075,000 for new fire houses and $800,000 for the Deer Island project. Those projects last year, after much discussion, were approved by the City Council and approved by Mayor Curley. The votes were passed by the City Council at two successive meetings. In order to be effective, the three projects have to be approved by the State Emergency Finance Board. The State Emergency Finance Board refused to approve the expenditure of the money for the Wayfarers' Lodge, the new fire houses and the Deer Island project. We have no alternative, therefore, other than to rescind our vote on those three loan orders. Otherwise, these loans, previously voted for, will appear among the obligations of the city as loans authorized but not issued, and would have no effect other than to restrict the borrowing power of the City of Boston. For that reason alone, therefore, the Executive Committee of the City Council reports back as it has today in order not to hamstring and restrict the borrowing power of the city. With that object in view, we have voted in favor of rescission of those three items. On the others we have voted "Ought to pass," each member reserving his right two weeks from today to vote for or against each one of the items listed.

President DOWD—The question is on the passage of all the loan orders, and the clerk will call the roll.

All the orders as reported by the committee were passed, yeas 20, nays 0.

President DOWD—The orders have received their first reading and will come up for their second and final reading two weeks from today. The Chair will now state that the following loan orders will be referred back to the Finance Committee: The $1,000,000 for reconstruction of streets, $2,000,000 for new school buildings, $350,000 for Brookline avenue water mains, $1,500,000 for new surgical building, $1,000,000 for reconstruction of sewers, $700,000 for reconstruction of water mains, and $1,800,000 for new City Hall.

3. Report on message of Mayor and order (referred today) for appropriation of $10,000 for Municipal Employment Bureau—recommending the passage of the accompanying new draft, viz.:

Ordered, That the sum of $2,000 be, and hereby is, appropriated to be expended by the Municipal Employment Bureau, under the direction of the Mayor. in the prosecution of its duties, said sum to be charged to the Reserve Fund, when made.

The report was accepted, and the question came on the passage of the order in the new draft.

Coun. ROBERTS—Mr. President, I would like to make my position clear on this matter. The order which was before us in executive session was for $10,000, and I made my motion in committee to reduce it to $2,000 in order that we might have an opportunity to see what the new bureau as at present constituted is able to do for the city. During the past two years several members of the Council have made a fight to abolish this bureau, for the reason that we felt that it did not do enough to justify its expense. I understand that at the present time practically all the old bureau has gone, including some people who did pretty consistently good work. We do not know about the present personnel, and, while I do not oppose the order on the theory that his Honor the Mayor is going to appoint somebody at the head of the bureau who is not a resident of Boston, because I don't know whom he intends to appoint, and I understand he has not yet appointed anybody, I do feel that if we appropriate the $2,000 it will give them two months to function, during which time they should be able to show what they can do, and they can then come in for more money if they are entitled to it.

Coun. NORTON—Mr. President, I have voted against all orders to furnish money to the Employment Bureau, feeling that that bureau has never justified its existence. The matter of employment is handled here by the Federal Government and by the state government. I respectfully submit that this so-called employment bureau, which it is now proposed to operate at an expenditure of $12,000 a year, will probably not be an employment bureau at all, but simply, what it has been in the past, a receptacle for favored politicians.

The order in the new draft was passed, yeas 19, nays—Coun. Norton—1.

FINANCE REPORTS.

Coun. GREEN, for the Committee on Finance, submitted the following:

1. Report on message of Mayor and orders (referred January 29), of $1,000,000 each for sewerage works and reconstruction of streets, recommending the passage of the accompanying new drafts, viz.:

Ordered, That under the provisions of chapter 426 of the Acts of 1897, as amended by chapter 204 of the Acts of 1908 and chapter 178 of the Acts of 1930, the sum of $250,000 be, and hereby is, appropriated to be expended under the direction of the Commissioner of Public Works for sewerage works, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Ordered, That the sum of $250,000 be, and hereby is, appropriated to be expended under the direction of the Commissioner of Public Works for Reconstruction of Streets, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

2. Report on message of Mayor and orders (referred February 5) that in accordance with the provisions of section 2, part 1, of chapter 366 of the Acts of 1933, the City of Boston shall engage in the following public works projects:

a. Reconstruction and replacement of Northern Avenue Bridge at an estimated cost of..... $1,000,000
b. Establishment of a modern and efficient police communication system at an estimated cost of... $350,000

Order for a loan of $1,000,000 for Northern Avenue Bridge; order for a loan of $350,000 for Police communication system—that the orders ought to pass.

Coun. GREEN—Mr. President, for the Committee on Finance, I am here reporting a redraft of the sewer loan and the street construction loan orders originally introduced for $1,000,000 each, and referred to our committee, this redraft being made at the request of the Mayor. I wish also to state that 90 per cent of the sewer pay roll comes out of this $250,000. I am also reporting back two public works projects, under the provisions of the Industrial Emergency Act, one of $1,000,000 for the Northern Avenue Bridge, and the other $350,000 for police communication and radio. I might say that the committee of the whole Council in executive session today voted on these two orders to reserve their rights as to their final vote on the second reading, and that it was the wish of the chairman of the Committee on Finance and other members of that committee that these orders should be referred back to our committee.

The reports were accepted.

The orders submitted by the Mayor on January 29 for $1,000,000 each for sewerage work and reconstruction of streets were rejected and the orders submitted in new draft for $250,000 each were read once and passed, yeas 20, nays 0.

The orders for Northern Avenue Bridge and Police communication system were given their first reading and passage, yeas 20, nay 0.

The orders will come up for their second reading and passage in not less than fourteen days.

President DOWD—The Chair will state that Coun. Wilson's remarks with regard to the orders reported today from the Executive Committee, to the effect that all the members reserve their right to change their minds before the second reading two weeks from today apply to these two orders as well and they will be recommitted to the Committee on Finance.

CONFIRMATION OF EXECUTIVE APPOINTMENT.

President DOWD called up under unfinished business No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor February 5, 1934, of Richard J. Moore, Roe Augusta and Thomas Flaherty, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Agnew and Green. Whole number of ballots, 20, yeas 20, and the appointments were confirmed.

MASSACHUSETTS GENERAL HOSPITAL PROPERTY, NORTH GROVE STREET.

Coun. FITZGERALD offered the following:

Ordered, That his Honor the Mayor direct the City Auditor to report to the City Council the following information:

First. On what date did the Massachusetts General Hospital take title to the land and buildings on North Grove street?

Second.—The amount of money received?

Third.— What disposition has been made of the money turned over to the City Treasurer?

Passed under suspension of the rule.

ADDITIONAL AMOUNTS FOR WARD MUNICIPAL BUILDING.

Coun. FITZGERALD offered the following:

Ordered, That his Honor the Mayor direct the Superintendent of Public Buildings to include in his budget for 1934 a sum sufficient to complete the additional story which was included in the original plans for the Blossom Street Wardroom and Municipal Building in Ward 3 on Blossom street.

Passed under suspension of the rule.

PRESCRIPTIONS IN SOLDIERS' RELIEF.

Coun. BRACKMAN offered the following:

Ordered, That his Honor the Mayor be requested to instruct the Soldiers' Relief Commissioner to re-establish the system formerly practised in that department, namely, of issuing prescriptions for medicines to recipients of soldiers' relief who are sick or under medical care.

Passed under suspension of the rule.

PAYMENT TO LOUIS KATZ.

Coun. GOLDMAN offered the following:

Resolved, That the City Council of Boston hereby favors the enactment of legislation authorizing the payment of a sum of money to Louis Katz.

Passed under suspension of the rule.

NORFOLK STREET, WARD 9.

Coun. GLEASON offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Norfolk street entire length, both sides, Ward 9, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Norfolk street, Ward 9.

Severally passed under suspension of the rule.

WREATH FOR LINCOLN MEMORIAL.

Coun. GLEASON offered the following:

Ordered, That the members of the City Council subscribe for a suitable wreath in honor of Abraham Lincoln, the great liberator of the slaves, and that the President of the City Council appoint a committee of five to march up and place this wreath on the base of the Lincoln Memorial at Park square.

Passed under suspension of the rule.

The President appointed as said committee Coun. Gleason, Brackman, Kerrigan, Green and Norton.

P. W. A. FIREHOUSE FOR ENGINE 44.

Coun. DONOVAN offered the following:

Ordered, That his Honor the Mayor be requested to consider the advisability of including in his P. W. A. program a sum sufficient to provide for the erection of a new firehouse for the crew of Engine 44 (fireboat).

Passed under suspension of the rule.

ARC LIGHT ON WHITNEY STREET, WARD 10.

Coun. DOHERTY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light in front of Nos. 5 and 7½ Whitney street, Ward 10.

Passed under suspension of the rule.

BETTER LIGHTING FOR PORTLAND STREET.

Coun. FITZGERALD offered the following:

Ordered, That his Honor the Mayor direct the Commissioner of Public Works to install a better lighting system on Portland street, Ward 3.

Passed under suspension of the rule.

FILLING OF POLICE DEPARTMENT VACANCIES.

Coun. WILSON offered the following:

Ordered, That the Police Commissioner, through his Honor the Mayor, be, and he hereby is, respectfully requested to fill a substantial number of the admitted vacancies now existing in the Police Department, but, in any event, if such appointments are delayed until July 1, to provide for an extension of the present civil service list until such time.

Coun. WILSON—Mr. President, at the hearing at which the Police Commissioner appeared before the Finance Committee last week, it was admitted by the commissioner that the Boston Police Department is some 200 patrolmen short at the present time. This order is offered in no spirit of criticism, but merely with a feeling that the men on the existing list, having passed a very rigid mental and physical examination almost two years ago, and many of them World War veterans, who next summer will perhaps be thirty-five years of age, should in fairness be considered in at least partially filling the vacancies existing in the department. I feel that in fairness at least half of the present shortage of 200 men should be filled before any new examination is held. I understand that the Civil Service Commission will, on the request or with the approval of the Police Commissioner, extend the existing list until next July, for example, and I strongly urge—making the suggestion, as I say, with no resentment but merely as a constructive suggestion—that the Police Commissioner in his proposed appointments to fill or partially fill existing vacancies, and perhaps waiting until July 1 before doing so, will cooperate with the Civil Service Commission and give those men who passed the rigid examination some time ago and who have held their places on the present list an opportunity to fill those vacancies for which they took the examination. It seems to me this is only a fair proposition under all the circumstances.

The order was passed under suspension of the rule.

DUNLAP STREET—ONE-WAY.

Coun. WILSON offered the following:

Ordered, that the Traffic Commission, through his Honor the Mayor, be, and said Board hereby is, requested to designate Dunlap street, Dorchester, as a one-way street.

Passed under suspension of the rule.

HEALTH UNIT FOR DORCHESTER.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to consider the advisability of a health unit in the Dorchester district, such health unit to be conveniently and centrally located.

Passed under suspension of the rule.

APPROPRIATION FOR DORCHESTER DAY.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to include in his annual budget for public celebrations a reasonable allowance for the annual celebration of Dorchester Day in June, 1934.

Passed under suspension of the rule.

BOSTON PUBLIC LATIN SCHOOL ANNIVERSARY.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to arrange for a proper participation by the City of Boston in the three hundredth anniversary to commemorate the founding of the Boston Public Latin School in 1635, and the first public school in America.

Passed under suspension of the rule.

OPPOSITION TO ST. LAWRENCE WATERWAY.

Coun. NORTON offered the following:

Ordered, That the Boston City Council go on record as opposed to the so-called St. Lawrence waterway plan.

Referred to Committee on Rules.

CARE OF DISCHARGED LONG ISLAND INMATE.

Coun. NORTON offered the following:

Ordered, That his Honor the Mayor be requested to consider the advisability of making proper provision for the care of the inmate recently discharged from Long Island until a proper settlement has been established.

Passed under suspension of the rule.

Adjourned at 5.02 p. m., on motion of Coun. GOLDMAN, to meet on Monday, February 19, 1934, at 2 p. m.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

All samples of gasolene will hereafter be sent to the new location.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

FIRE ALARM DIVISION WORK.

The Mayor has approved the following request of the Fire Commissioner:

BOSTON, February 16, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Receipt is acknowledged of your Honor's circular letter No. 3 concerning the payment of overtime to city employees in various divisions.

The Fire Alarm Division of this department presents a situation which has been given considerable study many times in the past. It is absolutely necessary, for the protection of life and property in the community, to maintain an emergency crew on duty twenty-four hours a day in the construction force of the Fire Alarm Division. They receive extra compensation on Sundays and holidays. The men working on these days receive time and one half for the time they work. As the men are paid on the basis of six days a week, this amounts to a day and one half extra for each man who works on Sunday and one half a day extra for each man who works on a holiday, as employees of the city are paid for holidays whether they work or not.

The work is evenly distributed among a group of men and the same men do not receive overtime every week. The emergency crew works in three eight-hour shifts with two men on each tour of duty. The amount of money paid for overtime averages approximately $47 a week at the reduced rate of pay and about $55 a week at the scale without the reduction. In 1933, $2,787.39 was expended in this item.

No other employees of the Fire Department receive pay for overtime but if an emergency arises requiring overtime work, the time is made up to them in accordance with the plan outlined in your Honor's circular.

These emergency men in the Fire Alarm Shop are kept on duty for the purpose of making immediate repairs in any breakdown in the Fire Alarm notification system. If a box is put out of order during the night hours, it is liable to put a whole circuit out of commission. The department receives immediate notice of such an accident and this emergency crew responds to put the circuit back in commission as soon as possible.

Because the nature of this work requires men who are familiar with the system, and because the allowing of time off to compensate them for overtime would seriously interfere with the conduct of business in the department, I respectfully request your Honor's approval to continue with the present program.

Yours very truly,

EDWARD F. MCLAUGHLIN,
Fire Commissioner.

LAND-TAKING IN EAST BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Butler avenue, East Boston district, as a highway, from Bayswater street westerly, with the name of Barnes avenue or some other distinctive name, bounded and described as follows:

An extension of the highway named Barnes avenue is hereby laid out westerly from Bayswater street for a distance of three hundred and thirty feet, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Bayswater street, fifty feet; southerly by the southerly line of said extension of said Barnes avenue as hereby laid out, three hundred and thirty feet; westerly by the westerly line of said extension of said Barnes avenue as hereby laid out, fifty feet; and northerly by the northerly line of said extension of said Barnes avenue as hereby laid out, three hundred and thirty feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of an extension of Barnes avenue (formerly Butler avenue), East Boston district, as a highway, westerly from Bayswater street for a distance of three hundred and thirty feet, under the order of the Board of February 16, 1934, and awards no damages therefor.

CITY OF BOSTON.

TRANSIT DEPARTMENT.

PROPOSALS FOR INSTALLING HIGH TENSION CABLES, TRAFFIC TUNNEL.

The Transit Department of the City of Boston, 1 Beacon street, invites proposals for installing high tension cables, Traffic Tunnel. Plans and specifications may be obtained on or after Tuesday, February 20, 1934, at the office of the Department. The bids will be publicly opened and read at 12 o'clock noon, Monday, March 5, 1934. PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING HULL, ETC., OF FERRYBOAT "CHARLES C. DONOGHUE."

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing hull, etc., of ferryboat "Charles C. Donoghue." A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Ferryboat 'Charles C. Donoghue'," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Monday, March 5, 1934, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

C. J. CARVEN,
(Feb. 24.) *Commissioner of Public Works.*

CITY OF BOSTON.

FIRE DEPARTMENT.

PROPOSALS FOR THE PURCHASE OF OLD MATERIAL.

The Fire Commissioner of the City of Boston invites sealed proposals for the purchase of the following old material, located at the Fire Alarm Shop, Fire Department, 11 Wareham street:

Old lead cable.
Old iron.

Prospective bidders may see and examine this old material at any reasonable hour prior to the hour for the opening of the bids. Proposals must be made giving a price per pound or a price per hundredweight, accompanied by a certified check for four hundred (400) dollars, made payable to the City of Boston, and must be deposited at the office of the Fire Commissioner not later than 12 m. Thursday, March 1, 1934, at which time they will be publicly opened and read. The proposal must be made in duplicate, the one with the check to be submitted as indicated above, and the other to be deposited with the City Auditor, City Hall, previous to the time named for opening the bids. The check of the successful bidder will be retained until the material is removed and weighed, when adjustment will be made of the amount due the city. All materials must be removed by the successful bidder within ten days of the acceptance of his proposal, and he must be prepared to pay immediately for any amount of material taken in excess of the advertised amount covered by the certified check. The Fire Commissioner reserves the right to reject any or all bids or to award the contract as he deems best in the interest of the city.

MAYOR THANKED FOR HONORING FREDERICK DOUGLASS.

The Mayor's office was, on February 17, in receipt of the following letter from the Massachusetts Colored Democratic Organization of Massachusetts:

683 Shawmut Avenue,
Roxbury, Mass.,
February 16, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

MY DEAR MAYOR,—On behalf of the Massachusetts Colored Democratic Organization of Massachusetts may we express our appreciation for the deserving consideration given to the greatest man of our race, the Hon. Frederick Douglass, for services rendered to humanity.

Like Sumner and other great emancipators he lived and died to liberate human slavery. And we are proud to know that although he has crossed the bridge of yesterday, he still lives in your Honor's memory.

Again we thank you and we sincerely hope that you, too, may live long and be of service to your country.

Sincerely yours,
DAVID J. KENNEY,
President.
HOMER C. JARRATT,
Vice President.
WILLIAM WORTHY,
Secretary.

The owners, John F. and Mary Sullivan, 65 Baldwin street, Charlestown, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 39 Rutherford avenue, Ward 2, is in a dilapidated condition, side walls falling in, roof badly sagged, open on side and a fire menace. The owner, James F. McCarthy of 7 Adams street, Charlestown, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 172 Norfolk avenue, Ward 8, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Ethel Palladino of 56 Irving street, West Medford, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint, and she informs us that she is financially unable to repair the building.

The building at 170 Norfolk avenue, Ward 8, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Ethel Palladino of 56 Irving street, West Medford, has been notified of the unsafe condition of the building but nothing has been done to remove the cause of complaint, and she informs us that she is financially unable to repair the building.

The building at 147 Eustis street, Ward 8, is in an unsafe and dangerous condition, dilapidated and a fire hazard. Unable to locate the owner of record, Mary J. Tucker, but a notice of the unsafe condition has been posted on the external wall of the building, and nothing has been done to remove the cause of complaint.

The building at 174 Norfolk avenue, Ward 8, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Ethel Palladino of 56 Irving street, West Medford, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint, and she informs us she is financially unable to repair the building.

The building at 105 West Second street, Ward 6, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, James Rafferty of 101 West Second street, South Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 418 Amory street, Ward 11. A fire occurred some time ago, the roof was partially destroyed. Nothing done to repair same. At present it is a fire menace, glass and sash out, open to wind and weather. The owner, Robert P. Curley of 21 King street, Roxbury, was notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 9 Lincoln street, Ward 2, is in a dilapidated condition, windows all broken, rear wall of main building, clapboards and casings gone, rear ell roof rotted, wood stairs falling down. The owner, Freda Millman of 75 Willowwood street, Dorchester, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 99 and 101 Northampton street, Ward 8, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Joseph Silk of 168 Humboldt avenue, Roxbury, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 97 Northampton street, Ward 8, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Joseph Silk of 168 Humboldt avenue, Roxbury, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, MARCH 3, 1934. NO. 9

MAYOR MANSFIELD ASSAILS, AS ENEMIES OF THE GOVERNMENT, THOSE WHO "TALK RED" IN PROPAGANDIST EFFORTS TO SPOIL OR RETARD COUNTRY'S INCREASING PROSPERITY AND CLIMB OUT OF DEPRESSION RUTS—WARNS, IN RADIO BROADCAST, AGAINST PUBLIC HEED TO ANY MOUTHINGS OF SUCH AS WOULD REJOICE TO SEE SOME SOCIAL CATASTROPHE BEFALL OUR LAND—URGES CONFIDENT SUPPORT FOR PRESIDENT ROOSEVELT AND FEDERAL AS WELL AS LOCAL GOVERNMENT.

In his regular weekly broadcast from City Hall Station on February 26, Mayor Mansfield spoke as follows:

Events of the past week, both national and international, are of such a character as to cause unrest. In Paris the rioting mobs brought back memories of the Bastille, and the turmoil in Austria added to the confusion of European affairs. The perplexities of international politics adds to the unsettlement that seems to be rampant throughout the world.

In our country we have been free of the scenes that have marred the European capital, although we have been passing through a critical era of industrial depression. In Sunday's papers, however, in the story of the cancellation of air mail contracts, we read speeches made in Congress that will cause the great body of our people to wonder; statements to the effect "that the action of the Postmaster-General will go down in history, written in the blood of young army fliers, and the administration is accused of legalized murder."

I shall not attempt to discuss the pros and cons of the cancellation of the contracts, but the utterances of such statements at the present moment, to my mind, are highly inflammatory. At the present time, I am firmly convinced that reason, and not rancor or clamor, should show us the way out of our present trouble, especially so because I am convinced that certain factors show that we are on the road to industrial recovery.

This country, of course, has suffered during the past four years in ways known to us all, and consequently there is no need to review them here. The Government, however, has undertaken a Herculean task, which at least merits the support of all thinking citizens.

Outstanding Works.

Let me state in a few sentences some of the outstanding undertakings of the National Government to start the industrial machine on the road of recovery. This statement, of course, will not be complete, but it will include the big undertakings, such as the Reconstruction Finance Corporation has loaned millions to the railroads on the principle that they are the arteries of trade within our borders and that this money will not only protect the men who work on the road, but sustain the very life blood of our nation.

The same corporation supported the banking structure of our country, protecting the depositors and investors at a time when chaos seemed imminent.

The Government has answered the appeal of the farmers for protection, and the credit of our country has been used to bring that great mass of our workers out of what might be called the "slough of despair."

Recently we had a wonderful experiment that the National Government has tried through the Civil Works Administration, putting millions of our unemployed to work during the cruel winter months, when lack of employment might have brought on starvation, or at least much suffering.

The Public Works Administration is almost ready to take up the slack occasioned by the discontinuance of the Civil Works Administration, and our government has gratuitously offered to meet 30 per cent of the expense of millions upon millions of public expenditures in the endeavor to stem the tide of unemployment.

The great mass of our citizens realize perhaps for the first time in the history of our country, that the national resources have been used, if not primarily, at least importantly, for the sake of helping those who, through no fault of their own, have been without means of subsistence. Personally, I call it one of the noblest experiments in the history of our country and our citizens as I know them will not be deceived by the claptrap and the propaganda that is and has been uttered against these manifestations of regard for the millions of our workers.

Decries Evil Propaganda.

Firmness of mind is important these days when propaganda is uttered for the purpose of inflaming the people. I have a particular reason for making such a statement at this time, which I will presently unfold to you. I am convinced that at least a turn has come in the industrial depression that warrants a firm support of our country.

MAYOR MANSFIELD ABANDONS PLANS FOR NEW CITY HALL AT PRESENT BUT LISTS FOR CITY COUNCIL ACTION, AMONG OTHER P. W. A. PROJECTS, THE PROPOSAL FOR A NEW SURGICAL UNIT BUILDING AT CITY HOSPITAL —STATEMENTS ACCOMPANYING LOAN ORDERS PRESAGING PROMPT UNDERTAKING OF WORKS IN ORDER TO KEEP CITIZENS IN EMPLOYMENT AND PROSPERITY CONTINUING ITS ADVANCE.

Mayor Mansfield has addressed communications to the City Council in which he announced his decision to withdraw the loan order looking to the provision of funds for a new City Hall at this time. Instead he has informed the Council of a list of P. W. A. projects in which he is interested, in which is included plans for a new surgical building at the City Hospital. The communications, together with one from the trustees of the City Hospital, are as follows:

February 26, 1934.

To the City Council.

GENTLEMEN,—By direction of the Executive Committee of your honorable body a letter dated February 15 was addressed to me to ascertain whether or not I had made any decision in regard to retaining in the list of P. W. A. projects a new surgical building for the Boston City Hospital. In reply I beg to state that I shall approve a loan order for the carrying out of this project if such an order is passed by the Council.

Respectfully,

FREDERICK W. MANSFIELD, *Mayor.*

February 26, 1934.

To the City Council.

GENTLEMEN,—I wish to withdraw the loan order which I sent to you on February 12, 1934, for a new City Hall, or if it may not be withdrawn, to ask you to reject it.

I am fully satisfied that a new City Hall is as necessary as any public work which Boston could contemplate at this time, and, in addition to that, that it would more than pay for its maintenance in economies effected by the saving of rentals now paid for private buildings in which city departments are housed.

Information from officials in Washington, however, indicates that the $1,500,000 which has been allotted to the City of Boston for the erection of a surgical building cannot be applied to any other Public Work project. In other words, a new City Hall cannot be substituted for the surgical building, and the only way in which a new City Hall can be provided for among the P. W. A. projects will be to add it to those already contemplated. This would entail such a serious addition to the funded debt of the city that I cannot approve of a program which would include both projects at the present time.

It is therefore necessary to choose between the surgical building and the City Hall. If the City Hall project be chosen as the one with which we are to proceed we will not obtain the $1,500,000 which has now been allotted to us for the hospital project and I am advised by officials at Washington that the likelihood of an allotment for the new City Hall is slight, because of limited funds, until there is a further appropriation by the Congress of funds for public works.

Whether or not such an appropriation will be made and whether, if made, we will receive adequate funds for the construction of a new City Hall is not certain. In view of the pressing importance at this time of increasing opportunities for employment and in view of the fact that I am advised by the Board of Trustees of the City Hospital that a new surgical building is a pressing necessity I recommend that your honorable body pass the loan orders now before you with the exception of the loan order authorizing borrowing for a new City Hall.

Respectfully,

FREDERICK W. MANSFIELD, *Mayor.*

OFFICE OF THE MAYOR,
February 26, 1934.

To the City Council.

GENTLEMEN,—As I advised your honorable body on February 19, 1934, when I submitted for your examination and consideration a specimen copy of one of the proposed loan and grant agreements between the United States of America and the City of Boston, I have been informed by the Federal Emergency Administrator of Public Works that the five agreements relating to the five projects heretofore approved must be properly executed and delivered to the Administrator at Washington not later than March 5, 1934, if the city is to proceed with these projects. These loan and grant agreements relate to the following five Public Works projects:

1. Reconstruction of streets at an estimated cost of $1,000,000.

2. Construction of one new high school and one new intermediate school at an estimated cost of $2,000,000.

3. Replacement of Brookline avenue water main at an estimated cost of $350,000.

4. Construction of new surgical building at City Hospital at an estimated cost of $1,500,000.

5. Construction and reconstruction of sewers at an estimated cost of $1,000,000.

Your honorable body gave a first reading to the five loan orders authorizing borrowing by the city for these five projects on February 12, 1934, and I am informed that you contemplate taking further action on these five loan orders at today's meeting. It is necessary that these five loan orders be given their second and final readings by your honorable body and approved by me before any action can be taken with respect to the loan and grant agreements.

I am submitting five orders approving and authorizing, in accordance with the instructions of the Administrator, the execution and delivery to the United States of America of these five loan and grant agreements, each of which orders sets out and contains a complete and accurate copy of the particular agreement. I recommend prompt consideration and passage by your honorable body of these orders, after the five loan orders relating to the five projects have been given their second and final readings and passage and after they have been approved by me. Prompt action is necessary because of the limited time available for the execution and delivery of these agreements.

Respectfully,

FREDERICK W. MANSFIELD, *Mayor.*

February 26, 1934.

To the City Council.

GENTLEMEN,—I attach hereto a copy of a report from the trustees of the City Hospital containing certain information which your honorable body requested me to obtain in its order adopted on February 19, 1934.

Respectfully.

FREDERICK W. MANSFIELD, *Mayor.*

Ordered, That the trustees of the Boston City Hospital be requested, through his Honor the Mayor, to furnish the City Council with the following information for its assistance in passing upon the pending loan order for a new surgical building:

1. The daily average number of bed patients accommodated during the year 1933. Answer. Main Hospital, 1,272.6; Haymarket Square Relief Station, 8.1.

2. The number of additional beds which will be made available if the proposed building is constructed. Answer. 288.

3. The number of nonresidents of Boston furnished with beds during the year 1933, and the approximate daily average. Answer. 1,363 patients; approximate daily average, 4.

4. The number of bed patients who paid, in whole or part, during the year 1933, and the total amount in dollars collected from bed patients; and the percentage of bed patients. Answer. Main Hospital, 3,312 pay patients, or 8.3 per cent, $150,687.43. Haymarket Square Relief Station, 133 pay patients, or 7.1 per cent, $1,259.15.

5. What steps are taken to determine whether persons admitted have a residence in Boston? Answer. Upon application for admission a history is taken of all patients which includes the residence of the patient. Also daily from 9 a. m. to 5 p. m., except Saturday afternoons, Sundays and holidays, a clerk from the Settlement Office (part of the Department of Public Welfare of Boston) interviews all ambulatory cases and takes this information to determine their settlement

before admission. After admission for those not previously obtained this information is requested from the patients on the wards.

6. What steps are taken to determine whether persons admitted can afford to pay, in whole or in part? Answer. Clerks of the Settlement Office when taking settlement either before admission or after, while on ward, question the patients as to their *ability to pay*. Also, if a patient has evidence of wealth, such as cash, bank accounts, or other evidences on his person, upon admission, this information is received from the Valuables Office. This information is recorded on patient's account cards for follow-up.

On automobile accidents the patient while in the hospital is asked the name of his lawyer. Later, in most of these cases, the patient requests a copy of his hospital record or gives permission to the insurance company to obtain same and at that time on his request blank we ask the name of the patient's lawyer; this is recorded on patient's account card.

On prenatal cases the patients are interviewed by our Social Service Department, who go into the patient's home conditions, etc., very carefully, and if the patients are able to pay, in whole or in part, that information is put on patient's account card.

7. How many beds in the City Hospital are occupied by continued-treatment patients who might more properly be accommodated at Long Island or at some other institution? Answer. The total of patients on February 1, 1924, in the hospital over a month was 187. Of them, 158 were Boston settled and 29 non-Boston settled. Many of these are held here because there are not accommodations at Long Island or elsewhere.

8. What is the approximate per diem expense, exclusive of interest on investment in plant, of maintaining a bed patient in the City Hospital? Answer. For year 1932, Main Hospital, $4.77; Haymarket Square Relief Station, $4.75.

9. What has been the capital outlay on the City Hospital plant in the last ten years, and how many beds have been added to its accommodations during that period? Answer. Expenditures on new buildings and furnishings and land, exclusive of Sanatorium, past ten years, approximate $7,643,702.05. Main Hospital added 655 beds; Haymarket Square Relief Station added two beds.

10. Having in view the interest and amortization charge on a new surgical building and the operating expenses of such building, could not the city at less expense arrange with existing hospitals for the accommodation of persons eligible for admittance to the Boston City Hospital who cannot be accommodated there by reason of lack of space? Answer. Not having an accurate knowledge of the number of patients that it would be necessary to transfer, and not having a knowledge of the contractual charges that might be made by other hospitals, we believe it would be impossible to answer Question 10 with any satisfaction in the time allowed.

(BROADCAST BY MAYOR.)

(*Continued from page 197.*)

All my life I have been a pleader for the masses who work and struggle to rear their families. My career has been devoted to drive out of the temple those who preach the gospel of despair. Defeatism has no place in our homes, in our state, nor in our nation.

Have I confidence in the future?

Do I see a silver lining in the clouds after the storm?

Have I any data on which to base my belief that a turn has come in the depression?

When I answer in the affirmative to each of these questions, at least believe that my intention is not to deceive you, nor to bolster up your hopes with honeyed phrases. I do not belong to that school of public life that speaks lightly on important subjects. I am not in the habit of following false trails knowingly, and to invite the people to follow me.

What then, my radio friends, are the facts that cause me to speak of the future with a measure of confidence.

One of the best indices of the general trend of business is the New York *Times*. It is based on the carloadings of the railroads of our country, the output of the steel industry, and the automobile industry, and the cotton cloth industry and the like.

BUSINESS IMPROVING.

From these figures we find that the real bottom of the depression occurred in March, 1933. After a period of hesitation, business climbed quite a bit until some time in August and then a relapse occurred until November, 1933, but the business index did not go so low as it did last March. Following that recent low level the barometer of trade has already risen as if feeling its way to make certain that the rise would be sustained.

In the month of February business has not reached the level of last August, but historically in this country we always look for an improvement in what is called the "Spring rise." If that rise gains momentum and follows the usual course I would be almost ready to say that the turn for the better has taken place, and that a new vista is about to appear.

Now, my dear radio audience, I don't want to make an absolute statement on this point, because if better business does not appear this spring, experts generally are agreed that we must wait until the usual autumn business improvement occurs later in the year. We won't have to wait long for the spring rise in business, and it will mean that millions of men and women in our country will be called back to their usual employment and once again the smiles of contentment on Saturday night will be found in the homes of our country.

The Federal Reserve Board in its latest bulletin says that the volume of construction work has continued to increase, reflected chiefly through further expansion in public works and also in particular, an increase in private construction. That last phrase "increase in private construction" gives me much more assurance than the increase in public works, because it means that private capital has rid itself somewhat of the fear that has gripped it for the past four years.

When industrial fear stalks through our country, paralysis occurs which takes a long time to cure. What a blessing would follow in our country, if this fear could be completely eradicated. Then the factory whistles, summoning our workers early in the morning, would sound like music to those millions who for four long years have looked in vain for steady employment.

Then, too, you may remember that last week I gave my own conclusion of the effect of the Public Works Administration, wherein the Federal Government freely donates 30 per cent of the cost of projects in every state of the union and their various subdivisions, that it would cause the wheels of industry to turn so vigorously that a kind of boom would result.

I said then, "I shall not attempt to guess as to the permanency of the industrial improvement," and I would cautiously repeat that statement today, except to add that the current factors indicate a gradual withdrawal from the valley of the depression and point upward.

Unless some catastrophe occurs in our country and unless our citizens take stock in the mouthings of those who "speak red," we have a reasonable right to be imbued with a confidence in the future. These few facts which I have presented to you quietly, I hope will give you occasion to do some serious thinking during these days of unsettlement.

I hope, too, that much of the confidence which I have, will be instilled in you. Because it is only through the confidence we have in the Government, backed up by action, that we can undo the dangers and difficulties that have beset us for the past four years.

AS TO BOSTON'S AFFAIRS.

Now, my radio friends, I know you are asking a very proper and pertinent question. What have I to say about the current affairs in Boston and their relation to general national trends?

Like other parts of the United States, we were subject to the orders of the Civil Works Administration in the reduction of working forces on local projects. I have been so deeply concerned about this matter that I feel in duty bound to present some new facts to you today. If they do no more than to make you realize the importance of closely following the affairs of your city, I shall have accomplished much.

Last week I made public the fact that Boston in October and November of 1933 failed to specify sufficient projects to fill its quota of workers by at least five thousand persons. Official confirmation of that statement was admitted by the State authorities; in fact, their figures showed that considerably more than five thousand were prevented from securing work.

Does it dawn on you what that means in wages? Are you surprised to learn that about $800,000 in pay rolls was lost to Bostonians through the failure to cooperate with the Federal offer under the Civil Works Administration? It is the truth, however. If you translate that large amount of money into shoes, underwear, garments, food and other necessaries, together with the privilege of an occasional seat at the theater, you will be shocked as I was.

St. Louis, for instance, which is in about the same class as Boston, had its quota established at 23,919 workers in the C. W. A., and 23,200 of its citizens were employed.

When I requested my Corporation Counsel, Mr. Henry E. Foley, to go to Washington and lay the facts before the Federal authorities, I had every hope on the ground of fair dealings that a delay would be made in the discharge of our local workers. Our request was not granted, however, and we deeply regret that we must bow to the inevitable.

On last Saturday I was able to offer a small measure of relief to the workers who were let go on the C. W. A., when at my order 2,000 men were hired for snow removal. I know the work is laborious and temporary, but the $45,000 assigned for the purpose will at least help some homes.

These men will be engaged in the absolutely necessary work of freeing our catch-basins lest a vigorous thaw or a rainstorm would cause a flood and damage to the property of our city.

Thus far, Boston has spent $225,000 in clearing its highways, on account of the worst snow conditions we have experienced in twenty years, and today's storm will entail further expense.

ADMINSTRATION'S RELIEF EFFORTS.

My administration is doing everything humanly possible to relieve this intolerable situation, and in that statement I trust I will have the unanimous support of the electorate. The news accounts in the daily papers spread before you the disaster which that storm has caused, not only in Boston, but in every large city and small hamlet along the Atlantic seaboard.

Then, as a final word: The Federal Government, as we have noted before, is to offer under the Public Works Administration aid that will enlist the activities of every state and their subdivisions in construction work, not alone for the purpose of taking up the men who were or are to be discharged as the Civil Works Administration comes to an end, but to offer in a concrete way a program to bring business back to normal in this country.

When we add the results of this great national undertaking to the figures presented in the New York *Times*, to which I have referred, I am compelled to the conclusion that things will be looking up in our country when the Public Works Administration projects begin to swing into action.

You know from my previous radio discussion what Boston is about to do in this matter and it will be of interest to you to know that the state will have projects totaling more than twenty million dollars running through the various counties of the Commonwealth.

Thus, it seems to me, and I am warranted in believing that you, too, my radio audience, are convinced that at last a good turn is about to be accomplished, when the nation, every state, every city and town, are putting their shoulders to the wheel for the restoration of normal conditions.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred, who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

POLICE DEPARTMENT ORDERS.

General Order No. 417.

A trial board consisting of Captains Campbell, Gleavy and Casey, having heard by reference a complaint made by George A. Mahoney, lieutenant, Division 6, against James Griffin, patrolman, Division 6, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification: In that on February 2, 1934, while on last half duty, from 12.30 to 7.45 a. m., on Routes 17 and 18, Patrolman Griffin did enter Police Station 6, without knowledge of Lieutenant Brady, the officer in charge, leaving his route without permission so to do.

Charge 2: Conduct unbecoming an officer.

Specification: In that on February 2, 1934, Patrolman Griffin, between the hour 5.20 and 5.45 a. m., did enter Station 6, enter room off Guard Room, remove his uniform overcoat and go to sleep on bench in said room, which conduct had a tendency to bring criticism and disrepute to other members of the department,—

has submitted the following finding and recommendation:

"The Board accepted the plea of guilty as charged.

"The Board having heard and carefully considered all the evidence as presented, and taking into consideration the recommendation of Deputy Superintendent Livingston and Captain Fallon that the said Patrolman James Griffin be given punishment duty, respectfully recommends that the said Patrolman James Griffin be ordered to perform seventy hours' punishment duty."

The Acting Police Commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman James Griffin perform seventy hours of punishment duty.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 418.

Patrolmen Francis C. Smith and Francis W. Connelly, both of Division 2, are commended in General Orders and each is given one day's additional vacation for meritorious duty performed January 26, 1934, after completing their tour of duty and on their way home, in the capture of a person who was attempting to break and enter a store on another division.

The Acting Commissioner is pleased to recognize the zeal and devotion to duty shown by these officers while off duty.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 419.

Patrolmen Edward T. Leary and John J. Moylan, both of Division 13, are commended in General Orders for efficient police duty performed January 18, 1934, in connection with the arrest of a person responsible for the theft of three automobiles.

The Acting Commissioner is pleased to recognize the zeal and keen observation shown by these officers in the apprehension and conviction of this thief.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 420.

Patrolmen William W. Dumas, William G. Dunn and John Ahern, all of Division 13, are commended in General Orders for meritorious police duty performed in accomplishing the arrest of a group of persons who had been guilty of a series of larcenies, house breaks, larceny of automobiles and armed robbery during the past few months.

The Acting Commissioner is pleased to recognize the zeal and intelligence shown by these officers in performing this excellent police duty.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 421.

Patrolmen Arthur J. Swanson and Thomas N. Drury, both of Division 17, are commended in General Orders for prompt and effective police duty rendered on the occasion of a fire in a dwelling, in removing an invalid man from the premises to a place of safety, on February 10, 1934.

The Acting Commissioner is pleased to recognize the splendid police duty performed on this occasion which may have prevented the loss of life.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 422.

The Acting Commissioner takes great pleasure in publishing the following telegram for the information of the department:

February 24, 1934.

HON. EUGENE HULTMAN,
Commissioner of Police.

At a special meeting held on the twenty-third of February the Syrian American Club of Boston voted unanimously to extend to you and to Superintendent King their deep appreciation for the efficiency displayed by the Police Department in apprehending the murderer of Victoria David. We also wish to compliment, through your Honor, Captain Claflin and his assistants for their good work in the speedy solution of this atrocious crime. We never lost faith in the Police Department.

Respectfully yours,
SHUHRY KHOURY, *President.*

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 423.

Patrolmen Daniel F. Curran, William L. Tooher and John J. Hancotte, all of the Detective Bureau, and Patrolman Walter Owens of Division 10, are commended in General Orders and each granted one week's vacation for an outstanding piece of police work performed on the night of January 28, 1934, in the arrest of George Sarnie, Samuel Livingston and Michael McMahon, alias Thomas Flanagan, for violation of the drug law and possession of firearms.

At the time of these arrests, the abovenamed officers, together with Federal agents, seized a quantity of narcotics and three guns at the home of George Sarnie. Investigation by the State Ballistics Expert revealed the fact that one of the guns seized was the weapon used in the murder of Adolph Sommer in Cambridge on October 20, 1933. As a result the three men were indicted in the Middlesex Superior Court for first degree murder and robbery of Sommer, and are now being held without bail pending their trial on the charge of murder.

The Acting Commissioner is pleased to commend these officers for the valuable service which they rendered, and for their diligence and thoroughness in solving a crime committed in another jurisdiction.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 424.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by Thomas S. J. Kavanagh, captain, Division 9, against George W. McNaught, patrolman, division 9, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification 1: In that on the sixteenth day of February, 1934, Patrolman George W. McNaught, while assigned to Route 2, did fail to pull his "on duty" calls from 3.45 a. m. until 8.15 a. m., a period of four hours and thirty minutes, it being known to him that under Police Department Rules and Regulations, he is required to pull "on duty" calls at least once in every forty minutes.

Specification 2: In that on the sixteenth day of February, 1934, Patrolman George W. McNaught, while assigned to Route 2, entered a building in Robey street, on his route, and remained in said building for a period of four hours or more longer than his specific police business required, he having fallen asleep in said building and thereby exposed his route to the depredations of the criminal elements.

Charge 2: Conduct unbecoming an officer.

Specification: In that Patrolman George W. McNaught is an habitual user of intoxicating liquor to such an extent that his efficiency in performing his police duties has been greatly impaired, and that on December 12, 1933, before a trial board, he promised to abstain from the use of intoxicating liquor and which he has failed to do, this act being contrary to good order and discipline, and tending to bring disrepute and criticism upon his brother officers and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented accepts the plea of guilty by Patrolman George W. McNaught to Charge 1 and specifications thereunder, and finds him not guilty on Charge 2 and specification thereunder. In view of the fact that Patrolman George W. McNaught has been recently before a trial board for a similar offence and is now doing punishment duty for that offence, and also the fact that his captain refrained from making a recommendation, the Board respectfully recommends that the said Patrolman George W. McNaught be suspended from duty for a period of thirty days effective

as of Wednesday, February 21, 1934, at 5.45 o'clock p. m., and that at the expiration of said period of suspension he shall be ordered to perform 210 hours of punishment duty."

The Acting Police Commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman George W. McNaught be suspended from duty for a period of thirty days effective as of February 21, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman George W. McNaught perform 210 hours of punishment duty.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner, upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service, provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 425.

Patrolmen Alexander J. Mahoney and John J. O'Donnell, both of Division 6, are commended in General Orders for meritorious police duty performed on December 25, 1933, in the pursuit and capture of two persons in an automobile reported as stolen on another division.

The Acting Commissioner is pleased to recognize the alertness and splendid police duty performed in capturing these two dangerous juveniles who confessed to their participation in the theft of a large number of automobiles.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 426.

By authority conferred upon the Acting Police Commissioner by law, Patrolman Harland E. Hall of Division 10, charged with neglect of duty and conduct unbecoming an officer, was dismissed from the Police Department, effective as of February 21, 1934, at 7.45 o'clock a. m.

Written notice of such dismissal, with the reasons therefor, was duly and specifically given in hand on February 21, 1934, to the said Harland E. Hall.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 427.

A trial board consisting of Captains Campbell, McGrath and Gleavy, having heard by reference a complaint made by Thomas F. Casey, captain, Division 10, against Harry Brooks, patrolman, Division 10, for alleged violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on the twelfth day of February, 1934, the said Patrolman Harry Brooks, while not in uniform and not on duty, was under the influence of intoxicating liquor to such an extent that he was unable to perform the duties of a police officer if called upon so to do.

Specification 2: In that on the twelfth day of February, 1934, the said Patrolman Harry Brooks did register at the Hotel Huntington with a woman known as Edna Funk, as man and wife, namely, "Mr. and Mrs. Harry Brooks," and, further, that the said Patrolman Harry Brooks did remain with said woman in said hotel from 11.55 p. m. February 12, 1934, to about 12 o'clock noon on February 13, 1934, all tending to bring into disrepute and criticism his associates on the Police Force and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence, finds the said Patrolman Harry Brooks not guilty on Specification 1 and accepts the plea of guilty on Specification 2. Considering the fact that Patrolman Brooks, a married man, admitted, boldly, that he registered with a married woman at the Hotel Huntington as Mr. and Mrs. Harry Brooks of Philadelphia and remained there from 11.55 p. m. on the twelfth instant until 12 noon on the thirteenth instant, when as a matter of fact, the woman with whom he registered as Mrs. Brooks was Edna Funk, whom it is claimed is now in Philadelphia, the Board believes that, in order to maintain the standing and morale of the department, it is necessary to inflict the extreme penalty of dismissal, and, therefore, the Board respectfully recommends that the said Patrolman Harry Brooks be dismissed from the Police Department."

The Acting Police Commissioner accepted the finding and the recommendation of the Trial Board and ordered that the said Patrolman Harry Brooks be dismissed from the Police Department, effective as of February 21, 1934, at 5.45 o'clock p. m.

Written notice of such dismissal, with the reasons therefor, was duly and specifically given in hand on February 21, 1934, to the said Harry Brooks.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 428.

Whereas, It appears that Patrolman Glennie E. Kimbrell of Division 1 has performed faithful service in the Police Department for fourteen and three-twelfths years and that the Medical Board, provided for by chapter 521 of the Acts of 1922, has certified that the said Patrolman Kimbrell is physically incapacitated, it is the judgment of the Acting Police Commissioner that the said Patrolman Kimbrell is permanently physically incapacitated for useful service in the Police Department on account of injuries received in the actual performance of duty as a police officer; therefore, it is hereby

Ordered, That, with the approval of his Honor the Mayor, the said Patrolman Kimbrell be retired from active service in the Police Department under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6, Acts of the year 1920, and chapter 387, Acts of the year 1930, and that his name be placed upon the department pension roll with pay at the rate of one thousand and fifty (1,050) dollars per annum, said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement of those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Patrolman Kimbrell, as herein provided, will take effect at 7.45 o'clock a. m., Wednesday, February 28, 1934.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 429.

Lieutenants Hugh D. Brady and Francis M. Tiernan, Sergt. John H. Molloy, and Patrolmen Fenwick W. Wright and George F. Harnois, all of Division 6, are commended in General Orders for excellent police duty performed in connection with the arrest and prosecution of the persons responsible for a serious crime committed on November 26, 1933.

The Acting Commissioner is pleased to recognize and commend the alert and effective police duty shown by Patrolmen Wright and Harnois in responding and the intelligent manner in which all the officers cooperated in the prosecution of these dangerous characters.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 430.

Patrolmen Leonard J. Delaney and Joseph A. Graham, both of Division 13, are commended in General Orders and each given two days' additional vacation for meritorious police duty performed on January 19, 1934, in the arrest of four young men for the larceny of automobiles, who were later identified for their participation in armed hold-ups committed in Brighton, Brookline and Norwood.

The Acting Commissioner is pleased to recognize the effective police duty performed by these officers in the arrest and conviction of these dangerous characters.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 431.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by Harry T. Grace, captain, Division 15, against Joseph F. Normile, patrolman, Division 15, for alleged violation of Rules 27, 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification: In that the said Patrolman, Joseph F. Normile, on the 16th day of February, 1934, while on duty and in uniform, being assigned to Route 2, did fail to make his 5 p. m. duty call, although the police rules require him to signal from his route every forty minutes.

Charge 2: Conduct unbecoming an officer.

Specification: In that on the 16th day of February, 1934, the said Patrolman Joseph F. Normile, while in uniform and

on duty, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty, tending to bring into disrepute and criticism himself and his associates in the Police Department,

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty by the said Patrolman Joseph F. Normile. Considering the fact that Patrolman Normile has been in the department fourteen years, and in that time has never appeared before a trial board, and on only one previous occasion was warned by his commanding officer, and also, the excellent recommendation given Patrolman Normile by his commanding officer, who requested the Board to be lenient and allow the officer to return to his division, the Board respectfully recommends that the said Patrolman Joseph F. Normile be suspended from duty for a period of thirty days, effective as of Saturday, February 17, 1934, at 7.45 o'clock a. m., and that at the expiration of said suspension he be ordered to perform 210 hours' punishment duty."

The Acting Police Commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Joseph F. Normile be suspended from duty for a period of thirty days, effective as of February 17, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Joseph F. Normile perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

PROCEEDINGS OF CITY COUNCIL.

Monday, February 19, 1934.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair. Absent, Coun. Murray.

BORROWING IN ANTICIPATION OF TAXES.

The following was received:

City of Boston,
Office of the Mayor, February 19, 1934.

To the City Council.

Gentlemen, Last week the Legislature, in order to protect and secure the rights of individuals purchasing tax anticipation notes, enacted chapter 11 of the Acts of 1934. This Act, a copy of which is hereto attached, in effect, makes such notes a lien upon all revenues of cities and towns, instead of as before, limiting their payment from taxes of the year wherein issued.

Under date of January 8, 1934, the City Council authorized the borrowing of $30,000,000 for the temporary needs of the city during the current year. Up to date $2,000,000 of this authorization has been utilized. In view of the enactment of the legislation previously mentioned, I deem it expedient to recommend the rescission of that portion of the $30,000,000 originally authorized which still remains unissued, namely, $28,000,000, and at the same time recommend that an order for this same amount, prepared in accordance with the provisions of chapter 11 of the Acts of 1934 be adopted by the City Council. I, accordingly, submit a rescission order and an appropriation order covering the amount involved, and recommend immediate consideration and passage of these orders by your honorable body, as such action is absolutely necessary in order that there may be no delay in effectuating temporary loans by the city in anticipation of the taxes of the current financial year.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the right to borrow money in anticipation of the taxes of the current municipal year under loan order passed January 8, 1934, and approved by the Mayor January 9, 1934, be limited to $2,000,000, and that the authorization to borrow in excess of said amount for said purpose be, and the same hereby is, rescinded.

Ordered, That to provide temporarily money to meet the appropriations for the financial year 1934, the City Treasurer issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston not exceeding $28,000,000 in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon within one year of their date and bear interest from their date until the same are made payable at such rate as the City Auditor, the City Treasurer, and the Mayor may determine.

Referred to Executive Committee.

LOAN AND GRANT AGREEMENTS.

The following was received:

City of Boston,
Office of the Mayor, February 19, 1934.

To the City Council.

Gentlemen,—The Federal Emergency Administrator of Public Works at Washington has forwarded to me forms of five loan and grant agreements between the United States of America and the City of Boston. These agreements relate to the five projects heretofore approved by the administrator.

I have been advised by the administrator that these agreements must be properly executed and delivered to the Federal Emergency Administration of Public Works at Washington not later than March 5, 1934. I have also been advised that before these agreements are executed, the City Council must adopt orders approving the same, each of which orders must set out and contain a complete and accurate copy of the agreement approved.

It is not my intention to officially submit these agreements to the City Council until the loan orders authorizing borrowing for the five projects are given a second and final reading by your honorable body. I am informed that such action is contemplated by the City Council at its next meeting, namely, February 26. In view of the complex nature and character of the agreements, I deem it advisable, however, at this time to submit for examination and consideration by the members of the City Council a specimen copy of one of the agreements in question. Since the agreements are practically identical in form and phraseology, except for the description of the projects and enumeration of the amounts involved, I feel that after examination of the specimen copy herewith submitted, the members of the Council may obtain a clear idea of the form of agreement which they will be called upon to subsequently approve.

I have asked the Corporation Counsel to examine into and consider the form of the loan agreements, and I am certain he will be pleased to confer with your honorable body, or with any committee to which this matter may be referred.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

LOAN AGREEMENT DATED AS OF 1934, BETWEEN THE CITY OF BOSTON, SUFFOLK COUNTY, MASSACHUSETTS (HEREIN CALLED THE "BORROWER"), AND THE UNITED STATES OF AMERICA (HEREIN CALLED THE "GOVERNMENT").

PART ONE.—GENERAL PROVISIONS.

1. *Amount of Loan and Grant.—Purchase Price and Purpose.*—Subject to the terms and conditions of this Agreement, the Borrower will sell and the Government will purchase $1,608,000 aggregate principal amount of the bonds (herein called the "Bonds"), of the Borrower, at 100 per centum of the principal amount thereof, plus accrued interest, and, in addition to the amount of Bonds to be purchased, the Government will make a grant (herein called the "Grant") to the Borrower of not to exceed 30 per centum of the cost of the labor and materials employed upon the Project as herein described, but such Grant together with the aggregate principal amount of the Bonds purchased, and any other funds (herein called "Other Funds"), received directly or indirectly from the Government or any agency or instrumentality thereof to be used to aid in financing the construction of the Project, shall not exceed in aggregate amount the total cost of the Project and in no event shall such aggregate amount exceed $2,000,000 (except for such payment, if any, as may be made under the provisions of Paragraph 11, Part Two, hereof), the proceeds derived from the sale of the Bonds and the amount paid on account of the Grant (except for such payment, if any, as may be made under the provisions of Paragraph 11, Part Two, hereof), to be used for the construction by the Borrower of two fireproof school buildings (herein called the "Project"), and for other and incidental purposes; all pursuant to the Borrower's application (herein called the "Application"), P. W. A. Docket No. 4217, the proceedings authorizing the issuance of the Bonds, Title II of the National Industrial Recovery Act (herein called the "Act"), approved June 16, 1933, the Constitution and Statutes of the Commonwealth of Massachusetts including particularly:

General Laws, Chapter 44, Section 16;
Act of July 22, 1933, Chapter 366.

   (*h*) *Security.*—General obligations of the Borrower payable as to both principal and interest from ad valorem taxes which may be levied without limit as to rate or amount on all the taxable property within the territorial limits of the Borrower.
   (*i*) *Place and Medium of Payment.*—At the office of the City Treasurer of the Borrower in such funds as are, on the respective dates of payment of the principal of and interest on the Bonds, legal tender for debts due the United States of America.
   (*j*) *Denomination.*—$1,000.

3. *Form, Text and Sample of Bond.*—The Bonds shall be in form and text satisfactory to the Legal Division of the Federal Emergency Administration of Public Works (herein called "Counsel for the Government"). Before the Bonds are prepared, the Borrower shall submit a sample or specimen Bond with coupons for approval by Counsel for the Government.

4. *Method of Taking Up Bonds.*—The Bonds shall be taken up and paid for in blocks from time to time as funds are needed for the Project, or the entire issue may be taken up and paid for by the Government at one time, in the discretion of the Finance Division of the Federal Emergency Administration of Public Works (herein called the "Finance Division").

5. *Amount of Bonds to be Taken Up.*—The Government shall be under no obligation to take up and pay for Bonds beyond the amount which, together with Other Funds, and the amount to be paid to the Borrower on account of the Grant as provided in this Agreement, shall be necessary, in the judgment of the Engineering Division of the Federal Emergency Administration of Public Works (herein called the "Engineering Division"), to complete the Project. In case any of the Bonds are sold to purchasers other than the Government, the principal amount of bonds which the Government is obliged to take up and pay for shall be correspondingly reduced.

6. *Deposit of Bond Proceeds and Grant; Retirement Fund.*—The Borrower will pay all accrued interest which it receives from the sale of the Bonds at the time of the payment therefor (and any payment which may be made on account of the Grant under the provisions of Paragraph 11, Part Two, hereof), into an interest and bond retirement fund account. It will deposit the remaining proceeds from the sale of the Bonds and any payments made on account of the Grant in a bank or banks which are members of the Federal Reserve System, in a special account or accounts, each of such special accounts to be continuously secured by a pledge to the Borrower of direct obligations of the United States of America having an aggregate market value, exclusive of accrued interest, at all times at least equal to the balance on deposit in each such account. Such securities will either be deposited with the Borrower or be held by a trustee or agent satisfactory to the Finance Division, provided that the trust or agency agreement is satisfactory to Counsel for the Government. Provided, however, that at the option of the Finance Division such special account or accounts may be secured by a surety bond, or bonds which shall be in form, sufficiency and substance satisfactory to Counsel for the Government. Any balance or balances remaining unexpended in such special account or accounts after the completion of the Project and which are not required to meet unpaid obligations incurred in connection with the construction of the Project shall be paid into said interest and bond retirement fund account, and, together with the accrued interest aforesaid, shall be used solely for the payment of the interest on and the principal of the Bonds, or said unexpended balance or balances may be used for the purchase of such of the Bonds as are then outstanding at a price (exclusive of accrued interest), not exceeding the principal amount thereof. Any Bonds so purchased shall be cancelled and no additional bonds shall be issued in lieu thereof. Such Bonds, when cancelled, shall be submitted to the Government for recording.

7. *Disbursement of Bond Proceeds and Grant.*—The Borrower will expend the funds in such special account or accounts only for such purposes as shall have been previously specified in certificates accompanying the requisitions for such funds, filed with the Government and approved by Counsel for the Government, or such funds shall be used for purchasing Bonds as provided in this Agreement.

PART TWO.

1. *Approval of Agreement.*—Within a reasonable time after the receipt of the Agreement, the Borrower shall adopt an order setting forth the Agreement in full, approving the same, and authorizing and directing the execution thereof by the official or officials designated to sign the same on the Borrower's behalf. Promptly thereupon, the Borrower shall cause such official or officials to sign the Agreement.

2. *Preliminary Proceedings by Borrower.*—When the Agreement has been signed on behalf of the Borrower, the Borrower shall promptly:
   (*a*) Send to the Government three signed counterparts of the Agreement and a certified copy of the order adopted by the Borrower pursuant to Paragraph 1, Part Two, hereof, together with certified extracts of the minutes pertaining to its adoption and any papers, certificates and other documents which may be requested by Counsel for the Government;
   (*b*) Retain municipal bond counsel satisfactory to the Finance Division to assist the Borrower in the proceedings relative to the authorization, issuance and sale of the Bonds, and to give such legal

opinions relative thereto as may be requested by Counsel for the Government;

(c) Submit to the Government plans, drawings, and specifications of the work and materials to be employed upon the Project; the latest data as to the expected cost of the Project; a statement as to when and how it is proposed to advertise for bids and to let contracts for the work; a statement as to when and how it is proposed to acquire the necessary lands, easements, franchises, and rights-of-way; an estimate as to the amount of money that will be needed at the time of the sale of the Bonds; and any other details or data that may be requested by the Engineering Division;

(d) Submit to the Government all such authorizations, permits, licenses and approvals from Federal, State, county, municipal and other authorities as Counsel for the Government may deem advisable then to be obtained in connection with the Project or the Bonds;

(e) Take all the proceedings necessary for the authorization and issuance of the Bonds.

3. *First Bond Requisition.*—As soon as the provisions of Paragraph 2, Part Two, hereof, shall have been complied with to the satisfaction of Counsel for the Government, the Borrower will file with the Government a requisition requesting the Government to take up and pay for such amount of the Bonds as, together with Other Funds, will provide sufficient funds for the construction of the Project for a reasonable period (or, in the discretion of the Finance Division, a requisition to take up and pay for the entire amount thereof at one time), specifying the principal amount, serial numbers and maturities (which maturities shall be satisfactory to the Finance Division) of the Bonds of such block and the date when it is desired to complete the delivery thereof (which date shall not be earlier than ten days after the Government's receipt of such first Bond requisition, unless otherwise satisfactory to Counsel for the Government), the first Bond requisition to be accompanied by a complete transcript of all bond proceedings to date, together with such certificates, forms, opinions, letters, statements and other documents as may be requested by Counsel for the Government.

4. *First Bond Payment.*—If the first Bond requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of the first Bond requisition, the Government will arrange to take up and pay for such amount of the Bond as, together with Other Funds, will provide, in the judgment of the Engineering Division, sufficient funds for the construction of the Project for a reasonable period, or, in the judgment of the Finance Division, the entire amount of the Bonds, the first Bond payment to be made at the Federal Reserve Bank of Boston, Boston, Massachusetts (herein called the "Reserve Bank"), or at such other place or places as Counsel for the Government may designate, against delivery by the Borrower of such Bonds, having all unmatured coupons attached, together with such documents as may be requested by and which shall be in form, sufficiency and substance as theretofore approved by Counsel for the Government.

5. *Subsequent Bond Requisitions.*—Unless all of the Bonds shall have been previously delivered and paid for, from time to time after the first Bond payment, but not oftener than once a month (unless otherwise satisfactory to the Engineering Division), the Borrower will file a requisition with the Government requesting the Government to take up and pay for an additional block of the Bonds of such amount, as, together with Other Funds, and such portion, if any, of the Grant, requested simultaneously with such Bond requisition, will provide sufficient funds for the construction of the Project for a reasonable period, specifying the principal amount, serial numbers and maturities (which maturities shall be satisfactory to the Finance Division), of the Bonds included in such block and the date when it is desired to complete the delivery thereof (which date shall be not earlier than ten days after the Government's receipt of such Bond requisition, unless otherwise satisfactory to Counsel for the Government), each Bond requisition to be accompanied by such documents as may be requested by Counsel for the Government.

6. *Subsequent Bond Payments.*—If a Bond requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of such Bond requisition, the Government will arrange to take up and pay for such additional amount of the Bonds as, together with Other Funds, and such portion, if any, of the Grant, paid simultaneously with the payment for such amount of the Bonds, will provide, in the judgment of the Engineering Division, sufficient funds for the construction of the Project for a reasonable period, each Bond payment to be made at the Reserve Bank or at such other place or places as Counsel for the Government may designate, against delivery of such block of Bonds, having all unmatured coupons attached, together with such documents as may be requested by and which shall be in form, sufficiency and substance as theretofore approved by Counsel for the Government.

7. *Grant Requisitions.*—The Borrower may, with any Bond requisition filed in accordance with the Provisions of Paragraph 5, Part Two, hereof (or at any time after the final block of Bonds shall have been delivered and paid for, but not oftener than once each week thereafter), file a requisition requesting the Government to make a payment to the Borrower on account of the Grant, each Grant requisition to be accompanied by such documents as may be requested by Counsel for the Government.

8. *Grant Payments.*—If a Grant requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of such Grant requisition (but not earlier than ten days after the receipt thereof, unless otherwise satisfactory to Counsel for the Government), the Government will pay to the Borrower a sum of money, which, together with all previous Grant payments, and Other Funds, shall be equal in aggregate amount to 25 per centum of the cost of the labor and materials shown to have been employed upon the Project to a date not later than the date of such Grant requisition; provided, however, that such Grant payment, together with all previous Grant payments, Other Funds, and the amount paid for the Bonds shall not exceed in aggregate amount the total cost of the Project, and in no event shall such Grant payment, together with all previous Grant payments and Other Funds, exceed in aggregate amount the sum of $392,000; each Grant payment to be made at the Reserve Bank or at such other place or places as Counsel for the Government may designate, against delivery by the Borrower of its receipt therefor.

9. *Final Grant Requisition.*—Within a reasonable time after the Project has been completed and all costs incurred in connection therewith have been determined, the Borrower may file a requisition with the Government requesting the Government for the final portion of the Grant, the final Grant requisition to be accompanied by such documents as may be requested by Counsel for the Government.

10. *Final Grant Payment.*—If the final Grant requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of the final Grant requisition (but not earlier than ten days after the receipt thereof, unless otherwise satisfactory to Counsel for the Government), the Government will pay to the Borrower a sum of money, which, together with all previous Grant payments, and Other Funds, shall be equal in aggregate amount to 30 per centum of the cost of the labor and materials employed upon the Project; provided, however, that the final Grant payment, together with all previous Grant payments, Other Funds, and the amount paid for the Bonds shall not exceed in aggregate amount the total cost of the Project, and in no event shall the final Grant payment, together with all previous Grant payments and Other Funds, exceeding aggregate amount the sum of $392,000; the final Grant payment to be made at the Reserve Bank or at such other place or places as Counsel for the Government may designate, against delivery by the Borrower of its receipt therefor.

11. *Cancellation of Bonds.*—In the event that $392,000 shall be less than 30 per centum of the cost of the labor and materials employed upon the Project, and if, within a reasonable time after the completion of the Project, the Borrower shall have filed with the Government the final Grant requisition, and if the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, the Government will cancel, in so far as possible, and in such order as may be satisfactory to the Finance Division, Bonds and/or coupons in an aggregate amount equal to the difference between the aggregate amount of all Grant payments together with Other Funds, and 30 per centum of the cost of the labor and materials employed upon the Project; and for such reasonable time and to this end, the Government will hold Bonds in such amount as may be necessary to effectuate the purpose and intent of this Paragraph, unless payment of such difference shall have been otherwise provided for by the Government.

PART THREE.—CONSTRUCTION CONTRACTS.

In Consideration of the Grant, the Borrower Covenants That:

1. *Construction Contracts.*—All construction contracts made by the Borrower and all subcontracts for work on the Project shall be subject to the rules and regulations adopted by the Government to carry out the purposes and control the administration of the Act, and shall contain provisions appropriate to insure that:

(a) *Convict Labor.*—No convict labor shall be employed on the Project, and no materials manufactured or produced by convict labor shall be used on the Project.

(b) *30-Hour Week.*—Except in executive, administrative and supervisory positions, so far as practicable and feasible in the judgment of the Government, no individual directly employed on the Project shall be permitted to work more than thirty hours in any one week, or, except in cases of emergency, on any Sundays or legal holidays; but in accordance with rules and regulations from time to time made by the Government, this provision shall be construed to permit working time lost because of inclement weather or unavoidable delays in any one week to be made up in the succeeding twenty days.

(c) *Wages.*

(1) All employees shall be paid just and reasonable wages which shall be compensation sufficient to provide, for the hours of labor as limited, a standard of living in decency and comfort;

(2) All contracts and subcontracts shall further prescribe such minimum wage rates for skilled and unskilled labor as may be determined by the Government and shall be subject to all rules and regulations which the Government may promulgate in connection therewith. Such minimum rates, if any, shall also be stated in all proposals of bids submitted including those of subcontractors; and a clearly legible statement of all wage rates to be paid the several classes of labor employed on the work shall be posted in a prominent and easily accessible place at the site of the work. All contractors shall keep a true and accurate record of the hours worked by and the wages paid to each employee and shall furnish the Government with sworn statements thereof on demand.

(3) All employees shall be paid in full not less often than once each week and in lawful money of the United States of America in the full amount accrued to each individual at the time of closing of the payroll, which shall be at the latest date practicable prior to the date of payment, and there shall be no deductions on account of goods purchased, rent, or other obligations, but such obligations shall be subject to collection only by legal process.

(d) *Labor Preferences.*—Preference shall be given, where they are qualified, to ex-service men with dependents, and then in the following order:

(1) To citizens of the United States and aliens who have declared their intention of becoming citizens, who are *bona fide* residents of the City of Boston and/or County of Suffolk in the Commonwealth of Massachusetts and,

(2) To citizens of the United States and aliens who have declared their intention of becoming citizens, who are *bona fide* residents of the Commonwealth of Massachusetts provided, that these preferences shall apply only where such labor is available and qualified to perform the work to which the employment relates.

(e) *Employment Services.*—To the fullest extent possible, labor required for the Project and appropriate to be secured through employment services, shall be chosen from lists of qualified workers submitted by local employment agencies designated by the United States Employment Service, provided, however, that organized labor, skilled and unskilled, shall not be required to register at such local employment agencies but shall be secured in the customary ways through recognized union locals. In the event, however, that qualified workers are not furnished by the union locals within 48 hours (Sundays and holidays excluded) after request is filed by the employer, such labor may be chosen from lists of qualified workers submitted by local employment agencies designated by the United States Employment Service. In the selection of workers from lists prepared by such employment agencies and union locals, the labor preferences provided in Sub-Paragraph (d) *supra*, shall be

observed in accordance with such rules and regulations as the Government may prescribe.

(*f*) *Human Labor.*—In accordance with such rules and regulations as the Government may prescribe, the maximum of human labor shall be used in lieu of machinery wherever practicable and consistent with sound economy and public advantage; and to the extent that the work may be accomplished at no greater expense by human labor than by the use of machinery, and labor of requisite qualifications is available, such human labor shall be employed.

(*g*) *Accident Prevention.*—Every construction contract for work on the Project shall contain an undertaking to comply with all applicable provisions of the laws and building and construction codes of the State, Territory, District and/or municipality in which the work is done and with any regulations for the protection of workers which may be promulgated by the Government.

(*h*) *Compensation Insurance.*—Every construction contract for work on the Project shall contain a provision requiring the employer to furnish compensation insurance for injured workers and to give proof of such adequate insurance satisfactory to the Government.

(*i*) *Persons Entitled to Benefits of Labor Provisions.*—Every person who performs the work of a laborer or of a mechanic on the Project, or any part thereof, shall be entitled to the benefits of the labor and wage provisions hereof, regardless of any contractual relationship between the contractor or subcontractor and such laborer or mechanic. There shall be no discrimination in the selection of labor on the ground of race, creed or color.

(*j*) *Bonding of Contracts.*—Construction contracts shall be supported by adequate surety or other bonds or security satisfactory to the Government for the protection of labor and material men employed on the Project or any part thereof.

(*k*) *Materials.*—So far as articles, materials, and supplies produced in the United States are concerned, only articles, materials and supplies produced under codes of fair competition adopted pursuant to the provisions of Title I of the Act, or under the President's Reemployment Agreement, shall be used in work on the Project, except when the Government determines that this requirement is not in public interest or that the consequent cost is unreasonable. So far as feasible and practicable, and subject to the above, preference shall be given to the use of locally produced materials if such use does not involve higher cost, inferior quality or insufficient quantity, subject to the determination of the Government; but there shall be no requirement providing price differentiations for or restricting the use of materials to those produced within the Nation or State.

(*l*) *Inspection and Records.*—The Government, through its authorized agents, shall have the right to inspect all work as it progresses and shall have access to all pay rolls, records of personnel, invoices of materials, and other data relevant to the performance of the contract.

(*m*) *Reports.*—Subject to such rules and regulations as the Government may prescribe, contractors and subcontractors shall make reports in triplicate to the Government monthly within five days after the close of each calendar month on forms to be furnished by the United States Department of Labor, which reports shall include the number of persons on their pay rolls, the aggregate amount of the pay rolls, the man hours worked, wage scales paid to various classes of labor and the total expenditures for materials. The contractors shall also furnish to the Government the names and addresses of all subcontractors at the earliest date practicable.

(*n*) *Compliance with Title I of the Act.*—All contractors and subcontractors must comply with the conditions prescribed in Sections 7 (*a*) (1) and 7 (*a*) (2) of Title I of the Act.

2. *Restriction as to Contractors.*—No contract shall be let to any contractor or subcontractor who has not signed and complied with the applicable approved code of fair competition adopted under Title I of the Act for the trade or industry or subdivision thereof concerned, or, if there be no such approved code, who has not signed and complied with the provisions of the President's Reemployment Agreement.

3. *Termination for Breach.*—The Borrower will enforce compliance with all the provisions of this part of this Agreement, and, as to any work done by it in connection with the construction of the Project, will itself comply therewith. All construction contracts shall provide that if any such provisions are violated by any contractor or subcontractor, the Borrower may, with the approval of the Government, and shall at the request of the Government, terminate by written notice to the contractor or subcontractor the contract of such contractor or subcontractor, and have the right to take over the work and prosecute the same to completion by contract or otherwise and such contractor or subcontractor and his sureties shall be liable for any excess cost occasioned thereby and/or, if so requested by the Government, the Borrower shall withhold from such contractor or subcontractor so much of the compensation due to him as may be necessary to pay to laborers or mechanics the difference between the rate of wages required by the contract and the rate of wages actually paid to the laborers and mechanics.

4. *Force Labor.*—Provided, however, that if prices in the bids are excessive, the Borrower reserves the right, anything in this Agreement to the contrary notwithstanding, to apply to the Government for permission to do all or any part of the Project by day labor, upon such conditions as the Government may impose, with the understanding that all provisions in this Agreement, including those relating to labor, wages, hours and recruitment, shall be observed.

PART FOUR.

1. *Construction of Project.*—Upon receiving payment for the first block of Bonds, the Borrower will promptly commence or cause to be commenced the construction of the Project and the Borrower will thereafter continue such construction or cause it to be continued to completion with all practicable dispatch, in an efficient and economical manner, at a reasonable cost, and in accordance with the provisions of this Agreement as to the labor and materials to be employed upon the Project, and plans, drawings, specifications and construction contracts which, except for subcontracts, shall be in form satisfactory to the Engineering Division, and in accordance with such engineering supervision and inspection as the Government or its representatives may require. Except with the prior written consent of Counsel for the Government, no materials or equipment for the Project shall be purchased by the Borrower subject to any chattel mortgage or any conditional sale or title retention agreement.

2. *Completion of Project.*—Upon the completion of the Project the Borrower will furnish to the Government a certificate of the Borrower's engineers certifying to such completion, to the total cost of the Project and to such other matters as the Engineering Division may request, such certificate to be accompanied by such data as the Engineering Division may request.

3. *Information.*—During the construction of the Project the Borrower will furnish to the Government all such information and data as the Engineering Division may request as to the construction, cost and progress of the work. The Borrower will furnish to the Government and to any purchaser from the Government of 25 per centum of the Bonds, such financial statements and other information and data relating to the Borrower and the Project as the Finance Division or any such purchaser from time to time may reasonably require.

4. *Conditions Precedent to the Government's Obligations.*—The Government shall be under no obligation to pay for any of the Bonds or to make any Grant:

(*a*) *Cost of Project.*—If the engineering Division shall not be satisfied that the Borrower will be able to construct the Project within the cost estimated at the time when the Application was approved by the Government, such estimated cost being the amount of $2,000,000, unless, in the event that additional funds appear to the Engineering Division to be necessary in order to pay in full the cost of the construction of the Project, the Finance Division shall be satisfied that the Borrower will be able to obtain such funds, as needed, through additional borrowing or otherwise, in a manner satisfactory to Counsel for the Government;

(*b*) *Compliance.*—If the Borrower shall not have complied, to the satisfaction of Counsel for the Government, with all the provisions contained or referred to in this Agreement and in the proceedings authorizing the issuance of the Bonds, theretofore to be complied with by the Borrower;

(*c*) *Legal Matters.*—If Counsel for the Government shall not be satisfied as to all legal matters and proceedings affecting the Bonds, the security therefor or the Project;

(*d*) *Representations.*—If any representation made by the Borrower in this Agreement or in the Application or in any supplement thereto or amendment thereof, or in any document submitted to the Government by the Borrower shall be found by Counsel for the Government to be incorrect or incomplete in any material respect;

(*e*) *Financial Condition.*—If, in the judgment of the Finance Division, the financial condition of the Borrower shall have changed unfavorably in a material degree from its condition as theretofore represented to the Government.

5. *Representation and Warranties.*—The Borrower represents and warrants as follows:

(*a*) *Authorizations.*—All necessary authorizations, permits, licenses and approvals from Federal, State, county, municipal and other authorities in connection with the Project or the Bonds have been or will be obtained;

(*b*) *Litigation.*—No litigation or other proceedings are now pending or threatened which might adversely affect the Bonds, the construction and operation of the Project, or the financial condition of the Borrower;

(*c*) *Financial Condition.*—The character of the assets and the financial condition of the Borrower are as favorable as at the date of the Borrower's most recent financial statement, furnished to the Government as a part of the Application, and there have been no changes in the character of its assets or in its financial condition except such changes as are necessary and incidental to the ordinary and usual conduct of the Borrower's affairs;

(*d*) *Fees and Commissions.*—No fee or commission has been or will be paid by the Borrower or any of its officers, employees, agents or representatives, and no agreement to pay a fee or commission has been or will be entered into by or on behalf of the Borrower, or any of its officers, employees, agents or representatives, in order to secure the loan and/or Grant hereunder;

(*e*) *Affirmation.*—Every statement contained in this Agreement, in the Borrower's Application, and in any supplement thereto or amendment thereof, and in any other document submitted or to be submitted to the Government by or on behalf of the Borrower is, or when so submitted will be, correct and complete, and no relevant fact materially affecting the Bonds, the Grant, the Project or the obligations of the Borrower under this Agreement has been or will be omitted therefrom.

6. *Indemnification.*—The Borrower will indemnify the Government and all purchasers of the Bonds from the Government against any loss or liability incurred by reason of any inaccuracy or incompleteness in any representation contained herein. In the event that there shall be any such inaccuracy or incompleteness the Government shall be entitled (in addition to the above right of indemnification and any other right or remedy) to return any or all of the Bonds to the Borrower and recover the price paid therefor by the Government.

7. *Use of Government's Name.*—Without the prior written consent of the Government, the Borrower will not refer to this Agreement or to any purchase by the Government of the Bonds as an inducement for the purchase of any securities (including Bonds repurchased from the Government) of the Borrower, and will not permit any purchaser from it of any such securities to do so.

8. *Sale of Bonds by the Government.*—The Borrower will take all such steps as the Government may reasonably request to aid in the sale by the Government of any or all of the Bonds. Upon request, the Borrower will furnish to the Government or to any purchaser from the Government of 25 per centum of the Bonds, information for the preparation of a bond circular in customary form, signed by the proper official of the Borrower, containing such data as the Government or such purchaser may reasonably request concerning the Borrower and the Project.

9. *Expenses.*—The Borrower will pay all costs, charges and expenses incident to compliance with all the duties and obligations of the Borrower under this Agreement including, without limiting the generality of the foregoing, the cost of preparing, executing and delivering the Bonds and obtaining all legal opinions requested by Counsel for the Government.

10. *Supplemental Documents.*—The Borrower will furnish to the Government such supplemental documents as Counsel for the Government may request in connection with the Bonds, the Grant,

the Project or the obligations of the Borrower under this Agreement.

11. *Waiver.*—Any provision of this Agreement may be waived or amended with the consent of the Borrower and the written approval of the Engineering Division, Finance Division, and Counsel for the Government, without the execution of a new or supplemental agreement, if, in the opinion of Counsel for the Government, which shall be conclusive, such waiver or amendment does not substantially vary the terms of this agreement. No waiver by the Government of any such provision shall constitute a waiver thereof as applied to any subsequent obligation of the Borrower or the Government under this Agreement.

12. *Agreement Not for the Benefit of Third Parties.*—This Agreement is not for the benefit of any person or corporation other than the parties hereto, their respective assigns or the successors of the Borrower, and neither the holders of the Bonds nor any other person or corporation, except the parties hereto, their respective assigns or the successors of the Borrower, shall have any rights or interest in or under this Agreement, except as expressly provided for herein.

13. *Interest of Member of Congress.*—No member of or Delegate to the Congress of the United States of America shall be admitted to any share or part of this Agreement, or to any benefit to arise thereupon.

14. *Validation.*—The Borrower hereby covenants that it will institute, prosecute and carry to completion insofar as it may be within the power of the Borrower, any and all acts and things to be performed or done to secure the enactment of legislation or to accomplish such other proceedings, judicial or otherwise, as may be necessary, appropriate or advisable to empower the Borrower to issue the Bonds and to remedy any defects, illegalities and irregularities in the proceedings of the Borrower relative to the issuance of the Bonds and to validate the same after the issuance thereof to the Government, if in the judgment of Counsel for the Government such action may be deemed necessary, appropriate or advisable. The Borrower further covenants that it will procure and furnish to the Government, as a condition precedent to the Government's obligations hereunder, a letter from the Governor of the Commonwealth of Massachusetts in form satisfactory to Counsel for the Government and expressing the covenant and agreement of said Governor to effectuate insofar as it is within his power the covenant of the Borrower as hereinabove in this Paragraph expressed.

15. *Miscellaneous.*—This Agreement shall be binding upon the parties hereto when a copy thereof, duly executed by the Borrower and the Government, shall have been received by the Borrower. This Agreement shall be governed by and be construed in accordance with the laws of the Commonwealth of Massachusetts. This Agreement shall be binding upon and inure to the benefit of the parties hereto, their respective assigns and the successors of the Borrower, and shall inure to the benefit of the holders from time to time of any of the Bonds; provided, however, that no rights of the Borrower hereunder shall be assignable except with the prior written consent of the Government. All obligations of the Borrower hereunder shall cease upon payment in full of all the Bonds.

16. *Promotion of National Recovery.*—The Borrower covenants to discharge faithfully and with all possible dispatch the duties and obligations imposed upon it by this Agreement, it being the purpose of this Agreement to enable the Borrower to secure the benefits of the Act, foster employment, promote the public welfare and thereby assist in the recovery program of the President of the United States.

17. *Undue Delay by the Borrower.*—The Government shall have the right to rescind the allotment for the Project and annul any obligation to make a loan or a grant to the Borrower unless the Borrower shall within a reasonable time:

(*a*) Sign and return to the Government three counterparts of this agreement as provided in Paragraphs 1 and 2, Part Two, hereof. (For the purposes of this subparagraph 17 (*a*) a reasonable time shall be deemed to be ten days in the ordinary course of events or such longer period as shall be allowed in the absolute discretion of The Federal Emergency Administrator of Public Works);

(*b*) Comply with all the provisions of Paragraph 2, Part Two, hereof, including particularly subparagraph (*e*) relating to the authorization and issuance of the Bonds;

(*c*) File requisitions with the Government in accordance with the provisions of Paragraphs 3 and 5, Part Two, hereof; and

(*d*) Commence or cause to be commenced the construction of the Project.

The Federal Emergency Administrator of Public Works shall determine in his absolute discretion what constitutes a reasonable time within the meaning of this Paragraph 17.

18. *Construction of Agreement.*—If any provision of this Agreement shall be invalid in whole or in part, to the extent that it is not invalid it shall be valid and effective and no such invalidity shall affect, in whole or in part, the validity and effectiveness of any other provision of this Agreement or the rights or obligations of the parties hereto, provided, in the opinion of Counsel for the Government, the Agreement does not then violate the terms of the Act.

IN WITNESS WHEREOF, THE CITY OF BOSTON, SUFFOLK COUNTY, MASSACHUSETTS, and the UNITED STATES OF AMERICA have respectfully caused this Agreement to be duly executed as of the day and year first above written.

Referred to Executive Committee.

SALE OF LAND ON NORTH GROVE STREET.

The following was received:

City of Boston,
Office of the Mayor, February 19, 1934.

To the City Council.

Gentlemen,—The accompanying communication from the Acting City Auditor is submitted in reply to your order of February 12, 1934, requesting information concerning the sale of land on North Grove street.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Auditing Department, February 17, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—In answer to the questions asked in the order of the City Council passed February 12, 1934, concerning the sale of land on North Grove street, the following is submitted:

1. The date the Massachusetts General Hospital took title to the land and buildings on North Grove street was December 26, 1933, assuming that title passed at the time the purchaser paid the city.

2. The amount of money received was $94,768.45.

3. The money received has been credited to the item "Sales of City Property, Special Fund."

Respectfully,
W. J. DOYLE,
Acting City Auditor.

SURVEY OF WELFARE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, February 13, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the chairman of the Statistics Department relative to your order of January 15, 1934, concerning a systematic and detailed survey of the Welfare Department by the Statistics Department and the enlargement and completion of the Consolidated Index Cross Reference System now being compiled by the Statistics Department.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Statistics Department, January 30, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The order of the City Council of January 15, 1934, referred by your Honor to this department for a report, contains two distinct suggestions. One is that the Mayor be requested to obtain a C. W. A. appropriation for a survey of the Public Welfare Department by the Statistics Department and the other for the enlargement and completion of the Index of Habitations and Residents now being compiled.

The Statistics Department is now using a number of C. W. A. workers on the index work and it is hoped that with an extension to April 27, 1934, as requested, that what we feel is a highly important and valuable index will be sufficiently completed so that it can be carried on and kept up to date with the normal supply of assistance.

With reference to the proposed survey of the Public Welfare Department, it should be noted first, that if any such proposed survey or investigation is deemed advisable, it should be made by the Finance Commission or other body having authority to obtain detailed information; second, that such a survey should, of course, be made, at least in part, by trained and experienced men and that it is rather questionable to assume that such men would be furnished under the present C. W. A. program.

Of course, it should be borne in mind that Public Welfare statistics obtained by this department for the Habitation and Resident Index is only one item in the much broader field of information which we are collecting.

Unquestionably the one existing index could be used to great advantage by such officials or department as may be authorized by your Honor to complete the proposed complete survey.

Respectfully,
JAMES P. BALFE, Chairman.

REINSTATEMENT OF ANNIE PETTEE.

The following was received:

Boston City Hospital,
Boston, February 9, 1934.

Mr. W. J. Doyle,
City Clerk.

Dear Mr. Doyle,—The trustees of the hospital respectfully petition that the City Council vote on the reinstatement of Annie Pettee, diet cook at the South Department, who was discharged from the service of the hospital on January 26, 1934, for disciplinary reasons, and whose reinstatement was authorized by civil service, subject to the approval of the City Council, on February 7, 1934.

Miss Pettee's discharge was recommended by Mr. Ralph Craft, head cook in the South Department, and her reinstatement was likewise requested by Mr. Craft. I am inclosing copies of both of his communications to the trustees.

Yours sincerely,
JOHN J. DOWLING,
Superintendent.

Referred to the Executive Committee.

REPORT OF COMMITTEE ON ORDINANCES.

Coun. FISH, for the Committee on Ordinances, submitted the following:

Report on message of Mayor and ordinance (referred February 5) providing that the Superintendent of Public Buildings shall have care, custody and management of Dillaway House, in Roxbury —that same ought to pass.

Coun. FISH—Mr. President, just a word. I might say that in 1930 the Legislature passed an act authorizing the City of Boston to expend $25,000 in fixing up and altering the Dillaway House. In 1933 we passed a loan order for $25,000 in connection with that work, which has now been completed. Having been completed, we are now prepared to pass an ordinance that will provide proper care through the Public Buildings Department.

The report was accepted and the ordinance passed.

REPORT OF COMMITTEE ON RULES.

Coun. WILSON, for the Committee on Rules, submitted the following:

1. Report on order (referred January 22) that Police Commissioner be requested, through his

Honor the Mayor, to remove from Municipal Court and all District Courts in Boston, police officers who are especially assigned to present and prosecute criminal cases in said courts, and transfer such officers to more active duty for benefit of city —that same ought to pass.

Coun. WILSON—Mr. President, I might say that the committee makes this report, recognizing the importance of action of this kind certainly until such time as the Police Department ceases to be undermanned to the tune of at least two hundred patrolmen.

Report accepted; order passed.

2. Report on order (referred January 22) that the Mayor be requested to take immediate action in opposition to any expenditure by the United States Government or the State in aid of proposed housing development in East Boston—that same ought to pass.

Coun. WILSON—Mr. President, a majority of the committee strongly agreed with the councilor from East Boston (Coun. Selvitella) that the expenditure of any such money by the government for any such purpose is very poorly advised at this time, not from the point of view of East Boston alone, but of the entire City of Boston, only making worse real estate conditions in the city and working to the detriment of the rentpayers and taxpayers of Boston.

Coun. NORTON—Mr. President, I think we should keep in mind the fact that the United States is under a certain agreement to undertake slum clearances, but that it is first necessary to get through the Legislature an enabling act such as Governor Lehman was able to get through the New York Legislature. When it comes to the matter of doing away with slums in Boston, I have an order prepared which I shall hope to offer at that time.

Report accepted; said order passed.

NAMING OF "STORROW BASIN."

Coun. FITZGERALD offered the following:

Ordered, That the Boston City Council requests that the Metropolitan District Commission and the Boston Park Commission change the name of the Charles River Basin and Charlesbank Park to the Storrow Basin in honor of James J. Storrow who was the father of the basin. His widow, Mrs. Storrow, has recently given a million dollars for the reclaiming and completion of the basin.

Coun. FITZGERALD—Mr. President, a part of that basin belongs to the City of Boston and part to the state and, as the work is now nearing completion, I hope to get a small appropriation and have the city join with the state in celebration of the completion of the work. I trust, of course, that there will be a sum sufficient to provide a celebration that will be an honor to our city, having in mind that Mr. Storrow was the father of that proposition and was born in the West End of Boston. I trust that the order will pass.

The order was passed under suspension of the rule.

SURVEY OF HOSPITAL FACILITIES.

Coun. FITZGERALD offered the following:

Ordered, That his Honor be requested to have a survey made of the present facilities of the Boston City Hospital by the new Institutions Commissioner, Dr. Frederick H. Washburn, covering the following points:

First. What, of the recommendations made to the Mayor of the City of Boston on June 15, 1929, by Doctor Washburn of the Massachusetts General Hospital, Doctor Howland of the Peter Bent Brigham Hospital, and Doctor Emerson of the New York Health Department, have (*a*) been adopted; (*b*) have not been adopted?

Second. What of these recommendations should now be adopted to relieve the Boston City Hospital?

Third. What has been done to provide care for the 19 per cent of tubercular patients who could be better treated elsewhere?

Fourth. What has been done to relieve the wards of the Boston City Hospital of the 183 cases of chronic disease?

Fifth. What proportion of the 25 per cent of nonresident patients are private patients and pay fees to the staff physicians?

Sixth. If the members of the staff are allowed to take in private patients (*a*) from Boston, (*b*) from outside Boston, is there any regulation of their fees?

Seventh. What part of the hospital cost do these patients pay, and how is the cost determined?

Referred to Committee on Hospitals.

INFORMATION ON PROPOSED SURGICAL BUILDING.

Coun. SHATTUCK offered the following:

Ordered, That the Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to furnish the City Council with the following information for its assistance in passing upon the pending loan order for a new surgical building:

(1) The daily average number of bed patients accommodated during the year 1933.

(2) The number of additional beds which will be made available if the proposed building is constructed.

(3) The number of nonresidents of Boston furnished with beds during the year 1933, and the approximate daily average.

(4) The number of bed patients who paid, in whole or part, during the year 1933, and the total amount in dollars collected from bed patients; and the percentage of pay patients.

(5) What steps are taken to determine whether persons admitted have a residence in Boston?

(6) What steps are taken to determine whether persons admitted can afford to pay, in whole or in part?

(7) How many beds in the City Hospital are occupied by continued-treatment patients who might more properly be accommodated at Long Island or at some other institution?

(8) What is the approximate per diem expense, exclusive of interest on investment in plant, of maintaining a bed patient in the City Hospital?

(9) What has been the capital outlay on the City Hospital plant in the last ten years, and how many beds have been added to its accommodations during that period?

(10) Having in view the interest and amortization charge on a new surgical building and the operating expenses of such building, could not the city at less expense arrange with existing hospitals for the accommodation of persons eligible for admittance to the Boston City Hospital who cannot be accommodated there by reason of lack of space?

Coun. SHATTUCK—Mr. President, there is pending before this body a loan order of $1,500,000 for a new surgical building for the Boston City Hospital. I assume that the main reason for that order is to provide additional accommodations at the City Hospital on the ground that the accommodations now there are insufficient. At the same time, one constantly hears, when the City Hospital is mentioned, of the large number of nonresidents who are allowed to go there and become patients, and also hears that a great many persons are admitted and treated free who can well afford to pay at least something It would seem to me that there is no reason why those nonresidents should not go to their own city or town hospital or, if there happens to be no city or town hospital in the place they come from, why they should not go to one of the private charitable hospitals, of which there are a great number. If a person can afford to pay a substantial amount, or something, there is no reason why he or she should not go to one of the present private hospitals, of which I believe many have ample accommodation at the present time. Therefore, I believe, before considering the expenditure of this very large sum of money on enlargement of the City Hospital, we should have the facts concerning nonresidents, concerning the extent to which the hospital is used by nonresidents and by persons who could pay and who could be properly accommodated elsewhere. It may be that there is a sufficient number of such persons so that, when they are eliminated, there will be plenty of accommodation for those persons who are in need of hospital treatment, who are unable to pay and who are *bona fide* residents of the City of Boston. That, sir, is the purpose of the order which I have filed.

The order was passed under suspension of the rule.

IMPROVEMENTS, WARD 1.

Coun. SELVITELLA offered the following:

Ordered, That his Honor the Mayor be requested to direct the Commissioner of Public Works to install a better lighting system on Bennington street, between Central square and Day square, Ward 1.

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install automatic traffic signals at the intersection of Meridian and Condor streets, Ward 1.

Severally passed under suspension of the rule.

TRAFFIC SIGNALS, WARD 10.

Coun. DOHERTY offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Parker and Heath streets, Ward 10.

Passed under suspension of the rule.

PROPOSED ACCEPTANCE OF WENDOVER STREET.

Coun. KERRIGAN offered the following:

Orderd, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Wendover street, Ward 7, as a public highway.

Passed under suspension of the rule.

FLAT RATE ON AUTO INSURANCE.

Coun. BRACKMAN offered the following:

Resolved, That the City Council of Boston hereby favors the enactment of legislation providing for a flat rate on compulsory automobile insurance throughout the state.

Coun. BRACKMAN—Mr. Chairman, during the past several years the people of the City of Boston have endeavored to get a bill through the Legislature to stabilize the rates of insurance throughout the state rather than continue with the present zoning system. It seems that the zoning system has worked a great hardship on the people of Boston; within a very short distance we have Boston people paying $65 a year, while people just over the line pay as little as $33. There is again at present a bill pending before the Legislature to do away with the zoning system, and I believe every member of the City Council should go on record as favoring the enactment of such legislation.

The order was passed under suspension of the rule.

REPAVING OF HANSBOROUGH STREET.

Coun. GOLDMAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Hansborough street, Ward 14.

Passed under suspension of the rule.

SUPPORT OF TYDINGS RESOLUTION.

Coun. GOLDMAN and BRACKMAN offered the following:

Resolved, That the Boston City Council hereby goes on record in favor of the Tydings Resolution, introduced into the United States Senate and entitled "Senate Resolution 154," condemning the discrimination and impression imposed upon the Jewish people in Germany.

That copies of this resolution be sent to Senator Millard Tydings, sponser of the Senate Resolution, Senator Key Pittman, chairman of the Foreign Relations Committee, and Senators David I. Walsh and Marcus Coolidge of Massachusetts.

Passed under suspension of the rule.

USE OF ELEVATED SPARE POWER.

Coun. GOLDMAN offered the following:

Ordered, That his Honor the Mayor be requested to consider the advisability of utilizing the unused or spare capacity of the South Boston and Lincoln power stations of the Boston Elevated Railway Company as a source of power for part or all of the municipal requirements of the City of Boston and take such steps as may be necessary for the enactment of legislation providing for the use of said plants.

Passed under suspension of the rule.

HEALTH UNIT.

Coun. GOLDMAN offered the following:

Ordered, That the trustees of the George Robert White Fund be requested, through his Honor the Mayor, to consider the establishment and maintenance of a health unit in the vicinity of Woodrow avenue and Blue Hill avenue, Ward 14.

Passed under suspension of the rule.

ASSURANCE OF GAS STREET LIGHTS IN DORCHESTER.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to instruct the Public Works Commissioner to require the Boston Consolidated Gas Company to assure adequate and consistent lighting of street lamps in the central Dorchester district.

Coun. WILSON—Mr. President, I shall be very brief in this matter. I don't know what the present set-up is with the Boston Consolidated Gas Company, whether the charge is so much whether the lights are on or not; but the situation, at least in the central Dorchester district, has been such that for the past two weeks there has been in some cases almost a cessation of lighting of a great many streets. I would, therefore, call for some sort of showdown with that particular company.

The order was passed under suspension of the rule.

RESTRICTED PARKING.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, requested not to approve any drastic code of regulations relative to restricted parking

in public streets as proposed by certain private garage owners in Boston.

Coun. WILSON—Mr. President, I read not long ago about the presentation made to the Mayor by interested garage owners in the City of Boston calling for more restrictive parking regulations in the city and was interested to read that the suggestion had been made that certain hungry garage owners wished to change the regulation of vehicles in the streets, so that the owners would be required to put them in privately-owned garages, and also looking to certain code regulations in the matter. As I see it, the regulations desired on behalf of these private garages must be, if there are such regulations, ones that do not interfere with the free flow of traffic. To my mind, the only regulation that should be made would be one in the interest of the free flow of traffic. As a matter of fact, the garages assume no responsibility in this matter. The average checking stub from a privately-owned garage or from outside parking space has printed on the reverse side a condition that specifically lets the garage or the parking space out in case of fire, theft, or damage while the car is parked or left there. If a car is left in such a garage or parking space, and you pay 50 cents or a dollar for the privilege, all you get is immunity from a parking tag. That is carried to the logical conclusion on Custom House street, where the Custom House Garage has to be closed for further parking each morning when it is filled, and after the garage is filled the sidewalks and streets are absolutely clogged with traffic, as has been the case for two or three years. If you have paid the Custom House Garage the ordinary money for police protection, your car is not tagged, but if in that section you have not paid for your ticket you are not immune from police tags. So, while it may be a courteous gesture to allow the private garage owners to present a code of regulations, I feel strongly that the business men of Boston, many of whose customers come in automobiles to the city, and a great many of the automobile owners of Boston who come in for only a short time at certain parts of the day, should be allowed to retain some of their rights; that they should not be forced into privately-owned garages under all circumstances, simply for the benefit of the particular owners of the garages. Of course, people engaged in any business like to have certain action taken for their particular benefit. The Boston Elevated Company objects to the collecting of 10 cent fares by taxi drivers, to the injury of their business; and the taxi drivers themselves like to keep private vehicles outside of Boston, if possible, so that they may reap a benefit. And it is so with the private garages. But I trust that the time has not yet come when codes and regulations of all sorts will simply be put into effect for the benefit of private interests, and when those who can bring the strongest pressure to bear will be the most successful.

The order was passed under suspension of the rule.

NUMBER OF C. W. A. BOSTON WORKERS.

Coun. WILSON offered the following:

Ordered, That Walter V. McCarthy, through his Honor the Mayor, be, and he hereby is, respectfully requested to advise the City Council forthwith as to the number of C. W. A. workers resident in Boston actually working and receiving C. W. A. pay (*a*) during December, 1933, and (*b*) during January, 1934.

Ordered, That his Honor the Mayor be, and he hereby is, requested to contact the Federal C. W. Administration to prevent the dropping of workers on Boston projects at the present time.

Coun. WILSON—Mr. President, even as one who is not 100 per cent sold on this idea of Public Works and the C. W. A. I yet have an interest, which has not yet been satisfied, in trying to get some degree of information. It took us three weeks to obtain a response to a letter addressed to the President of the United States and to Mr. Ickes, in Washington, last month, in regard to public works. A week ago, on behalf of the Council, I wired Washington for information asking the names of the various works projects and the amount allocated to each, so that the City Council might have some information in that regard, as the figure, according to information furnished us, has varied from $5,000,000-odd up to $10,000,000. A response to that has been received by neither mail nor telegram, and we now read about the laying off of C. W. A. workers in the City of Boston. I was glad to read in the morning paper an appeal from Mayor Mansfield that the 14,000 C. W. A. workers in Boston should not be dropped. We had previously been told by Mr. McCarten through the Mayor's office that the C. W. A. workers in Boston numbered 16,000. Of course, even that figure was a low one, because we had previously received word in this city that the number employed here would run from 19,000 to over 20,000. But it seems as though the C. W. A. situation as far as Boston is concerned, has been badly bungled. So I have been trying to obtain information as to how many workers in the City of Boston are actually on these rolls, whether 14,000, as we are now advised, or in excess of 16,000, as we were earlier advised, or somewhere nearer the 19,000 that we were told some time ago Boston was to receive. I have asked for tha information from Mr. McCarthy, and I am glad to see that the Mayor is sending out this appeal. In view of the fact that the C. W. A. situation here has been so badly bungled to date, it seems to me that we are entitled to information, certainly we in this part of New England that has so far got the worst break.

President DOWD—The Chair would state that in a conference with Mr. McCarthy, Mr. McCarthy advised him that the greatest number placed at work under C. W. A. has been 13,500; that at the present time, according to the population of the City of Boston, the number of men placed at work here on projects would be 20,000, but that at no time have there been more than 13,500 placed at work.

Coun. WILSON—I know that we are all pleased to receive that information, and I, for one, am disillusioned. At a conference held last Monday, at which you were present, at which Mr McCarten was present, we were told that there were 16,000 C. W. A. workers in the City of Boston. It is certainly disillusioning and disappointing to find out in connection with this great project—if it turns out to be a great project, so far as placing men at work is concerned—the man in charge in the City of Boston does not know how many men, within 2,000 or 2,500, are actually working under the program in this city.

The orders were passed under suspension of the rule.

PATIENTS AT BOSTON CITY HOSPITAL.

Coun. NORTON offered the following:

Ordered, That the City Hospital Trustees be requested, through his Honor the Mayor, that no patient be accepted at the Boston City Hospital who is able to pay for hospital treatment excepting of course emergency cases.

Referred to Committee on Rules.

ARC LIGHT, WARD 21.

Coun. AGNEW offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of Cambridge street and Cambridge terrace, Ward 21.

Passed under suspension of the rule.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their wives in the City of Boston for the month of February, 1934.

Report accepted; said order passed.

RECESS.

The Council voted at 2.55 p. m., on motion of Coun. TOBIN, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order at 3.54 p. m. by President DOWD.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on petition of Boston American League Baseball Company (referred February 12) for license for Sunday sports—recommending that permit be granted.

Report accepted; permit granted on the usual conditions.

2. Report on bond of Boston American Baseball Company for $100,000—that same be approved.

Report accepted; bond approved.

3. Report on petition (referred today) of City Hospital Trustees for reinstatement of Annie Pettee, recommending passage of following order, viz.:

Ordered, That under the provisions of chapter 320 of the Acts of 1933 the reinstatement of Annie Pettee, in the employment of the city as a diet cook at the City Hospital, be, and hereby is, approved.

The report was accepted and the order passed.

4. Report on message of Mayor and order (referred January 29) for sale of ferryboat "John H. Sullivan" at upset price of $5,000—that same ought to pass.

Report accepted; said order passed.

5. Report on message of Mayor and orders (referred today) rescinding loan of $28,000,000 and authorizing new loan of $28,000,000—that the orders ought to pass.

The report was accepted, and the question came on the passage of the two orders.

Coun. WILSON—Mr. President, in speaking on this particular order now my position is perhaps a little embarrassing, because I made no objection in Executive, and there was no objection there to the passage of this order. But I wonder if it would mean any real harm to allow it to lie on the table for one week, giving the members of the body a chance to look into it? Very frankly, I have not read chapter 11 of the Acts of this year and, while I am informed that this will bring us in line with the other cities and towns of Massachusetts, I am reminded of the arrangements whereby the banks find it possible to lend the City of Boston substantial sums of money in anticipation of taxes until October, while by this act not only taxes but other funds of the city are earmarked against the loan, and the banks that have done business with Boston will be in a position of having the money in the bank without interest until October. Unless there is objection, as we have already disposed of $2,000,000 of the $30,000,000, I trust that this order may be laid over for a week.

President DOWD—The Chair would simply state that the Mayor's letter to us says he believes this action is absolutely necessary because of the fact that the Legislature has already passed this act and that it is imperative that we should act as is proposed here in order that there may be no delay in obtaining temporary loans by the city in anticipation of the taxes of the current financial year.

Coun. WILSON—Mr. President, I don't want to be too technical, but do I understand that we cannot borrow under the old set-up under which we have been acting for years a sufficient amount to carry us along?

President DOWD—I am advised that we cannot borrow under the special act under which we have been borrowing in the past.

Coun. WILSON—In other words, this chapter 11 of 1934 makes it obligatory to proceed under this act if we are to issue bonds?

President DOWD—I understand so. It is a temporary loan, and requires two readings—a reading today and a reading next Monday.

Coun. WILSON—Well, I hate to be put on the spot, and I would simply remark, how unfortunate it is, if it has been known for some weeks past that this chapter was to be passed, that it was not brought to our attention a little earlier.

President DOWD—I am advised that it was only passed on Thursday or Friday of last week and that the City of Boston cannot borrow, even temporarily, except under this act.

Coun. WILSON—So the method of borrowing has been changed in this way, the method under which the city has been borrowing for years, and we have not even received any information that such legislation was going through?

President DOWD—We have advised our City Messenger Department to keep us informed of all bills pending, but the Chair knows of no official information by which the body would be so advised.

Coun. WILSON—Well, Mr. President, I want to be fair about this matter, and not stubborn. But I am going to take this position, starting today, when so-called emergency measures are presented to us, changing the whole policy of the City of Boston or the whole method of procedure of the city government of Boston, involving rescission of loan orders or any other action, that I shall insist on more than thirty minutes for consideration before I vote.

Coun. McGRATH—Mr. President, I would like to ask whether, if we do act as proposed, the auditing department of the state can come into our city and take control of our finances?

President DOWD—Absolutely not. My understanding is that in the past we have been borrowing under our special act, and that now we have got to get in line with the other cities and towns.

Coun. NORTON—Mr. President, I would like to ask the City Clerk what earmarking means in this particular connection?

President DOWD—The City Clerk's explanation is that under the old act the loans were paid from taxes raised during that particular year. Under the new act the loans will be paid from taxes and revenue,—in other words, from all available resources.

Coun. NORTON—What power does this give to bankers in the matter more than was given under the previous act?

President DOWD—Absolutely none whatsoever, except more security.

Coun. WILSON—Mr. President, these questions are perhaps unfair to ask of you, and they should perhaps have been asked in Executive. I wish I had asked the Mayor to come before us in the executive meeting. But I understand than under this set-up all money that comes into the hands of the City of Boston is available, not only taxes but all revenue, including, I assume, revenue from the Water Division, Market Department, or other departments, money from the Registrar's Department, received from certificates of deaths and marriages,—all money, in addition to the taxes, deposited by us in the bank, and lying there presumably without interest or with very inadequate interest, all earmarked against the bonds we sell, and that it cannot as a matter of fact be touched until the latter part of the year.

President DOWD—That seems to be so.

Coun. WILSON—How unfortunate that is! I don't know what powers were behind chapter 11 of this year but I again repeat, how unfortunate it is that such a change should have been made by this act recently without the city government of Boston even being advised of it and being given an opportunity to appear upon the bill.

Coun. McGRATH—Mr. President, I now make a motion to lay on the table. I have heard so

much in times gone by about very important and drastic legislation that must be passed without having previously even been brought to the attention of the Council, and that if it is not immediately passed, welfare cannot be paid, hospitals cannot function, one thing or another, that I am getting pretty sick and tired of it. I move that this matter lie on the table to give us an opportunity to study it.

Coun. SHATTUCK—Mr. President.

President DOWD—No debate is in order on the motion to lay on the table.

The Council voted to lay the matter on the table, by rising vote, 12 to 4.

PROPOSED USE OF ARMY BASE.

Coun. SELVITELLA offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Boston Port Authority and consider the advisability of leasing or purchasing the Army Base in South Boston with a view of developing and expanding the Port of Boston.

Passed under suspension of the rule.

USE OF UNITED STATES VETERANS' HOSPITAL NO. 44.

Coun. FINLEY offered the following:

Ordered, That his Honor the Mayor be requested to confer with the City Hospital Trustees to consider the advisability of utilizing the buildings formerly occupied by the Federal Government as United States Veterans' Hospital No. 44, West Roxbury, as a convalescent hospital or for other hospital purposes.

Passed under suspension of the rule.

Adjourned, at 4.06 p. m., on motion of Coun. FISH, to meet on Monday, February 26, 1934, at 2 p. m.

SPECIAL MEETING.

Wednesday, February 21, 1934.

Special meeting of the City Council in the Council Chamber, City Hall, at 1.30 p. m., pursuant to the following call:

City of Boston,
City Clerk's Office, February 19, 1934.

A special meeting of the City Council will be held in its chamber, City Hall, on Wednesday, February 21, 1934, at 1.30 o'clock p. m.

Subject: To act on temporary loan orders.

By order of the President.

W. J. DOYLE,
City Clerk.

Placed on file.

President DOWD presided, and all the members were present except Coun. Murray and Shattuck.

BORROWING IN ANTICIPATION OF TAXES.

The following was received:

City of Boston,
Office of the Mayor, February 21, 1934.

To the City Council.

Gentlemen,—I am attaching hereto a copy of an opinion from Corporation Counsel Henry E. Foley relative to the effect of the proposed order to authorize borrowing in anticipation of taxes for the year 1934, which I submitted to your honorable body on February 19 last and which, I think, will clarify the situation.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Washington, D. C.,
February 20, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I have been advised by certain members of the City Council that they entertained doubts as to the effect of the proposed order to authorize borrowings in anticipation of taxes for the year 1934, which you submitted to the City Council on February 19, 1934. I submit herewith the reasons leading me to believe that the proposed order should be passed, and my opinion as to the effect of this order.

There was introduced in the Legislature this year a bill relative to temporary loans by cities, towns, and certain districts in anticipation of revenue, which bill became law on February 18, 1934 (chapter 11 of the Acts of 1934). In substance, chapter 11 of the Acts of 1934 amended section 4 of chapter 44 of the General Laws (dealing with temporary borrowings in anticipation of revenue) by striking out from said section the words "and expressly made payable therefrom by such vote" and further expressly provided that section 4 should apply to Boston.

From the legislative history of chapter 11, and from its preamble, I am of the opinion that chapter 11 provided for the striking out of the above-quoted words because certain purchasers of municipal notes had suggested that the presence of these words indicated a legislative intent that notes issued under section 4 of chapter 44 of the General Laws should not be general obligations of the cities or towns issuing them, but were to be payable only from the revenue of the year, and from no other sources. This opinion was not, I believe, shared by local bond counsel, nor by the Law Department of Boston. The view that these obligations were not general obligations, however, threatened to impair the marketability of the notes.

Similarly, I am of the opinion that the provision in chapter 11 that section 4 of chapter 44 of the General Laws should apply to Boston, was inserted because a doubt had been raised by purchasers of notes of the City of Boston as to the power of Boston to borrow in anticipatin of taxes. This doubt was not shared by local bond counsel, and I believe rightly. Furthermore, the Law Department, under my predecessors, has been of the opinion that section 4 did apply to Boston, but in view of the doubt expressed, it seemed advisable to the Legislature to be explicit in this matter.

It is my further opinion that chapter 11 was intended merely to clarify the law, and that it does not in substance change the law. Notes duly issued by cities and towns under section 4, as now amended, are clearly general obligations of the cities and towns issuing the same, but they are not secured by any specific municipal funds; in other words, obligations arising therefrom are on the same footing with ordinary contractural obligations of the municipality.

The order providing for temporary loans in anticipation of taxes of the year 1934, which was given its second and final reading by the City Council on January 8, 1934, and approved by you on January 9, 1934, contained in it the words "payable . . . from the taxes of the year 1934."

In view of the change in section 4 of chapter 44, it seems to me desirable to limit said order to the notes already issued thereunder, and pass a new loan order authorizing borrowings in anticipation of taxes for the year 1934, this new loan order to be in the same form as the one last adopted, with two exceptions: (1) that the amount be $28,000,000, and (2) that the words "from the taxes of the year 1934" be omitted.

Inasmuch as revenue includes taxes, loans in anticipation of taxes are, in my opinion, authorized under section 4 of chapter 44 as amended.

Respectfully submitted,
HENRY E. FOLEY,
Corporation Counsel.

Placed on file.

President DOWD—The matter of the proposed rescission of the $28,000,000 loan order and passage of a new loan order in anticipation of taxes now lies on the table. What is the pleasure of the body? Before we act they must be taken from the table.

The Council voted to take the matters referred to from the table.

President DOWD—The question now comes on rescission of the temporary loan order already passed and the passage of the new temporary loan order for $28,000,000 to a first reading.

Coun. WILSON—Mr. President, as I understand it, at the present time chapter 11 of the Acts of 1934—which received the signature of the Governor only last week and which was introduced into the Legislature and passed without notice to the Council—is the only law under which the City of Boston can now make temporary loans in anticipation of taxes, that we have no alternative. I assume that the City of Boston has to obtain money through borrowings in this way this year, in order to do business, and that it must be done under chapter 11 of the Acts of 1934?

President DOWD—The Chair understands that that is absolutely correct.

Coun. McGRATH—Mr. President, in view of the fact that the Corporation Counsel of the city has stated to us that the letter sent by his Honor the Mayor is erroneous and is not the letter that he expected to be sent, and that he now assumes responsibility in the matter, I have no further objection to the passage of these orders.

The orders before the Council for passage are as follows:

Ordered, That the right to borrow money in anticipation of the taxes of the current municipal year under loan order passed January 8, 1934, and approved by the Mayor January 9, 1934, be limited to $2,000,000, and that the authorization to borrow in excess of said amount for said purpose be, and the same hereby is, rescinded.

Ordered, That to provide temporarily money to meet the appropriations for the financial year 1934, the City Treasurer issue and sell, at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston not exceeding $28,000,000 in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon within one year of their date and bear interest from their date until the same are made payable at such rate as the City Auditor, the City Treasurer, and the Mayor may determine.

The orders were given their first reading and passage, yeas 17, nays 0:

Yeas—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fish, Fitzgerald, Gallagher, Goldman, Green, Kerrigan, McGrath, Selvitella, Tobin, Wilson—17.

Nays—0.

The orders will come up later for final reading and passage.

On motion of Coun. ENGLERT, the business for which the Council was convened having been transacted, the Council voted, at 2.04 p. m., to adjourn to Monday, February 26, 1934, at 2 p. m.

REVISED INVITATION TO BIDDERS.

This advertisement supersedes the Invitation to Bidders to submit proposals March 5, 1934, to furnish signal cable for the Police Department of the City of Boston, published in the *City Record* (Boston) February 24, 1934.

CITY OF BOSTON.

POLICE DEPARTMENT.

Sealed proposals, in triplicate, will be received at the office of the Police Commissioner of the City of Boston until twelve o'clock noon of March 17, 1934, to furnish signal cable for the Police Department of the City of Boston. Due consideration should be given to the fact that the project upon which the material is to be used is intended to be constructed and financed by loan and | or grant under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933. The attention of prospective bidders is directed to the special contract provisions relating to such projects as prescribed by the Federal Emergency Administration of Public Works. No bid will be received unless accompanied by United States Government Form No. P. W. A. 61, "Certificate of Compliance with N. R. A. in connection with P. W. A. Projects," properly executed by the bidder. Specifications and form of proposal will be available to prospective bidders at the office of Jackson & Moreland, engineers, at 9 a. m., March 3, 1934, upon the deposit of fifteen dollars ($15). Any inquiry regarding interpretation of the specification or other contract documents should be in writing and addressed to Jackson & Moreland. Proposals must be accompanied by a certified check payable to Eugene C. Hultman, Police Commissioner, in the sum of five per cent (5%) of the bid price for the nominal quantities enumerated in the proposal. The successful bidder will be required to furnish a bond for an amount equal to the total contract price, executed in accordance with the terms of the contract. This bond is to be obtained through a broker or agent of a reputable bonding company. The right is reserved to reject any or all bids.

By order of the Police Commissioner of Boston.

MARTIN H. KING,
(Mar. 3-10.) *Acting Police Commissioner.*

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, MARCH 10, 1934. No. 10

MAYOR MANSFIELD LAYS WREATH AS BOSTON'S ANNUAL TRIBUTE TO THOSE WHO FELL IN BOSTON MASSACRE — CALLS ATTENTION OF LARGE AUDIENCE AT MONUMENT EXERCISES ON COMMON, ON MARCH 5, TO PART PLAYED BY SEEMING LOCAL AND MINOR EPISODES IN EPOCH-MAKING EVENTS THAT FOLLOW — ALSO PAYS TRIBUTE TO AMERICAN SPIRIT OF FAIR PLAY AND VALOR OF CRISPUS ATTUCKS.

Mayor Mansfield, upon sharing in the Common exercises commemorating the Boston Massacre, when placing a wreath at the monument on March 5, spoke in part as follows:

Not only the student of history, but even the casual reader of the chronicle of human events, has often been struck by the important part played in world affairs by episodes which at the time of their happening seemed to be rather unimportant in their nature and entirely local in their scope.

The spark that kindled the World War apparently was a small thing, but its effect upon the history of the world is, and will be, incalculable. And in the history of our own country there is marked a series of events seemingly of relative unimportance but which were fraught with the most serious and far-reaching historical consequences.

Thus there are certain dates in the history of Boston which have a particular meaning to the student of American history and a peculiar significance to every American and especially to every Bostonian.

Those dates marked the happenings of certain things, the full import of which was not realized at the time. Thus, 1768, five years before the Boston Tea Party marked the crystallization of a growing feeling against customs imposed by England upon the American colonies, culminating in that year in the seizure by some of the citizens of Boston of a cargo stored in the hold of a ship belonging to John Hancock and anchored in Boston Harbor for the purpose of landing the merchandise without paying customs. That was followed in the same year by an order from England imposing upon the people a detachment of English soldiers who were quartered upon the citizens of Boston. As might have been foreseen by a less stupid minister than Lord North and a less obstinate monarch than King George, this order merely served to inflame the smoldering wrath of the people. Clashes between the soldiers and the citizenry were frequent during the following year until, in 1770, we come to another important date.

Causes of Clash.

And that is the date of March 5, 1770, a date marking an event which we commemorate here today. A sentinel pacing his beat before the Custom House on King street, now State street, had been taunted by some of the citizens of the town and the baiting had become so persistent and annoying that the sentinel retreated up the steps of the Custom House and finally called for help from the quarters on the opposite side of the street where a detachment of the English regiment was stationed. Captain Preston immediately appeared on the scene with nine or ten armed English soldiers in uniform. The crowd and the tumult increased and in the confusion a volley was fired. Some say that Captain Preston never gave the order to fire, other accounts say that he did give the command. But in any event three or four of the citizens were killed and the first man to fall was Crispus Attucks, in whose memory the citizens of Boston have erected this shaft and to whom we today pay tribute as one of those whose lives were sacrificed in the cause of American freedom.

Crispus Attucks, according to some authorities, lived in Framingham, but worked in Boston. Some writers say that he was the leader of the citizens in the affray with the soldiers; others say that he was quietly watching the affair but did not participate in the tumult. But that is not an important point, however it may be. His death marked a date. It was an event. It was one of the many apparently small things preceding the Declaration of Independence, each of which while apparently trivial fanned the flames of independence, and which finally in the aggregate culminated in the conflagration which destroyed forever English domination in American affairs.

Crispus Attucks was not a white man. Negro blood was in his veins. If it shall be said that this black man was a hero and that he gave his life for his country then he gave it for a nation of a color different from his own, to a white nation, which, by the irony of fate, was to enslave his people until they were liberated by Abraham Lincoln, nearly one hundred years later.

(Continued on page 224.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR MANSFIELD APPROVES NEPTUNE GARDENS, INCORPORATED, PROJECT FOR EAST BOSTON AFTER INVESTIGATION AND CAREFUL CONSIDERATION LEAD HIM TO DECIDE CONSTRUCTION WILL BE VAST BENEFIT AND NOT HARM TO SECTION — PRESENTS STEPS BY ANALYSIS OF WHICH HE ARRIVED AT HIS CONCLUSIONS WHEREUPON ACTION WAS BASED.

I have approved of the Neptune Gardens, Incorporated, project for a housing development at East Boston, and have sent a telegram with a confirmatory letter to that effect to Harold L. Ickes, Esquire, Secretary of the Interior, Washington, D. C.

I have had the matter under consideration for some weeks and have come to this conclusion only after mature deliberation. The project seems a worthy and desirable one for many reasons which may be briefly enumerated as follows:

REASONS STATED.

1. It will give more than 1,000 laborers and skilled mechanics work for more than one year.

2. Preference will be given to local workmen and dealers in building material.

3. It will add between $50,000 and $100,000 to the collectable taxes of the city, depending upon the valuation placed upon the finished project by the assessors.

4. The amount set aside for this project, namely, $3,500,000, is to be advanced by the United States Government and not one dollar of it by the City of Boston.

5. The owners of the land do not receive any money whatever from the Federal Government but instead receive shares of stock in Neptune Gardens, Incorporated, the corporation which is sponsoring the project.

6. This stock is limited to a 6 per cent dividend and after all taxes, mortgage interest, and expenses are paid if the dividend exceeds 6 per cent it does not go into the pockets of the shareholders but goes back into the project for the purpose of reducing the rent charged to the tenants.

7. The United States Government is secured by a first mortgage on the property to run for thirty years at 4 per cent, 2 per cent of the principal to be paid annually.

8. If the project when completed is not successful and the corporation cannot carry out its obligations then the United States Government is to take it over and the owners lose the land and whatever money they have invested in the project, but the city is secured by the fact that the United States Government will take it over and be responsible for taxes and any other municipal charges.

9. It will beautify East Boston, and in my opinion will attract new tenants who will add to the population of that district, and it will be an improvement of benefit to the entire city.

10. The only cost to the City of Boston would be installing branch sewers to connect with two main trunk lines which are already in place and connecting sewer and water pipes with the houses that are to be built, and to bring the streets up to grade with top surfacing. It is estimated that this cost will be between $65,000 and $85,000, which would probably be offset by the first year's taxes when the project is completed.

FEDERAL GOVERNMENT'S PART.

11. The Federal Government has the option to purchase the stock from the stockholders at cost at any time during the thirty-year mortgage period and is also to appoint two directors of the corporation — provisions that insure honest and efficient management.

12. The estimated monthly budget is to be deposited in local Boston banks and all checks drawn against this deposit are to be signed by the treasurer of the corporation and countersigned by a supervisor for the government, the deposit to be secured by the posting with the government by the bank of Liberty Bonds.

I have heard only one argument advanced in opposition to this project and that is it will tend to attract tenants from older homes already built in East Boston, thus making it more difficult for those home owners to pay their taxes, interest on mortgages and the like, and it has been said that there are a great many idle apartments in East Boston at the present time.

If I thought that the effect of building these new homes contemplated by Neptune Gardens, Incorporated, would be to take tenants away from the apartments which they now occupy in the older parts of East Boston and that that would result in lowering the values of these older homes and the impairing of the security of the local banks which have lent money upon these older homes, I would not hesitate to disapprove of this project.

I am of opinion that the building of the new project will not draw tenants from other home owners in East Boston and I think that prophesies and predictions that it will do so cannot be justified by facts.

APARTMENTS NOT VACANT.

And the statement which I have heard confidently made to the effect that a large number of the apartments in East Boston are now vacant is not borne out by a careful investigation. A survey was made for the purpose of determining this very fact, and I am satisfied by a partial check which I myself made on the ground that this survey is accurate and reliable. It discloses the astonishing fact that over 97 per cent of all of the apartments in East Boston are rented. The total number of vacant apartments in the entire district was only 349, when the survey was made a few weeks ago, out of a total number of 12,745 apartments. I have no accurate figures for any other district in Boston, but I am inclined to believe that no district in the city can show such a high percentage of rented apartments as East Boston.

I have been informed that there was much opposition to this project from the people of East Boston. I know there have been some meetings held but I am not satisfied that those meetings fairly reflected the views of the people of East Boston. The East Boston Board of Trade, for example, has definitely gone on record as in favor of the project, and opposition has been based largely upon the assumption that this project would destroy the value of other homes and real estate in East Boston,— an assumption which I think is entirely unwarranted as I have above stated. A somewhat similar project upon Orient Heights has met with no opposition, so far as I am aware, from the people of East Boston, and most of the homes sold in the Orient Heights district have been to people who did not live in East Boston.

Time alone will tell who is right about this. In my opinion the entire city will benefit and East Boston itself will benefit, and that those persons who are opposed to the project are unduly alarmed. This opportunity of placing over 1,000 idle men at work, preference to be given to East Boston men, cannot be allowed to escape us because of gloomy forebodings which apparently are not justified by the facts and circumstances surrounding this case.

EXTENSION OF CONTRACTS.

PARK DEPARTMENT.

Joseph P. McCabe, Incorporated, has been granted an extension of time until June 1, 1934, for the completion of the contract for dredging, filling and sea wall construction at Nashua Street Playground.

PUBLIC WORKS DEPARTMENT (Sewer Service).

James J. Coughlin & Sons, Incorporated, have been granted an additional extension of the time of completion of the contract for building sewerage works for Crescent Avenue brook outlet in private land, between Strandway and 1,100 feet northeasterly, Dorchester, from February 28, to April 12, forty-three days.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claim:

Mrs. Annie E. Archibald, in the sum of $1,000, in an action to recover for personal injuries received as a result of falling into a hole in front of 2581 Washington street, Roxbury, February 14.

BOSTON MASSACRE.

(*Continued from page 221.*)

AMERICAN SPIRIT.

Captain Preston and the English soldiers were tried in Boston and in their extremity they appealed to John Adams to defend them. Adams and Josiah Quincy, both young lawyers and ardent patriots, knew that the defense of the English soldiers would be unpopular but to their everlasting credit and to the credit of the American people and the American bar, be it said that they hesitated not a moment but defended Preston and his soldiers with the utmost skill and industry, and Preston was acquitted. Even Lecky, the English historian, while severe in his criticism of this affray known as the Boston Massacre gave credit to the people of Boston for the noble way in which two of their most devoted sons took the unpopular side to defend the soldiers and of the integrity of the Court which acquitted them.

The City of Boston has marked this event. It is an honor and a pleasure for me as its chief magistrate to lay upon this monument this wreath to commemorate an important episode in its history and to show that it is not unmindful of the historic part played in that affair by Crispus Attucks, that representative of a proscribed race whose life was sacrificed upon the altar of American liberty.

FINANCING SEWAGE WORKS BY SPECIAL ASSESSMENT IN IOWA.

The cost of constructing sewage disposal plants in a number of states, and in Iowa in particular, may be levied against the various lots, parts of lots or parcels of ground draining to, or susceptible to drainage to, the site of the disposal plant. Such assessments must be in proportion to the benefits to each property and must not, in any case, exceed one-fourth of the fair value of the property in question. These special assessments are payable in the same manner as other municipal improvement costs; that is, in ten annual equal installments, paid at the same time and place as the March 1 installment of ordinary taxes in Iowa. Any property owner may pay off the unpaid portion of such tax at any time. Interest on the deferred payments must not exceed 6 per cent.
